(12) Prepare a plan to establish district offices, the boundaries of which shall coincide with existing judicial circuits. Any district office may contain more than one judicial circuit within its boundaries, but in no event shall any district office boundary include any geographic region of a judicial circuit without including the entire judicial circuit. The director shall submit the plan to the chair of the house judiciary committee and the chair of the senate judiciary committee, with fiscal estimates, by December 31, 2014. The plan shall be implemented by December 31, 2018.

2. No rule or portion of a rule promulgated under the authority of this chapter shall become effective unless it has been promulgated pursuant to the provisions of section 536.024.

3. The director and defenders shall, within guidelines as established by the commission and as set forth in subsection 4 of this section, accept requests for legal services from eligible persons entitled to counsel under this chapter or otherwise so entitled under the constitution or laws of the United States or of the state of Missouri and provide such persons with legal services when, in the discretion of the director or the defenders, such provision of legal services is appropriate.

4. The director and defenders shall provide legal services to an eligible person:

(1) Who is detained or charged with a felony, including appeals from a conviction in such a case;

(2) Who is detained or charged with a misdemeanor which will probably result in confinement in the county jail upon conviction, including appeals from a conviction in such a case**, unless the prosecuting or circuit attorney has waived a jail sentence**;

5. The director may:

(1) Delegate the legal representation of any person to any member of the state bar of Missouri;

(2) Designate persons as representatives of the director for the purpose of making indigency determinations and assigning counsel.

600.048. RIGHT TO COUNSEL, NOTICE POSTED, WHERE, CONTENTS — REQUEST FOR COUNSEL, PROCEDURE — PRIVACY RIGHTS. — 1. It shall be the duty of every person in charge of a jail, police station, constable's or sheriff's office, or detention facility provided by any county to post in a conspicuous place a notice stating in effect:

(1) That every person held in custody under a charge or suspicion of a crime is entitled to have a lawyer;

(2) That if any such person is held in custody in connection with any of the cases or proceedings set out in section 600.042, and wants a lawyer to represent him **or her** and is unable, without substantial financial hardship to **[**himself**]** **self** or his **or her** dependents, to obtain a lawyer, the state will provide a lawyer to represent him **[**if he requests such representation**]** **or her upon request**; and

(3) That if the state provides **such** a lawyer **[**for him, he**] , the client** may be liable to the state for the cost of the services and expenses of the lawyer who handles **[**his**] the** case if he **or she** is or will be able to pay all or any part of such costs. The notice shall also contain a listing of the cases and proceedings for which defender services are available under section 600.042, and the telephone number of a person or answering service to call to request that a person designated by the state public defender system visit and interview him **or her**, and **[**give him**] provide** further information.

2. A person who is charged or detained in any case listed in section 600.042 or who appears in court without counsel at any stage of a case, or any other person on behalf of such person, may request that legal representation be furnished to him **or her** by the state. The court or any person representing the state public defender system to whom such request is made shall first **[**give him**] provide** a copy of the notice referred to in subsection 1 of this section or call the posted notice to **[**his**] the charged or detained person's** attention and permit him **or her** to read it or **[**explain it**] have it explained** to him **or her**. If such person renews a request for state public defender system services, he **or she** shall be required to complete and sign an affidavit in accordance with section 600.086**[**. He**] and** shall be orally informed of the punishment for intentionally falsifying such affidavit.

3. It shall be the duty of every person in charge of a jail, police station, constable's or sheriff's office, or detention facility to make a room or place available therein where any person held in custody under a charge or suspicion of a crime will be able to talk privately with his **or her** lawyer, **[**his**]** lawyer's representative, or any authorized person responding to **[**his**] a** request for an interview concerning his **or her** right to counsel.

600.062. ACCEPTANCE OF CASES, NO AUTHORITY TO LIMIT BASED ON CASELOAD STANDARDS. — Notwithstanding the provisions of sections 600.017 and 600.042 to the contrary, neither the director nor the commission shall have the authority to limit the availability of a district office or any division director, district defender, deputy district defender, or assistant public defender to accept cases based on a determination that the office has exceeded a caseload standard. The director, commission, any division director, district defender, deputy district defender, or assistant public defender may not refuse to provide representation required under this chapter without prior approval from a court of competent jurisdiction.

600.063. CASELOAD CONCERNS, MOTION TO COURT, PROCEDURE — RULEMAKING AUTHORITY. — 1. Upon approval by the director or the commission, any district defender may file a motion to request a conference to discuss caseload issues involving any individual public defender or defenders, but not the entire office, with the presiding judge of any circuit court served by the district office. The motion shall state the reasons why the individual public defender or public defenders will be unable to provide effective assistance of counsel due to caseload concerns. When a motion to request a conference has been filed, the clerk of the court shall immediately provide a copy of the motion to the prosecuting or circuit attorney who serves the circuit court.

2. If the presiding judge approves the motion, a date for the conference shall be set within thirty days of the filing of the motion. The court shall provide notice of the conference date and time to the district defender and the prosecuting or circuit attorney.

3. Within thirty days of the conference, the presiding judge shall issue an order either granting or denying relief. If relief is granted, it shall be based upon a finding that the individual public defender or defenders will be unable to provide effective assistance of counsel due to caseload issues. The judge may order one or more of the following types of relief in any appropriate combination:

(1) Appoint private counsel to represent any eligible defendant pursuant to the provisions of section 600.064;

(2) Investigate the financial status of any defendant determined to be eligible for public defender representation under section 600.086 and make findings regarding the eligibility of such defendants;

(3) Determine, with the express concurrence of the prosecuting or circuit attorney, whether any cases can be disposed of without the imposition of a jail or prison sentence and allow such cases to proceed without the provision of counsel to the defendant;

(4) Modify the conditions of release ordered in any case in which the defendant is being represented by a public defender, including, but not limited to, reducing the amount of any bond required for release;

(5) Place cases on a waiting list for defender services, taking into account the seriousness of the case, the incarceration status of the defendant, and such other special circumstances as may be brought to the attention of the court by the prosecuting or circuit attorney, the district defender, or other interested parties; and

(6) Grant continuances.

4. Upon receiving the order, the prosecuting or circuit attorney and the district defender shall have ten days to file an application for review to the appropriate appellate court. Such appeal shall be expedited by the court in every manner practicable.

5. Nothing in this section shall deny any party the right to seek any relief authorized by law nor shall any provisions of this section be construed as providing a basis for a claim for post conviction relief by a defendant.

6. The commission and the supreme court may make such rules and regulations to implement this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created by the commission under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2013, shall be invalid and void.

600.064. PRIVATE COUNSEL, APPOINTMENT OF, REQUIREMENTS — EXPENSES. — 1. Before a circuit court judge appoints private counsel to represent an indigent defendant, the judge shall:

(1) Investigate the defendant's financial status to verify that the defendant does not have the means to obtain counsel;

(2) Provide each appointed lawyer, upon request, with an evidentiary hearing as to the propriety of the appointment, taking into consideration the lawyer's right to earn a livelihood and be free from involuntary servitude. If the judge determines after the hearing that the appointment will cause any undue hardship to the lawyer, the judge shall appoint another lawyer; and

(3) Determine whether the private counsel to be appointed possesses the necessary experience, education, and expertise in criminal defense to provide effective assistance of counsel.

2. No judge shall require a lawyer to advance personal funds in any amount for the payment of litigation expenses to prepare a proper defense for an indigent defendant.

3. If an employee of the general assembly is appointed to represent an indigent defendant during the time period beginning January first and ending June first of each year, or whenever the general assembly is in a veto session or special session or is holding out-of-session committee hearings, the judge who made the appointment shall postpone the trial and all other proceedings of any kind or nature to a date that does not fall within such time period or appoint a different lawyer who is not an employee of the general assembly to represent the defendant.

4. Private counsel appointed to represent an indigent defendant may seek payment of litigation expenses from the public defender system. Such litigation expenses shall not include counsel fees and shall be limited to those expenses approved in advance by the director as reasonably necessary for the proper defense of the defendant.

(1) "Agency with jurisdiction", the department of corrections or the department of mental health;

(4) "Sexually violent offense", the felonies of **rape in the first degree,** forcible rape, rape, statutory rape in the first degree, **sodomy in the first degree,** forcible sodomy, sodomy, statutory sodomy in the first degree, or an attempt to commit any of the preceding crimes, or child molestation in the first or second degree, sexual abuse, **sexual abuse in the first degree, rape in the second degree,** sexual assault, **sexual assault in the first degree, sodomy in the second degree,** deviate sexual assault, **deviate sexual assault in the first degree,** or the act of abuse of a child **[**as defined in subdivision (1) of subsection 1 of section 568.060 which involves sexual contact, and as defined in subdivision (2) of subsection 1 of section 568.060**] involving either sexual contact, a prohibited sexual act, sexual abuse, or sexual exploitation of a minor, or any felony offense that contains elements substantially similar to the offenses listed above**;

(b) Has been committed as a criminal sexual psychopath pursuant to section 632.475 and statutes in effect before August 13, 1980.

632.498. ANNUAL EXAMINATION OF MENTAL CONDITION, NOT REQUIRED, WHEN — ANNUAL REVIEW BY THE COURT — PETITION FOR RELEASE, HEARING, PROCEDURES (WHEN DIRECTOR DISAPPROVES). — 1. Each person committed pursuant to sections 632.480 to 632.513 shall have a current examination of the person's mental condition made once every year by the director of the department of mental health or designee. The yearly report shall be provided to the court that committed the person pursuant to sections 632.480 to 632.513. The court shall conduct an annual review of the status of the committed person. The court shall not conduct an annual review of a person's status if he or she has been conditionally released pursuant to section 632.505.

2. Nothing contained in sections 632.480 to 632.513 shall prohibit the person from otherwise petitioning the court for release. The director of the department of mental health shall provide the committed person who has not been conditionally released with an annual written notice of the person's right to petition the court for release over the director's objection. The notice shall contain a waiver of rights. The director shall forward the notice and waiver form to the court with the annual report.

3. If the committed person petitions the court for conditional release over the director's objection, the petition shall be served upon the court that committed the person, the **prosecuting attorney of the jurisdiction into which the committed person is to be released, the** director

of the department of mental health, the head of the facility housing the person, and the attorney general.

4. The committed person shall have a right to have an attorney represent the person at the hearing but the person is not entitled to be present at the hearing. If the court at the hearing determines by a preponderance of the evidence that the person no longer suffers from a mental abnormality that makes the person likely to engage in acts of sexual violence if released, then the court shall set a trial on the issue.

5. The trial shall be governed by the following provisions:

(1) The committed person shall be entitled to be present and entitled to the benefit of all constitutional protections that were afforded the person at the initial commitment proceeding;

(2) The attorney general shall represent the state and shall have a right to a jury trial and to have the committed person evaluated by a psychiatrist or psychologist not employed by the department of mental health or the department of corrections. In addition, the person may be examined by a consenting psychiatrist or psychologist of the person's choice at the person's own expense;

(3) The burden of proof at the trial shall be upon the state to prove by clear and convincing evidence that the committed person's mental abnormality remains such that the person is not safe to be at large and if released is likely to engage in acts of sexual violence. If such determination is made by a jury, the verdict must be unanimous;

(4) If the court or jury finds that the person's mental abnormality remains such that the person is not safe to be at large and if released is likely to engage in acts of sexual violence, the person shall remain in the custody of the department of mental health in a secure facility designated by the director of the department of mental health. If the court or jury finds that the person's mental abnormality has so changed that the person is not likely to commit acts of sexual violence if released, the person shall be conditionally released as provided in section 632.505.

632.505. CONDITIONAL RELEASE — INTERAGENCY AGREEMENTS FOR SUPERVISION, PLAN — COURT REVIEW OF PLAN, ORDER, CONDITIONS — COPY OF ORDER — CONTINUING CONTROL AND CARE — MODIFICATIONS — VIOLATIONS — AGREEMENTS WITH PRIVATE ENTITIES — FEE, RULEMAKING AUTHORITY — ESCAPE — NOTIFICATION TO LOCAL LAW ENFORCEMENT, WHEN. — 1. Upon determination by a court or jury that the person's mental abnormality has so changed that the person is not likely to commit acts of sexual violence if released, the court shall place the person on conditional release pursuant to the terms of this section. The primary purpose of conditional release is to provide outpatient treatment and monitoring to prevent the person's condition from deteriorating to the degree that the person would need to be returned to a secure facility designated by the director of the department of mental health.

2. The department of mental health is authorized to enter into an interagency agreement with the department of corrections for the supervision of persons granted a conditional release by the court. In conjunction with the department of corrections, the department of mental health shall develop a conditional release plan which contains appropriate conditions for the person to be released. The plan shall address the person's need for supervision, counseling, medication, community support services, residential services, vocational services, and alcohol and drug treatment. The department of mental health shall submit the proposed plan for conditional release to the court.

3. The court shall review the plan and determine the conditions that it deems necessary to meet the person's need for treatment and supervision and to protect the safety of the public. The court shall order that the person shall be subject to the following conditions and other conditions as deemed necessary:

(1) Maintain a residence approved by the department of mental health and not change residence unless approved by the department of mental health;

(2) Maintain employment unless engaged in other structured activity approved by the department of mental health;

(3) Obey all federal and state laws;

(4) Not possess a firearm or dangerous weapon;

(5) Not be employed or voluntarily participate in an activity that involves contact with children without approval of the department of mental health;

(6) Not consume alcohol or use a controlled substance except as prescribed by a treating physician and to submit, upon request, to any procedure designed to test for alcohol or controlled substance use;

(7) Not associate with any person who has been convicted of a felony unless approved by the department of mental health;

(8) Not leave the state without permission of the department of mental health;

(9) Not have contact with specific persons, including but not limited to, the victim or victim's family, as directed by the department of mental health;

(10) Not have any contact with any child without specific approval by the department of mental health;

(11) Not possess material that is pornographic, sexually oriented, or sexually stimulating;

(12) Not enter a business providing sexually stimulating or sexually oriented entertainment;

(13) Submit to a polygraph, plethysmograph, or other electronic or behavioral monitoring or assessment;

(14) Submit to electronic monitoring which may be based on a global positioning system or other technology which identifies and records a person's location at all times;

(15) Attend and fully participate in assessment and treatment as directed by the department of mental health;

(16) Take all psychiatric medications as prescribed by a treating physician;

(17) Authorize the department of mental health to access and obtain copies of confidential records pertaining to evaluation, counseling, treatment, and other such records and provide the consent necessary for the release of any such records;

(18) Pay fees to the department of mental health and the department of corrections to cover the costs of services and monitoring;

(19) Report to or appear in person as directed by the department of mental health and the department of corrections, and to follow all directives of such departments;

(20) Comply with any registration requirements under sections 589.400 to 589.425; and

(21) Comply with any other conditions that the court determines to be in the best interest of the person and society.

4. The court shall provide a copy of the order containing the conditions of release to the person, the attorney general, the department of mental health, the head of the facility housing the person, and the department of corrections.

5. A person who is conditionally released and supervised by a probation and parole officer employed by the department of corrections remains under the control, care, and treatment of the department of mental health.

6. The court may modify conditions of release upon its own motion or upon the petition of the department of mental health, the department of corrections, or the person on conditional release.

7. The following provisions shall apply to violations of conditional release:

(1) If any probation and parole officer has reasonable cause to believe that a person on conditional release has violated a condition of release or that the person is no longer a proper subject for conditional release, the officer may issue a warrant for the person's arrest. The warrant shall contain a brief recitation of the facts supporting the officer's belief. The warrant shall direct any peace officer to take the person into custody immediately so that the person can be returned to a secure facility;

(2) If the director of the department of mental health or the director's designee has reasonable cause to believe that a person on conditional release has violated a condition of release or that the person is no longer a proper subject for conditional release, the director or the director's designee may request that a peace officer take the person into custody immediately, or request that a probation and parole officer or the court which ordered the release issue a warrant for the person's arrest so that the person can be returned to a secure facility;

(3) At any time during the period of a conditional release, the court which ordered the release may issue a notice to the released person to appear to answer a charge of a violation of the terms of the release and the court may issue a warrant of arrest for the violation. Such notice shall be personally served upon the released person. The warrant shall authorize the return of the released person to the custody of the court or to the custody of the director of mental health or the director's designee;

(4) No peace officer responsible for apprehending and returning the person to the facility upon the request of the director of the department of mental health or the director's designee or a probation and parole officer shall be civilly liable for apprehending or transporting such person to the facility so long as such duties were performed in good faith and without negligence;

(5) The department of mental health shall promptly notify the court that the person has been apprehended and returned to a secure facility;

(6) Within seven days of the person's return to a secure facility, the department of mental health must either request that the attorney general file a petition to revoke the person's conditional release or continue the person on conditional release;

(7) If a petition to revoke conditional release is filed, the person shall remain in custody until a hearing is held on the petition. The hearing shall be given priority on the court's docket. If upon hearing the evidence, the court finds by preponderance of the evidence that the person has violated a condition of release and that the violation of the condition was sufficient to render the person no longer suitable for conditional release, the court shall revoke the conditional release and order the person returned to a secure facility designated by the director of the department of mental health. If the court determines that revocation is not required, the court may modify or increase the conditions of release or order the person's release on the existing conditions of release;

(8) A person whose conditional release has been revoked may petition the court for subsequent release pursuant to sections 632.498, 632.501, and 632.504 no sooner than six months after the person's return to a secure facility.

8. The department of mental health may enter into agreements with the department of corrections and other departments and may enter into contracts with private entities for the purpose of supervising a person on conditional release.

9. The department of mental health and the department of corrections may require a person on conditional release to pay a reasonable fee to cover the costs of providing services and monitoring while the person is released. Each department may adopt rules with respect to establishing, waiving, collecting, and using fees. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2006, shall be invalid and void.

10. In the event a person on conditional release escapes from custody, the department of mental health shall notify the court, the department of corrections, the attorney general, the chief law enforcement officer of the county or city not within a county from where the person escaped or absconded, and any other persons necessary to protect the safety of the public or to assist in the apprehension of the person. The attorney general shall notify victims and

witnesses. Upon receiving such notice, the attorney general shall file escape from commitment charges under section 575.195.

11. When a person who has been granted conditional release under this section is being electronically monitored and remains in the county, city, town, or village where the facility is located that released the person, the department of corrections shall provide, upon request, the chief of the local law enforcement agency of such county, city, town, or village with access to the information gathered by the global positioning system or other technology used to monitor the person. This access shall include, but not be limited to, any user name or password needed to view any real-time or recorded information about the person, and any alert or message generated by the technology. The access shall continue while the person is being electronically monitored and is living in the county, city, town, or village where the facility that released the offender is located. The information obtained by the chief of the local law enforcement agency shall be closed and shall not be disclosed to any person outside the law enforcement agency except upon an order of the court supervising the conditional release.

SECTION 1. ABROGATION OF CASE LAW, SEXUALLY VIOLENT OFFENSE DEFINITION. — It is the intent of the legislature to reject and abrogate earlier case law interpretations on the meaning of or definition of "sexually violent offense" to include, but not be limited to, holdings in: Robertson v. State, 392 S.W.3d 1 (Mo. App. W.D., 2012); and State ex rel. Whitaker v. Satterfield, 386 S.W.3d 893 (Mo. App. S.D., 2012); and all cases citing, interpreting, applying, or following those cases. It is the intent of the legislature to apply these provisions retroactively.

SECTION B. — Because immediate action is necessary to ensure the quality of representation of indigent criminal defendants and to protect victims of criminal offenses, the enactment of section 600.062, and the repeal and reenactment of section 632.480 of this act is deemed necessary for the immediate preservation of the public health, welfare, peace, and safety, and is hereby declared to be an emergency act within the meaning of the constitution, the enactment of section 600.062, and the repeal and reenactment of section 632.480 of this act shall be in full force and effect upon its passage and approval.

2. Any member of the system who served as an employee prior to the original effective date of sections 104.010 to 104.272, but was not an employee on that date, shall be entitled to creditable prior service that such member would have been entitled to had such member become a member of the retirement system on the date of its inception if such member has, or hereafter attains, one year of continuous membership service.

3. Any employee who completes one continuous year of creditable service in the system shall receive credit for service with a state department, if such service has not otherwise been credited.

However, if the member is eligible to receive retirement credits in a United States military service retirement system, the member shall be permitted to purchase creditable prior service equivalent to his or her service in the armed services, but not to exceed four years, any other provision of law to the contrary notwithstanding. The purchase shall be effected by the member's paying to the retirement system an amount equal to what would have been contributed by the state in his or her behalf had the member been a member for the period for which the member is electing to purchase credit and had his or her compensation during such period of membership been the same as the annual salary rate at which the member was initially employed as a member, with the calculations based on the contribution rate in effect on the date of his or her employment with simple interest calculated from date of employment from which the member could first receive creditable service to the date of election pursuant to this subsection. The payment shall be made over a period of not longer than two years, measured from the date of election, and with simple interest on the unpaid balance. 5. Any uniformed member of the highway patrol who served as a certified police officer prior to becoming a member may elect, prior to retirement, to purchase all of his or her creditable prior service equivalent to such service in the police force, but not to exceed four years, if he or she is not receiving and is not eligible to receive credits or benefits from any other public or private retirement plan for the service to be purchased, and an affidavit so stating shall be filed by the member with the retirement system. The purchase shall be effected by the member's paying to the retirement system an amount equal to what would have been contributed by the state in his or her behalf had he or she been a member of the system for the period for which the member is electing to purchase credit and had his compensation during such period been the same as the annual salary rate at which the member was initially employed as a member, with the calculations based on the contribution rate in effect on the date of his or her employment with simple interest calculated from the date of employment from which the member could first receive creditable service to the date of election pursuant to the provisions of this section. The payment shall be made over a period of not longer than two years, measured from the date of election, and with simple interest on the unpaid balance. Payments made for such creditable prior service pursuant to the provisions of this section shall be treated by the retirement system as would contributions made by the state and shall not be subject to any prohibition on member contributions or refund provisions in effect at the time of enactment of this section.

6. Any member of the system under section 104.030 or 104.170 who is an active employee and who served as a nonfederal full-time public employee in this state prior to becoming a member may elect, prior to retirement, to purchase all of his or her creditable prior service equivalent to such service, but not to exceed four years, if he or she is not receiving and is not eligible to receive credits or benefits from any other public plan for the service to be purchased. The purchase shall be effected by the member's paying to the retirement system an

amount equal to what would have been contributed by the state in his or her behalf had he or she been a member of the system for the period for which the member is electing to purchase credit and had his compensation during such period been the same as the annual salary rate at which the member was initially employed as a member, with the calculations based on the contribution rate in effect on the date of his or her employment with simple interest calculated from the date of employment from which the member could first receive creditable service to the date of election pursuant to the provisions of this section. The payment shall be made over a period of not longer than two years, measured from the date of election, and with simple interest on the unpaid balance. Payments made for such creditable prior service pursuant to the provisions of this section shall be treated by the retirement system as would contributions made by the state and shall not be subject to any prohibition on member contributions or refund provisions in effect at the time of enactment of this section. All purchase payments under this subsection must be completed prior to retirement or prior to termination of employment. If a member who purchased creditable service under this subsection dies prior to retirement, the surviving spouse may, upon written request, receive a refund of the amount contributed for such purchase of such creditable service. The surviving spouse shall not be eligible for a refund under this subsection if he or she is entitled to survivorship benefits payable under section 104.140. A member who is entitled to a deferred annuity under section 104.035 shall be ineligible to purchase service under this subsection.

104.090. The normal annuity of a member shall equal one and six-tenths percent of the average compensation of the member multiplied by the number of years of creditable service of such member. In addition, the normal annuity of a uniformed member of the patrol shall be increased by thirty-three and one-third percent.

2. In addition, a uniformed member of the highway patrol who is retiring with a normal annuity after attaining normal retirement age shall receive an additional sum of ninety dollars per month as a contribution by the system until such member attains the age of sixty-five years, when such contribution shall cease. To qualify for the contribution provided in this subsection by the system, the retired uniformed member of the highway patrol is made, constituted, appointed and employed by the board as a special consultant on the problems of retirement, aging and other state matters. Such additional contribution shall be reduced each month by such amount earned by the retired uniformed member of the highway patrol in gainful employment. In order to qualify for the additional contribution provided in this subsection, the retired uniformed member of the highway patrol shall have been:

(1) Hired by the Missouri state highway patrol prior to January 1, 1995; and

(2) Employed by the Missouri state highway patrol or receiving long-term disability or work-related disability benefits on the day before the effective date of the member's retirement.

3. In lieu of the annuity payable to the member pursuant to section 104.100, a member whose age at retirement is forty-eight or more may elect in the member's application for retirement to receive **[**either**]** **one of the following**:

Option 1. An actuarial reduction approved by the board of the member's annuity in reduced monthly payments for life during retirement with the provision that upon the member's death the reduced annuity at date of death shall be continued throughout the life of, and be paid to, the member's spouse; or

Option 2. The member's normal annuity in regular monthly payments for life during retirement with the provision that upon the member's death a survivor's benefit equal to one-half the member's normal annuity at date of death shall be paid to the member's spouse in regular monthly payments for life; or

Option 3. An actuarial reduction approved by the board of **the** member's normal annuity in reduced monthly payments for the member's life with the provision that if the member dies prior to the member's having received one hundred twenty monthly payments of the member's reduced annuity, the member's reduced allowance to which the member would have been entitled had the member lived shall be paid for the remainder of the one hundred twenty-month period to such **[**person**]** **beneficiary** as the member shall have nominated by written designation duly executed and filed with the board. If there is no beneficiary surviving the retiree, the reserve for such allowance for the remainder of such one hundred twenty-month period shall be paid to the retiree's estate; or

Option 4. An actuarial reduction approved by the board of the member's normal annuity in reduced monthly payments for the member's life with the provision that if the member dies prior to the member having received sixty monthly payments of the member's reduced annuity, the member's reduced allowance to which the member would have been entitled had the member lived shall be paid for the remainder of the sixty-month period to such **[**person**]** **beneficiary** as the member shall have nominated by written designation duly executed and filed with the board. If there is no beneficiary surviving the retiree, the reserve for such allowance for the remainder of such sixty-month period shall be paid to the retiree's estate.

4. The election may be made only in the application for retirement, and such application shall be filed at least thirty days but not more than ninety days prior to the date on which the retirement of the member is to be effective, provided that if either the member or the spouse nominated to receive the survivorship payment dies before the effective date of retirement, the election shall not be effective. If after the reduced annuity commences, the spouse predeceases the retired member, the reduced annuity continues to the retired member during the member's lifetime.

5. Effective July 1, 2000, a member may make an election under option 1 or 2 after the date retirement benefits are initiated if the member makes the election within one year from the date of marriage or July 1, 2000, whichever is later, under any of the following circumstances:

(1) The member elected to receive a normal annuity and was not eligible to elect option 1 or 2 on the date retirement benefits were initiated; or

(2) The member's annuity reverted to a normal annuity pursuant to subsection 8 of section 104.103 and the member remarried; or

(3) The member elected option 1 or 2 but the member's spouse at the time of retirement has died and the member has remarried.

6. Any person who terminates employment or retires prior to July 1, 2000, shall be made, constituted, appointed and employed by the board as a special consultant on the problems of retirement, aging and other state matters, and for such services shall be eligible to elect to receive the benefits described in subsection 5 of this section.

7. For retirement applications filed on or after August 28, 2004, the beneficiary for either option 1 or option 2 of subsection 3 of this section shall be the member's spouse at the time of retirement. If the member's marriage ends after retirement as a result of a dissolution of marriage, such dissolution shall not affect the option election and the former spouse shall continue to be eligible to receive survivor benefits upon death of the member.

8. Any application for retirement shall only become effective on the first day of the month.

104.140. DEATH PRIOR TO RETIREMENT, BENEFITS. — 1. (1) If a member who has five or more years of creditable service dies before retirement, the member's surviving spouse, to whom the member was married on the date of the member's death, if any, shall receive the reduced survivorship benefits provided in option 1 of subsection 3 of section 104.090 calculated as if the member were of normal retirement age and had retired as of the date of the member's death and had elected option 1**[**;**]** **.**

(2) If there is no eligible surviving spouse, or when a spouse's annuity has ceased to be payable, the member's eligible surviving children under twenty-one years of age shall receive monthly, in equal shares, an amount equal to eighty percent of the member's accrued annuity calculated as if the member were of normal retirement age and retired as of the date of death. Benefits otherwise payable to a child under eighteen years of age shall be payable to the surviving parent as natural guardian of such child if such parent has custody or assumes custody of such minor child, or to the legal **[**guardian**]** **conservator** of such child, until such child attains age eighteen, and thereafter, the benefit may be paid to the child until age twenty-one; provided, the age twenty-one maximum shall be extended for any child who has been found totally incapacitated by a court of competent jurisdiction**[**;**]** **.**

(3) No benefit is payable pursuant to this section if no eligible surviving spouse or children under twenty-one years of age survive the member. Benefits cease pursuant to this section when there is no eligible surviving beneficiary through either death of the eligible surviving spouse or through either death or the attainment of twenty-one years of age by the eligible surviving children. If the member's surviving children are receiving equal shares of the benefit described in subdivision (2) of this subsection, and one or more of such children become ineligible by reason of death or the attainment of twenty-one years of age, the benefit shall be reallocated so that the remaining eligible children receive equal shares of the total benefit as described in subdivision (2) of this subsection.

2. Effective January 1, 1985, if an employee who has three or more, but less than five years of creditable service dies before retirement, the surviving spouse of the deceased employee, if married to the deceased employee on the date of the employee's death, or the deceased employee's surviving eligible children under the age of twenty-one, shall receive a total monthly payment equal to twenty-five percent of the deceased employee's accrued monthly benefit calculated as if the employee were of normal retirement age as of the date of death. If the surviving spouse dies leaving any eligible children under the age of twenty-one years, the payment shall continue until the children reach twenty-one years of age. If there is no surviving spouse eligible for benefits under this subsection, but there are any children of the deceased employee eligible for payments, the payments shall continue until the children reach twenty-one years of age. Any benefits payable to eligible children under twenty-one years of age shall be made on a pro rata basis among the surviving children under twenty-one years of age.

3. For the purpose of computing the amount of a benefit payable pursuant to this section, if the board finds that the death was a natural and proximate result of a personal injury or disease arising out of and in the course of the member's actual performance of duty as an employee, then the minimum benefit to such member's surviving spouse or, if no surviving spouse benefits are payable, the minimum benefit that shall be divided among and paid to such member's surviving eligible children under the age of twenty-one shall be fifty percent of the member's final average compensation. The service requirements of subsections 1 and 2 of this section shall not apply to any benefit payable pursuant to this subsection.

104.200. BOARD MAY CORRECT ERROR IN AMOUNTS PAID MEMBER, LIMITATION. — Should any error in any records result in any member's or beneficiary's receiving more or less than he would have been entitled to receive had the records been correct, the board shall correct such error, and, as far as practicable, make future payments in such a manner that the actuarial equivalent of the benefit to which such member or beneficiary was entitled shall be paid, and to this end may recover any overpayments. **In all cases in which such error has been made, no such error shall be corrected unless the system discovers or is notified of such error within ten years after the initial date of error.**

104.272. CERTAIN MEMBERS ENTITLED TO CREDIT FOR SERVICE REGARDLESS OF CLASSIFICATION. — Other provisions of law to the contrary notwithstanding, any person who is an employee of state government and a member of the **[**transportation department employees'

and highway patrol**] Missouri department of transportation and highway patrol employees'** retirement system is entitled to credit for all of his service during employment with the department of transportation or the state highway patrol if he is an employee of that same agency upon retirement regardless of whether he was classified as full-time, part-time or temporary, and the requirement of section 104.010 of duties during not less than one thousand **forty** hours for status as an employee shall not apply to persons applying for retirement credit under the provisions of this section.

A division of benefits order issued pursuant to this section:

(1) Shall not require the applicable retirement system to provide any form or type of annuity or retirement plan not selected by the member and not normally made available by that system;

(2) Shall not require the applicable retirement system to commence payments until the member submits a valid application for an annuity and the annuity becomes payable in accordance with the application;

(3) Shall identify the monthly amount to be paid to the alternate payee, which shall be expressed as a percentage and which shall not exceed fifty percent of the amount of the member's annuity accrued during all or part of the time while the member and alternate payee were married; and which shall be based on the member's vested annuity on the date of the dissolution of marriage or an earlier date as specified in the order, which amount shall be adjusted proportionately if the member's annuity is reduced due to early retirement or the member's annuity is reduced pursuant to section 104.395 under an annuity option in which the member named the alternate payee as beneficiary prior to the dissolution of marriage or pursuant to section 104.090 under an annuity option in which the member on or after August 28, 2007, named the alternative payee as beneficiary prior to the dissolution of marriage, and the percentage established shall be applied to the pro rata portion of any lump sum distribution pursuant to subsection 6 of section 104.335, accrued during the time while the member and alternate payee were married;

(7) Shall not create an interest which is assignable or subject to any legal process;

(8) Shall include the name, address**,** and **[**Social Security number**] date of birth** of both the member and the alternate payee, and the identity of the retirement system to which it applies;

(9) Shall be consistent with any other division of benefits orders which are applicable to the same member**;**

(10) Shall not require the applicable retirement system to continue payments to the alternate payee if the member's retirement benefit is suspended or waived as provided by this chapter but such payments shall resume when the retiree begins to receive retirement benefits in the future.

2. A system established by this chapter shall provide the court having jurisdiction of a dissolution of marriage proceeding or the parties to the proceeding with information necessary to issue a division of benefits order concerning a member of the system, upon written request from either the court, the member or the member's spouse, which cites this section and identifies the case number and parties.

4. The amount paid to an alternate payee under an order issued pursuant to this section shall be based on the plan the member was in on the date of the dissolution of marriage; except that any annual benefit increases subject to division shall be based on the actual annual benefit increases received after the retirement plan election.

2. Effective July 1, 2000, if a member is married as of the annuity starting date to a person who has been the member's spouse, the member's annuity shall be paid pursuant to the provisions of either option 1 or option 2 as set forth in subsection 1 of this section, at the member's choice,

with the spouse as the member's designated beneficiary unless the spouse consents in writing to the member electing another available form of payment.

3. For members who retire on or after August 28, 1995, in the event such member elected a joint and survivor option pursuant to the provisions of this section and the member's eligible spouse or eligible former spouse precedes the member in death, the member's annuity shall revert effective the first of the month following the death of the spouse or eligible former spouse regardless of when the board receives the member's written application for the benefit provided in this subsection, to an amount equal to the member's normal annuity, as adjusted for early retirement if applicable; such benefit shall include any increases the member would have received since the date of retirement had the member elected a normal annuity. If a member dies prior to notifying the system of the spouse's death, the benefit will not revert to a normal annuity and no retroactive payments shall be made.

Effective on or after August 28, 1995, any retired member who had elected a joint and survivor option and whose spouse or eligible former spouse precedes or preceded the member in death shall upon application to the board be made, constituted, appointed and employed by the board as a special consultant on the problems of retirement, aging and other state matters. 5. Effective July 1, 2000, a member may make an election under option 1 or 2 after the date retirement benefits are initiated if the member makes such election within one year from the date of marriage or July 1, 2000, whichever is later, under any of the following circumstances:

(1) The member elected to receive a normal annuity and was not eligible to elect option 1 or 2 on the date retirement benefits were initiated; or

(2) The member's annuity reverted to a normal annuity pursuant to subsection 3 or 4 of this section and the member remarried.

6. Any person who terminates employment or retires prior to July 1, 2000, shall be made, constituted, appointed and employed by the board as a special consultant on the problems of retirement, aging and other state matters, and for such services shall be eligible to elect to receive the benefits described in subsection 5 of this section.

Benefits otherwise payable to a child under eighteen years of age shall be payable to the surviving parent as natural guardian of such child if such parent has custody or assumes custody of such minor child, or to the legal **[**guardian**]** **conservator** of such child, until such child attains age eighteen; thereafter, the benefit may be paid to the child until age twenty-one; provided the age twenty-one maximum shall be extended for any child who has been found totally incapacitated by a court of competent jurisdiction.

Benefits cease pursuant to this section when there is no eligible surviving beneficiary through either death of the eligible surviving spouse or through either death or the attainment of twenty-one years of age by the eligible surviving children. If the member's or disabled member's surviving children are receiving equal shares of the benefit described in subsection 2 of this section, and one or more of such children become ineligible by reason of death or the attainment of twenty-one years of age, the benefit shall be reallocated so that the remaining eligible children receive equal shares of the total benefit as described in subsection 2 of this section.

4. For the purpose of computing the amount of an annuity payable pursuant to this section, if the board finds that the death was the natural and proximate result of a personal injury or disease arising out of and in the course of the member's actual performance of duty as an employee, then the minimum annuity to such member's surviving spouse or, if no surviving spouse benefits are payable, the minimum annuity that shall be divided among and paid to such member's surviving children shall be fifty percent of the member's final average compensation; except that for members of the general assembly and statewide elected officials with twelve or more years of service, the monthly rate of compensation in effect on the date of death shall be used in lieu of final average compensation. The vesting service requirement of subsection 1 of this section shall not apply to any annuity payable pursuant to this subsection.

Should any error result in any member or beneficiary receiving more or less than he or she would have been entitled to receive had the error not occurred, the board shall correct such error, and, as far as practicable, make future payments in such a manner that the actuarial equivalent of the benefit to which such member or beneficiary was entitled shall be paid, and to this end may recover any overpayments. **In all cases in which such error has been made, no such error shall be corrected unless the system discovers or is notified of such error within ten years after the initial date of error.**

The employing agency shall not certify unused sick leave unless such unused sick leave could have been used by the member for sickness or injury. The rate of accrual of sick leave for purposes of computing years of service pursuant to this section shall be no greater than ten hours per month. Nothing under this section shall allow a member to vest in the retirement system by using such credited sick leave to reach the time of vesting.

If no surviving spouse exists, such amount shall be paid to the surviving children **[**or their descendants**]** of such member, survivor, or beneficiary in equal parts. If no surviving children **[**or any of their descendants**]** exist, such amount shall be paid to the surviving parents of such member, survivor, or beneficiary in equal parts. 104.1015. ELECTION INTO YEAR 2000 PLAN, EFFECT OF — COMPARISON OF PLANS PROVIDED — CALCULATION OF ANNUITY. — 1. Persons covered by a closed plan on July 1, 2000, shall elect whether or not to change to year 2000 plan coverage. Any such person who elects to be covered by the year 2000 plan shall forfeit all rights to receive benefits under this chapter except as provided under the year 2000 plan and all creditable service of such person under the closed plan shall be credited under the year 2000 plan. Any such person who elects not to be covered by the year 2000 plan shall waive all rights to receive benefits under the year 2000 plan. In no event shall any retroactive annuity be paid to such persons pursuant to sections 104.1003 to 104.1093 except as described in subsection 2 of this section. **Any person who elects year 2000 plan coverage under subsection 3, 4, 5, or 6 of this section shall be in the closed plan until the person's annuity starting date.**

2. Each retiree of the closed plan on July 1, 2000, shall be furnished by the appropriate system a written comparison of the retiree's closed plan coverage and the retiree's potential year 2000 plan coverage. A retiree shall elect whether or not to change to year 2000 plan coverage by making a written election, on a form furnished by the appropriate board, and providing that form to the system by no later than twelve months after July 1, 2000, and any retiree who fails to make such election within such time period shall be deemed to have elected to remain covered under the closed plan; provided the election must be after the retiree has received from the appropriate system such written comparison. The retirement option elected under the year 2000 plan shall be the same as the retirement option elected under the closed plan, except any retiree who is receiving one of the options providing for a continuing lifetime annuity to a surviving spouse under the closed plan may elect to receive an annuity under option 1 or 2 of section 104.1027, or a life annuity under subsection 2 of section 104.1024, provided the person who was married to the member at the time of retirement, if any, consents in writing to such election made pursuant to section 104.1024, or to any election described in this section if the person was married to a member of the Missouri state employees' retirement system. The effective date of payment of an annuity under the year 2000 plan as provided in this subsection shall begin on July 1, 2000. No adjustment shall be made to retirement benefits paid to the retiree prior to July 1, 2000. In order to calculate a new monthly annuity for retirees electing coverage under the year 2000 plan pursuant to this subsection, the following calculations shall be made:

(1) Except as otherwise provided in this subsection, the retiree's gross monthly retirement annuity in effect immediately prior to July 1, 2000, shall be multiplied by the percentage increase in the life annuity formula between the closed plan and the year 2000 plan. This amount shall be added to the retiree's gross monthly retirement annuity in effect immediately prior to July 1, 2000, to arrive at the retiree's new monthly retirement annuity in the year 2000 plan on July 1, 2000. The age of eligibility and reduction factors applicable to the retiree's original annuity under the closed plan shall remain the same in the annuity payable under the year 2000 plan, except as provided in subdivision (2) of this subsection;

(2) If option 1 or 2 pursuant to section 104.1027 is chosen by the retiree under the year 2000 plan, the new monthly retirement annuity calculated pursuant to subdivision (1) of this subsection shall be recalculated using the reduction factors for the option chosen pursuant to section 104.1027;

(3) If a temporary annuity is payable pursuant to subsection 4 of section 104.1024 the additional temporary annuity shall be calculated by multiplying the retiree's credited service by the retiree's final average pay by eight-tenths of one percent;

(4) Cost-of-living adjustments paid pursuant to section 104.1045 will commence on the anniversary of the retiree's annuity starting date coincident with or next following July 1, 2000;

(5) Any retiree or other person described in this section who elects coverage under the year 2000 plan based on service rendered as a member of the general assembly or as a statewide elected official shall receive an annuity under the year 2000 plan calculated pursuant to the provisions of section 104.1084 using the current monthly pay at the time of the election with future COLAs calculated pursuant to subsection 7 of section 104.1084.

3. Each person who is an employee and covered by the closed plan and not a retiree of the closed plan on July 1, 2000, shall elect whether or not to change to year 2000 plan coverage prior to the last business day of the month before the person's annuity starting date, and if such election has not been made within such time, annuity payments due beginning on and after the month of the annuity starting date shall be made the month following the receipt by the appropriate system of such election and any other information required by the year 2000 plan created by sections 104.1003 to 104.1093; provided, such election must be after the person has received from the year 2000 plan a written comparison of the person's closed plan coverage and the person's potential year 2000 plan coverage and the election must be made in writing on a form furnished by the appropriate board. If such person dies after the annuity starting date but before making such election and providing such other information, no benefits shall be paid except as required pursuant to section 104.420 or subsection 2 of section 104.372 for members of the general assembly.

4. Each person who is not an employee and not a retiree and is eligible for a deferred annuity from the closed plan on July 1, 2000, shall elect whether or not to change to the year 2000 plan coverage prior to the last business day of the month before the person's annuity starting date, and if such election has not been made within such time, annuity payments due beginning on and after the month of the annuity starting date shall be made the month following the receipt by the appropriate system of such election and any other information required by the year 2000 plan created by sections 104.1003 to 104.1093; provided, the election must be after the person has received from the year 2000 plan a written comparison of the person's closed plan coverage and the person's potential year 2000 plan coverage and the election must be made in writing on a form furnished by the appropriate board. If such person dies after the annuity starting date but before making such election and providing such other information, no benefits shall be paid except as required pursuant to section 104.420 or subsection 2 of section 104.372 for members of the general assembly.

5. Each person who is not an employee and not a retiree and is eligible for a deferred annuity from the closed plan and returns to covered employment on or after July 1, 2000, shall be covered under the closed plan; provided, such person shall elect whether or not to change to the year 2000 plan coverage prior to the last business day of the month before the person's

annuity starting date, and if such election has not been made within such time, annuity payments due beginning on and after the month of the annuity starting date shall be made the month following the receipt by the appropriate system of such election and any other information required by the year 2000 plan created by sections 104.1003 to 104.1093 and the election must be after the person has received from the year 2000 plan a written comparison of the person's closed plan coverage and the person's potential year 2000 plan coverage and the election must be made in writing on a form furnished by the appropriate board. If such person dies after the annuity starting date but before making such election and providing such other information, no benefits shall be paid except as required under section 104.420 or subsection 2 of section 104.372 for members of the general assembly.

6. Each person who is not an employee and not a retiree and not eligible for a deferred annuity from the closed plan but has forfeited creditable service with the closed plan and becomes an employee on or after August 28, 2002, shall be changed to year 2000 plan coverage and upon receiving credited service continuously for one year shall receive credited service for all such forfeited creditable service under the closed plan.

7. Each person who was employed as a member of the general assembly through December 31, 2000, covered under the closed plan, and has served at least two full biennial assemblies as defined in subdivision **[**(24)**] (25)** of subsection 1 of section 104.010 but who is not eligible for a deferred annuity under the closed plan shall be eligible to receive benefits under the new plan pursuant to subdivision (5) of subsection 2 of this section upon meeting the age requirements under the new plan.

8. The retirees and persons described in subsections 2 and 4 of this section shall be eligible for benefits under those subsections pursuant to subsection 8 of section 104.610.

9. A member may change a member's plan election made under this section at any time prior to the system mailing or electronically transferring the first annuity payment to such member.

104.1021. CREDITED SERVICE DETERMINED BY BOARD — CALCULATION. — 1. The appropriate board shall determine how much credited service shall be given each member consistent with this section.

2. If a member terminates employment and is eligible to receive an annuity pursuant to the year 2000 plan, or becomes a vested former member at the time of termination, the member's or former member's unused sick leave as reported through the financial and human resources system maintained by the office of administration **by the last department that employed the member prior to retirement**, or if a department's employees are not paid salaries or wages through such system, as reported directly by the department **that last employed the member prior to retirement**, for which the member has not been paid will be converted to credited service at the time of application for retirement benefits. The member shall receive one-twelfth of a year of credited service for each one hundred and sixty-eight hours of such unused sick leave. The employing department shall not certify unused sick leave unless such unused sick leave could have been used by the member for sickness or injury. The rate of accrual of sick leave for purposes of computing years of service pursuant to this section shall be no greater than ten hours per month. Such credited service shall not be used in determining the member's eligibility for retirement or final average pay. Such credited service shall be added to the credited service in the last position of employment held as a member of the system.

3. If a member is employed in a covered position and simultaneously employed in one or more other covered or noncovered positions, credited service shall be determined as if all such employment were in one position, and covered pay shall be the total of pay for all such positions.

4. In calculating any annuity, "credited service" means a period expressed as whole years and any fraction of a year measured in twelfths that begins on the date an employee commences employment in a covered position and ends on the date such employee's membership terminates

pursuant to section 104.1018 plus any additional period for which the employee is credited with service pursuant to this section.

5. A member shall be credited for all military service after membership commences as required by state and federal law.

6. Any member who had active military service in the United States Army, Air Force, Navy, Marine Corps, Army or Air National Guard, Coast Guard, or any reserve component thereof prior to last becoming a member, or who is otherwise ineligible to receive credited service pursuant to subsection 1 or 5 of this section, and who became a member after the person's discharge from military service under honorable conditions may elect, prior to retirement, to purchase credited service for all such military service, but not to exceed four years, provided the person is not receiving and is not eligible to receive retirement credits or benefits from any other public or private retirement plan, other than a United States military service retirement system, for the military service to be purchased along with the submission of appropriate documentation verifying the member's dates of active service. The purchase shall be effected by the member paying to the system an amount equal to the state's contributions that would have been made to the system on the member's behalf had the member been a member for the period for which the member is electing to purchase credit and had the member's pay during such period of membership been the same as the annual pay rate as of the date the member was initially employed as a member, with the calculations based on the contribution rate in effect on the date of such member's employment with simple interest calculated from the date of employment to the date of election pursuant to this subsection. The payment shall be made over a period of not longer than two years, measured from the date of election, and with simple interest on the unpaid balance. If a member who purchased credited service pursuant to this subsection dies prior to retirement, the surviving spouse may, upon written request, receive a refund of the amount contributed for such purchase of such credited service, provided the surviving spouse is not entitled to survivorship benefits payable pursuant to the provisions of section 104.1030.

7. Any member of the Missouri state employees' retirement system shall receive credited service for the creditable prior service that such employee would have been entitled to under the closed plan pursuant to section 104.339, subsections 2, and 6 to 9 of section 104.340, subsection 12 of section 104.342, section 104.344, subsection 4 of section 104.345, subsection 4 of section 104.372, section 178.640, and section 211.393, provided such service has not been credited under the closed plan.

8. Any member who has service in both systems and dies or terminates employment shall have the member's service in the other system transferred to the last system that covered such member and any annuity payable to such member shall be paid by that system. Any such member may elect to transfer service between systems prior to termination of employment, provided, any annuity payable to such member shall be paid by the last system that covered such member prior to the receipt of such annuity.

9. In no event shall any person or member receive credited service pursuant to the year 2000 plan if that same service is credited for retirement benefits under any defined benefit retirement system not created pursuant to this chapter.

10. Any additional credited service as described in subsections 5 to 7 of this section shall be added to the credited service in the first position of employment held as a member of the system. Any additional creditable service received pursuant to section 105.691 shall be added to the credited service in the position of employment held at the time the member completes the purchase or transfer pursuant to such section.

11. A member may not purchase any credited service described in this section unless the member has met the five-year minimum service requirement as provided in subdivisions (11) and (20) of subsection 1 of section 104.1003, the three full biennial assemblies minimum service requirement as provided in section 104.1084, or the four-year minimum service requirement as provided in section 104.1084.

12. Absences taken by an employee without compensation for sickness and injury of the employee of less than twelve months or for leave taken by such employee without compensation pursuant to the provisions of the Family and Medical Leave Act of 1993 shall be counted as years of credited service.

104.1030. DEATH PRIOR TO ANNUITY STARTING DATE, EFFECT OF — SURVIVING SPOUSE'S BENEFITS — CHILDREN'S BENEFITS — APPLICABILITY TO MEMBERS OF GENERAL ASSEMBLY AND STATEWIDE OFFICIALS. — 1. If a member with five or more years of credited service or a vested former member dies before such member's or such vested former member's annuity starting date, the applicable annuity provided in this section shall be paid.

2. The member's surviving spouse who was married to the member at the date of death shall receive an annuity computed as if such member had:

(1) Retired on the date of death with a normal retirement annuity based upon credited service and final average pay to the date of death, and without reduction if the member's age was younger than normal retirement eligibility;

(2) Elected option 2 provided for in section 104.1027; and

(3) Designated such spouse as beneficiary under such option.

3. If a spouse annuity is not payable pursuant to the provisions of subsection 2 of this section, or when a spouse annuity has ceased to be payable, eighty percent of an annuity computed in the same manner as if the member had retired on the date of death with a normal retirement annuity based upon credited service and final average pay to the date of death and without reduction if the member's age at death was younger than normal retirement eligibility shall be divided equally among the dependent children of the deceased member. A child shall be a dependent child until death or attainment of age twenty-one, whichever occurs first; provided the age twenty-one maximum shall be extended for any child who has been found totally incapacitated by a court of competent jurisdiction. **Benefits otherwise payable to a child under eighteen years of age shall be payable to the surviving parent as a natural guardian of such child if such parent has custody or assumes custody of such minor child or to the legal conservator of such child until such child attains age eighteen.** Upon a child ceasing to be a dependent child, that child's portion of the dependent annuity shall cease to be paid, and the amounts payable to any remaining dependent children shall be proportionately increased.

4. For the purpose of computing the amount of an annuity payable pursuant to this section, if the board finds that the death was the natural and proximate result of a personal injury or disease arising out of and in the course of his or her actual performance of duty as an employee, then the minimum annuity to such member's spouse or, if no spouse benefits are payable, the minimum annuity that shall be divided among and paid to such member's dependent children shall be fifty percent of final average pay. The credited service requirement of subsection 1 of this section shall not apply to any annuity payable pursuant to this subsection.

5. The provisions of this section shall apply to members of the general assembly and statewide elected officials except that the credited service and monthly pay requirements described in section 104.1084 shall apply notwithstanding any other language to the contrary contained in this section.

104.1039. REEMPLOYMENT OF A RETIREE, EFFECT ON ANNUITY — COST-OF-LIVING ADJUSTMENTS. — If a retiree is employed as an employee by a department, the retiree shall not receive an annuity payment for any calendar month in which the retiree is so employed. While reemployed the retiree shall be considered to be a new employee with no previous credited service and must accrue credited service continuously for at least one year in order to receive any additional annuity. Such retiree shall receive an additional annuity in addition to the original annuity, calculated based only on the credited service and the pay earned by such retiree during reemployment and paid in accordance with the annuity option originally elected; provided such retiree who ceases to receive an annuity pursuant to this section shall not receive such additional

annuity if such retiree is employed by a department in a position that is covered by a state-sponsored defined benefit retirement plan not created pursuant to this chapter. The original annuity and any additional annuity shall be paid commencing as of the end of the first month after the month during which the retiree's reemployment terminates. **Cost-of-living adjustments paid under section 104.1045 shall not accrue while a retiree is employed as described in this section. Any future cost-of-living adjustments paid after the retiree terminates such employment will be paid in the same month as the retiree's original annual benefit increases were paid.**

104.1051. ANNUITY DEEMED MARITAL PROPERTY — DIVISION OF BENEFITS. — 1. Any annuity provided pursuant to the year 2000 plan is marital property and a court of competent jurisdiction may divide such annuity between the parties to any action for dissolution of marriage if at the time of the dissolution the member has at least five years of credited service pursuant to sections 104.1003 to 104.1093. A division of benefits order issued pursuant to this section:

(1) Shall not require the applicable retirement system to provide any form or type of annuity or retirement plan not selected by the member;

(2) Shall not require the applicable retirement system to commence payments until the member's annuity starting date;

(3) Shall identify the monthly amount to be paid to the former spouse, which shall be expressed as a percentage and which shall not exceed fifty percent of the amount of the member's annuity accrued during all or part of the period of the marriage of the member and former spouse and which shall be based on the member's vested annuity on the date of the dissolution of marriage or an earlier date as specified in the order, which amount shall be adjusted proportionately upon the annuity starting date if the member's annuity is reduced due to the receipt of an early retirement annuity or the member's annuity is reduced pursuant to section 104.1027 under an annuity option in which the member named the alternate payee as beneficiary prior to the dissolution of marriage;

(4) Shall not require the payment of an annuity amount to the member and former spouse which in total exceeds the amount which the member would have received without regard to the order;

(5) Shall provide that any annuity increases, additional years of credited service, increased final average pay, increased pay pursuant to subsections 2 and 5 of section 104.1084, or other type of increases accrued after the date of the dissolution of marriage and any temporary annuity received pursuant to subsection 4 of section 104.1024 shall accrue solely to the benefit of the member; except that on or after September 1, 2001, any cost-of-living adjustment (COLA) due after the annuity starting date shall not be considered to be an increase accrued after the date of termination of marriage and shall be part of the monthly amount subject to division pursuant to any order issued after September 1, 2001;

(6) Shall terminate upon the death of either the member or the former spouse, whichever occurs first;

(7) Shall not create an interest which is assignable or subject to any legal process;

(8) Shall include the name, address, **and** date of birth**[**, and Social Security number**]** of both the member and the former spouse, and the identity of the retirement system to which it applies;

(9) Shall be consistent with any other division of benefits orders which are applicable to the same member**;**

(10) Shall not require the applicable retirement system to continue payments to the alternate payee if the member's retirement benefit is suspended or waived as provided by this chapter but such payments shall resume when the retiree begins to receive retirement benefits in the future.

2. A system shall provide the court having jurisdiction of a dissolution of a marriage proceeding or the parties to the proceeding with information necessary to issue a division of

benefits order concerning a member of the system, upon written request from either the court, the member, or the member's spouse, citing this section and identifying the case number and parties.

3. A system shall have the discretionary authority to reject a division of benefits order for the following reasons:

(1) The order does not clearly state the rights of the member and the former spouse;

(2) The order is inconsistent with any law governing the retirement system.

4. Any member of the closed plan who elected the year 2000 plan pursuant to section 104.1015 and then becomes divorced and subject to a division of benefits order shall have the division of benefits order calculated pursuant to the provisions of the year 2000 plan.

104.1054. BENEFITS ARE OBLIGATIONS OF THE STATE — BENEFITS NOT SUBJECT TO EXECUTION, GARNISHMENT, ATTACHMENT, WRIT OF SEQUESTRATION — BENEFITS UNASSIGNABLE — REVERSION OF BENEFITS, WHEN — REFUND RECEIVED, WHEN. — 1. The benefits provided to each member and each member's spouse, beneficiary, or former spouse under the year 2000 plan are hereby made obligations of the state of Missouri and are an incident of every member's continued employment with the state. No alteration, amendment, or repeal of the year 2000 plan shall affect the then-existing rights of members, or their spouses, beneficiaries or former spouses, but shall be effective only as to rights which would otherwise accrue hereunder as a result of services rendered by a member after such alteration, amendment, or repeal.

2. Except as otherwise provided in section 104.1051, any annuity, benefit, funds, property, or rights created by, or accruing or paid to, any person covered under the year 2000 plan shall not be subject to execution, garnishment, attachment, writ of sequestration, or any other process or claim whatsoever, and shall be unassignable, except with regard to the collection of child support and maintenance, and except that a beneficiary may assign life insurance proceeds. Any retiree may request the executive director, in writing, to withhold and pay on his behalf to the proper person, from each of his monthly annuity payments, if the payment is large enough, the contribution due from the retiree to any group providing state-sponsored life or medical insurance and to the Missouri state employees charitable campaign.

3. The executive director shall, when requested in writing by a retiree, withhold and pay over the funds authorized in subsection 2 of this section until such time as the request to do so is revoked by the death or written revocation of the retiree.

4. In the event any amount is due a deceased member, survivor, or beneficiary who dies after September 1, 2002, **and the member's survivor's, or beneficiary's financial institution is unable to accept the final payments due to the member, survivor, or beneficiary,** such amount shall be paid to the person or entity designated in writing as beneficiary to receive such amount by such member, survivor, or beneficiary. The member, survivor, or beneficiary may designate in writing a beneficiary to receive any final payment due after the death of a member, survivor, or beneficiary pursuant to this chapter. If no living person or entity so designated as beneficiary exists at the time of death, such amount shall be paid to the surviving spouse married to the deceased member, survivor, or beneficiary at the time of death. If no surviving spouse exists, such amount shall be paid to the surviving children **[**or their descendants**]** of such member, survivor, or beneficiary in equal parts. If no surviving children **[**or any of their descendants**]** exist, such amount shall be paid to the surviving parents of such member, survivor, or beneficiary in equal parts. 334.040. EXAMINATION OF APPLICANTS, HOW CONDUCTED, GRADES REQUIRED, TIME LIMITATIONS, EXTENSIONS. — 1. Except as provided in section 334.260, all persons desiring to practice as physicians and surgeons in this state shall be examined as to their fitness to engage in such practice by the board. All persons applying for examination shall file a completed application with the board upon forms furnished by the board.

2. The examination shall be sufficient to test the applicant's fitness to practice as a physician and surgeon. The examination shall be conducted in such a manner as to conceal the identity of the applicant until all examinations have been scored. In all such examinations an average score of not less than seventy-five percent is required to pass; provided, however, that the board may require applicants to take the Federation Licensing Examination, also known as FLEX, or the United States Medical Licensing Examination (USMLE). If the FLEX examination is required, a weighted average score of no less than seventy-five is required to pass. Scores from one test administration of the FLEX shall not be combined or averaged with scores from other test administrations to achieve a passing score. The passing score of the United States Medical Licensing Examination shall be determined by the board through rule and regulation. **Applicants graduating from a medical or osteopathic college, as defined in section 334.031 prior to January 1, 1994, shall provide proof of successful completion of the FLEX, USMLE, an exam administered by the National Board of Osteopathic Medical Examiners (NBOME), a state board examination approved by the board, compliance with subsection 2 of section 334.031, or compliance with 20 CSR 2150-2005. Applicants graduating from a medical or osteopathic college, as defined in section 334.031 on or after January 1, 1994, must provide proof of completion of the USMLE or an exam administered by NBOME or provide proof of compliance with subsection 2 of section 334.031.** The board shall not issue a permanent license as a physician and surgeon or allow the Missouri state board examination to be administered to any applicant who has failed to achieve a passing score within three attempts on licensing examinations administered in one or more states or territories of the United States, the District of Columbia or Canada. The steps one, two and three of the United

States Medical Licensing Examination shall be taken within a seven-year period with no more than three attempts on any step of the examination; however, the board may grant an extension of the seven-year period if the applicant has obtained a MD/PhD degree in a program accredited by the Liaison Committee on Medical Education (LCME) and a regional university accrediting body or a DO/PhD degree accredited by the American Osteopathic Association and a regional university accrediting body. The board may waive the provisions of this section if the applicant is licensed to practice as a physician and surgeon in another state of the United States, the District of Columbia or Canada and the applicant has achieved a passing score on a licensing examination administered in a state or territory of the United States or the District of Columbia and no license issued to the applicant has been disciplined in any state or territory of the United States or the District of Columbia and the applicant is certified in the applicant's area of specialty by the American Board of Medical Specialties, the American Osteopathic Association, or other certifying agency approved by the board by rule.

3. If the board waives the provisions of this section, then the license issued to the applicant may be limited or restricted to the applicant's board specialty. The board shall not be permitted to favor any particular school or system of healing.

4. If an applicant has not actively engaged in the practice of clinical medicine or held a teaching or faculty position in a medical or osteopathic school approved by the American Medical Association, the Liaison Committee on Medical Education, or the American Osteopathic Association for any two years in the three-year period immediately preceding the filing of his or her application for licensure, the board may require successful completion of another examination, continuing medical education, or further training before issuing a permanent license. The board shall adopt rules to prescribe the form and manner of such reexamination, continuing medical education, and training.

334.715. REFUSAL TO ISSUE OR RENEW LICENSE, GROUNDS, ALTERNATIVES — COMPLAINT PROCEDURE — REINSTATEMENT, PROCEDURE. — 1. The board may refuse to issue or renew any license required under sections 334.700 to 334.725 for one or any combination of causes listed in subsection 2 of this section or any cause listed in section 334.100. The board shall notify the applicant in writing of the reasons for the refusal and shall advise the applicant of the applicant's right to file a complaint with the administrative hearing commission as provided in chapter 621. As an alternative to a refusal to issue or renew any certificate, registration, or authority, the board may, in its discretion, issue a license which is subject to reprimand, probation, restriction, or limitation to an applicant for licensure for any one or any combination of causes listed in subsection 2 of this section or section 334.100. The board's order of reprimand, probation, limitation, or restriction shall contain a statement of the discipline imposed, the basis therefor, the date such action shall become effective, and a statement that the applicant has thirty days to request in writing a hearing before the administrative hearing commission. If the board issues a probationary, limited, or restricted license to an applicant for licensure, either party may file a written petition with the administrative hearing commission within thirty days of the effective date of the probationary, limited, or restricted license seeking review of the board's determination. If no written request for a hearing is received by the administrative hearing commission within the thirty-day period, the right to seek review of the board's decision shall be considered waived.

2. The board may cause a complaint to be filed with the administrative hearing commission as provided in chapter 621 against any holder of a certificate of registration or authority, permit, or license required by sections 334.700 to 334.725 or any person who has failed to renew or has surrendered the person's certification of registration or license for any one or any combination of the following causes:

(3) Any cause listed in section 334.100.

3. After the filing of such complaint before the administrative hearing commission, the proceedings shall be conducted in accordance with the provisions of chapter 621. Upon a finding by the administrative hearing commission that the grounds provided in subsection 2 of this section for disciplinary action are met, the board may, singly or in combination:

(1) Warn, censure, or place the person named in the complaint on probation on such terms and conditions as the board deems appropriate for a period not to exceed ten years; or

(2) Suspend the person's license, certificate, or permit for a period not to exceed three years; or

(3) Administer a public or private reprimand; or

(4) Deny the person's application for a license; or

(5) Permanently withhold issuance of a license or require the person to submit to the care, counseling, or treatment of physicians designated by the board at the expense of the individual to be examined; or

(6) Require the person to attend such continuing education courses and pass such examinations as the board may direct**; or**

(7) Restrict or limit the person's license for an indefinite period of time; or

(8) Revoke the person's license.

4. In any order of revocation, the board may provide that the person shall not apply for reinstatement of the person's license for a period of time ranging from two to seven years following the date of the order of revocation. All stay orders shall toll such time period.

5. Before restoring to good standing a license, certificate, or permit issued under this chapter which has been in a revoked, suspended, or inactive state for any cause for more than two years, the board may require the applicant to attend such continuing education courses and pass such examinations as the board may direct.

Be it enacted by the General Assembly of the state of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Section 620.467, RSMo, is repealed and one new section enacted in lieu thereof, to be known as section 620.467, to read as follows:

620.467. DIVISION OF TOURISM SUPPLEMENTAL REVENUE FUND CREATED — USE OF FUND — LAPSE TO GENERAL REVENUE PROHIBITED — FUNDING — EFFECTIVE AND EXPIRATION DATES. — 1. The state treasurer shall annually deposit an amount prescribed in this section out of the general revenue fund pursuant to section 144.700, in a fund hereby created in the state treasury, to be known as the "Division of Tourism Supplemental Revenue Fund". The state treasurer shall administer the fund, and the moneys in such fund, except the appropriate percentage of any refund made of taxes collected under the provisions of chapter 144, shall be used solely by the division of tourism of the department of economic development to carry out the duties and functions of the division as prescribed by law. Moneys deposited in the division of tourism supplemental revenue fund shall be in addition to a budget base in each fiscal year. For fiscal year 1994, such budget base shall be six million two hundred thousand dollars, and in each succeeding fiscal year the budget base shall be the prior fiscal year's general revenue base plus any additional appropriations made to the division of tourism, including one hundred percent of the prior fiscal year's deposits made to the division of tourism supplemental revenue fund pursuant to this section. If the increase in such sales taxes derived from the retail sale of tourist-oriented goods and services in the fiscal year three years prior to the fiscal year in which each deposit shall be made is at least three percent over such sales taxes derived from the retail sale of tourist-oriented goods and services generated in the fiscal year four years prior to the fiscal year in which each deposit shall be made, an amount equal to one-half of such sales taxes generated above a three percent increase shall be calculated by the director of revenue and the amount calculated shall be deposited by the state treasurer to the credit of the division of tourism supplemental revenue fund.

3. Total deposits in the supplemental revenue fund in any fiscal year pursuant to subsections 1 and 2 of this section shall not exceed the amount deposited into the division of tourism supplemental revenue fund in the fiscal year immediately preceding the current fiscal year by more than three million dollars.

4. As used in this section, "sales of tourism-oriented goods and services" are those sales by businesses registered with the department of revenue under the following SIC Codes:

(14) SIC Code 7996;
(15) SIC Code 7998;
(16) SIC Code 7999; and
(17) SIC Code 8420.

5. Prior to each appropriation from the division of tourism supplemental revenue fund, the division of tourism shall present to the committee on tourism, recreational and cultural affairs of the house of representatives and to the transportation and tourism committee of the senate, or their successors, a promotional marketing strategy including, but not limited to, targeted markets, duration of market plans, ensuing market strategies, and the actual and estimated investment return, if any, resulting therefrom.

Notwithstanding any law to the contrary, proof of financial responsibility required for vehicle registration under section 301.147 may be provided by displaying an electronic image of an insurance identification card on a mobile electronic device.

2. Whenever a person presents a mobile electronic device as proof of financial responsibility to any employee of the department of revenue or any agent authorized by the department of revenue under section 136.055 to register motor vehicles and trailers, the person presenting such mobile electronic device shall assume all liability for any damage that may occur to the mobile electronic device, except for damage willfully or maliciously caused by a department employee or agent.

3. When a person provides evidence of financial responsibility using a mobile electronic device pursuant to this section to any employee of the department of revenue or any agent authorized by the department of revenue under section 136.055 to register motor vehicles and trailers, such employees or agents shall only view the evidence of financial responsibility and shall not view any other content on the mobile electronic device.

4. As used in this section, the term "mobile electronic device" means any small handheld computing or communications device that has a display screen with a touch input or a miniature keyboard.

303.024. INSURANCE IDENTIFICATION CARDS ISSUED BY INSURER, CONTENTS — IDENTIFICATION CARDS FOR SELF-INSURED ISSUED BY DIRECTOR, CONTENTS — EXHIBITION OF CARD TO PEACE OFFICERS OR COMMERCIAL VEHICLE ENFORCEMENT OFFICERS — FAILURE TO EXHIBIT, VIOLATION OF SECTION 303.025. — 1. Each insurer issuing motor vehicle liability policies in this state, or an agent of the insurer, shall furnish an insurance identification card to the named insured for each motor vehicle insured by a motor vehicle liability policy that complies with the requirements of sections 303.010 to 303.050, 303.060, 303.140, 303.220, 303.290, 303.330 and 303.370. **Such insurance identification card may be produced in either paper or electronic format. Acceptable electronic forms include display of electronic images on a cellular phone or any other type of portable electronic device.**

2. The insurance identification card shall include all of the following information:

(1) The name and address of the insurer;

(2) The name of the named insured;

(3) The policy number;

(4) The effective dates of the policy, including month, day and year;

3. A new insurance identification card shall be issued when the insured motor vehicle is changed, when an additional motor vehicle is insured, and when a new policy number is assigned. A replacement insurance identification card shall be issued at the request of the insured in the event of loss of the original insurance identification card.

4. The director shall furnish each self-insurer, as provided for in section 303.220, an insurance identification card for each motor vehicle so insured. The insurance identification card shall include all of the following information:

(1) Name of the self-insurer;

(2) The word self-insured; and

(3) The statement "THIS CARD MUST BE CARRIED IN THE SELF-INSURED MOTOR VEHICLE FOR PRODUCTION UPON DEMAND" prominently displayed on the card.

5. An insurance identification card shall be carried in the insured motor vehicle at all times. The operator of an insured motor vehicle shall exhibit the insurance identification card on the demand of any peace officer, commercial vehicle enforcement officer or commercial vehicle inspector who lawfully stops such operator or investigates an accident while that officer or inspector is engaged in the performance of the officer's or inspector's duties. If the operator fails to exhibit an insurance identification card, the officer or inspector shall issue a citation to the operator for a violation of section 303.025. A motor vehicle liability insurance policy, a motor vehicle liability insurance binder, **[**or**]** receipt**, or a photocopy or an image displayed on a mobile electronic device** which contains the policy information required in subsection 2 of this section, shall be satisfactory evidence of insurance in lieu of an insurance identification card. **The display of an image of the insurance card on a mobile electronic device shall not serve as consent for such officer, inspector, or other person to access other contents of the mobile electronic device in any manner other than to verify the image of the insurance card. As used in this section, the term "mobile electronic device" means any small handheld computing or communications device that has a display screen with a touch input or a miniature keyboard. Whenever a person presents a mobile electronic device as proof of financial responsibility to any peace officer, commercial vehicle enforcement officer, or commercial vehicle inspector pursuant to this section, that person shall assume all liability for any damage to the mobile electronic device, except for damage willfully or maliciously caused by a peace officer, commercial vehicle enforcement officer, or commercial vehicle inspector.**

303.200. Approval of plan for apportionment of substandard insurance risks. — 1. After consultation with insurance companies authorized to issue automobile liability policies in this state, the director of the department of insurance, financial institutions and professional registration shall approve a reasonable plan or plans for the equitable apportionment among such companies of applicants for such policies and for **personal automobile and commercial** motor vehicle liability policies who are in good faith entitled to but are unable to procure such policies through ordinary methods. When any such plan has been approved, all such insurance companies shall subscribe thereto and participate therein. **[**Any such plan**]** **The plan manager, on the plan's behalf,** shall contract with an entity or entities to accept and service applicants and policies for any company that does not elect to accept and service applicants and policies. By October first of each year any company that elects to accept and service applicants and policies for the next calendar year for any such plan shall so notify the plan. **Except as provided in subsection 2 of this section,** any company that does not so notify a plan **established for handling coverage for personal automobile risks** shall be excused from accepting and servicing applicants and policies for the next calendar year for such plan and shall pay a fee to the plan or servicing entity for providing such services. The fee shall

be based on the company's market share [on the kinds of insurance offered by the plan] **as determined by the company's writings of personal automobile risks in the voluntary market**. Any applicant for any such policy, any person insured under any such plan, and any insurance company affected may appeal to the director from any ruling or decision of the manager or committee designated to operate such plan. Any person aggrieved hereunder by any order or act of the director may, within ten days after notice thereof, file a petition in the circuit court of the county of Cole for a review thereof. The court shall summarily hear the petition and may make any appropriate order or decree. **As used in this section, the term "personal automobile" means a private passenger non-fleet vehicle, motorcycle, camper and travel trailer, antique auto, amphibious auto, motor home, named non-owner applicant, or a low-speed vehicle subject to chapter 304 which is not primarily used for business or nonprofit interests and which is generally used for personal, family, or household purposes.**

2. If the total premium volume for any one plan established for handling coverage for personal automobile risks exceeds ten million dollars in a calendar year, a company with more than five percent market share of such risks in Missouri shall not be excused from accepting and servicing applicants and policies of such plan under subsection 1 of this section for the next calendar year, unless the governing body of the plan votes to allow any company with such market share the option to be excused.

379.011. DOCUMENTS REQUIRED FOR INSURANCE TRANSACTIONS OR PROOF OF COVERAGE BY ELECTRONIC MEANS PERMITTED, WHEN, REQUIREMENTS — INAPPLICABILITY. — 1. As used in this section, the following terms mean:

(1) "Delivered by electronic means", includes delivery to an electronic mail address at which a party has consented to receive notices or documents, or posting on an electronic network or site accessible via the internet, mobile application, computer, mobile device, tablet, or any other electronic device, together with a separate notice to a party directed to the electronic mail address at which the party has consented to receive notice of the posting;

(2) "Party", any recipient of any notice or document required as part of an insurance transaction, including but not limited to an applicant, an insured or a policyholder.

2. Subject to subsection 3 of this section, any notice to a party or any other document required under applicable law in an insurance transaction or that is to serve as evidence of insurance coverage may be delivered, stored, and presented by electronic means so long as it meets the requirements of sections 432.200 to 432.295. Delivery of a notice or document in accordance with this subsection shall be considered equivalent to any delivery method required under applicable law, including delivery by first class mail, first class mail postage prepaid, certified mail, or certificate of mailing.

3. A notice or document may be delivered by electronic means by an insurer to a party under this subsection if:

(1) The party has affirmatively consented to that method of delivery and has not withdrawn the consent;

(2) The party, before giving consent, is provided with a clear and conspicuous statement informing the party of:

(a) Any right or option to have the notice or document provided in paper or another nonelectronic form at no additional cost;

(b) The right of party to withdraw consent to have a notice or document delivered by electronic means;

(c) Whether the party's consent applies only to the particular transaction as to which the notice or document must be given or to identified categories of notices or documents that may be delivered by electronic means during the course of the parties' relationship;

(d) The means, after consent is given, by which a party may obtain a paper copy of a notice or document delivered by electronic means at no additional cost; and

(e) The procedure a party must follow to withdraw consent to have a notice or document delivered by electronic means and to update information needed to contact the party electronically;

(3) The party, before giving consent, is provided with a statement of the hardware and software requirements for access to and retention of a notice or document delivered by electronic means and consents electronically, and confirms consent electronically, in a manner that reasonably demonstrates that the party can access information in the electronic form that will be used for notices or documents delivered by electronic means as to which the party has given consent; and

(4) After consent of the party is given, the insurer, in the event a change in the hardware or software requirements needed to access or retain a notice or document delivered in electronic means creates a material risk that the party will not be able to access or retain a subsequent notice or document to which the consent applies:

(a) Provides the party with a statement of the revised hardware and software requirements for access to and retention of a notice or document delivered by electronic means and of the right of the party to withdraw consent pursuant to paragraph (b) of subdivision (2) of this subsection; and

(b) Complies with subdivision (2) of this subsection.

4. This section does not affect requirements relating to content or timing of any notice or document required under applicable law. If any provision of applicable law requiring a notice or document to be provided to a party expressly requires verification or acknowledgment of receipt of the notice or document, the notice or document may be delivered by electronic means only if the method used provides for verification or acknowledgment of receipt. Absent verification or acknowledgment of receipt of the initial notice or document on the part of the party, the insurer shall send two subsequent notices or documents at intervals of five business days. The legal effectiveness, validity, or enforceability of any contract or policy of insurance executed by a party may not be made contingent upon obtaining electronic consent or confirmation of consent of the party in accordance with subdivision (3) of subsection 3 of this section.

5. A withdrawal of consent by a party does not affect the legal effectiveness, validity, or enforceability of a notice or document delivered by electronic means to the party before the withdrawal of consent is effective. A withdrawal of consent by a party is effective within thirty days after receipt of the withdrawal by the insurer. Failure by an insurer to comply with subdivision (4) of subsection 3 of this section may be treated, at the election of the party, as a withdrawal of consent for purposes of this section.

6. This section does not apply to a notice or document delivered by an insurer in an electronic form before the effective date of this section to a party who, before that date, has consented to receive notices or documents in an electronic form otherwise allowed by law. If the consent of a party to receive certain notices or documents in an electronic form is on file with an insurer before the effective date of this section, and pursuant to this section, an insurer intends to deliver additional notices or documents to such party in an electronic form, then prior to delivering such additional notices or documents electronically, the insurer shall notify the party of:

(1) The notices or documents that may be delivered by electronic means under this section that were not previously delivered electronically; and

(2) The party's right to withdraw consent to have notices or documents delivered by electronic means.

7. A party who does not consent to delivery of notices or documents under subsection 3 of this section, or who withdraws their consent, shall not be subject to any

additional fees or costs for having notices or documents provided or made available to them in paper or another nonelectronic form.

8. If any provision of applicable law requires a signature or notice or document to be notarized, acknowledged, verified, or made under oath, the requirement is satisfied if the electronic signature of the person authorized to perform those acts, together with all other information required to be included by the provision, is attached to or logically associated with the signature, notice, or document.

9. This section may not be construed to modify, limit, or supercede the provisions of sections 432.200 to 432.295.

10. Nothing in this section shall prevent an insurer from offering a discount to an insured who elects to receive notices and documents electronically in accordance with this section.

379.012. INSURANCE FORMS AND ENDORSEMENTS MAY BE AVAILABLE ON INSURER'S WEBSITE, WHEN, REQUIREMENTS — RULEMAKING AUTHORITY. — 1. In addition to and notwithstanding any other provisions or requirements of section 379.011 to the contrary, insurance policy forms and endorsements for property insurance as described in subdivisions (1), (2), (3), and (5) of subsection 1 of section 379.010 issued or renewed in this state, or covering risks in this state, which do not contain personally identifiable information, may be made available electronically on the insurer's website in lieu of mailing or delivering a paper copy of policy forms and endorsements to an insured.

2. If the insurer elects to make such insurance policy forms and endorsements available electronically on the insurer's website in lieu of mailing or delivering a paper copy to the insured, it shall comply with all the following conditions with respect to such policy forms and endorsements:

(1) The policy forms and endorsements issued or sold in this state shall be easily and publicly accessible on the insurer's website and remain that way for as long as the policy form or endorsement is in force or actively sold in this state;

(2) The insurer shall retain and store the policy forms and endorsements after they are withdrawn from use or replaced with other policy forms and endorsements for a period of five years and make them available to insureds and former insureds upon request and at no cost;

(3) The policy forms and endorsements shall be available on the insurer's website in an electronic format that enables the insured to print and save the policy forms and endorsements using programs or applications that are widely available on the internet and free to use;

(4) At policy issuance and renewal, the insurer shall provide clear and conspicuous notice to the insured, in the manner it customarily communicates with an insured, that it does not intend to mail or deliver a paper copy of the policy forms or documents. The notice shall provide instructions on how the insured may access the policy forms and endorsements on the insurer's website. The insurer shall also notify the insured of their right to obtain a paper copy of the policy forms and endorsements at no cost and provide either a toll-free telephone number or the telephone number of the insured's producer by which the insured can make this request;

(5) At policy renewal, the insurer shall provide clear and conspicuous notice to the insured, in the manner it customarily communicates with an insured, of any changes which have been made to the policy forms or endorsements since the prior coverage period. Such notice shall be made in accordance with the requirements of subdivision (4) of this subsection; and

(6) On each declarations page, or similar coverage summary document, issued to an insured, the insurer shall clearly identify the exact policy forms and endorsements

purchased by the insured, so that the insured may easily access those forms on the insurer's website.

3. The director may promulgate any rules necessary to implement and administer the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010 that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2013, shall be invalid and void.

In managing the public right-of-way, a political subdivision may:

(a) Require construction performance bonds or insurance coverage or demonstration of self-insurance at the option of the political subdivision or if the public utility right-of-way user has twenty-five million dollars in net assets and does not have a history of permitting noncompliance within the political subdivision as defined by the political subdivision, then the public utility right-of-way user shall not be required to provide such bonds or insurance;

(b) Establish coordination and timing requirements that do not impose a barrier to entry;

(c) Require public utility right-of-way users to submit, for right-of-way projects commenced after August 28, 2001, requiring excavation within the public right-of-way, whether initiated by a political subdivision or any public utility right-of-way user, project data in the form maintained by the user and in a reasonable time after receipt of the request based on the amount of data requested;

(d) Establish right-of-way permitting requirements for street excavation;

(e) Establish removal requirements for abandoned equipment or facilities, if the existence of such facilities prevents or significantly impairs right-of-way use, repair, excavation or construction;

67.1836. DENIAL OF AN APPLICATION FOR A RIGHT-OF-WAY PERMIT, WHEN — REVOCATION OF A PERMIT, WHEN — BULK PROCESSING OF PERMITS ALLOWED, WHEN. — 1. A political subdivision may deny an application for a right-of-way permit if:

(1) The public utility right-of-way user fails to provide all the necessary information requested by the political subdivision for managing the public right-of-way;

(2) The public utility right-of-way user has failed to return the public right-of-way to its previous condition under a previous permit;

(4) The political subdivision determines that the denial is necessary to protect the public health and safety, provided that the authority of the political subdivision does not extend to those items under the jurisdiction of the public service commission, such denial shall not interfere with a public utility's right of eminent domain of private property, and such denials shall only be imposed on a competitively neutral and nondiscriminatory basis; or

(5) The area is environmentally sensitive as defined by state statute or federal law or is a historic district as defined by local ordinance.

safety codes that are no more stringent than national safety codes, upon inspection and notification by the political subdivision of the faulty condition.

3. Any political subdivision that requires public utility right-of-way users to obtain a right-of-way permit, except in an emergency, prior to performing excavation work within a public right-of-way shall promptly, but not longer than thirty-one days, process all completed permit applications. **If a political subdivision fails to act on an application for a right-of-way permit within thirty-one days, the application shall be deemed approved.** In order to avoid excessive processing and accounting costs to either the political subdivision or the public utility right-of-way user, the political subdivision may establish procedures for bulk processing of permits and periodic payment of permit fees.

67.1838. DISPUTES TO BE REVIEWED BY GOVERNING BODY OF THE POLITICAL SUBDIVISION, COURT ACTION AUTHORIZED. — **[**1.**]** A public utility right-of-way user that has been denied a right-of-way permit, has had its right-of-way permit revoked, believes that the fees imposed on the public right-of-way user by the political subdivision do not conform to the requirements of section 67.1840**, believes the political subdivision has violated any provision of sections 67.1830 to 67.1848,** or asserts any other issues related to the use of the public right-of-way, **[**shall have, upon written request, such denials, revocations, fee impositions, or other disputes reviewed by the governing body of the political subdivision or an entity assigned by the governing body for this purpose. The governing body of the political subdivision or its delegated entity shall specify, in its permit processing schedules, the maximum number of days by which the review request shall be filed in order to be reviewed by the governing body of the political subdivision or its delegated entity. A decision affirming the denial, revocation, fee imposition or dispute resolution shall be in writing and supported by written findings establishing the reasonableness of the decision.

2. Upon affirmation by the governing body of the denial, revocation, fee imposition or dispute resolution, the public utility right-of-way user may, in addition to all other remedies and if both parties agree, have the right to have the matter resolved by mediation or binding arbitration. Binding arbitration shall be before an arbitrator agreed to by both the political subdivision and the public utility right-of-way user. The costs and fees of a single arbitrator shall be borne equally by the political subdivision and the public utility right-of-way user.

3. If the parties cannot agree on an arbitrator, the matter shall be resolved by a three-person arbitration panel consisting of one arbitrator selected by the political subdivision, one arbitrator selected by the public utility right-of-way user, and one person selected by the other two arbitrators. In the event that a three-person arbitrator panel is necessary, each party shall bear the expense of its own arbitrator and shall jointly and equally bear with the other party the expense of the third arbitrator and of the arbitration.

4. Each party to the arbitration shall pay its own costs, disbursements and attorney fees**] may bring an action for review in any court of competent jurisdiction. The court shall rule on any such petition for review in an expedited manner by moving the petition to the head of the docket. Nothing shall deny the authority of its right to a hearing before the court**.

(4) Require a telecommunications company to obtain a franchise or require a public utility right-of-way user to pay for the use of the public right-of-way, except as provided in sections 67.1830 to 67.1846; **[**or**]**

(5) Enter into a contract or any other agreement for providing for an exclusive use, occupancy or access to any public right-of-way**; or**

(6) Require any public utility that has legally been granted access to the political subdivision's right-of-way prior to August 28, 2001, to enter into an agreement or obtain a permit for general access to or the right to remain in the right-of-way of the political subdivision.

2. A public utility right-of-way user shall not be required to apply for or obtain right-of-way permits for projects commenced prior to August 28, 2001, requiring excavation within the public right-of-way, for which the user has obtained the required consent of the political subdivision, or that are otherwise lawfully occupying or performing work within the public right-of-way. The public utility right-of-way user may be required to obtain right-of-way permits prior to any excavation work performed within the public right-of-way after August 28, 2001.

3. A political subdivision shall not collect a fee imposed pursuant to section 67.1840 through the provision of in-kind services by a public utility right-of-way user, nor require the provision of in-kind services as a condition of consent to use the political subdivision's public right-of-way; however, nothing in this subsection shall preclude requiring services of a cable television operator, open video system provider or other video programming provider as permitted by federal law.

(2) Expand the power of an authority to regulate any utility; or

(3) Restrict any utility's rights or authority, or negate any utility's agreement, regarding requested access to, or the rates and terms applicable to placement of any wireless facility on new, existing, or replacement poles, structures, or existing structures owned or operated by a utility.

5. A party aggrieved by the final action of an authority, either by its affirmatively denying an application under the provisions of this section or by its inaction, may bring an action for review in any court of competent jurisdiction.

(1) An authority may not institute any moratorium on the permitting, construction, or issuance of approval of new wireless support structures, substantial modifications of wireless support structures, or collocations if such moratorium exceeds six months in length and if the legislative act establishing it fails to state reasonable grounds and good cause for such moratorium. No such moratorium shall affect an already pending application;

(2) To encourage applicants to request construction of new wireless support structures on public lands and to increase local revenues:

(a) An authority may not charge a wireless service provider or wireless infrastructure provider any rental, license, or other fee to locate a wireless support structure on an authority's property in excess of the current market rates for rental or use of similarly situated property. If the applicant and the authority do not agree on the applicable market rate for any such public land and cannot agree on a process by which to derive the applicable market rate for any such public land, then the market rate will be determined by a panel of three certified appraisers licensed under chapter 339, using the following process. Each party will appoint one certified appraiser to the panel, and the two certified appraisers so appointed will appoint a third certified appraiser. Each appraiser will independently appraise the appropriate lease rate, and the market rate shall be set at the mid-point between the highest and lowest market rates among the three independent appraisals, provided the mid-point between the highest and lowest appraisals is greater than or less than ten percent of the appraisal of the third appraiser chosen by the parties' appointed appraisers. In such case, the third appraisal will determine the rate for the lease. The appraisal process shall be concluded within ninety calendar days from the date the applicant first tenders its proposed lease rate to the authority. Each party will bear the cost of its own appointed appraiser, and the parties shall share equally the cost of the third appraiser chosen by the two appointed appraisers. Nothing in this paragraph shall bar an applicant and an authority from agreeing to reasonable, periodic reviews and adjustments of current market rates during the term of a lease or contract to use an authority's property; and

(b) An authority may not offer a lease or contract to use public lands to locate a wireless support structure on an authority's property that is less than fifteen years in duration unless the applicant agrees to accept a lease or contract of less than fifteen years in duration;

(3) Nothing in subsection 2 of this section is intended to limit an authority's lawful exercise of zoning, land use, or planning and permitting authority with respect to applications for new wireless support structures on an authority's property under subsection 1 of section 67.5096.

67.5103. POWER OF EMINENT DOMAIN PROHIBITED, WHEN. — Notwithstanding any provision of sections 67.5090 to 67.5102, nothing herein shall provide any applicant the power of eminent domain or the right to compel any private or public property owner, or the department of conservation or department of natural resources to:

(1) Lease or sell property for the construction of a new wireless support structure; or

(2) Locate or cause the collocation or expansion of a wireless facility on any existing structure or wireless support structure.

(d) Any rural electric cooperative, and

(e) Any municipally owned utility.

389.586. CROSSING BY UTILITY, NOTICE, APPROVAL OR REJECTION OF PROPOSAL — MAINTENANCE OF PROPERTY. — 1. After the land management company receives a copy of the notice from the utility, the land management company shall send a complete copy of that notice, by certified mail or by private delivery service which requires a return receipt, to the railroad or railroad corporation within two business days. No utility may commence a crossing until the railroad or railroad corporation has approved the crossing. The railroad or railroad corporation shall have thirty days from the receipt of the notice, to review and approve or reject the proposed crossing. The railroad or railroad corporation shall reject a proposed crossing only if special circumstances exist. If the railroad or railroad corporation rejects a proposed crossing, the utility may submit an amended proposal for a crossing. The railroad or railroad corporation shall have an additional thirty days from receipt of the amended proposal to review and approve or reject the amended crossing proposal. The railroad or railroad corporation shall not unreasonably withhold approval. Once the railroad or railroad corporation grants such approval, and upon payment of the fee and any other payments authorized pursuant to sections 389.586 or 389.587, the utility shall be deemed to have authorization to commence

the crossing activity. The utility shall provide the railroad or railroad corporation with written notification of the commencement of the crossing activity before beginning such activity.

2. The land management company and the utility shall maintain and repair its own property within the land management corridor and each shall bear responsibility for its own acts and omissions, except that the utility shall be responsible for any bodily injury or property damage arising from the installation, maintenance, repair and its use of the crossing. The railroad or railroad corporation may require the utility and the land management company to obtain reasonable amounts of comprehensive general liability insurance and railroad protective liability insurance coverage for a crossing, and that this insurance coverage name the railroad or railroad corporation as an insured. Further, the land management company and the utility shall provide the railroad or railroad corporation with proof that they have liability insurance coverage which meets such requirements, if any.

3. A utility shall have immediate access to a crossing for repair and maintenance of existing facilities in case of an immediate threat to life and upon notification to the applicable railroad or railroad corporation. Before commencing any such work, the utility must first contact the railroad or railroad corporation's dispatch center, command center or other facility which is designated to receive emergency communications.

4. The utility shall be provided a crossing, absent a claim of special circumstances, after payment by the utility of the standard crossing fee, submission of completed engineering specifications to the land management company, and approval of the crossing by the railroad or railroad corporation. The engineering specifications shall comply with the clearance requirements as established by the National Electrical Safety Code, the American Railway Engineering and Maintenance of Way Association and the standards of the applicable railroad or railroad corporation which are in effect and which apply to conditions at a particular crossing. The land management company and utility shall further be responsible for any modifications, upgrades or other changes which may be needed to comply with changes in said standards.

5. The utility, the railroad or railroad corporation, and the land management company shall agree to such other terms and conditions as may be necessary to provide for reasonable use of a land management corridor by a utility.

389.587. STANDARD CROSSING FEE AND OTHER COSTS. — Unless otherwise agreed by the parties and subject to section 389.588, a utility that locates its facilities within the railroad right-of-way for a crossing, other than a crossing along a state highway or other public road, shall pay the land management company a one-time standard crossing fee of one thousand five hundred dollars for each crossing plus the costs associated with modifications to existing insurance contracts of the land management company. The standard crossing fee shall be in lieu of any license, permit, application, plan review, or any other fees or charges to reimburse the land management company for the direct expenses incurred by the land management company as a result of the crossing. The utility shall also reimburse the land management company for any actual flagging expenses associated with a crossing in addition to the standard crossing fee. The railroad or railroad corporation has the right to halt work at the crossing if the flagging does not meet the standards of the railroad or railroad corporation. Nothing in this section is intended to otherwise restrict or limit any authority or right a utility may have to locate facilities at a crossing along a state highway or any other public road or to otherwise enter upon lands where authorized by law.

389.588. NEGOTIATION OF TERMS AND CONDITIONS, DISPUTE RESOLUTION AUTHORIZED — EMINENT DOMAIN, EFFECT ON. — 1. Notwithstanding the provisions of

section 389.586, nothing shall prevent a land management company and a utility from otherwise negotiating the terms and conditions applicable to a crossing or the resolution of any disputes relating to the crossing so long as they do not interfere with the rights of a railroad or railroad corporation. No agreement between a land management company and a utility shall affect the rights, interests or operations of a railroad or railroad corporation.

2. Notwithstanding subsection 1 of this section, the provisions of this section shall not impair the authority of a utility to secure crossing rights by easement pursuant to the exercise of the power of eminent domain.

389.589. BINDING ARBITRATION, WHEN, PROCEDURE. — 1. If the parties cannot agree that special circumstances exist, the dispute shall be submitted to binding arbitration.

2. Either party may give written notice to the other party of the commencement of a binding arbitration proceeding in accordance with the commercial rules of arbitration in the American Arbitration Association. Any decision by the board of arbitration shall be final, binding and conclusive as to the parties. Nothing provided in this section shall prevent either party from submission of disputes to the courts. Land management companies and utilities may seek enforcement of sections 389.586 through 389.591 in a court of proper jurisdiction and shall be entitled to reasonable attorney fees if they prevail.

3. If the dispute over special circumstances concerns only the compensation associated with a crossing, then the utility may proceed with installation of the crossing during the pendency of the arbitration.

389.591. APPLICABILITY TO ALL CROSSINGS. — 1. Notwithstanding any provision of law to the contrary, sections 389.585 to 389.591 shall apply in all crossings of land management corridors involving a land management company and a utility and shall govern in the event of any conflict with any other provision of law, except that sections 389.585 to 389.591 shall not override or nullify the condemnation laws of this state nor confer the power of eminent domain on any entity not granted such power prior to August 28, 2013.

2. The provisions of sections 389.585 to 389.591 shall apply to a crossing commenced after August 28, 2013. These provisions shall also apply to a crossing commenced before August 28, 2013, but only upon the expiration or termination of the agreement for such crossing.

392.415. CALL LOCATION INFORMATION TO BE PROVIDED IN EMERGENCIES — IMMUNITY FROM LIABILITY, WHEN. — 1. Upon request, a telecommunications carrier or commercial mobile service provider as identified in 47 U.S.C. Section 332(d)(1) and 47 CFR Parts 22 or 24 shall provide call location information concerning the user of a telecommunications service or a wireless communications service, in an emergency situation, to a law enforcement official or agency in order to respond to a call for emergency service by a subscriber, customer, or user of such service, or to provide caller location information (or do a ping locate) in an emergency situation that involves danger of death or serious physical injury to any person where disclosure of communications relating to the emergency is required without delay.

2. No cause of action shall lie in any court of law against any telecommunications carrier or telecommunications service or commercial mobile service provider, or **[**against any telecommunications service or wireless communications**]** **other provider of communications-related** service, or its officers, employees, agents, or other specified persons, for providing any information, facilities, or assistance to a law enforcement official or agency **[**in accordance with the terms of this section**]** **in response to requests made under the circumstances of subsection 1 of this section or for providing such information, facilities, or assistance**

through any plan or system required by sections 190.300 to 190.340. Notwithstanding any other provision of law, nothing in this section prohibits a telecommunications carrier**, [**or**]** commercial mobile service provider**, or other provider of communications-related service** from establishing protocols by which such carrier or provider could voluntarily disclose call location information.

392.420. REGULATIONS, MODIFICATION OF, COMPANY MAY REQUEST BY PETITION, WHEN — WAIVER, WHEN. — The commission is authorized, in connection with the issuance or modification of a certificate of interexchange or local exchange service authority or the modification of a certificate of public convenience and necessity for interexchange or local exchange telecommunications service, to entertain a petition to suspend or modify the application of its rules or the application of any statutory provision contained in sections 392.200 to 392.340 if such waiver or modification is otherwise consistent with the other provisions of sections 392.361 to 392.520 and the purposes of this chapter. In the case of an application for certificate of service authority to provide basic local telecommunications service filed by an alternative local exchange telecommunications company, and for all existing alternative local exchange telecommunications companies, the commission shall waive, at a minimum, the application and enforcement of its quality of service and billing standards rules, as well as the provisions of subsection 2 of section 392.210, subsection 1 of section 392.240, **subsections 1 and 4 of section 392.245,** and sections 392.270, 392.280, 392.290, 392.300, 392.310, 392.320, 392.330, and 392.340. Notwithstanding any other provision of law in this chapter and chapter 386, where an alternative local exchange telecommunications company is authorized to provide local exchange telecommunications services in an incumbent local exchange telecommunications company's authorized service area, the incumbent local exchange telecommunications company may opt into all or some of the above-listed statutory and commission rule waivers by filing a notice of election with the commission that specifies which waivers are elected. In addition, where an interconnected voice over internet protocol service provider is registered to provide service in an incumbent local exchange telecommunications company's authorized service area under section 392.550, the incumbent local exchange telecommunications company may opt into all or some of the above-listed statutory and commission rule waivers by filing a notice of election with the commission that specifies which waivers are elected. The commission may reimpose its quality of service and billing standards rules, as applicable, on an incumbent local exchange telecommunications company but not on a company-granted competitive status under subdivision (7) of subsection 5 of section 392.245 in an exchange where there is no alternative local exchange telecommunications company or interconnected voice over internet protocol service provider that is certificated or registered to provide local voice service only upon a finding, following formal notice and hearing, that the incumbent local exchange telecommunications company has engaged in a pattern or practice of inadequate service. Prior to formal notice and hearing, the commission shall notify the incumbent local exchange telecommunications company of any deficiencies and provide such company an opportunity to remedy such deficiencies in a reasonable amount of time, but not less than sixty days. Should the incumbent local exchange telecommunications company remedy such deficiencies within a reasonable amount of time, the commission shall not reimpose its quality of service or billing standards on such company.

392.461. EXEMPTION FROM CERTAIN RULES, TELECOMMUNICATIONS COMPANIES. — A telecommunications company may, upon written notice to the commission, elect to be exempt from certain retail rules relating to:

(1) The provision of telecommunications service to retail customers and established by the commission which include provisions already mandated by the Federal Communications Commission, including but not limited to federal rules regarding customer proprietary network

information, verification of orders for changing telecommunications service providers (slamming), submission or inclusion of charges on customer bills (cramming); or

(2) The installation, provisioning, or termination of retail service.

Notwithstanding any other provision of this section, a telecommunications company shall not be exempt from any commission rule established under authority delegated to the state commission pursuant to federal statute, rule or order, including but not limited to universal service funds, number pooling and conservation efforts, or any authority delegated to the state commission to facilitate or enforce any interconnection obligation or other intercarrier issue, including but not limited to, intercarrier compensation, network configuration or other such matters. Notwithstanding other provisions of this chapter or chapter 386, a telecommunications company may, upon written notice to the commission, elect to be exempt from any requirement to file or maintain with the commission any tariff or schedule of rates, rentals, charges, privileges, facilities, rules, regulations, or forms of contract**, whether in whole or in part,** for telecommunications services offered or provided to residential or business retail end user customers and instead shall publish generally available retail prices for those services available to the public by posting such prices on a publicly accessible website. **A telecommunications company may include in a tariff filed with the commission any, all, or none of the rates, terms, or conditions for any, all, or none of its retail telecommunications services.** Nothing in this section shall affect the rights and obligations of any entity, including the commission, established pursuant to federal law, including 47 U.S.C. Sections 251 and 252, any state law, rule, regulation, or order related to wholesale rights and obligations, or any tariff or schedule that is filed with and maintained by the commission.

392.611. INAPPLICABILITY OF LAWS AND RULES, WHEN — UNIVERSAL SERVICE FUND SURCHARGE — BROADBAND NOT SUBJECT TO REGULATION, WHEN — NO EXEMPTION FROM RULES, WHEN — ALTERNATIVE CERTIFICATION. — 1. A telecommunications company certified under this chapter or holding a state charter authorizing it to engage in the telephone business shall not be subject to any statute in chapter 386 or this chapter (nor any rule promulgated or order issued under such chapters) that imposes duties, obligations, conditions, or regulations on retail telecommunications services provided to end user customers, except to the extent it elects to remain subject to certain statutes, rules, or orders by notification to the commission. Telecommunications companies shall remain subject to general, nontelecommunications-specific statutory provisions other than those in chapters 386 and this chapter to the extent applicable. Telecommunications companies shall:

(1) Collect from their end users the universal service fund surcharge in the same competitively neutral manner as other telecommunications companies and interconnected voice over internet protocol service providers, remit such collected surcharge to the universal service fund administrator, and receive, as appropriate, funds disbursed from the universal service fund, which may be used to support the provision of local voice service;

(2) Report to the commission such intrastate telecommunications service revenues as are necessary to calculate the commission assessment, universal service fund surcharge, and telecommunications programs under section 209.255; and

(3) Continue to comply with the provisions of section 392.415 pertaining to the provision of location information in emergency situations.

2. Broadband and other Internet protocol-enabled services shall not be subject to regulation under chapter 386 or this chapter, except that interconnected voice over Internet protocol service shall continue to be subject to section 392.550. Nothing in this subsection extends, modifies, or restricts the provisions of subsection 3 of section 392.611. As used in this subsection, "other internet protocol-enabled services" means any services,

capabilities, functionalities, or applications using existing internet protocol, or any successor internet protocol, that enable an end user to send or receive a communication in existing internet protocol format, or any successor internet protocol format, regardless of whether the communication is voice, data, or video.

3. Notwithstanding any other provision of this section, a telecommunications company shall not be exempt from any commission rule established under authority delegated to the state commission under federal statute, rule, or order, including but not limited to universal service funds, number pooling, and conservation efforts. Notwithstanding any other provision of this section, nothing in this section extends, modifies, or restricts any authority delegated to the state commission under federal statute, rule, or order to require, facilitate, or enforce any interconnection obligation or other intercarrier issue including, but not limited to, intercarrier compensation, network configuration or other such matters. Notwithstanding any other provision of this section, nothing in this section extends, modifies, or restricts any authority the commission may have arising under state law relating to interconnection obligations or other intercarrier issue including, but not limited to, intercarrier compensation, network configuration, or other such matters.

4. After August 28, 2013, telecommunications companies seeking to provide telecommunications service may, in lieu of the process and requirements for certification set out in other sections, elect to obtain certification by following the same registration process set out in subsection 3 of section 392.550, substituting telecommunications service for interconnected voice over internet protocol service in the requirements specified in subdivisions (1) to (8) of subsection 3 of section 392.550.

A municipality, either at the time a redevelopment project is approved or, in the event a municipality has undertaken acts establishing a redevelopment plan and redevelopment project and has designated a redevelopment area after the passage and approval of sections 99.800 to 99.865 but prior to August 13, 1982, which acts are in conformance with the procedures of sections 99.800 to 99.865, may adopt tax increment allocation financing by passing an ordinance providing that after the total equalized assessed valuation of the taxable real property in a redevelopment project exceeds the certified total initial equalized assessed valuation of the taxable real property in the redevelopment project, the ad valorem taxes, and payments in lieu of taxes, if any, arising from the levies upon taxable real property in such redevelopment project by taxing districts and tax rates determined in the manner provided in subsection 2 of section 99.855 each year after the effective date of the ordinance until redevelopment costs have been paid shall be divided as follows:

(1) That portion of taxes, penalties and interest levied upon each taxable lot, block, tract, or parcel of real property which is attributable to the initial equalized assessed value of each such taxable lot, block, tract, or parcel of real property in the area selected for the redevelopment project shall be allocated to and, when collected, shall be paid by the county collector to the respective affected taxing districts in the manner required by law in the absence of the adoption of tax increment allocation financing;

(2) (a) Payments in lieu of taxes attributable to the increase in the current equalized assessed valuation of each taxable lot, block, tract, or parcel of real property in the area selected for the redevelopment project and any applicable penalty and interest over and above the initial equalized assessed value of each such unit of property in the area selected for the redevelopment project shall be allocated to and, when collected, shall be paid to the municipal treasurer who shall deposit such payment in lieu of taxes into a special fund called the "Special Allocation Fund" of the municipality for the purpose of paying redevelopment costs and obligations incurred in the payment thereof. Payments in lieu of taxes which are due and owing shall constitute a lien against the real estate of the redevelopment project from which they are derived and shall be collected in the same manner as the real property tax, including the assessment of penalties and interest where applicable. The municipality may, in the ordinance, pledge the funds in the special allocation fund for the payment of such costs and obligations and provide for the collection of payments in lieu of taxes, the lien of which may be foreclosed in the same manner as a special assessment lien as provided in section 88.861. No part of the current equalized assessed valuation of each lot, block, tract, or parcel of property in the area selected for the redevelopment project attributable to any increase above the total initial equalized assessed value of such properties shall be used in calculating the general state school aid formula provided for in section 163.031 until such time as all redevelopment costs have been paid as provided for in this section and section 99.850;

(b) Notwithstanding any provisions of this section to the contrary, for purposes of determining the limitation on indebtedness of local government pursuant to article VI, section 26(b) of the Missouri Constitution, the current equalized assessed value of the property in an area selected for redevelopment attributable to the increase above the total initial equalized assessed valuation shall be included in the value of taxable tangible property as shown on the last completed assessment for state or county purposes;

(c) The county assessor shall include the current assessed value of all property within the taxing district in the aggregate valuation of assessed property entered upon the assessor's book and verified pursuant to section 137.245, and such value shall be utilized for the purpose of the debt limitation on local government pursuant to article VI, section 26(b) of the Missouri Constitution;

(3) For purposes of this section, "levies upon taxable real property in such redevelopment project by taxing districts" shall not include the blind pension fund tax levied under the authority of article III, section 38(b) of the Missouri Constitution, or the merchants' and manufacturers'

inventory replacement tax levied under the authority of subsection 2 of section 6 of article X of the Missouri Constitution, except in redevelopment project areas in which tax increment financing has been adopted by ordinance pursuant to a plan approved by vote of the governing body of the municipality taken after August 13, 1982, and before January 1, 1998.

2. In addition to the payments in lieu of taxes described in subdivision (2) of subsection 1 of this section, for redevelopment plans and projects adopted or redevelopment projects approved by ordinance after July 12, 1990, and prior to August 31, 1991, fifty percent of the total additional revenue from taxes, penalties and interest imposed by the municipality, or other taxing districts, which are generated by economic activities within the area of the redevelopment project over the amount of such taxes generated by economic activities within the area of the redevelopment project in the calendar year prior to the adoption of the redevelopment project by ordinance, while tax increment financing remains in effect, but excluding taxes imposed on sales or charges for sleeping rooms paid by transient guests of hotels and motels, taxes levied pursuant to section 70.500, licenses, fees or special assessments other than payments in lieu of taxes and any penalty and interest thereon, or, effective January 1, 1998, taxes levied pursuant to section 94.660, for the purpose of public transportation, shall be allocated to, and paid by the local political subdivision collecting officer to the treasurer or other designated financial officer of the municipality, who shall deposit such funds in a separate segregated account within the special allocation fund. Any provision of an agreement, contract or covenant entered into prior to July 12, 1990, between a municipality and any other political subdivision which provides for an appropriation of other municipal revenues to the special allocation fund shall be and remain enforceable.

3. In addition to the payments in lieu of taxes described in subdivision (2) of subsection 1 of this section, for redevelopment plans and projects adopted or redevelopment projects approved by ordinance after August 31, 1991, fifty percent of the total additional revenue from taxes, penalties and interest which are imposed by the municipality or other taxing districts, and which are generated by economic activities within the area of the redevelopment project over the amount of such taxes generated by economic activities within the area of the redevelopment project in the calendar year prior to the adoption of the redevelopment project by ordinance, while tax increment financing remains in effect, but excluding personal property taxes, taxes imposed on sales or charges for sleeping rooms paid by transient guests of hotels and motels, taxes levied pursuant to section 70.500, taxes levied for the purpose of public transportation pursuant to section 94.660, licenses, fees or special assessments other than payments in lieu of taxes and penalties and interest thereon, [or] any sales tax imposed by a county with a charter form of government and with more than six hundred thousand but fewer than seven hundred thousand inhabitants, for the purpose of sports stadium improvement or levied by such county under section 238.410 for the purpose of the county transit authority operating transportation facilities, **or for redevelopment plans and projects adopted or redevelopment projects approved by ordinance after August 28, 2013, taxes imposed on sales under section 650.399 for the purpose of emergency communication systems,** shall be allocated to, and paid by the local political subdivision collecting officer to the treasurer or other designated financial officer of the municipality, who shall deposit such funds in a separate segregated account within the special allocation fund.

by the general assembly as provided in subsection 10 of this section to the department of economic development supplemental tax increment financing fund, from the general revenue fund, for distribution to the treasurer or other designated financial officer of the municipality with approved plans or projects.

5. The treasurer or other designated financial officer of the municipality with approved plans or projects shall deposit such funds in a separate segregated account within the special allocation fund established pursuant to section 99.805.

6. No transfer from the general revenue fund to the Missouri supplemental tax increment financing fund shall be made unless an appropriation is made from the general revenue fund for that purpose. No municipality shall commit any state revenues prior to an appropriation being made for that project. For all redevelopment plans or projects adopted or approved after December 23, 1997, appropriations from the new state revenues shall not be distributed from the Missouri supplemental tax increment financing fund into the special allocation fund unless the municipality's redevelopment plan ensures that one hundred percent of payments in lieu of taxes and fifty percent of economic activity taxes generated by the project shall be used for eligible redevelopment project costs while tax increment financing remains in effect. This account shall be separate from the account into which payments in lieu of taxes are deposited, and separate from the account into which economic activity taxes are deposited.

In no event shall the incremental increase include any amounts attributable to retail sales unless the municipality or authority has proven to the Missouri development finance board and the department of economic development and such entities have made a finding that the sales tax increment attributable to retail sales is from new sources which did not exist in the state during the baseline year. The incremental increase in the general revenue portion of state sales tax revenues for an existing or relocated facility shall be the amount that current state sales tax revenue exceeds the state sales tax revenue in the base year as stated in the redevelopment plan as provided in subsection 10 of this section; or

(2) The state income tax withheld on behalf of new employees by the employer pursuant to section 143.221 at the business located within the project as identified by the municipality. The state income tax withholding allowed by this section shall be the municipality's estimate of the amount of state income tax withheld by the employer within the redevelopment area for new employees who fill new jobs directly created by the tax increment financing project.

9. Subsection 4 of this section shall apply only to blighted areas located in enterprise zones, pursuant to sections 135.200 to 135.256, blighted areas located in federal empowerment zones, or to blighted areas located in central business districts or urban core areas of cities which districts or urban core areas at the time of approval of the project by ordinance, provided that the enterprise zones, federal empowerment zones or blighted areas contained one or more buildings at least fifty years old; and

The municipality shall include in the application the following items in addition to the items in section 99.810:

(b) The base year of state sales tax revenues or the base year of state income tax withheld on behalf of existing employees, reported by existing businesses within the project area prior to approval of the redevelopment project;

(c) The estimate of the incremental increase in the general revenue portion of state sales tax revenue or the estimate for the state income tax withheld by the employer on behalf of new employees expected to fill new jobs created within the redevelopment area after redevelopment;

(d) The official statement of any bond issue pursuant to this subsection after December 23, 1997;

SECTION
A. Enacting clause.

Be it enacted by the General Assembly of the state of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Section 67.5103 as truly agreed to and finally passed by senate substitute for house bill no. 331, ninety-seventh general assembly, first regular session, is repealed and three new section enacted in lieu thereof, to be known as sections 67.5102, 67.5103, and 67.5104, to read as follows:

67.5102. PROHIBITED ACTS. — In accordance with the policies of this state to further the deployment of wireless communications infrastructure:

(1) An authority may not institute any moratorium on the permitting, construction, or issuance of approval of new wireless support structures, substantial modifications of wireless support structures, or collocations if such moratorium exceeds six months in length and if the legislative act establishing it fails to state reasonable grounds and good cause for such moratorium. No such moratorium shall affect an already pending application;

(2) To encourage applicants to request construction of new wireless support structures on public lands and to increase local revenues:

(a) An authority may not charge a wireless service provider or wireless infrastructure provider any rental, license, or other fee to locate a wireless support structure on an authority's property in excess of the current market rates for rental or use of similarly situated property. If the applicant and the authority do not agree on the applicable market rate for any such public land and cannot agree on a process by which to derive the applicable market rate for any such public land, then the market rate will be determined by a panel of three certified appraisers licensed under chapter 339, using the following process. Each party will appoint one certified appraiser to the panel, and the two certified appraisers so appointed will appoint a third certified appraiser. Each appraiser will independently appraise the appropriate lease rate, and the market rate shall be set at the mid-point between the highest and lowest market rates among the three independent appraisals, provided the mid-point between the highest and lowest appraisals is greater than or less than ten percent of the appraisal of the third appraiser chosen by the parties' appointed appraisers. In such case, the third appraisal will determine the rate for the lease. The appraisal process shall be concluded within ninety calendar days from the date the applicant first tenders its proposed lease rate to the authority. Each party will bear the cost of its own appointed appraiser, and the parties shall share equally the cost

of the third appraiser chosen by the two appointed appraisers. Nothing in this paragraph shall bar an applicant and an authority from agreeing to reasonable, periodic reviews and adjustments of current market rates during the term of a lease or contract to use an authority's property; and

(b) An authority may not offer a lease or contract to use public lands to locate a wireless support structure on an authority's property that is less than fifteen years in duration unless the applicant agrees to accept a lease or contract of less than fifteen years in duration;

(3) Nothing in subsection 2 of this section is intended to limit an authority's lawful exercise of zoning, land use, or planning and permitting authority with respect to applications for new wireless support structures on an authority's property under subsection 1 of section 67.5096.

67.5103. POWER OF EMINENT DOMAIN PROHIBITED, WHEN. — Notwithstanding any provision of sections 67.5090 to 67.5102, nothing herein shall provide any applicant the power of eminent domain or the right to compel any private or public property owner, the department of conservation, the department of natural resources, or the state highways and transportation commission to:

(1) Lease or sell property for the construction of a new wireless support structure; or

(2) Locate or cause the collocation or expansion of a wireless facility on any existing structure or wireless support structure.

67.5104. POLE ATTACHMENT DEFINED — POLE ATTACHMENT FEES, TERMS, AND CONDITIONS TO BE NONDISCRIMINATORY — REVIEW. — 1. As used in this section, "pole attachment" means an attachment by a video service provider, a telecommunications or other communications-related service provider to a pole owned by a municipal utility, but not a wireless antenna attachment or an attachment by a wireless communications provider to a pole.

2. Notwithstanding sections 67.1830 to 67.1846, any pole attachment fees, terms, and conditions, including those related to the granting or denial of access, demanded by a municipal utility pole owner or controlling authority of a municipality shall be nondiscriminatory, just, and reasonable and shall not be subject to any required franchise authority or government entity permitting, except as provided in this section. A pole attachment rental fee shall be calculated on an annual, per pole basis. Such rental fee shall be considered nondiscriminatory, just, and reasonable if it is agreed upon by the parties or, in the absence of such an agreement, based on cost but in no such case shall such fee so calculated be greater than the fee which would apply if it were calculated in accordance with the cable service rate formula referenced in 47 U.S.C. Sec. 224(d) as applied by the Federal Communications Commission, except as permitted by subsection 3 of this section.

3. Either party may seek review of any fee, term, or condition by means of binding arbitration conducted by a single arbitrator mutually agreeable to the parties or, in the absence of such an agreement, by means of binding arbitration conducted by the American Arbitration Association. An arbitrator's award regarding fees shall be confined to ensuring that the municipal utility pole owner recovers its direct costs and a reasonable share of the fully allocated costs attributable to the pole attachment, and that the fee may exceed the fee resulting from the application of the cable service rate formula referenced in this section only if based on an express written finding stated in the award that such award is based on competent and substantial evidence that the revenues produced under the cable service rate formula and other payments made by the service provider do not sufficiently recover the direct costs and a reasonable share of the fully

allocated costs attributable to the pole attachment. In addition, a municipal pole owner may be authorized to exceed the rate of return cost components of the Federal Communications Commission formula referenced in this section if necessary to comply with article X of the Missouri Constitution. Pending the arbitrator's rendering of such an award, the last existent rental fee applicable to the pole attachment shall remain in place and binding upon both parties.

4. Where no prior contract exists between an attaching entity and the municipal utility pole owner, and a dispute between a municipal utility pole owner and an attaching entity exclusively concerns the per pole fee, then the attaching entity may proceed with its attachments during the pendency of the arbitration under the agreed upon terms and conditions.

5. The provisions of this section shall not supersede existing pole attachment agreements established prior to August 28, 2013.

6. Nothing in this section shall be construed as conferring any jurisdiction or authority to the public service commission to regulate either the fees, terms, or conditions for pole attachments, or for any state agency to assert any jurisdiction over pole attachments regulated by 47 U.S.C. Sec. 224.

[67.5103. POWER OF EMINENT DOMAIN PROHIBITED, WHEN. — Notwithstanding any provision of sections 67.5090 to 67.5102, nothing herein shall provide any applicant the power of eminent domain or the right to compel any private or public property owner, or the department of conservation or department of natural resources to:

(1) Lease or sell property for the construction of a new wireless support structure; or

(2) Locate or cause the collocation or expansion of a wireless facility on any existing structure or wireless support structure.**]**

AN ACT to repeal section 301.130, RSMo, and to enact in lieu thereof one new section relating to license plates for property-carrying commercial motor vehicles.

SECTION

A. Enacting clause.

301.130. License plates, required slogan and information — special plates — plates, how displayed — tabs to be used — rulemaking authority, procedure.

Be it enacted by the General Assembly of the state of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Section 301.130, RSMo, is repealed and one new section enacted in lieu thereof, to be known as section 301.130, to read as follows:

301.130. LICENSE PLATES, REQUIRED SLOGAN AND INFORMATION — SPECIAL PLATES — PLATES, HOW DISPLAYED — TABS TO BE USED — RULEMAKING AUTHORITY, PROCEDURE. — 1. The director of revenue, upon receipt of a proper application for registration, required fees and any other information which may be required by law, shall issue to the applicant a certificate of registration in such manner and form as the director of revenue may prescribe and a set of license plates, or other evidence of registration, as provided by this section. Each set of license plates shall bear the name or abbreviated name of this state, the words "SHOW-ME STATE", the month and year in which the registration shall expire, and an arrangement of numbers or letters, or both, as shall be assigned from year to year by the director of revenue. The plates shall also contain fully reflective material with a common color scheme and design for each type of license plate issued pursuant to this chapter. The plates shall be clearly visible at night, and shall be aesthetically attractive. Special plates for qualified disabled veterans will have the "DISABLED VETERAN" wording on the license plates in preference to the words "SHOW-ME STATE" and special plates for members of the National Guard will have the "NATIONAL GUARD" wording in preference to the words "SHOW-ME STATE".

2. The arrangement of letters and numbers of license plates shall be uniform throughout each classification of registration. The director may provide for the arrangement of the numbers in groups or otherwise, and for other distinguishing marks on the plates.

3. All property-carrying commercial motor vehicles to be registered at a gross weight in excess of twelve thousand pounds, all passenger-carrying commercial motor vehicles, local transit buses, school buses, trailers, semitrailers, motorcycles, motortricycles, motorscooters and driveaway vehicles shall be registered with the director of revenue as provided for in subsection 3 of section 301.030, or with the state highways and transportation commission as otherwise provided in this chapter, but only one license plate shall be issued for each such vehicle**, except as provided in this subsection. The applicant for registration of any property-carrying commercial vehicle registered at a gross weight in excess of twelve thousand pounds may request and be issued two license plates for such vehicle, and if such plates are issued, the director of revenue shall provide for distinguishing marks on the plates indicating one plate is for the front and the other is for the rear of such vehicle. The director may assess and collect an additional charge from the applicant in an amount not to exceed the fee prescribed for personalized license plates in subsection 1 of section 301.144**.

4. The plates issued to manufacturers and dealers shall bear the letters and numbers as prescribed by section 301.560, and the director may place upon the plates other letters or marks to distinguish commercial motor vehicles and trailers and other types of motor vehicles.

5. No motor vehicle or trailer shall be operated on any highway of this state unless it shall have displayed thereon the license plate or set of license plates issued by the director of revenue or the state highways and transportation commission and authorized by section 301.140. Each such plate shall be securely fastened to the motor vehicle or trailer in a manner so that all parts thereof shall be plainly visible and reasonably clean so that the reflective qualities thereof are not impaired. Each such plate may be encased in a transparent cover so long as the plate is plainly visible and its reflective qualities are not impaired. License plates shall be fastened to all motor vehicles except trucks, tractors, truck tractors or truck-tractors licensed in excess of twelve thousand pounds on the front and rear of such vehicles not less than eight nor more than forty-eight inches above the ground, with the letters and numbers thereon right side up. The license plates on trailers, motorcycles, motortricycles and motorscooters shall be displayed on the rear of such vehicles, with the letters and numbers thereon right side up. The license plate on buses, other than school buses, and on trucks, tractors, truck tractors or truck-tractors licensed in excess of twelve thousand pounds shall be displayed on the front of such vehicles not less than eight nor more than forty-eight inches above the ground, with the letters and numbers thereon right side up or if two plates are issued for the vehicle pursuant to subsection 3 of this section, displayed in the same manner on the front and rear of such vehicles. The license plate or plates authorized

by section 301.140, when properly attached, shall be prima facie evidence that the required fees have been paid.

6. (1) The director of revenue shall issue annually or biennially a tab or set of tabs as provided by law as evidence of the annual payment of registration fees and the current registration of a vehicle in lieu of the set of plates. Beginning January 1, 2010, the director may prescribe any additional information recorded on the tab or tabs to ensure that the tab or tabs positively correlate with the license plate or plates issued by the department of revenue for such vehicle. Such tabs shall be produced in each license bureau office.

(2) The vehicle owner to whom a tab or set of tabs is issued shall affix and display such tab or tabs in the designated area of the license plate, no more than one per plate.

(3) A tab or set of tabs issued by the director of revenue when attached to a vehicle in the prescribed manner shall be prima facie evidence that the registration fee for such vehicle has been paid.

(4) Except as otherwise provided in this section, the director of revenue shall issue plates for a period of at least six years.

(5) For those commercial motor vehicles and trailers registered pursuant to section 301.041, the plate issued by the highways and transportation commission shall be a permanent nonexpiring license plate for which no tabs shall be issued. Nothing in this section shall relieve the owner of any vehicle permanently registered pursuant to this section from the obligation to pay the annual registration fee due for the vehicle. The permanent nonexpiring license plate shall be returned to the highways and transportation commission upon the sale or disposal of the vehicle by the owner to whom the permanent nonexpiring license plate is issued, or the plate may be transferred to a replacement commercial motor vehicle when the owner files a supplemental application with the Missouri highways and transportation commission for the registration of such replacement commercial motor vehicle. Upon payment of the annual registration fee, the highways and transportation commission shall issue a certificate of registration or other suitable evidence of payment of the annual fee, and such evidence of payment shall be carried at all times in the vehicle for which it is issued.

(6) Upon the sale or disposal of any vehicle permanently registered under this section, or upon the termination of a lease of any such vehicle, the permanent nonexpiring plate issued for such vehicle shall be returned to the highways and transportation commission and shall not be valid for operation of such vehicle, or the plate may be transferred to a replacement vehicle when the owner files a supplemental application with the Missouri highways and transportation commission for the registration of such replacement vehicle. If a vehicle which is permanently registered under this section is sold, wrecked or otherwise disposed of, or the lease terminated, the registrant shall be given credit for any unused portion of the annual registration fee when the vehicle is replaced by the purchase or lease of another vehicle during the registration year.

7. The director of revenue and the highways and transportation commission may prescribe rules and regulations for the effective administration of this section. No rule or portion of a rule promulgated under the authority of this section shall become effective unless it has been promulgated pursuant to the provisions of section 536.024.

8. Notwithstanding the provisions of any other law to the contrary, owners of motor vehicles other than apportioned motor vehicles or commercial motor vehicles licensed in excess of eighteen thousand pounds gross weight may apply for special personalized license plates. Vehicles licensed for eighteen thousand pounds that display special personalized license plates shall be subject to the provisions of subsections 1 and 2 of section 301.030.

9. No later than January 1, 2009, the director of revenue shall commence the reissuance of new license plates of such design as directed by the director consistent with the terms, conditions, and provisions of this section and this chapter. Except as otherwise provided in this section, in addition to all other fees required by law, applicants for registration of vehicles with license plates that expire during the period of reissuance, applicants for registration of trailers or semitrailers with license plates that expire during the period of reissuance and applicants for

registration of vehicles that are to be issued new license plates during the period of reissuance shall pay the cost of the plates required by this subsection. The additional cost prescribed in this subsection shall not be charged to persons receiving special license plates issued under section 301.073 or 301.443. Historic motor vehicle license plates registered pursuant to section 301.131 and specialized license plates are exempt from the provisions of this subsection. Except for new, replacement, and transfer applications, permanent nonexpiring license plates issued to commercial motor vehicles and trailers registered under section 301.041 are exempt from the provisions of this subsection.

96.229. CHARTER HOSPITALS, ELECTION TO BE GOVERNED BY NONPROFIT CORPORATION LAW, PROCEDURE. — 1. Notwithstanding subsection 5 of section 96.150 regarding the lease of substantially all of a hospital where the board of trustees is lessor, a city in which a hospital is located that:

(1) Is organized and operated under this chapter;

(2) Has not accepted appropriated funds from the city during the prior twenty years; and

(3) Is licensed by the department of health and senior services for two hundred beds or more pursuant to sections 197.010 to 197.120,

shall not have authority to sell, lease, or otherwise transfer all or substantially all of the property from a hospital organized under this chapter, both real and personal, except in accordance with this section.

2. Upon filing with the city clerk of a resolution adopted by no less than two-thirds of the incumbent members of the board of trustees to sell, lease, or otherwise transfer all or substantially all of the hospital property, both real and personal, for reasons specified in the resolution, the clerk shall present the resolution to the city council. If a majority of the incumbent members of the city council determine that sale, lease, or other transfer of the hospital property is desirable, the city council shall submit to the voters of the city the question in substantially the following form:

"Shall the city council of . . . . . , Missouri and the board of trustees of . . . . . hospital be authorized to sell (or lease or otherwise transfer) the property, real and personal, of . . . . . hospital as approved by, and in accordance with, the resolution of the board of trustees authorizing such sale (or lease or transfer)?"

A majority of the votes cast on such question shall be required in order to approve and authorize such sale, lease or other transfer. If the question receives less than the required majority, then the city council and the board of trustees shall have no power to sell, lease or otherwise transfer the property, real and personal, of the hospital unless and until the city council has submitted another question to authorize such sale, lease or transfer authorized under this section and such question is approved by the required majority of the qualified voters voting thereon. However, in no event shall a question under this section be submitted to the voters sooner than twelve months from the date of the last question under this section and after the adoption of another resolution by no less than two-thirds of the board of trustees and a subsequent vote by a majority of the city council to again submit the question to the voters.

3. Upon passage of such question by the voters, the board of trustees shall sell and dispose of such property, or lease or transfer such property, in the manner proposed by the board of trustees. The deed of the board of trustees, duly authorized by the board of trustees and duly acknowledged and recorded, shall be sufficient to convey to the purchaser all the rights, title, interest, and estate in the hospital property.

4. No sale, lease, or other transfer of such hospital property shall be authorized or effective unless such transaction provides sufficient proceeds to be available to be applied to the payment of all interest and principal of any outstanding valid indebtedness incurred for purchase of the site or construction of the hospital, or for any repairs, alterations, improvements, or additions thereto, or for operation of the hospital.

5. Assets donated to the hospital pursuant to section 96.210 shall be used to provide health care services in the city and in the geographic region previously served by the hospital, except as otherwise prescribed by the terms of the deed, gift, devise, or bequest.

191.227. MEDICAL RECORDS TO BE RELEASED TO PATIENT, WHEN, EXCEPTION — FEE PERMITTED, AMOUNT — LIABILITY OF PROVIDER LIMITED — ANNUAL HANDLING FEE ADJUSTMENT. — 1. All physicians, chiropractors, hospitals, dentists, and other duly licensed practitioners in this state, herein called "providers", shall, upon written request of a patient, or guardian or legally authorized representative of a patient, furnish a copy of his or her record of that patient's health history and treatment rendered to the person submitting a written request, except that such right shall be limited to access consistent with the patient's condition and sound therapeutic treatment as determined by the provider. Beginning August 28, 1994, such record shall be furnished within a reasonable time of the receipt of the request therefor and upon payment of a fee as provided in this section.

2. Health care providers may condition the furnishing of the patient's health care records to the patient, the patient's authorized representative or any other person or entity authorized by law to obtain or reproduce such records upon payment of a fee for:

(1) (a) **[**Copying**]** **Search and retrieval**, in an amount not more than **[**twenty-one**]** **twenty-two** dollars and **[**thirty-six cents**]** **eighty-two cents** plus **copying in the amount of [**fifty**]**

fifty-three cents per page for the cost of supplies and labor plus, if the health care provider has contracted for off-site records storage and management, any additional labor costs of outside storage retrieval, not to exceed **[**twenty**]** **twenty-one** dollars **and thirty-six cents**, as adjusted annually pursuant to subsection 5 of this section; or

(b) **[**If the health care provider stores records in an electronic or digital format, and provides the requested records and affidavit, if requested, in an electronic or digital format, not more than five dollars plus fifty cents per page or twenty-five dollars total, whichever is less**]** **The records shall be furnished electronically upon payment of the search, retrieval, and copying fees set under this section at the time of the request or one hundred dollars total, whichever is less, if such person:**

a. Requests health records to be delivered electronically in a format of the health care provider's choice;

b. The health care provider stores such records completely in an electronic health record; and

c. The health care provider is capable of providing the requested records and affidavit, if requested, in an electronic format;

(2) Postage, to include packaging and delivery cost; and

(3) Notary fee, not to exceed two dollars, if requested.

3. Notwithstanding provisions of this section to the contrary, providers may charge for the reasonable cost of all duplications of health care record material or information which cannot routinely be copied or duplicated on a standard commercial photocopy machine.

4. The transfer of the patient's record done in good faith shall not render the provider liable to the patient or any other person for any consequences which resulted or may result from disclosure of the patient's record as required by this section.

5. Effective February first of each year, the fees listed in subsection 2 of this section shall be increased or decreased annually based on the annual percentage change in the unadjusted, U.S. city average, annual average inflation rate of the medical care component of the Consumer Price Index for All Urban Consumers (CPI-U). The current reference base of the index, as published by the Bureau of Labor Statistics of the United States Department of Labor, shall be used as the reference base. For purposes of this subsection, the annual average inflation rate shall be based on a twelve-month calendar year beginning in January and ending in December of each preceding calendar year. The department of health and senior services shall report the annual adjustment and the adjusted fees authorized in this section on the department's internet website by February first of each year.

197.080. RULES, PROCEDURE — REGULATIONS AND STANDARDS — REVIEW AND REVISION OF REGULATIONS — RULEMAKING AUTHORITY. — 1. The department of health and senior services, with the advice of the state advisory council and pursuant to the provisions of this section and chapter 536, shall adopt, amend, promulgate and enforce such rules, regulations and standards with respect to all hospitals or different types of hospitals to be licensed hereunder as may be designed to further the accomplishment of the purposes of this law in promoting safe and adequate treatment of individuals in hospitals in the interest of public health, safety and welfare. No rule or portion of a rule promulgated under the authority of sections 197.010 to 197.280 shall become effective unless it has been promulgated pursuant to the provisions of section 536.024.

2. The department shall review and revise regulations governing hospital licensure and enforcement to promote hospital and regulatory efficiencies and eliminate duplicative regulations and inspections by or on behalf of state agencies and the Centers for Medicare and Medicaid Services (CMS). The hospital licensure regulations adopted under this section shall incorporate standards which shall include, but not be limited to, the following:

(1) Each citation or finding of a regulatory deficiency shall refer to the specific written regulation, any state associated written interpretive guidance developed by the department and any publicly available, professionally recognized standards of care that are the basis of the citation or finding;

(2) Subject to appropriations, the department shall ensure that its hospital licensure regulatory standards are consistent with and do not contradict the CMS Conditions of Participation (COP) and associated interpretive guidance. However, this shall not preclude the department from enforcing standards produced by the department which exceed the federal CMS' COP and associated interpretive guidance, so long as such standards produced by the department promote a higher degree of patient safety and do not contradict the federal CMS' COP and associated interpretive guidance;

(3) The department shall establish and publish guidelines for complaint investigation, including but not limited to:

(a) The department's process for reviewing and determining which complaints warrant an onsite investigation based on a preliminary review of available information from the complainant, other appropriate sources, and when not prohibited by CMS, the hospital. For purposes of providing hospitals with information necessary to improve processes and patient care, the number and nature of complaints filed and the recommended actions by the department and, as appropriate CMS, shall be disclosed upon request to hospitals so long as the otherwise confidential identity of the complainant or the patient for whom the complaint was filed is not disclosed;

(b) A departmental investigation of a complaint shall be focused on the specific regulatory standard and departmental written interpretive guidance and publicly available professionally recognized standard of care related to the complaint. During the course of any complaint investigation, the department shall cite any serious and immediate threat discovered that may potentially jeopardize the health and safety of patients;

(c) A hospital shall be provided with a report of all complaints made against the hospital. Such report shall include the nature of the complaint, the date of the complaint, the department conclusions regarding the complaint, the number of investigators and days of investigation resulting from each complaint;

(4) Hospitals and hospital personnel shall have the opportunity to participate in annual continuing training sessions when such training is provided to state licensure surveyors with prior approval from the department director and CMS when appropriate. Hospitals and hospital personnel shall assume all costs associated with facilitating the training sessions and use of curriculum materials, including but not limited to the location for training, food, and printing costs;

(5) Time lines for the department to provide responses to hospitals regarding the status and outcome of pending investigations and regulatory actions and questions about interpretations of regulations shall be identical to, to the extent practicable, the time lines established for the federal hospital certification and enforcement system in the CMS State Operations Manual, as amended. These time lines shall be the guide for the department to follow. Every reasonable attempt shall be made to meet the time lines. However, failure to meet the established time lines shall in no way prevent the department from performing any necessary inspections to ensure the health and safety of patients.

3. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the

grant of rulemaking authority and any rule proposed or adopted after August 28, 2013, shall be invalid and void.

197.100. INSPECTIONS BY DEPARTMENT OF HEALTH AND SENIOR SERVICES REQUIRED, REPORTS FROM CERTAIN OTHER AGENCIES ACCEPTED, WHEN — DEPARTMENT TO DETERMINE LIFE, SAFETY, AND BUILDING CODES. — 1. Any provision of chapter 198 and chapter 338 to the contrary notwithstanding, the department of health and senior services shall have sole authority, and responsibility for inspection and licensure of hospitals in this state including, but not limited to all parts, services, functions, support functions and activities which contribute directly or indirectly to patient care of any kind whatsoever. The department of health and senior services shall annually inspect each licensed hospital and shall make any other inspections and investigations as it deems necessary for good cause shown. The department of health and senior services shall accept reports of hospital inspections from governmental agencies **[**and recognized accrediting organizations in whole or in part for licensure purposes if:

(1) The inspection is comparable to an inspection performed by the department of health and senior services;

(2) The hospital meets minimum licensure standards; and

(3) the inspection was conducted within one year of the date of license renewal**], the joint commission, and the American Osteopathic Association Healthcare Facilities Accreditation Program, provided the accreditation inspection was conducted within one year of the date of license renewal. Prior to granting acceptance of any other accrediting organization reports in lieu of the required licensure survey, the accrediting organization's survey process must be deemed appropriate and found to be comparable to the department's licensure survey. It shall be the accrediting organization's responsibility to provide the department any and all information necessary to determine if the accrediting organization's survey process is comparable and fully meets the intent of the licensure regulations**. The department of health and senior services shall attempt to schedule inspections and evaluations required by this section so as not to cause a hospital to be subject to more than one inspection in any twelve-month period from the department of health and senior services or any agency or accreditation organization the reports of which are accepted for licensure purposes pursuant to this section, except for good cause shown.

2. Other provisions of law to the contrary notwithstanding, the department of health and senior services shall be the only state agency to determine life safety and building codes for hospitals defined or licensed pursuant to the provisions of this chapter, including but not limited to sprinkler systems, smoke detection devices and other fire safety related matters so long as any new standards shall apply only to new construction.

SECTION 1. INVESTIGATION OF COMPLAINTS, DEPARTMENT TO POST ON WEBSITE, CONTENT. — 1. The department of health and senior services shall post on its website information regarding investigations of complaints against hospitals. The posting of such information shall comply with all of the following requirements:

(1) Complaint data shall not be posted unless the complaint has been substantiated by investigation by departmental employees to require a statement of deficiency;

(2) The posting shall include the hospital's plan of correction accepted by departmental officials;

(3) The posting shall include the dates and specific findings of the departmental investigation;

(4) The posting shall list or include a link to each facility's annualized rate of substantiated complaints per patient day;

(5) The posting shall display the complaint investigation data so as to provide for peer group comparisons of:

(a) Psychiatric hospitals or psychiatric units within hospitals;

(b) Long-term acute care hospitals as defined by 42 CFR 412.23(e);

(c) Inpatient rehabilitation facilities or units meeting the requirements of 42 CFR 412.29; and

(6) Time lines for posting such information shall be consistent with the CMS State Operations Manual, as amended.

2. This section shall not be construed to require or permit the posting of information that would violate state or federal laws or regulations governing the confidentiality of patient data or medical records or information protected under subsection 4 of section 537.035.

SECTION B. EMERGENCY CLAUSE. — Because of the need to ensure local hospitals can continue the purpose of providing the best care and treatment of the sick, disabled, and infirm persons as decided on by the people in the affected community, the enactment of section 96.229 of this act is deemed necessary for the immediate preservation of the public health, welfare, peace and safety, and is hereby declared to be an emergency act within the meaning of the constitution, and the enactment of section 96.229 of this act shall be in full force and effect upon its passage and approval.

(3) Any administrative decision or order or proposed administrative modification of judicial order, issued under this section may be vacated by an agency administrative hearing officer upon their own initiative or by written motion filed by the division or any party to the action provided the written motion is mailed to all parties, if the administrative hearing officer determines that the decision or order was issued without subject matter jurisdiction, without personal jurisdiction, or without affording the parties due process. involving a child, incest, endangering the welfare of a child in the first degree under subdivision (1) or (2) of subsection 1 of section 568.045, abuse of a child, invasion of privacy or any case in which the defendant is found guilty of a felony offense under chapter 571;

(b) The probation violation is not the result of the defendant being an absconder or being found guilty of, pleading guilty to, or being arrested on suspicion of any felony, misdemeanor, or infraction. For purposes of this subsection, "absconder" shall mean an offender under supervision who has left such offender's place of residency without the permission of the offender's supervising officer for the purpose of avoiding supervision;

(c) The defendant has not violated any conditions of probation involving the possession or use of weapons, or a stay-away condition prohibiting the defendant from contacting a certain individual; and

(d) The defendant has not already been placed in one of the programs by the court for the same underlying offense or during the same probation term.

(2) Upon receiving the order, the department of corrections shall conduct an assessment of the offender and place such offender in the appropriate one hundred twenty-day program under subsection 3 of section 559.115.

(3) Notwithstanding any of the provisions of subsection 3 of section 559.115 to the contrary, once the defendant has successfully completed the program under this subsection, the court shall release the defendant to continue to serve the term of probation, which shall not be modified, enlarged, or extended based on the same incident of violation. Time served in the program shall be credited as time served on any sentence imposed for the underlying offense.

5. If **the defendant consents to the revocation of probation or if** the defendant is not eligible under subsection 4 of this section for placement in a program and a continuation, modification, enlargement, or extension of the term under this section is not appropriate, the court may revoke probation and order that any sentence previously imposed be executed. If imposition of sentence was suspended, the court may revoke probation and impose any sentence available under section 557.011. The court may mitigate any sentence of imprisonment by reducing the prison or jail term by all or part of the time the defendant was on probation. The court may, upon revocation of probation, place an offender on a second term of probation. Such probation shall be for a term of probation as provided by section 559.016, notwithstanding any amount of time served by the offender on the first term of probation.

6. Probation shall not be revoked without giving the probationer notice and an opportunity to be heard on the issues of whether he violated a condition of probation and, if he did, whether revocation is warranted under all the circumstances.

7. The prosecuting or circuit attorney may file a motion to revoke probation or at any time during the term of probation, the court may issue a notice to the probationer to appear to answer a charge of a violation, and the court may issue a warrant of arrest for the violation. Such notice shall be personally served upon the probationer. The warrant shall authorize the return of the probationer to the custody of the court or to any suitable detention facility designated by the court. Upon the filing of the prosecutor's or circuit attorney's motion or on the court's own motion, the court may immediately enter an order suspending the period of probation and may order a warrant for the defendant's arrest. The probation shall remain suspended until the court rules on the prosecutor's or circuit attorney's motion, or until the court otherwise orders the probation reinstated.

8. The power of the court to revoke probation shall extend for the duration of the term of probation designated by the court and for any further period which is reasonably necessary for the adjudication of matters arising before its expiration, provided that some affirmative manifestation of an intent to conduct a revocation hearing occurs prior to the expiration of the period and that every reasonable effort is made to notify the probationer and to conduct the hearing prior to the expiration of the period.

559.115. APPEALS, PROBATION NOT TO BE GRANTED, WHEN — PROBATION GRANTED AFTER DELIVERY TO DEPARTMENT OF CORRECTIONS, TIME LIMITATION, ASSESSMENT — ONE HUNDRED TWENTY DAY PROGRAM — NOTIFICATION TO STATE, WHEN, HEARING — NO PROBATION IN CERTAIN CASES. — 1. Neither probation nor parole shall be granted by the circuit court between the time the transcript on appeal from the offender's conviction has been filed in appellate court and the disposition of the appeal by such court.

2. Unless otherwise prohibited by subsection **[**5**]** **8** of this section, a circuit court only upon its own motion and not that of the state or the offender shall have the power to grant probation to an offender anytime up to one hundred twenty days after such offender has been delivered to the department of corrections but not thereafter. The court may request information and a recommendation from the department concerning the offender and such offender's behavior during the period of incarceration. Except as provided in this section, the court may place the offender on probation in a program created pursuant to section 217.777, or may place the offender on probation with any other conditions authorized by law.

3. The court may recommend placement of an offender in a department of corrections one hundred twenty-day program under this **[**section**]** **subsection** or order such placement under subsection 4 of section 559.036. Upon the recommendation or order of the court, the department of corrections shall assess each offender to determine the appropriate **one hundred twenty-day** program in which to place the offender, **[**including**]** **which may include placement in the** shock incarceration **program** or institutional treatment **program**. When the court recommends and receives placement of an offender in a department of corrections one hundred twenty-day program, the offender shall be released on probation if the department of corrections determines that the offender has successfully completed the program except as follows. Upon successful completion of a **[**treatment**]** program **under this subsection**, the board of probation and parole shall advise the sentencing court of an offender's probationary release date thirty days prior to release. **[**The court shall release the offender unless such release constitutes an abuse of discretion. If the court determined that there is an abuse of discretion, the court may order the execution of the offender's sentence only after conducting a hearing on the matter within ninety to one hundred twenty days of the offender's sentence. If the court does not respond when an offender successfully completes the program, the offender shall be released on probation. Upon successful completion of a shock incarceration program, the board of probation and parole shall advise the sentencing court of an offender's probationary release date thirty days prior to release.**]** The court shall follow the recommendation of the department unless the court determines that probation is not appropriate. If the court determines that probation is not appropriate, the court may order the execution of the offender's sentence only after conducting a hearing on the matter within ninety to one hundred twenty days **[**of the offender's sentence. If the department determines that an offender is not successful in a program, then after one hundred days of incarceration the circuit court shall receive from**]** **from the date the offender was delivered to the department of corrections. If the department determines the offender has not successfully completed a one hundred twenty-day program under this subsection, the offender shall be removed from the program and the court shall be advised of the removal.** The department **[**of corrections a**]** **shall** report on the offender's participation in the program and **[**department**]** **may provide** recommendations for terms and conditions of an offender's probation. The court shall then **[**release the offender on probation or order the offender to remain in the department to serve the sentence imposed**]** **have the power to grant probation or order the execution of the offender's sentence**.

4. **If the court is advised that an offender is not eligible for placement in a one hundred twenty-day program under subsection 3 of this section, the court shall consider other authorized dispositions.** If the department of corrections one hundred twenty-day program **under subsection 3 of this section** is full, the court may place the offender in a private program approved by the department of corrections or the court, the expenses of such program to be paid by the offender, or in an available program offered by another organization. If the

offender is convicted of a class C or class D nonviolent felony, the court may order probation while awaiting appointment to treatment.

5. Except when the offender has been found to be a predatory sexual offender pursuant to section 558.018, the court shall request **[**that the offender be placed in the sexual offender assessment unit of the department of corrections**]** **the department of corrections to conduct a sexual offender assessment** if the defendant has pleaded guilty to or has been found guilty of sexual abuse when classified as a class B felony. **Upon completion of the assessment, the department shall provide to the court a report on the offender and may provide recommendations for terms and conditions of an offender's probation. The assessment shall not be considered a one hundred twenty-day program as provided under subsection 3 of this section. The process for granting probation to an offender who has completed the assessment shall be as provided under subsections 2 and 6 of this section.**

6. Unless the offender is being granted probation pursuant to successful completion of a one hundred twenty-day program the circuit court shall notify the state in writing when the court intends to grant probation to the offender pursuant to the provisions of this section. The state may, in writing, request a hearing within ten days of receipt of the court's notification that the court intends to grant probation. Upon the state's request for a hearing, the court shall grant a hearing as soon as reasonably possible. If the state does not respond to the court's notice in writing within ten days, the court may proceed upon its own motion to grant probation.

7. An offender's first incarceration **[**for one hundred twenty days for participation in a department of corrections program**]** **under this section** prior to release on probation shall not be considered a previous prison commitment for the purpose of determining a minimum prison term under the provisions of section 558.019.

8. Notwithstanding any other provision of law, probation may not be granted pursuant to this section to offenders who have been convicted of murder in the second degree pursuant to section 565.021; forcible rape pursuant to section 566.030; forcible sodomy pursuant to section 566.060; statutory rape in the first degree pursuant to section 566.032; statutory sodomy in the first degree pursuant to section 566.062; child molestation in the first degree pursuant to section 566.067 when classified as a class A felony; abuse of a child pursuant to section 568.060 when classified as a class A felony; an offender who has been found to be a predatory sexual offender pursuant to section 558.018; or any offense in which there exists a statutory prohibition against either probation or parole.

632.498. ANNUAL EXAMINATION OF MENTAL CONDITION, NOT REQUIRED, WHEN — ANNUAL REVIEW BY THE COURT — PETITION FOR RELEASE, HEARING, PROCEDURES (WHEN DIRECTOR DISAPPROVES). — 1. Each person committed pursuant to sections 632.480 to 632.513 shall have a current examination of the person's mental condition made once every year by the director of the department of mental health or designee. The yearly report shall be provided to the court that committed the person pursuant to sections 632.480 to 632.513. The court shall conduct an annual review of the status of the committed person. The court shall not conduct an annual review of a person's status if he or she has been conditionally released pursuant to section 632.505.

2. Nothing contained in sections 632.480 to 632.513 shall prohibit the person from otherwise petitioning the court for release. The director of the department of mental health shall provide the committed person who has not been conditionally released with an annual written notice of the person's right to petition the court for release over the director's objection. The notice shall contain a waiver of rights. The director shall forward the notice and waiver form to the court with the annual report.

3. If the committed person petitions the court for conditional release over the director's objection, the petition shall be served upon the court that committed the person, the **prosecuting attorney of the jurisdiction into which the committed person is to be released, the** director

of the department of mental health, the head of the facility housing the person, and the attorney general.

4. The committed person shall have a right to have an attorney represent the person at the hearing but the person is not entitled to be present at the hearing. If the court at the hearing determines by a preponderance of the evidence that the person no longer suffers from a mental abnormality that makes the person likely to engage in acts of sexual violence if released, then the court shall set a trial on the issue.

5. The trial shall be governed by the following provisions:

(1) The committed person shall be entitled to be present and entitled to the benefit of all constitutional protections that were afforded the person at the initial commitment proceeding;

(2) The attorney general shall represent the state and shall have a right to a jury trial and to have the committed person evaluated by a psychiatrist or psychologist not employed by the department of mental health or the department of corrections. In addition, the person may be examined by a consenting psychiatrist or psychologist of the person's choice at the person's own expense;

(3) The burden of proof at the trial shall be upon the state to prove by clear and convincing evidence that the committed person's mental abnormality remains such that the person is not safe to be at large and if released is likely to engage in acts of sexual violence. If such determination is made by a jury, the verdict must be unanimous;

(4) If the court or jury finds that the person's mental abnormality remains such that the person is not safe to be at large and if released is likely to engage in acts of sexual violence, the person shall remain in the custody of the department of mental health in a secure facility designated by the director of the department of mental health. If the court or jury finds that the person's mental abnormality has so changed that the person is not likely to commit acts of sexual violence if released, the person shall be conditionally released as provided in section 632.505.

632.505. CONDITIONAL RELEASE — INTERAGENCY AGREEMENTS FOR SUPERVISION, PLAN — COURT REVIEW OF PLAN, ORDER, CONDITIONS — COPY OF ORDER — CONTINUING CONTROL AND CARE — MODIFICATIONS — VIOLATIONS — AGREEMENTS WITH PRIVATE ENTITIES — FEE, RULEMAKING AUTHORITY — ESCAPE — NOTIFICATION TO LOCAL LAW ENFORCEMENT, WHEN. — 1. Upon determination by a court or jury that the person's mental abnormality has so changed that the person is not likely to commit acts of sexual violence if released, the court shall place the person on conditional release pursuant to the terms of this section. The primary purpose of conditional release is to provide outpatient treatment and monitoring to prevent the person's condition from deteriorating to the degree that the person would need to be returned to a secure facility designated by the director of the department of mental health.

2. The department of mental health is authorized to enter into an interagency agreement with the department of corrections for the supervision of persons granted a conditional release by the court. In conjunction with the department of corrections, the department of mental health shall develop a conditional release plan which contains appropriate conditions for the person to be released. The plan shall address the person's need for supervision, counseling, medication, community support services, residential services, vocational services, and alcohol and drug treatment. The department of mental health shall submit the proposed plan for conditional release to the court.

3. The court shall review the plan and determine the conditions that it deems necessary to meet the person's need for treatment and supervision and to protect the safety of the public. The court shall order that the person shall be subject to the following conditions and other conditions as deemed necessary:

(1) Maintain a residence approved by the department of mental health and not change residence unless approved by the department of mental health;

(2) Maintain employment unless engaged in other structured activity approved by the department of mental health;

(3) Obey all federal and state laws;

(4) Not possess a firearm or dangerous weapon;

(5) Not be employed or voluntarily participate in an activity that involves contact with children without approval of the department of mental health;

(6) Not consume alcohol or use a controlled substance except as prescribed by a treating physician and to submit, upon request, to any procedure designed to test for alcohol or controlled substance use;

(7) Not associate with any person who has been convicted of a felony unless approved by the department of mental health;

(8) Not leave the state without permission of the department of mental health;

(9) Not have contact with specific persons, including but not limited to, the victim or victim's family, as directed by the department of mental health;

(10) Not have any contact with any child without specific approval by the department of mental health;

(11) Not possess material that is pornographic, sexually oriented, or sexually stimulating;

(12) Not enter a business providing sexually stimulating or sexually oriented entertainment;

(13) Submit to a polygraph, plethysmograph, or other electronic or behavioral monitoring or assessment;

(14) Submit to electronic monitoring which may be based on a global positioning system or other technology which identifies and records a person's location at all times;

(15) Attend and fully participate in assessment and treatment as directed by the department of mental health;

(16) Take all psychiatric medications as prescribed by a treating physician;

(17) Authorize the department of mental health to access and obtain copies of confidential records pertaining to evaluation, counseling, treatment, and other such records and provide the consent necessary for the release of any such records;

(18) Pay fees to the department of mental health and the department of corrections to cover the costs of services and monitoring;

(19) Report to or appear in person as directed by the department of mental health and the department of corrections, and to follow all directives of such departments;

(20) Comply with any registration requirements under sections 589.400 to 589.425; and

(21) Comply with any other conditions that the court determines to be in the best interest of the person and society.

4. The court shall provide a copy of the order containing the conditions of release to the person, the attorney general, the department of mental health, the head of the facility housing the person, and the department of corrections.

5. A person who is conditionally released and supervised by a probation and parole officer employed by the department of corrections remains under the control, care, and treatment of the department of mental health.

6. The court may modify conditions of release upon its own motion or upon the petition of the department of mental health, the department of corrections, or the person on conditional release.

7. The following provisions shall apply to violations of conditional release:

(1) If any probation and parole officer has reasonable cause to believe that a person on conditional release has violated a condition of release or that the person is no longer a proper subject for conditional release, the officer may issue a warrant for the person's arrest. The warrant shall contain a brief recitation of the facts supporting the officer's belief. The warrant shall direct any peace officer to take the person into custody immediately so that the person can be returned to a secure facility;

(2) If the director of the department of mental health or the director's designee has reasonable cause to believe that a person on conditional release has violated a condition of release or that the person is no longer a proper subject for conditional release, the director or the director's designee may request that a peace officer take the person into custody immediately, or request that a probation and parole officer or the court which ordered the release issue a warrant for the person's arrest so that the person can be returned to a secure facility;

(3) At any time during the period of a conditional release, the court which ordered the release may issue a notice to the released person to appear to answer a charge of a violation of the terms of the release and the court may issue a warrant of arrest for the violation. Such notice shall be personally served upon the released person. The warrant shall authorize the return of the released person to the custody of the court or to the custody of the director of mental health or the director's designee;

(4) No peace officer responsible for apprehending and returning the person to the facility upon the request of the director of the department of mental health or the director's designee or a probation and parole officer shall be civilly liable for apprehending or transporting such person to the facility so long as such duties were performed in good faith and without negligence;

(5) The department of mental health shall promptly notify the court that the person has been apprehended and returned to a secure facility;

(6) Within seven days of the person's return to a secure facility, the department of mental health must either request that the attorney general file a petition to revoke the person's conditional release or continue the person on conditional release;

(7) If a petition to revoke conditional release is filed, the person shall remain in custody until a hearing is held on the petition. The hearing shall be given priority on the court's docket. If upon hearing the evidence, the court finds by preponderance of the evidence that the person has violated a condition of release and that the violation of the condition was sufficient to render the person no longer suitable for conditional release, the court shall revoke the conditional release and order the person returned to a secure facility designated by the director of the department of mental health. If the court determines that revocation is not required, the court may modify or increase the conditions of release or order the person's release on the existing conditions of release;

(8) A person whose conditional release has been revoked may petition the court for subsequent release pursuant to sections 632.498, 632.501, and 632.504 no sooner than six months after the person's return to a secure facility.

8. The department of mental health may enter into agreements with the department of corrections and other departments and may enter into contracts with private entities for the purpose of supervising a person on conditional release.

9. The department of mental health and the department of corrections may require a person on conditional release to pay a reasonable fee to cover the costs of providing services and monitoring while the person is released. Each department may adopt rules with respect to establishing, waiving, collecting, and using fees. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2006, shall be invalid and void.

10. In the event a person on conditional release escapes from custody, the department of mental health shall notify the court, the department of corrections, the attorney general, the chief law enforcement officer of the county or city not within a county from where the person escaped or absconded, and any other persons necessary to protect the safety of the public or to assist in the apprehension of the person. The attorney general shall notify victims and

witnesses. Upon receiving such notice, the attorney general shall file escape from commitment charges under section 575.195.

11. When a person who has been granted conditional release under this section is being electronically monitored and remains in the county, city, town, or village where the facility is located that released the person, the department of corrections shall provide, upon request, the chief of the local law enforcement agency of such county, city, town, or village with access to the information gathered by the global positioning system or other technology used to monitor the person. This access shall include, but not be limited to, any user name or password needed to view any real-time or recorded information about the person, and any alert or message generated by the technology. The access shall continue while the person is being electronically monitored and is living in the county, city, town, or village where the facility that released the offender is located. The information obtained by the chief of the local law enforcement agency shall be closed and shall not be disclosed to any person outside the law enforcement agency except upon an order of the court supervising the conditional release.

SECTION
A. Enacting clause.
287.067. Occupational disease defined — repetitive motion, loss of hearing, radiation injury, communicable disease, others.
287.975. Pure premium rate, schedule of rates, filed with director, when — payroll differential, advisory organization to collect data, when, purpose.

Be it enacted by the General Assembly of the state of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Sections 287.067 and 287.975, RSMo, are repealed and two new sections enacted in lieu thereof, to be known as sections 287.067 and 287.975, to read as follows:

287.067. OCCUPATIONAL DISEASE DEFINED — REPETITIVE MOTION, LOSS OF HEARING, RADIATION INJURY, COMMUNICABLE DISEASE, OTHERS. — 1. In this chapter the term "occupational disease" is hereby defined to mean, unless a different meaning is clearly indicated by the context, an identifiable disease arising with or without human fault out of and in the course of the employment. Ordinary diseases of life to which the general public is exposed outside of the employment shall not be compensable, except where the diseases follow as an incident of an occupational disease as defined in this section. The disease need not to have been foreseen or expected but after its contraction it must appear to have had its origin in a risk connected with the employment and to have flowed from that source as a rational consequence.

2. An injury **or death** by occupational disease is compensable only if the occupational exposure was the prevailing factor in causing both the resulting medical condition and disability. The "prevailing factor" is defined to be the primary factor, in relation to any other factor, causing both the resulting medical condition and disability. Ordinary, gradual deterioration, or progressive degeneration of the body caused by aging or by the normal activities of day-to-day living shall not be compensable.

3. An injury due to repetitive motion is recognized as an occupational disease for purposes of this chapter. An occupational disease due to repetitive motion is compensable only if the occupational exposure was the prevailing factor in causing both the resulting medical condition and disability. The "prevailing factor" is defined to be the primary factor, in relation to any other factor, causing both the resulting medical condition and disability. Ordinary, gradual deterioration, or progressive degeneration of the body caused by aging or by the normal activities of day-to-day living shall not be compensable.

4. "Loss of hearing due to industrial noise" is recognized as an occupational disease for purposes of this chapter and is hereby defined to be a loss of hearing in one or both ears due to prolonged exposure to harmful noise in employment. "Harmful noise" means sound capable of producing occupational deafness.

5. "Radiation disability" is recognized as an occupational disease for purposes of this chapter and is hereby defined to be that disability due to radioactive properties or substances or

to Roentgen rays (X-rays) or exposure to ionizing radiation caused by any process involving the use of or direct contact with radium or radioactive properties or substances or the use of or direct exposure to Roentgen rays (X-rays) or ionizing radiation.

6. Disease of the lungs or respiratory tract, hypotension, hypertension, or disease of the heart or cardiovascular system, including carcinoma, may be recognized as occupational diseases for the purposes of this chapter and are defined to be disability due to exposure to smoke, gases, carcinogens, inadequate oxygen, of paid firefighters of a paid fire department or paid police officers of a paid police department certified under chapter 590 if a direct causal relationship is established, or psychological stress of firefighters of a paid fire department **or paid peace officers of a police department who are certified under chapter 590** if a direct causal relationship is established.

7. Any employee who is exposed to and contracts any contagious or communicable disease arising out of and in the course of his or her employment shall be eligible for benefits under this chapter as an occupational disease.

8. With regard to occupational disease due to repetitive motion, if the exposure to the repetitive motion which is found to be the cause of the injury is for a period of less than three months and the evidence demonstrates that the exposure to the repetitive motion with the immediate prior employer was the prevailing factor in causing the injury, the prior employer shall be liable for such occupational disease.

287.975. PURE PREMIUM RATE, SCHEDULE OF RATES, FILED WITH DIRECTOR, WHEN — PAYROLL DIFFERENTIAL, ADVISORY ORGANIZATION TO COLLECT DATA, WHEN, PURPOSE. — 1. The advisory organization shall file with the director every pure premium rate, every manual of rating rules, every rating schedule and every change or amendment, or modification of any of the foregoing, proposed for use in this state no more than thirty days after it is distributed to members, subscribers or others.

2. The advisory organization which makes a uniform classification system for use in setting rates in this state shall collect data for two years after January 1, 1994, on the payroll differential between employers within the construction group of code classifications, including, but not limited to, payroll costs of the employer and number of hours worked by all employees of the employer engaged in construction work. Such data shall be transferred to the department of insurance, financial institutions and professional registration in a form prescribed by the director of the department of insurance, financial institutions and professional registration, and the department shall compile the data and develop a formula to equalize premium rates for employers within the construction group of code classifications based on such payroll differential within three years after the data is submitted by the advisory organization.

3. The formula to equalize premium rates for employers within the construction group of code classifications established under subsection 2 of this section shall be the formula in effect on January 1, 1999. This subsection shall become effective on January 1, 2014.

For the purpose of such retirement benefits, such former disability beneficiary will be credited with all his or her creditable service, including any years in which such member received a disability pension under this section.

86.1210. PARTIAL LUMP SUM OPTION PLAN DISTRIBUTION AUTHORIZED. — 1. Any member **in active service** entitled to commence a pension under **subsection 1 of** section 86.1150 **[**with twenty-six years or more of creditable service**] or subsection 1 of section 86.1151** may elect an optional distribution under the partial lump sum option plan provided in this section if the member:

2. (1) A member entitled to make an election under this section may elect to receive a lump sum distribution with the member's initial monthly pension payment under **subsection 1 of** section 86.1150 **or subsection 1 of section 86.1151**, subject to all the terms of this section. (2) When a member makes an election to receive a lump sum distribution under this section, the base pension which the member would have received in the absence of the election shall be reduced on an actuarially equivalent basis to reflect the payment of the lump sum distribution, and the reduced base pension shall be the member's base pension thereafter for all purposes relating to base pension amounts under sections 86.900 to 86.1280**, unless the member has also elected an optional benefit permitted under subdivision (1) of subsection 2 of section 86.1151;**

(3) If a member electing a lump sum distribution under this section has elected the optional benefit permitted under subdivision (1) of subsection 2 of section 86.1151, the calculation of the member's pension shall be made in the following order:

(a) The amount of the member's normal pension under subsection 1 of section 86.1151 shall be reduced to the actuarially equivalent amount to produce the optional form of benefit described in subdivision (1) of subsection 2 of section 86.1151, and

(b) The amount of reduced pension as determined under paragraph (a) of this subdivision shall be further reduced as required to produce an actuarially equivalent benefit in the form of the lump sum distribution option elected under this section which will include the lump sum benefit and the optional benefit elected under subdivision (1) of subsection 2 of section 86.1151, and, subject to cost-of-living adjustments thereafter declared on the spouse's base pension under section 86.1220, shall be paid to such surviving spouse for the lifetime of such spouse.

5. Upon the death of a Tier II member who has been retired and receiving a pension, the surviving spouse of such member entitled to receive a base pension under section 86.1240 or children of such member entitled to receive a base pension under subsection 2 of section 86.1250 shall receive an immediate percentage cost-of-living adjustment to their respective base pension equal to the total percentage cost-of-living adjustments received during such member's lifetime under this section, except that the adjustment provided by this subsection shall not apply for any surviving spouse, or for a child or children entitled to benefits which would be received by a qualified surviving spouse, receiving a benefit pursuant to an election made under subdivision (1) of subsection 2 of section 86.1151.

[3.**]** **6.** For purposes of this section, the term "base pension" shall mean:

(1) For a member, the pension computed under the provisions of the law as of the date of retirement without regard to cost-of-living adjustments, as adjusted, if applicable, for any election made under **subdivision (1) of subsection 2 of section 86.1151 or** section 86.1210, but in all events not including any supplemental benefit under section 86.1230 **or section 86.1231**;

[4.**]** **7.** The cost-of-living adjustment shall be an increase or decrease computed on the base pension amount by the retirement board in an amount that the board, in its discretion, determines to be satisfactory, but in no event shall the adjustment be more than three percent or reduce the pension to an amount less than the base pension. In determining and granting the cost-of-living adjustments, the retirement board shall adopt such rules and regulations as may be necessary to effectuate the purposes of this section, including provisions for the manner of computation of such adjustments and the effective dates thereof. This appointment as a consultant shall in no way affect any member's eligibility for retirement benefits under the provisions of sections 86.900 to 86.1280, or in any way have the effect of reducing retirement benefits otherwise payable to such member. The amount of such supplemental compensation under this subsection may be adjusted by cost-of-living adjustments determined by the retirement board not more frequently than annually.

3. For purposes of subsections 1 and 2 of this section, the term "member" shall include a surviving spouse entitled to a benefit under sections 86.900 to 86.1280 who shall be deemed to have retired for purposes of this section on the date of retirement of the member of whom such person is the surviving spouse or on the date of death of such member if such member died prior to retirement; provided, that if the surviving spouse of any member who retired prior to August 28, 2000, shall not have remarried prior to August 28, 2000, but remarries thereafter, such surviving spouse shall thereafter receive benefits under subsection 2 of this section, and provided further, that no benefits shall be payable under this section to the surviving spouse of any member who retired prior to August 28, 2000, if such surviving spouse was at any time remarried after the member's death and prior to August 28, 2000. The amount of equalizing supplemental compensation under this subsection may be adjusted by cost-of-living adjustments, determined by the retirement board not more frequently than annually, but in no event shall the aggregate of such equalizing supplemental compensation together with all such cost-of-living adjustments thereto exceed twenty-five percent of the member's base pension. Each cost-of-living adjustment to compensation under this subsection shall be determined independently of any cost-of-living

adjustment to any other benefit under sections 86.900 to 86.1280. The actuarial assumptions may be changed by the retirement system's actuary annually if approved by the retirement board, but a change in actuarial assumptions shall not result in any decrease in benefits accrued as of the effective date of the change.

9. Any member or beneficiary who is entitled to receive any distribution that is an eligible rollover distribution, as defined by Section 402(c)(4) of the Internal Revenue Code, is entitled to have that distribution transferred directly to another eligible retirement plan of the member's or beneficiary's choice upon providing direction to the secretary of this retirement system regarding the transfer in accordance with procedures established by the retirement board.

However, such portion may be paid only to an individual retirement account or annuity described in Section 408(a) or 408(b) of the

Internal Revenue Code, or to a qualified defined contribution plan described in Section 401(a) or 403(a) of the Internal Revenue Code that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution that is includable in gross income and the portion of such distribution that is not so includable.

2. **Tier I** members may elect early retirement as follows:

(1) Beginning at age fifty-five, if the member has completed at least ten years of creditable service or at any later age after the member has completed at least ten years of creditable service. (2) Beginning at age sixty, if the member has completed at least five but not more than ten years of creditable service or at any later age after the member has completed at least five years of creditable service. (3) At any time after the member's total of age and years of creditable service equals or exceeds eighty, in which event the benefit shall be as computed under subsection 1 of this section without any reduction. If an election for early retirement results in a reduced benefit under subdivision (1) or (2) of this subsection, such reduced benefit shall become the member's base pension, subject to all other adjustments described in this section.

3. **Tier II members may elect early retirement as follows:**

(1) Beginning at age sixty-two, if the member has completed at least five years of creditable service, the benefit as computed under subsection 1 of this section shall be reduced by one-half of one percent for each full month the initial payment is prior to the first day of the month following that in which such member will attain age sixty-seven; or

If an election for early retirement results in a reduced benefit under subdivision (1) of this subsection, such reduced benefit shall become the member's base pension, subject to all other adjustments described in this section.

4. (1) A member who is married at the time of retirement may by a written election, with the written consent of such member's spouse, elect an optional benefit calculated as follows: such optional benefit shall be a monthly pension in the initial amount which shall be actuarially equivalent to the actuarial value of the pension described in subdivision (1) of subsection 1 of this section for such member at the date of retirement (including the value of survivorship rights of a surviving spouse, where applicable, under section 86.1610), upon the basis that the initial annuity for the member's spouse, if such spouse survives the member, shall be the same as the amount being paid the member on such annuity at the member's death, and, subject to cost-of-living adjustments thereafter declared on the spouse's base pension under section 86.1590, shall be paid to such surviving spouse for the lifetime of such spouse without regard to remarriage.

If a member who makes an election of an optional benefit under this subsection has also elected an early retirement under either subdivision (1) or (2) of subsection 2 of this section **or subdivision (1) of subsection 3 of this section**, any reduction in benefit required for such early retirement election shall be calculated before calculating the initial amount of the optional benefit under this subsection.

(2) If a member who makes the election permitted by this subsection also makes an election permitted under section 86.1580, such optional benefit shall be reduced as provided in subdivision (3) of subsection 2 of section 86.1580.

(3) If a member makes the election permitted by this subsection, the amount calculated for such optional benefit under either subdivision (1) or (2) of this subsection shall be the base pension for such member and for such member's spouse for all purposes of sections 86.1310 to 86.1640.

(4) An election for an optional benefit under this subsection shall be void if the member dies within thirty days after filing such election with the retirement system or if the member dies before the due date of the first payment of such member's pension.

[4.**]** **5.** Subject to the provisions of subsection **[**6**]** **7** of this section, whenever the service of a member is terminated after August 28, 1999, for any reason prior to death or retirement and the member has five or more years of creditable service, the member may elect not to withdraw such member's accumulated contributions and shall become entitled to receive a pension upon such member's normal retirement date under subdivision (1) of subsection 1 of this section or may elect to receive a pension commencing upon or after any date, prior to his or her normal retirement date, upon which early retirement would have been permitted under subsection 2 of this section **for Tier I members or subsection 3 of this section for Tier II members** if such member had remained a civilian employee of such police department, except that in calculating any qualification under **[**subsection**]** **subsections** 2 **or 3** of this section, such member shall not be entitled to count any year of creditable service in excess of such member's total years of creditable service at the time of such member's termination of employment. The amount of any pension commenced upon the basis of a date permitted under **[**subsection**]** **subsections** 2 **or 3** of this section shall be computed on the basis of the member's final compensation and number of years of creditable service, subject to such adjustments as may be applicable under the subdivision of **[**subsection**]** **subsections** 2 **or 3** of this section upon which such member relies in electing such member's pension and subject to any other adjustments that such member may elect under this section. The amount of the initial pension calculated after all applicable adjustments shall be the base pension for such member, and for such member's spouse if such member shall elect the optional benefit permitted under subsection **[**3**]** **4** of this section, for all purposes of sections 86.1310 to 86.1640. Payment of any benefits elected under this subsection shall commence as of the first day of the month next following the applicable date with no proration of such benefit for any initial partial month.

[5.**]** **6.** A member whose service was terminated on or before August 28, 1999, after five or more years of creditable service, and who permitted such member's accumulated contributions to remain in the pension fund, shall upon application to the retirement board be appointed as a consultant. For services as such consultant, such member shall, beginning the later of August 28, 1999, or the time of such appointment under this subsection, be entitled to elect to receive compensation in such amount and at such time as such member would have been entitled to elect under any of the provisions of subsection **[**4**]** **5** of this section if such member had terminated service after August 28, 1999. Such member shall be entitled to the same cost-of-living adjustments following the commencement of such compensation as if such member's compensation had been a base pension.

[6.**]** **7.** Notwithstanding any other provisions of sections 86.1310 to 86.1640, any member who is convicted of a felony prior to separation from active service shall not be entitled to any benefit from this retirement system except the return of such member's accumulated contributions.

86.1580. OPTIONAL DISTRIBUTION UNDER PARTIAL LUMP-SUM OPTION PLAN, WHEN — DEATH BEFORE RETIREMENT, EFFECT OF. — 1. Any member in active service entitled to commence a pension under section 86.1540 may elect an optional distribution under the partial lump sum option plan provided in this section if the member:

(1) Notifies the retirement system in writing of the member's retirement date at least ninety days in advance thereof and requests an explanation of the member's rights under this section; and

(2) Notifies the retirement system of the member's election hereunder at least thirty days in advance of the retirement date.

Following receipt of an initial notice of a member's retirement date and request for an explanation, the retirement system shall, at least sixty days in advance of such retirement date, provide the member a written explanation of such member's rights under this section and an estimate of the amount by which the member's regular monthly base pension would be reduced in the event of the member's election of any of the options available to the member under this section.

2. (1) A member entitled to make an election under this section may elect to receive a lump sum distribution with the member's initial monthly pension payment under section 86.1540, subject to all the terms of this section. The member may elect the amount of the member's lump sum distribution from one, but not more than one, of the following options for which the member qualifies:

(a) A member having one or more years of creditable service after the member's eligible retirement date may elect a lump sum amount equal to twelve times the initial monthly base pension the member would receive if no election were made under this section;

(b) A member having two or more years of creditable service after the member's eligible retirement date may elect a lump sum amount equal to twenty-four times the initial monthly base pension the member would receive if no election were made under this section; or

(c) A member having three or more years of creditable service after the member's eligible retirement date may elect a lump sum amount equal to thirty-six times the initial monthly base pension the member would receive if no election were made under this section.

For purposes of this section, "eligible retirement date" for a member shall mean the earliest date on which the member could elect to retire and be entitled to receive a pension under section 86.1540.

(2) When a member makes an election to receive a lump sum distribution under this section, the base pension that the member would have received in the absence of an election shall be reduced on an actuarially equivalent basis to reflect the payment of the lump sum distribution, and the reduced base pension shall be the member's base pension thereafter for all purposes relating to base pension amounts under sections 86.1310 to 86.1640, unless the member has also elected an optional benefit permitted under subsection **[**3**]** **4** of section 86.1540.

(3) If a member electing a lump sum distribution under this section has elected the optional benefit permitted under subsection **[**3**]** **4** of section 86.1540, the calculation of the member's pension shall be made in the following order:

(a) The amount of the member's normal pension under subdivision (1) of subsection 1 of section 86.1540 shall be reduced if applicable by any reductions required under **[**subsection**]** **subsections** 2 **or 3** of section 86.1540;

(b) The amount of the pension as determined under paragraph (a) of this subdivision shall be reduced to the actuarially equivalent amount to produce the optional form of benefit described in subdivision (1) of subsection **[**3**]** **4** of section 86.1540;

(c) The amount of reduced pension as determined under paragraph (b) of this subdivision shall be further reduced as required to produce an actuarially equivalent benefit in the form of

the lump sum distribution option elected under this section and a remaining monthly annuity which shall be paid on the basis that the initial annuity for the member's spouse, if such spouse survives the member, shall be the same as the amount being paid the member on this annuity at the member's death, and, subject to cost-of-living adjustments thereafter declared on the spouse's base pension under section 86.1590, shall be paid to such surviving spouse for the lifetime of such spouse without regard to remarriage.

3. An election under this section to receive a lump sum distribution and reduced monthly base pension shall be void if the member dies before retirement, in which case amounts due a surviving spouse or other beneficiary of the member shall be determined without regard to such election.

86.1590. COST-OF-LIVING ADJUSTMENTS — BASE PENSION DEFINED. — 1. Provided that the retirement system shall remain actuarially sound, each of the following persons may receive each year, in addition to such person's base pension, a cost-of-living adjustment in an amount not to exceed three percent of such person's base pension during any one year:

(1) Every member who is retired and receiving a base pension from this retirement system; and

(2) Every surviving spouse who is receiving a base pension from this retirement system.

2. Upon the death of a member who has been retired and receiving a pension, and who dies after August 28, 2001, the surviving spouse of such member entitled to receive a base pension under section 86.1610 shall receive an immediate percentage cost-of-living adjustment to his or her base pension equal to the total percentage cost-of-living adjustments received during such member's lifetime under this section, but such adjustment shall not be deemed to change the base pension amount to which subsequent cost-of-living adjustments may be made.

3. For purposes of this section, the term "base pension" shall mean:

(1) For a member, the pension computed under the provisions of the law as of the date of retirement without regard to cost-of-living adjustments, as adjusted if applicable, for any optional elections made under sections 86.1540 and 86.1580, but in all events not including any supplemental benefit under section 86.1600;

(2) For a surviving spouse whose pension is prescribed by section 86.1610, the base pension calculated for such spouse in accordance with the provisions of section 86.1610, including any compensation as a consultant to which such surviving spouse is entitled under said section in lieu of a pension, but not including any supplemental benefit under section 86.1600;

(3) For a surviving spouse entitled to the continuation of an optional benefit elected under subsection **[**3**]** **4** of section 86.1540, the base pension determined in accordance with subdivision (3) of subsection **[**3**]** **4** of section 86.1540.

4. The cost-of-living adjustment shall be an increase or decrease computed on the base pension amount by the retirement board in an amount that the board, in its discretion, determines to be satisfactory, but in no event shall the adjustment be more than three percent or reduce the pension to an amount less than the base pension. In determining and granting the cost-of-living adjustments, the retirement board shall adopt such rules and regulations as may be necessary to effectuate the purposes of this section, including provisions for the manner of computation of such adjustments and the effective dates thereof. The retirement board shall provide for such adjustments to be determined once each year and granted on a date or dates to be chosen by the board, and may apply such adjustments in full to members who have retired during the year prior to such adjustments but who have not been retired for one full year and to the surviving spouse of a member who has died during the year prior to such adjustments.

5. The determination of whether the retirement system will remain actuarially sound shall be made at the time any cost-of-living adjustment is granted. If at any time the retirement system ceases to be actuarially sound, pension payments shall continue as adjusted by increases theretofore granted. A member of the retirement board shall have no personal liability for granting increases under this section if that retirement board member in good faith relied and

acted upon advice of a qualified actuary that the retirement system would remain actuarially sound.

86.1610. DEATH OF MEMBER IN SERVICE, BENEFIT TO BE RECEIVED — DEATH OF MEMBER AFTER RETIREMENT, BENEFIT TO BE RECEIVED — SURVIVING SPOUSE BENEFITS. — 1. Upon receipt of the proper proofs of death of a member in service for any reason whatsoever, the following amounts shall be payable subject to subsection 4 of this section, and if a pension shall be elected, the initial amount thereof shall be the base pension for such surviving spouse:

(1) If the member has less than five years of creditable service, the member's surviving spouse shall be paid, in one lump sum, the amount of the member's accumulated contributions. If there is no surviving spouse, the member's accumulated contributions shall be paid as provided in subsection 6 of section 86.1420;

(2) If the member has at least five but fewer than twenty years of creditable service, the member's surviving spouse may elect the lump sum settlement in subdivision (1) of this subsection or a pension. Such pension shall be fifty percent of the member's accrued pension at date of death as computed in subdivision (1) of subsection 1 of section 86.1540, commencing as provided in subsection 3 of section 86.1420;

(3) If the member has at least twenty years of creditable service, the member's surviving spouse may elect any one of:

(a) The lump sum settlement in subdivision (1) of this subsection;

(b) The pension as computed in subdivision (2) of this subsection; or

(c) A pension in the monthly amount determined on a joint and survivor's basis from the actuarial value of the member's accrued annuity at date of death;

(4) Any death of a retired member occurring before the first payment of the retirement pension shall be deemed to be a death prior to retirement;

(5) For the surviving spouse of a member who died in service after August 28, 2001, benefits payable under subsection 1 of this section shall continue for the lifetime of such surviving spouse without regard to remarriage.

2. Upon death of a member after retirement who has not elected the optional annuity permitted under subsection **[**3**]** **4** of section 86.1540, the surviving spouse shall receive a base pension payable for life, equaling fifty percent of the member's base pension, as of the member's retirement date, subject to the following:

(1) No surviving spouse of a member who retires after August 28, 2001, shall be entitled to receive any benefits under sections 86.1310 to 86.1640 unless such spouse was married to the member at the time of the member's retirement; and

(2) Any surviving spouse who was married to such a member at the time of the member's retirement shall be entitled to all benefits for surviving spouses under sections 86.1310 to 86.1640 for the life of such surviving spouse without regard to remarriage.

3. In the case of any member who, prior to August 28, 2001, died in service or retired, the surviving spouse who would qualify for benefits under subsection 1 or 2 of this section but for remarriage, and has not remarried prior to August 28, 2001, but remarries thereafter, shall upon application be appointed by the retirement board as a consultant. For services as such consultant, such surviving spouse shall be compensated in an amount equal to the benefits such spouse would have received under sections 86.1310 to 86.1640 in the absence of such remarriage.

4. Any beneficiary of benefits under sections 86.1310 to 86.1640 who becomes the surviving spouse of more than one member shall be paid all benefits due a surviving spouse of that member whose entitlements produce the largest surviving spouse benefits for such beneficiary but shall not be paid surviving spouse benefits as the surviving spouse of more than one member, except that any surviving spouse for whom an election has been made for an

optional benefit under subsection **[**3**]** **4** of section 86.1540 shall be entitled to every optional benefit for which such surviving spouse has so contracted.

86.1630. TAX-EXEMPT STATUS OF PLAN TO BE MAINTAINED — ASSETS OF SYSTEM TO BE HELD IN TRUST — MEMBER BENEFITS VESTED, WHEN — DISTRIBUTION OF BENEFITS. — 1. A retirement plan under sections 86.1310 to 86.1640 is a qualified plan under the provisions of applicable federal law. The benefits and conditions of a retirement plan under sections 86.1310 to 86.1640 shall always be adjusted to ensure that the tax-exempt status is maintained.

2. The retirement board shall administer this retirement system in such manner as to retain at all times qualified status under Section 401(a) of the Internal Revenue Code.

3. The retirement board shall hold in trust the assets of the retirement system for the exclusive benefit of the members and their beneficiaries and for defraying reasonable administrative expenses of the system. No part of such assets shall, at any time prior to the satisfaction of all liabilities with respect to members and their beneficiaries, be used for or diverted to any purpose other than such exclusive benefit or to any purpose inconsistent with sections 86.1310 to 86.1640.

4. A member's benefit shall be one hundred percent vested and nonforfeitable upon the member's attainment of normal retirement age, which shall be the earlier of:

(1) The attaining of the age of sixty-five or the member's tenth anniversary of employment, whichever is later **for any Tier I member, or the attaining of the age of sixty-seven or the member's twentieth anniversary of employment, whichever is later for any Tier II member**;

(2) **For any Tier I member** when the total sum of age and years of **creditable** service equals or exceeds eighty**, or for any Tier II member when the total sum of age and years of creditable service equals or exceeds eighty-five**; or

(3) To the extent funded, upon the termination of the system established under sections 86.1310 to 86.1640 or any partial termination which affects the member or any complete discontinuance of contributions by the city to the system.

Amounts representing forfeited nonvested benefits of terminated members shall not be used to increase benefits payable from the system but may be used to reduce contributions for future plan years.

5. Distribution of benefits shall begin not later than April first of the year following the later of the calendar year during which the member becomes seventy and one-half years of age or the calendar year in which the member retires, and shall otherwise conform to Section 401(a)(9) of the Internal Revenue Code.

6. A member or beneficiary of a member shall not accrue a service retirement annuity, disability retirement annuity, death benefit, whether death occurs in the line of duty or otherwise, or any other benefit under sections 86.1310 to 86.1640 in excess of the benefit limits applicable to the fund under Section 415 of the Internal Revenue Code. The retirement board shall reduce the amount of any benefit that exceeds the limits of this section by the amount of the excess. If the total benefits under the retirement system and the benefits and contributions to which any member is entitled under any other qualified plan or plans maintained by the board of police commissioners that employs the member would otherwise exceed the applicable limits under Section 415 of the Internal Revenue Code, the benefits the member would otherwise receive from the retirement system are reduced to the extent necessary to enable the benefits to comply with Section 415 of the Internal Revenue Code.

7. The total salary taken into account for any purpose for any member of the retirement system shall not exceed two hundred thousand dollars per year, subject to periodic adjustments in accordance with guidelines provided by the United States Secretary of the Treasury and may not exceed such other limits as may be applicable at any given time under Section 401(a)(17) of the Internal Revenue Code.

8. If the amount of any benefit is determined on the basis of actuarial assumptions that are not specifically set forth for that purpose in sections 86.1310 to 86.1640, the actuarial assumptions to be used are those earnings and mortality assumptions used on the date of the determination by the retirement system's actuary and approved by the retirement board. The actuarial assumptions used at any particular time shall be attached as an addendum to a copy of the retirement system's statute maintained by the retirement board and shall be treated for all purposes as part of sections 86.1310 to 86.1640. The actuarial assumptions may be changed by the retirement system's actuary annually if approved by the retirement board, but a change in actuarial assumptions shall not result in any decrease in benefits accrued as of the effective date of the change.

9. Any member or beneficiary who is entitled to receive any distribution that is an eligible rollover distribution, as defined by Section 402(c)(4) of the Internal Revenue Code, is entitled to have that distribution transferred directly to another eligible retirement plan of the member's or beneficiary's choice upon providing direction to the secretary of the retirement system regarding the transfer in accordance with procedures established by the retirement board.

10. For all distributions made after December 31, 2001:

(1) For the purposes of subsection 9 of this section, an eligible retirement plan shall also mean an annuity described in Section 403(b) of the Internal Revenue Code and an eligible plan under Section 457(b) of the Internal Revenue Code that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from the retirement system. The definition for eligible retirement plan shall also apply in the case of a distribution to a surviving spouse or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Internal Revenue Code; and

(2) For the purposes of subsection 9 of this section, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includable in gross income. However, such portion may be paid only to an individual retirement account or annuity described in Section 408(a) or 408(b) of the Internal Revenue Code, or to a qualified defined contribution plan described in Section 401(a) or 403(a) of the Internal Revenue Code that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution that is includable in gross income and the portion of such distribution that is not so includable.

SECTION A. ENACTING CLAUSE. — Sections 301.193 and 301.260, RSMo, are repealed and three new sections enacted in lieu thereof, to be known as sections 301.193, 301.260, and 301.642, to read as follows:

301.193. ABANDONED PROPERTY, TITLING OF, PRIVATELY OWNED REAL ESTATE, PROCEDURE — INABILITY TO OBTAIN NEGOTIABLE TITLE, SALVAGE OR JUNKING CERTIFICATE AUTHORIZED. — 1. Any person who purchases or is the owner of real property on which vehicles, as defined in section 301.010, vessels or watercraft, as defined in section 306.010, or outboard motors, as that term is used in section 306.530, have been abandoned, without the consent of said purchaser or owner of the real property, may apply to the department of revenue for a certificate of title. Any insurer which purchases a vehicle through the claims adjustment process for which the insurer is unable to obtain a negotiable title may make an application to the department of revenue for a salvage certificate of title pursuant to this section. Prior to making application for a certificate of title on a vehicle under this section, the insurer or owner of the real estate shall have the vehicle inspected by law enforcement pursuant to subsection 9 of section 301.190, and shall have law enforcement perform a check in the national crime information center and any appropriate statewide law enforcement computer to determine if the vehicle has been reported stolen and the name and address of the person to whom the vehicle was last titled and any lienholders of record. The insurer or owner or purchaser of the real estate shall, thirty days prior to making application for title, notify any owners or lienholders of record for the vehicle by certified mail that the owner intends to apply for a certificate of title from the director for the abandoned vehicle. The application for title shall be accompanied by:

(1) A statement explaining the circumstances by which the property came into the insurer, owner or purchaser's possession; a description of the property including the year, make, model, vehicle identification number and any decal or license plate that may be affixed to the vehicle; the current location of the property; and the retail value of the property;

(2) An inspection report of the property, if it is a vehicle, by a law enforcement agency pursuant to subsection 9 of section 301.190; and

(3) A copy of the thirty-day notice and certified mail receipt mailed to any owner and any person holding a valid security interest of record.

2. Upon receipt of the application and supporting documents, the director shall search the records of the department of revenue, or initiate an inquiry with another state, if the evidence presented indicated the property described in the application was registered or titled in another state, to verify the name and address of any owners and any lienholders. If the latest owner or lienholder was not notified the director shall inform the insurer, owner, or purchaser of the real estate of the latest owner and lienholder information so that notice may be given as required by subsection 1 of this section. Any owner or lienholder receiving notification may protest the issuance of title by, within the thirty-day notice period and may file a petition to recover the vehicle, naming the insurer or owner of the real estate and serving a copy of the petition on the director of revenue. The director shall not be a party to such petition but shall, upon receipt of the petition, suspend the processing of any further certificate of title until the rights of all parties to the vehicle are determined by the court. Once all requirements are satisfied the director shall issue one of the following:

(1) An original certificate of title if the vehicle examination certificate, as provided in section 301.190, indicates that the vehicle was not previously in a salvaged condition or rebuilt;

(2) An original certificate of title designated as prior salvage if the vehicle examination certificate as provided in section 301.190 indicates the vehicle was previously in a salvaged condition or rebuilt;

(3) A salvage certificate of title designated with the words "salvage/abandoned property" or junking certificate based on the condition of the property as stated in the inspection report. An insurer purchasing a vehicle through the claims adjustment process under this section shall only be eligible to obtain a salvage certificate of title or junking certificate.

3. Any insurer which purchases a vehicle that is currently titled in Missouri through the claims adjustment process for which the insurer is unable to obtain a negotiable title may make application to the department of revenue for a salvage certificate of title or junking certificate. Such application may be made by the insurer or its designated salvage pool on a form provided by the department and signed under penalty of perjury. The application shall include a declaration that the insurer has made at least two written attempts to obtain the certificate of title, transfer documents, or other acceptable evidence of title, and be accompanied by proof of claims payment from the insurer, evidence that letters were **[**delivered**]** **sent** to the vehicle owner, a statement explaining the circumstances by which the property came into the insurer's possession, a description of the property including the year, make, model, vehicle identification number, and current location of the property, and the fee prescribed in subsection 5 of section 301.190. The insurer shall, thirty days prior to making application for title, notify any owners or lienholders of record for the vehicle that the insurer intends to apply for a certificate of title from the director for the vehicle. Upon receipt of the application and supporting documents, the director shall search the records of the department of revenue to verify the name and address of any owners and any lienholders. **[**After thirty days from receipt of the application,**]** **If the director identifies any additional owner or lienholder who has not been notified by the insurer, the director shall inform the insurer of such additional owner or lienholder and the insurer shall notify the additional owner or lienholder of the insurer's intent to obtain title as prescribed in this section.** If no valid lienholders have notified the department of the existence of a lien, the department shall issue a salvage certificate of title or junking certificate for the vehicle in the name of the insurer.

301.260. STATE AND MUNICIPALLY OWNED MOTOR VEHICLES — PUBLIC SCHOOLS AND COLLEGES COURTESY OR DRIVER TRAINING VEHICLES — REGULATIONS. — 1. The director of revenue shall issue certificates for all cars owned by the state of Missouri and shall assign to each of such cars two plates bearing the words: "State of Missouri, official car number ....." (with the number inserted thereon), which plates shall be displayed on such cars when they are being used on the highways. No officer or employee or other person shall use such a motor vehicle for other than official use.

2. Motor vehicles used as ambulances, patrol wagons and fire apparatus, owned by any municipality of this state, shall be exempt from all of the provisions of sections 301.010 to 301.440 while being operated within the limits of such municipality, but the municipality may regulate the speed and use of such motor vehicles owned by them; and all other motor vehicles owned by municipalities, counties and other political subdivisions of the state shall be exempt from the provisions of sections 301.010 to 301.440 requiring registration, proof of ownership and display of number plates; provided, however, that there shall be a plate, or, on each side of such motor vehicle, letters not less than three inches in height with a stroke of not less than three-eighths of an inch wide, to display the name of such municipality, county or political subdivision, the department thereof, and a distinguishing number. Provided, further, that when any motor vehicle is owned and operated exclusively by any school district and used solely for transportation of school children, the commissioner shall assign to each of such motor vehicles two plates bearing the words "School Bus, State of Missouri, car no. ....." (with the number inserted thereon), which plates shall be displayed on such motor vehicles when they are being used on the highways. No officer, or employee of the municipality, county or subdivision, or

any other person shall operate such a motor vehicle unless the same is marked as herein provided, and no officer, employee or other person shall use such a motor vehicle for other than official purposes.

3. For registration purposes only, a public school or college shall be considered the temporary owner of a vehicle acquired from a **[**new**]** motor vehicle **[**franchised**]** dealer which is to be used as a courtesy vehicle or a driver training vehicle. The school or college shall present to the director of revenue a copy of a lease agreement with an option to purchase clause between the authorized **[**new**]** motor vehicle **[**franchised**]** dealer and the school or college and a photocopy of the front **and back** of the dealer's vehicle manufacturer's statement of origin **or certificate of title**, and shall make application for and be granted a nonnegotiable certificate of ownership and be issued the appropriate license plates. Registration plates are not necessary on a driver training vehicle when the motor vehicle is plainly marked as a driver training vehicle while being used for such purpose and such vehicle can also be used in conjunction with the activities of the educational institution.

4. As used in this section, the term "political subdivision" is intended to include any township, road district, sewer district, school district, municipality, town or village, sheltered workshop, as defined in section 178.900, and any interstate compact agency which operates a public mass transportation system.

301.642. PURCHASE OF MOTOR VEHICLES AND TRAILERS THROUGH CLAIMS ADJUSTMENT PROCESS BY INSURERS, PROCEDURE, REQUIREMENTS. — Any insurer which purchases a motor vehicle or trailer through the claims adjustment process for which there is a valid lien or encumbrance perfected under sections 301.600 to 301.640 may, as an alternative to obtaining a lien release under section 301.640, apply for a salvage certificate of title or junking certificate on such motor vehicle or trailer by following the procedures in this section. The insurer may request a letter of guarantee from the lienholder containing a description of the motor vehicle or trailer, including the vehicle identification number, and indicating the amount payable by the insurer to the lienholder in order to release the lien. Upon receipt from the lienholder of such letter of guarantee, the insurer may, within ten days of such receipt, remit payment to the lienholder in accordance with the letter of guarantee and, if such payment satisfies the lien amount indicated in the letter of guarantee to release the lien, the lienholder shall provide proof of satisfaction to the insurer. This procedure shall be followed for each lienholder indicated on the certificate of ownership for the motor vehicle or trailer. Such letter of guarantee and corresponding proof of payment need not be notarized and may be immediately transmitted electronically. The insurer may then submit proof of such payments, a copy of each letter of guarantee, and the title for such motor vehicle or trailer to the department of revenue. The department shall accept such documents in lieu of a lien release and process the insurer's application.

Changes the laws regarding shares in credit unions

AN ACT to repeal sections 370.283 and 370.287, RSMo, and to enact in lieu thereof two new sections relating to credit unions.

SECTION
A. Enacting clause.
370.283. Minors may hold or release shares — subject to lien.
370.287. Jointly held shares, survival — effect of incapacity on joint tenancy — payment of shares, release and discharge of the credit union, when.

Be it enacted by the General Assembly of the state of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Sections 370.283 and 370.287, RSMo, are repealed and two new sections enacted in lieu thereof, to be known as sections 370.283 and 370.287, to read as follows:

370.283. MINORS MAY HOLD OR RELEASE SHARES — SUBJECT TO LIEN. — 1. When shares are issued in the name of any minor, the same shall be held for the exclusive right and benefit of the minor, and free from the control or lien of all other persons, except creditors, and shall be paid, together with dividends thereon, to the person in whose name the shares shall have been issued, and the receipt or acquittance of the minor shall be a valid and sufficient release and discharge to the credit union for the share or any part thereof. **To the shares issued in joint tenancy in the name of any minor, all provisions of section 370.287 shall apply.**

2. The credit union may require that the minor's parent, guardian, or other person responsible for the minor be a joint owner of the minor's account.

3. Shares on deposit held in the name of a minor are subject to the credit union's lien under section 370.250 and any consensual lien on pledge of shares, which may not be avoided due to the minor's status. The credit union may pay funds to a conservator appointed under section 475.045 and thereby discharge its liability to the minor for the shares. Accounts opened under the Missouri Transfer to Minors Law, sections 404.005 to 404.094, shall be governed by that law.

370.287. JOINTLY HELD SHARES, SURVIVAL — EFFECT OF INCAPACITY ON JOINT TENANCY — PAYMENT OF SHARES, RELEASE AND DISCHARGE OF THE CREDIT UNION, WHEN. — 1. Shares may be issued in joint tenancy with the right of survivorship with any **persons [**person**] , minor or adult,** designated by the credit union member, **whether or not the names are stated in the conjunctive or the disjunctive or otherwise.** But no person so designated as joint tenant shall be permitted to vote, obtain loans or hold office unless **[**he**] such person** is within the field of membership and is a qualified member. **The records of the credit union describing the issuance, opening, or maintenance of shares in joint tenancy with the right of survivorship in the absence of fraud or undue influence shall be conclusive evidence of the intention of all the joint tenants to vest title to the account any additions thereto in the surviving joint tenants.** Any shares so issued and additions thereto of whatever nature shall be **the property of such persons as joint tenants and** payable by the credit union on the death of **[**the deceased member to the surviving joint tenant, and**] any one or more of the joint tenants. If there are two or more surviving joint tenants, such joint tenants shall own the shares as joint tenants with the right of survivorship.** The payment and the receipt or

acquittance of the **[**same**]** **shares and additions thereto as described herein** to said surviving joint **[**tenant**]** **tenants** shall be a valid and sufficient release and discharge to the credit union for all amounts so paid.

2. The adjudication of disability or incapacity of any one or more of the joint tenants shall not operate to sever or terminate the joint tenancy ownership of all or any part of the account and the account may be withdrawn or pledged by any one or more of the joint owners in the same manner as though the adjudication of disability or incapacity had not been made, except that any withdrawal or pledge on behalf of the disabled joint owner shall be by such person's conservator.

3. Shares held in the name of two persons who are husband and wife or the survivor thereof shall be considered a joint tenancy and not a tenancy by the entirety unless specified otherwise.

4. A payment of any or all shares or additions thereto as provided in section 1 shall release and discharge the credit union with respect to the moneys so paid prior to the receipt by the credit union of notice in writing signed by any one of the joint tenants not to pay the shares in accordance with the terms thereof. After receipt of such notice, a credit union may refuse without liability to honor any check, other order to pay, withdrawal receipt, or order to pay out any dividends or interest thereon pending determination of the rights of the parties. No credit union paying any joint tenant in accordance with the provisions of this section shall thereby be liable for any estate or succession taxes which may be due this state. Accounts opened under the Missouri Transfer to Minors Law, sections 404.005 to 404.094, shall be governed by that law.

(25) Stalking under section 565.225;

committed on school property, including but not limited to actions on any school bus in service on behalf of the district or while involved in school activities. The policy shall require that any portion of a student's individualized education program that is related to demonstrated or potentially violent behavior shall be provided to any teacher and other school district employees who are directly responsible for the student's education or who otherwise interact with the student

on an educational basis while acting within the scope of their assigned duties. The policy shall also contain the consequences of failure to obey standards of conduct set by the local board of education, and the importance of the standards to the maintenance of an atmosphere where orderly learning is possible and encouraged.

3. The policy shall provide that any student who is on suspension for any of the offenses listed in subsection 2 of this section or any act of violence or drug-related activity defined by school district policy as a serious violation of school discipline pursuant to subsection 9 of this section shall have as a condition of his or her suspension the requirement that such student is not allowed, while on such suspension, to be within one thousand feet of any school property in the school district where such student attended school or any activity of that district, regardless of whether or not the activity takes place on district property unless:

(1) Such student is under the direct supervision of the student's parent, legal guardian, or custodian and the superintendent or the superintendent's designee has authorized the student to be on school property;

(2) Such student is under the direct supervision of another adult designated by the student's parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the student and the superintendent or the superintendent's designee has authorized the student to be on school property;

(3) Such student is enrolled in and attending an alternative school that is located within one thousand feet of a public school in the school district where such student attended school; or

(4) Such student resides within one thousand feet of any public school in the school district where such student attended school in which case such student may be on the property of his or her residence without direct adult supervision.

4. Any student who violates the condition of suspension required pursuant to subsection 3 of this section may be subject to expulsion or further suspension pursuant to the provisions of sections 167.161, 167.164, and 167.171. In making this determination consideration shall be given to whether the student poses a threat to the safety of any child or school employee and whether such student's unsupervised presence within one thousand feet of the school is disruptive to the educational process or undermines the effectiveness of the school's disciplinary policy. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. This section shall not limit a school district's ability to:

(1) Prohibit all students who are suspended from being on school property or attending an activity while on suspension;

(2) Discipline students for off-campus conduct that negatively affects the educational environment to the extent allowed by law.

5. The policy shall provide for a suspension for a period of not less than one year, or expulsion, for a student who is determined to have brought a weapon to school, including but not limited to the school playground or the school parking lot, brought a weapon on a school bus or brought a weapon to a school activity whether on or off of the school property in violation of district policy, except that:

(1) The superintendent or, in a school district with no high school, the principal of the school which such child attends may modify such suspension on a case-by-case basis; and

(2) This section shall not prevent the school district from providing educational services in an alternative setting to a student suspended under the provisions of this section.

6. For the purpose of this section, the term "weapon" shall mean a firearm as defined under 18 U.S.C. 921 and the following items, as defined in section 571.010: a blackjack, a concealable firearm, an explosive weapon, a firearm, a firearm silencer, a gas gun, a knife, knuckles, a machine gun, a projectile weapon, a rifle, a shotgun, a spring gun or a switchblade knife; except that this section shall not be construed to prohibit a school board from adopting a policy to allow a Civil War reenactor to carry a Civil War era weapon on school property for educational purposes so long as the firearm is unloaded. The local board of education shall

define weapon in the discipline policy. Such definition shall include the weapons defined in this subsection but may also include other weapons.

7. All school district personnel responsible for the care and supervision of students are authorized to hold every pupil strictly accountable for any disorderly conduct in school or on any property of the school, on any school bus going to or returning from school, during school-sponsored activities, or during intermission or recess periods.

8. Teachers and other authorized district personnel in public schools responsible for the care, supervision, and discipline of schoolchildren, including volunteers selected with reasonable care by the school district, shall not be civilly liable when acting in conformity with the established policies developed by each board, including but not limited to policies of student discipline or when reporting to his or her supervisor or other person as mandated by state law acts of school violence or threatened acts of school violence, within the course and scope of the duties of the teacher, authorized district personnel or volunteer, when such individual is acting in conformity with the established policies developed by the board. Nothing in this section shall be construed to create a new cause of action against such school district, or to relieve the school district from liability for the negligent acts of such persons.

9. Each school board shall define in its discipline policy acts of violence and any other acts that constitute a serious violation of that policy. "Acts of violence" as defined by school boards shall include but not be limited to exertion of physical force by a student with the intent to do serious bodily harm to another person while on school property, including a school bus in service on behalf of the district, or while involved in school activities. School districts shall for each student enrolled in the school district compile and maintain records of any serious violation of the district's discipline policy. Such records shall be made available to teachers and other school district employees with a need to know while acting within the scope of their assigned duties, and shall be provided as required in section 167.020 to any school district in which the student subsequently attempts to enroll.

10. Spanking, when administered by certificated personnel and in the presence of a witness who is an employee of the school district, or the use of reasonable force to protect persons or property, when administered by personnel of a school district in a reasonable manner in accordance with the local board of education's written policy of discipline, is not abuse within the meaning of chapter 210. The provisions of sections 210.110 to 210.165 notwithstanding, the children's division shall not have jurisdiction over or investigate any report of alleged child abuse arising out of or related to the use of reasonable force to protect persons or property when administered by personnel of a school district or any spanking administered in a reasonable manner by any certificated school personnel in the presence of a witness who is an employee of the school district pursuant to a written policy of discipline established by the board of education of the school district, as long as no allegation of sexual misconduct arises from the spanking or use of force.

11. If a student reports alleged sexual misconduct on the part of a teacher or other school employee to a person employed in a school facility who is required to report such misconduct to the children's division under section 210.115, such person and the superintendent of the school district shall **[**forward**]** **report** the allegation to the children's division **[**within twenty-four hours of receiving the information**]** **as set forth in section 210.115**. Reports made to the children's division under this subsection shall be investigated by the division in accordance with the provisions of sections 210.145 to 210.153 and shall not be investigated by the school district under subsections 12 to 20 of this section for purposes of determining whether the allegations should or should not be substantiated. The district may investigate the allegations for the purpose of making any decision regarding the employment of the accused employee.

12. Upon receipt of any reports of child abuse by the children's division other than reports provided under subsection 11 of this section, pursuant to sections 210.110 to 210.165 which allegedly involve personnel of a school district, the children's division shall notify the superintendent of schools of the district or, if the person named in the alleged incident is the

superintendent of schools, the president of the school board of the school district where the alleged incident occurred.

13. If, after an initial investigation, the superintendent of schools or the president of the school board finds that the report involves an alleged incident of child abuse other than the administration of a spanking by certificated school personnel or the use of reasonable force to protect persons or property when administered by school personnel pursuant to a written policy of discipline or that the report was made for the sole purpose of harassing a public school employee, the superintendent of schools or the president of the school board shall immediately refer the matter back to the children's division and take no further action. In all matters referred back to the children's division, the division shall treat the report in the same manner as other reports of alleged child abuse received by the division.

14. If the report pertains to an alleged incident which arose out of or is related to a spanking administered by certificated personnel or the use of reasonable force to protect persons or property when administered by personnel of a school district pursuant to a written policy of discipline or a report made for the sole purpose of harassing a public school employee, a notification of the reported child abuse shall be sent by the superintendent of schools or the president of the school board to the law enforcement in the county in which the alleged incident occurred.

15. The report shall be jointly investigated by the law enforcement officer and the superintendent of schools or, if the subject of the report is the superintendent of schools, by a law enforcement officer and the president of the school board or such president's designee.

16. The investigation shall begin no later than forty-eight hours after notification from the children's division is received, and shall consist of, but need not be limited to, interviewing and recording statements of the child and the child's parents or guardian within two working days after the start of the investigation, of the school district personnel allegedly involved in the report, and of any witnesses to the alleged incident.

17. The law enforcement officer and the investigating school district personnel shall issue separate reports of their findings and recommendations after the conclusion of the investigation to the school board of the school district within seven days after receiving notice from the children's division.

18. The reports shall contain a statement of conclusion as to whether the report of alleged child abuse is substantiated or is unsubstantiated.

19. The school board shall consider the separate reports referred to in subsection 17 of this section and shall issue its findings and conclusions and the action to be taken, if any, within seven days after receiving the last of the two reports. The findings and conclusions shall be made in substantially the following form:

(1) The report of the alleged child abuse is unsubstantiated. The law enforcement officer and the investigating school board personnel agree that there was not a preponderance of evidence to substantiate that abuse occurred;

(2) The report of the alleged child abuse is substantiated. The law enforcement officer and the investigating school district personnel agree that the preponderance of evidence is sufficient to support a finding that the alleged incident of child abuse did occur;

(3) The issue involved in the alleged incident of child abuse is unresolved. The law enforcement officer and the investigating school personnel are unable to agree on their findings and conclusions on the alleged incident.

20. The findings and conclusions of the school board under subsection 19 of this section shall be sent to the children's division. If the findings and conclusions of the school board are that the report of the alleged child abuse is unsubstantiated, the investigation shall be terminated, the case closed, and no record shall be entered in the children's division central registry. If the findings and conclusions of the school board are that the report of the alleged child abuse is substantiated, the children's division shall report the incident to the prosecuting attorney of the appropriate county along with the findings and conclusions of the school district and shall

include the information in the division's central registry. If the findings and conclusions of the school board are that the issue involved in the alleged incident of child abuse is unresolved, the children's division shall report the incident to the prosecuting attorney of the appropriate county along with the findings and conclusions of the school board, however, the incident and the names of the parties allegedly involved shall not be entered into the central registry of the children's division unless and until the alleged child abuse is substantiated by a court of competent jurisdiction.

21. Any superintendent of schools, president of a school board or such person's designee or law enforcement officer who knowingly falsifies any report of any matter pursuant to this section or who knowingly withholds any information relative to any investigation or report pursuant to this section is guilty of a class A misdemeanor.

22. In order to ensure the safety of all students, should a student be expelled for bringing a weapon to school, violent behavior, or for an act of school violence, that student shall not, for the purposes of the accreditation process of the Missouri school improvement plan, be considered a dropout or be included in the calculation of that district's educational persistence ratio.

The office of the child advocate as created in section 37.705 shall be authorized to coordinate mediation efforts between school districts and students **and charter schools and students** when requested by both parties when allegations of child abuse arise in a school setting. The office of the child advocate shall maintain a list of individuals who are qualified mediators. 5. Discussions that occur during the mediation process shall be confidential and may not be used as evidence in any subsequent administrative proceeding, administrative hearing, nor in any civil or criminal proceeding of any state or federal court.

By July 1, 2012, every school district shall adopt a written policy on information that the district provides about former employees, both certificated and noncertificated, to other public schools. **By July 1, 2014, every charter**

school shall adopt a written policy on information that the charter school provides about former employees, both certificated and noncertificated, to other public schools. The policy shall include who is permitted to respond to requests for information from potential employers and the information the district **or charter school** would provide when responding to such a request. The policy shall require that notice of this provision be provided to all current employees and to all potential employers who contact the school district **or charter school** regarding the possible employment of **[**a school district**]** **an** employee.

2. Any school district **or charter school** that employs a person about whom the children's division conducts an investigation involving allegations of sexual misconduct with a student and reaches a finding of substantiated shall immediately suspend the employment of such person, notwithstanding any other provision of law, but the district **or charter school** may return the person to his or her employment if the child abuse and neglect review board's finding that the allegation is substantiated is reversed by a court on appeal and becomes final. Nothing shall preclude a school district **or charter school** from otherwise lawfully terminating the employment of any employee about whom there has been a finding of unsubstantiated resulting from an investigation by the children's division involving allegations of sexual misconduct with a student.

3. Any **[**school district**]** employee who is permitted to respond to requests for information regarding former employees under a policy adopted by his or her school district **or charter school** under subsection 2 of this section and who communicates only the information which such policy directs, and who acts in good faith and without malice shall be immune against any civil action for damages brought by the former employee arising out of the communication of such information. If any such action is brought, the **[**school district**]** employee may, at his or her option, request the attorney general to defend him or her in such suit and the attorney general shall provide such defense, except that if the attorney general represents the school district or the department of elementary and secondary education in a pending licensing matter under section 168.071 the attorney general shall not represent the school district employee.

4. Notwithstanding the provisions of subsection 2 of this section, if a district **or charter school** that has employed any employee whose job involves contact with children receives allegations of sexual misconduct concerning the employee and as a result of such allegations or as a result of such allegations being substantiated by the child abuse and neglect review board dismisses the employee or allows the employee to resign in lieu of being fired and fails to disclose the allegations of sexual misconduct when furnishing a reference for the former employee or responding to a potential employer's request for information regarding such employee, the district **or charter school** shall be directly liable for damages to any student of a subsequent employing district **or charter school** who is found by a court of competent jurisdiction to be a victim of the former employee's sexual misconduct, and the district **or charter school** shall bear third-party liability to the employing district **or charter school** for any legal liability, legal fees, costs, and expenses incurred by the employing district **or charter school** caused by the failure to disclose such information to the employing district **or charter school**.

5. If a school district **or charter school** has previously employed a person about whom the children's division has conducted an investigation involving allegations of sexual misconduct with a student and has reached a finding of substantiated and another public school contacts the district **or charter school** for a reference for the former employee, the district **or charter school** shall disclose the results of the children's division's investigation to the public school.

6. Any school district **or charter school** employee, acting in good faith, who reports alleged sexual misconduct on the part of a teacher or other school employee shall not be discharged or otherwise discriminated against in any fashion because of such reporting.

162.069. EMPLOYEE-STUDENT COMMUNICATIONS, WRITTEN POLICY REQUIRED — TRAINING MATERIALS, REQUIRED CONTENT. — 1. Every school district shall, by March 1, 2012, promulgate a written policy concerning employee-student communication. **The**

governing body of each charter school shall adopt a written policy concerning employee-student communication by January 1, 2014. Such policy shall include, but not be limited to, the use of electronic media and other mechanisms to prevent improper communications between staff members and students.

2. **The school board of each school district and the governing body of each charter school shall, by January 1, 2014, adopt and implement training guidelines and an annual training program for all school employees who are mandatory reporters of child abuse or neglect under section 210.115.**

3. Every school district **and the governing body of each charter school** shall, by July 1, **[**2012**]** **2014**, include in its teacher and employee training a component that provides up-to-date and reliable information on identifying signs of sexual abuse in children and danger signals of potentially abusive relationships between children and adults. The training shall emphasize the importance of mandatory reporting of abuse under section 210.115 including the obligation of mandated reporters to report suspected abuse by other mandated reporters, and how to establish an atmosphere of trust so that students feel their school has concerned adults with whom they feel comfortable discussing matters related to abuse. **The training shall also emphasize that:**

(1) All mandatory reporters shall, upon finding reasonable cause, directly and immediately report suspected child abuse or neglect as provided in section 210.115;

(2) No supervisor or administrator may impede or inhibit any reporting under section 210.115; and

(3) No person making a report under section 210.115 shall be subject to any sanction, including any adverse employment action, for making such report.

210.115. REPORTS OF ABUSE, NEGLECT, AND UNDER AGE EIGHTEEN DEATHS — PERSONS REQUIRED TO REPORT — SUPERVISORS AND ADMINISTRATORS NOT TO IMPEDE REPORTING — DEATHS REQUIRED TO BE REPORTED TO THE DIVISION OR CHILD FATALITY REVIEW PANEL, WHEN — REPORT MADE TO ANOTHER STATE, WHEN. — 1. When any physician, medical examiner, coroner, dentist, chiropractor, optometrist, podiatrist, resident, intern, nurse, hospital or clinic personnel that are engaged in the examination, care, treatment or research of persons, and any other health practitioner, psychologist, mental health professional, social worker, day care center worker or other child-care worker, juvenile officer, probation or parole officer, jail or detention center personnel, teacher, principal or other school official, minister as provided by section 352.400, peace officer or law enforcement official, or other person with responsibility for the care of children has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which would reasonably result in abuse or neglect, that person shall immediately report **[**or cause a report to be made**]** to the division in accordance with the provisions of sections 210.109 to 210.183. **No internal investigation shall be initiated until such a report has been made.** As used in this section, the term "abuse" is not limited to abuse inflicted by a person responsible for the child's care, custody and control as specified in section 210.110, but shall also include abuse inflicted by any other person.

2. **[**Whenever such person is required to report pursuant to sections 210.109 to 210.183 in an official capacity as a staff member of a medical institution, school facility, or other agency, whether public or private, the person in charge or a designated agent shall be notified immediately. The person in charge or a designated agent shall then become responsible for immediately making or causing such report to be made to the division**]** **If two or more members of a medical institution who are required to report jointly have knowledge of a known or suspected instance of child abuse or neglect, a single report may be made by a designated member of that medical team. Any member who has knowledge that the member designated to report has failed to do so shall thereafter immediately make the**

report. Nothing in this section, however, is meant to preclude any person from reporting abuse or neglect.

3. **The reporting requirements under this section are individual, and no supervisor or administrator may impede or inhibit any reporting under this section. No person making a report under this section shall be subject to any sanction, including any adverse employment action, for making such report. Every employer shall ensure that any employee required to report pursuant to subsection 1 of this section has immediate and unrestricted access to communications technology necessary to make an immediate report and is temporarily relieved of other work duties for such time as is required to make any report required under subsection 1 of this section.**

4. Notwithstanding any other provision of sections 210.109 to 210.183, any child who does not receive specified medical treatment by reason of the legitimate practice of the religious belief of the child's parents, guardian, or others legally responsible for the child, for that reason alone, shall not be found to be an abused or neglected child, and such parents, guardian or other persons legally responsible for the child shall not be entered into the central registry. However, the division may accept reports concerning such a child and may subsequently investigate or conduct a family assessment as a result of that report. Such an exception shall not limit the administrative or judicial authority of the state to ensure that medical services are provided to the child when the child's health requires it.

[4.**]** **5.** In addition to those persons and officials required to report actual or suspected abuse or neglect, any other person may report in accordance with sections 210.109 to 210.183 if such person has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which would reasonably result in abuse or neglect.

[5.**]** **6.** Any person or official required to report pursuant to this section, including employees of the division, who has probable cause to suspect that a child who is or may be under the age of eighteen, who is eligible to receive a certificate of live birth, has died shall report that fact to the appropriate medical examiner or coroner. If, upon review of the circumstances and medical information, the medical examiner or coroner determines that the child died of natural causes while under medical care for an established natural disease, the coroner, medical examiner or physician shall notify the division of the child's death and that the child's attending physician shall be signing the death certificate. In all other cases, the medical examiner or coroner shall accept the report for investigation, shall immediately notify the division of the child's death as required in section 58.452 and shall report the findings to the child fatality review panel established pursuant to section 210.192.

[6.**]** **7.** Any person or individual required to report may also report the suspicion of abuse or neglect to any law enforcement agency or juvenile office. Such report shall not, however, take the place of reporting **[**or causing a report to be made**]** to the division.

[7.**]** **8.** If an individual required to report suspected instances of abuse or neglect pursuant to this section has reason to believe that the victim of such abuse or neglect is a resident of another state or was injured as a result of an act which occurred in another state, the person required to report such abuse or neglect may, in lieu of reporting to the Missouri division of family services, make such a report to the child protection agency of the other state with the authority to receive such reports pursuant to the laws of such other state. If such agency accepts the report, no report is required to be made, but may be made, to the **[**Missouri**]** division **[**of family services**]**.

347.186. DESIGNATED SERIES OF MEMBERS, MANAGERS, OR LIMITED LIABILITY INTERESTS PERMITTED — REQUIREMENTS. — 1. An operating agreement may establish or provide for the establishment of a designated series of members, managers, or limited liability company interests having separate rights, powers, or duties with respect to specified property or obligations of the limited liability company or profits and losses associated with specified property or obligations. To the extent provided in the operating agreement, any such series may have a separate business purpose or investment objective.

2. (1) Notwithstanding any other provisions of law to the contrary, the debts, liabilities, and obligations incurred, contracted for, or otherwise existing with respect to a particular series shall be enforceable against the assets of such series only, and not against the assets of the limited liability company generally or any other series thereof. Such particular series shall be deemed to have possession, custody, and control only of the books, records, information, and documentation related to such series and not of the books, records, information, and documentation related to the limited liability company as a whole or any other series thereof if all of the following apply:

(a) The operating agreement creates one or more series;

(b) Separate and distinct records are maintained for or on behalf of any such series;

(c) The assets associated with any such series, whether held directly or indirectly, including through a nominee or otherwise, are accounted for separately from the other assets of the limited liability company or of any other series;

(d) The operating agreement provides for the limitations on liabilities of a series described in this subdivision;

(e) Notice of the limitation on liabilities of a series described in this subdivision is included in the limited liability company's articles of organization; and

(f) The limited liability company has filed articles of organization that separately identify each series which is to have limited liability under this section.

(2) With respect to a particular series, unless otherwise provided in the operating agreement, none of the debts, liabilities, obligations, and expenses incurred, contracted for or otherwise existing with respect to a limited liability company generally, or any other

series thereof, shall be enforceable against the assets of such series, subject to the provisions of subdivision (1) of this subsection.

(3) Compliance with subparagraphs (e) and (f) of paragraph (1) of subdivision 1 of this subsection shall constitute notice of such limitation of liability of a series.

(4) A series with limited liability shall be treated as a separate entity to the extent set forth in the articles of organization. Each series with limited liability may, in its own name, contract, hold title to assets, grant security interests, sue and be sued, and otherwise conduct business and exercise the powers of a limited liability company under this chapter. The limited liability company and any of its series may elect to consolidate its operations as a single taxpayer to the extent permitted under applicable law, elect to work cooperatively, elect to contract jointly, or elect to be treated as a single business for the purposes of qualification or authorization to do business in this or any other state. Such elections shall not affect the limitation of liability set forth in this section except to the extent that the series have specifically accepted joint liability by contract.

3. Except in the case of a foreign limited liability company that has adopted a name that is not the name under which it is registered in its jurisdiction of organization, as permitted under sections 347.153 and 347.157, the name of the series with limited liability is required to contain the entire name of the limited liability company and be distinguishable from the names of the other series set forth in the articles of organization. In the case of a foreign limited liability company that has adopted a name that is not the name under which it is registered in its jurisdiction of organization, as permitted under sections 347.153 and 347.157, the name of the series with limited liability must contain the entire name under which the foreign limited liability company has been admitted to transact business in this state.

4. (1) (a) Upon filing of articles of organization setting forth the name of each series with limited liability, in compliance with section 347.037 or amendments under section 347.041, the series' existence shall begin.

(b) Each copy of the articles of organization stamped "Filed" and marked with the filing date shall be conclusive evidence that all required conditions have been met and that the series has been or shall be legally organized and formed under this section and is notice for all purposes of all other facts required to be set forth therein.

(c) The name of a series with limited liability under this section may be changed by filing articles of amendment with the secretary of state pursuant to section 347.041, identifying the series whose name is being changed and the new name of such series. If not the same as the limited liability company, the names of the members of a member-managed series or of the managers of a manager-managed series may be changed by an amendment to the articles of organization with the secretary of state.

(d) A series with limited liability under this section may be dissolved by filing with the secretary of state articles of amendment pursuant to section 347.041 identifying the series being dissolved or by the dissolution of the limited liability company as provided in section 347.045. Except to the extent otherwise provided in the operating agreement, a series may be dissolved and its affairs wound up without causing the dissolution of the limited liability company. The dissolution of a series established in accordance with subsection 2 of this section shall not affect the limitation on liabilities of such series provided by subsection 2 of this section. A series is terminated and its affairs shall be wound up upon the dissolution of the limited liability company under section 347.045.

(e) Articles of organization, amendment, or termination described under this subdivision may be executed by the limited liability company or any manager, person, or entity designated in the operating agreement for the limited liability company.

(2) If different from the limited liability company, the articles of organization shall list the names of the members for each series if the series is member-managed or the names of the managers if the series is manager-managed.

(3) A series of a limited liability company shall be deemed to be in good standing as long as the limited liability company is in good standing.

(4) The registered agent and registered office for the limited liability company appointed under section 347.033 shall serve as the agent and office for service of process for each series in this state.

5. (1) An operating agreement may provide for classes or groups of members or managers associated with a series having such relative rights, powers, and duties as an operating agreement may provide and may make provision for the future creation of additional classes or groups of members or managers associated with the series having such relative rights, powers, and duties as may from time to time be established, including rights, powers, and duties senior and subordinate to or different from existing classes and groups of members or managers associated with the series.

(2) A series may be managed either by the member or members associated with the series or by the manager or managers chosen by the members of such series, as provided in the operating agreement. Unless otherwise provided in an operating agreement, the management of a series shall be vested in the members associated with such series.

(3) An operating agreement may grant to all or certain identified members or managers, or to a specified class or group of the members or managers associated with a series, the right to vote separately or with all or any class or group of the members or managers associated with the series, on any matter. An operating agreement may provide that any member or class or group of members associated with a series shall have no voting rights or ability to otherwise participate in the management or governance of such series, but any such member or class or group of members are owners of the series.

(4) Except as modified in this section, the provisions of this chapter which are generally applicable to limited liability companies and their managers, members, and transferees shall be applicable to each particular series with respect to the operation of such series.

(5) Except as otherwise provided in an operating agreement, any event specified in this chapter or in an operating agreement that causes a manager to cease to be a manager with respect to a series shall not, in itself, cause such manager to cease to be a manager of the limited liability company or with respect to any other series thereof.

(6) Except as otherwise provided in an operating agreement, any event specified in this chapter or in an operating agreement that causes a member to cease to be associated with a series shall not, in itself, cause such member to cease to be associated with any other series, terminate the continued membership of a member in the limited liability company, or cause the termination of the series, regardless of whether such member was the last remaining member associated with such series.

(7) An operating agreement may impose restrictions, duties, and obligations on members of the limited liability company or any series thereof as a matter of internal governance, including, without limitation, those with regard to:

(i) Choice of law, forum selection, or consent to personal jurisdiction;

(ii) Capital contributions;

(iii) Restrictions on, or terms and conditions of, the transfer of membership interests;

(iv) Restrictive covenants, including non-competition, non-solicitation, and confidentiality provisions;

(v) Fiduciary duties; and

(vi) Restrictions, duties, or obligations to or for the benefit of the limited liability company, other series thereof, or their affiliates.

6. (1) If a limited liability company with the ability to establish series does not register to do business in a foreign jurisdiction for itself and its series, a series of a limited liability company may itself register to do business as a limited liability company in the foreign jurisdiction in accordance with the laws of the foreign jurisdiction.

(2) If a foreign limited liability company, as permitted in the jurisdiction of its organization, has established a series having separate rights, powers, or duties and has limited the liabilities of such series so that the debts, liabilities, and obligations incurred, contracted for, or otherwise existing with respect to a particular series are enforceable against the assets of such series only, and not against the assets of the limited liability company generally or any other series thereof, or so that the debts, liabilities, obligations, and expenses incurred, contracted for, or otherwise existing with respect to the limited liability company generally or any other series thereof are not enforceable against the assets of such series, then the limited liability company, on behalf of itself or any of its series, or any of its series on its own behalf may register to do business in this state in accordance with this chapter. The limitation of liability shall also be stated on the application for registration. As required under section 347.153, the registration application filed shall identify each series being registered to do business in the state by the limited liability company. Unless otherwise provided in the operating agreement, the debts, liabilities, and obligations incurred, contracted for, or otherwise existing with respect to a particular series of such a foreign limited liability company shall be enforceable against the assets of such series only and not against the assets of the foreign limited liability company generally or any other series thereof, and none of the debts, liabilities, obligations, and expenses incurred, contracted for, or otherwise existing with respect to such a foreign limited liability company generally or any other series thereof shall be enforceable against the assets of such series.

7. Nothing in sections 347.039, 347.153, or 347.186 shall be construed to alter existing Missouri statute or common law providing any cause of action for fraudulent conveyance, including but not limited to Chapter 428, or any relief available under existing law that permits a challenge to limited liability.

The circuit court shall hear evidence on the petition. If the court finds that it is in the best interest of the inhabitants of the county in which the district is located for the county to withdraw from the district, the court shall make an order reciting the same and submit the question to the voters. The costs of submitting the question to the voters at the general municipal election shall be paid as provided in section 115.063. The question shall be submitted in substantially the following format:

No additional costs or obligations for the withdrawing county shall be created except as necessary. The withdrawal shall occur on the first day of the following January after the vote. If the court finds that two-thirds of the voters voting on the question shall not have voted favorably on the question to

withdraw from the district, the court shall issue an order dismissing the petition and the district shall continue to operate.

11. The governing body of any district may seek voter approval to increase its current tax rate authorized under this section, provided such increase shall not cause the total tax to exceed thirty cents per one hundred dollars of assessed valuation. To propose such an increase, the governing body shall submit the question to the voters at the general municipal election in the county in which the district is located. The costs of submitting the question to the voters at the general municipal election shall be paid as provided in section 115.063. The question shall be submitted in substantially the following form:

"Shall the Extension District in ..... (insert name of county or counties) be authorized to increase the tax rate from ..... (insert current amount of tax) cents to ..... (insert proposed amount of tax not to exceed thirty) cents per one hundred dollars of assessed valuation for the purpose of funding the University of Missouri Extension District programs, equipment, and services in the district?"

173.005. DEPARTMENT OF HIGHER EDUCATION CREATED — AGENCIES, DIVISIONS, TRANSFERRED TO DEPARTMENT — COORDINATING BOARD, APPOINTMENT QUALIFICATIONS, TERMS, COMPENSATION, DUTIES, ADVISORY COMMITTEE, MEMBERS. — 1. There is hereby created a "Department of Higher Education", and the division of higher education of the department of education is abolished and all its powers, duties, functions, personnel and property are transferred as provided by the Reorganization Act of 1974, Appendix B, RSMo.

2. The commission on higher education is abolished and all its powers, duties, personnel and property are transferred by type I transfer to the "Coordinating Board for Higher Education", which is hereby created, and the coordinating board shall be the head of the department. The coordinating board shall consist of nine members appointed by the governor with the advice and consent of the senate, and not more than five of its members shall be of the same political party. None of the members shall be engaged professionally as an educator or educational administrator with a public or private institution of higher education at the time appointed or during his term. Moreover, no person shall be appointed to the coordinating board who shall not be a citizen of the United States, and who shall not have been a resident of the

state of Missouri two years next prior to appointment, and at least one but not more than two persons shall be appointed to said board from each congressional district. The term of service of a member of the coordinating board shall be six years and said members, while attending the meetings of the board, shall be reimbursed for their actual expenses. Notwithstanding any provision of law to the contrary, nothing in this section relating to a change in the composition and configuration of congressional districts in this state shall prohibit a member who is serving a term on August 28, 2011, from completing his or her term. The coordinating board may, in order to carry out the duties prescribed for it in subsections 1, 2, 3, 7, and 8 of this section, employ such professional, clerical and research personnel as may be necessary to assist it in performing those duties, but this staff shall not, in any fiscal year, exceed twenty-five full-time equivalent employees regardless of the source of funding. In addition to all other powers, duties and functions transferred to it, the coordinating board for higher education shall have the following duties and responsibilities:

(1) The coordinating board for higher education shall have approval of proposed new degree programs to be offered by the state institutions of higher education;

(2) The coordinating board for higher education may promote and encourage the development of cooperative agreements between Missouri public four-year institutions of higher education which do not offer graduate degrees and Missouri public four-year institutions of higher education which do offer graduate degrees for the purpose of offering graduate degree programs on campuses of those public four-year institutions of higher education which do not otherwise offer graduate degrees. Such agreements shall identify the obligations and duties of the parties, including assignment of administrative responsibility. Any diploma awarded for graduate degrees under such a cooperative agreement shall include the names of both institutions inscribed thereon. Any cooperative agreement in place as of August 28, 2003, shall require no further approval from the coordinating board for higher education. Any costs incurred with respect to the administrative provisions of this subdivision may be paid from state funds allocated to the institution assigned the administrative authority for the program. The provisions of this subdivision shall not be construed to invalidate the provisions of subdivision (1) of this subsection;

(3) In consultation with the heads of the institutions of higher education affected and against a background of carefully collected data on enrollment, physical facilities, manpower needs, institutional missions, the coordinating board for higher education shall establish guidelines for appropriation requests by those institutions of higher education; however, other provisions of the Reorganization Act of 1974 notwithstanding, all funds shall be appropriated by the general assembly to the governing board of each public four-year institution of higher education which shall prepare expenditure budgets for the institution;

(4) No new state-supported senior colleges or residence centers shall be established except as provided by law and with approval of the coordinating board for higher education;

(5) The coordinating board for higher education shall establish admission guidelines consistent with institutional missions;

(6) The coordinating board for higher education shall require all public two-year and four-year higher education institutions to replicate best practices in remediation identified by the coordinating board and institutions from research undertaken by regional educational laboratories, higher education research organizations, and similar organizations with expertise in the subject, and identify and reduce methods that have been found to be ineffective in preparing or retaining students or that delay students from enrollment in college-level courses;

(7) The coordinating board shall establish policies and procedures for institutional decisions relating to the residence status of students;

(8) The coordinating board shall establish guidelines to promote and facilitate the transfer of students between institutions of higher education within the state and, with the assistance of the committee on transfer and articulation, shall require all public two-year and four-year higher education institutions to create by July 1, 2014, a statewide core transfer library of at least twenty-

five lower division courses across all institutions that are transferable among all public higher education institutions. The coordinating board shall establish policies and procedures to ensure such courses are accepted in transfer among public institutions and treated as equivalent to similar courses at the receiving institutions. The coordinating board shall develop a policy to foster reverse transfer for any student who has accumulated enough hours in combination with at least one public higher education institution in Missouri that offers an associate degree and one public four-year higher education institution in the prescribed courses sufficient to meet the public higher education institution's requirements to be awarded an associate degree. The department of elementary and secondary education shall maintain the alignment of the assessments found in section 160.518 and successor assessments with the competencies previously established under this subdivision for entry-level collegiate courses in English, mathematics, foreign language, sciences, and social sciences associated with an institution's general education core;

(9) The coordinating board shall collect the necessary information and develop comparable data for all institutions of higher education in the state. The coordinating board shall use this information to delineate the areas of competence of each of these institutions and for any other purposes deemed appropriate by the coordinating board;

(10) Compliance with requests from the coordinating board for institutional information and the other powers, duties and responsibilities, herein assigned to the coordinating board, shall be a prerequisite to the receipt of any funds which the coordinating board is responsible for administering;

(11) If any institution of higher education in this state, public or private, willfully fails or refuses to follow any lawful guideline, policy or procedure established or prescribed by the coordinating board, or knowingly deviates from any such guideline, or knowingly acts without coordinating board approval where such approval is required, or willfully fails to comply with any other lawful order of the coordinating board, the coordinating board may, after a public hearing, withhold or direct to be withheld from that institution any funds the disbursement of which is subject to the control of the coordinating board, or may remove the approval of the institution as an approved institution within the meaning of section 173.1102. If any such public institution willfully disregards board policy, the commissioner of higher education may order such institution to remit a fine in an amount not to exceed one percent of the institution's current fiscal year state operating appropriation to the board. The board shall hold such funds until such time that the institution, as determined by the commissioner of higher education, corrects the violation, at which time the board shall refund such amount to the institution. If the commissioner determines that the institution has not redressed the violation within one year, the fine amount shall be deposited into the general revenue fund, unless the institution appeals such decision to the full coordinating board, which shall have the authority to make a binding and final decision, by means of a majority vote, regarding the matter. However, nothing in this section shall prevent any institution of higher education in this state from presenting additional budget requests or from explaining or further clarifying its budget requests to the governor or the general assembly; and

(12) (a) As used in this subdivision, the term "out-of-state public institution of higher education" shall mean an education institution located outside of Missouri that:

a. Is controlled or administered directly by a public agency or political subdivision or is classified as a public institution by the state;

b. Receives appropriations for operating expenses directly or indirectly from a state other than Missouri;

c. Provides a postsecondary course of instruction at least six months in length leading to or directly creditable toward a degree or certificate;

d. Meets the standards for accreditation by an accrediting body recognized by the United States Department of Education or any successor agency; and

e. Permits faculty members to select textbooks without influence or pressure by any religious or sectarian source.

(b) No later than July 1, 2008, the coordinating board shall promulgate rules regarding:

a. The board's approval process of proposed new degree programs and course offerings by any out-of-state public institution of higher education seeking to offer degree programs or course work within the state of Missouri; and

b. The board's approval process of degree programs and courses offered by any out-of-state public institutions of higher education that, prior to July 1, 2008, were approved by the board to operate a school in compliance with the provisions of sections 173.600 to 173.618. The rules shall ensure that, as of July 1, 2008, all out-of-state public institutions seeking to offer degrees and courses within the state of Missouri are evaluated in a manner similar to Missouri public higher education institutions. Such out-of-state public institutions shall be held to standards no lower than the standards established by the coordinating board for program approval and the policy guidelines of the coordinating board for data collection, cooperation, and resolution of disputes between Missouri institutions of higher education under this section. Any such out-of-state public institutions of higher education wishing to continue operating within this state must be approved by the board under the rules promulgated under this subdivision. The coordinating board may charge and collect fees from out-of-state public institutions to cover the costs of reviewing and assuring the quality of programs offered by out-of-state public institutions. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly under chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

(c) Nothing in this subdivision or in section 173.616 shall be construed or interpreted so that students attending an out-of-state public institution are considered to be attending a Missouri public institution of higher education for purposes of obtaining student financial assistance.

3. The coordinating board shall meet at least four times annually with an advisory committee who shall be notified in advance of such meetings. The coordinating board shall have exclusive voting privileges. The advisory committee shall consist of thirty-two members, who shall be the president or other chief administrative officer of the University of Missouri; the chancellor of each campus of the University of Missouri; the president of each state-supported four-year college or university, including Harris-Stowe State University, Missouri Southern State University, Missouri Western State University, and Lincoln University; the president of **[**Linn State Technical College**]** **State Technical College of Missouri**; the president or chancellor of each public community college district; and representatives of each of five accredited private institutions selected biennially, under the supervision of the coordinating board, by the presidents of all of the state's privately supported institutions; but always to include at least one representative from one privately supported community college, one privately supported four-year college, and one privately supported university. The conferences shall enable the committee to advise the coordinating board of the views of the institutions on matters within the purview of the coordinating board.

4. The University of Missouri, Lincoln University, and all other state-governed colleges and universities, chapters 172, 174, 175, and others, are transferred by type III transfers to the department of higher education subject to the provisions of subsection 2 of this section.

5. The state historical society, chapter 183, is transferred by type III transfer to the University of Missouri.

6. The state anatomical board, chapter 194, is transferred by type II transfer to the department of higher education.

7. All the powers, duties and functions vested in the division of public schools and state board of education relating to community college state aid and the supervision, formation of districts and all matters otherwise related to the state's relations with community college districts and matters pertaining to community colleges in public school districts, chapters 163, 178, and others, are transferred to the coordinating board for higher education by type I transfer. Provided, however, that all responsibility for administering the federal-state programs of vocational-technical education, except for the 1202a postsecondary educational amendments of 1972 program, shall remain with the department of elementary and secondary education. The department of elementary and secondary education and the coordinating board for higher education shall cooperate in developing the various plans for vocational-technical education; however, the ultimate responsibility will remain with the state board of education.

8. All the powers, duties, functions, and properties of the state poultry experiment station, chapter 262, are transferred by type I transfer to the University of Missouri, and the state poultry association and state poultry board are abolished. In the event the University of Missouri shall cease to use the real estate of the poultry experiment station for the purposes of research or shall declare the same surplus, all real estate shall revert to the governor of the state of Missouri and shall not be disposed of without legislative approval.

173.1105. AWARD AMOUNTS, MINIMUMS AND MAXIMUMS — ADJUSTMENT IN AWARDS, WHEN. — 1. An applicant who is an undergraduate postsecondary student at an approved private or public institution and who meets the other eligibility criteria shall be eligible for financial assistance, with a minimum and maximum award amount as follows:

(1) For academic years 2010-11, 2011-12, 2012-13, and 2013-14:

(a) One thousand dollars maximum and three hundred dollars minimum for students attending institutions classified as part of the public two-year sector;

(b) Two thousand one hundred fifty dollars maximum and one thousand dollars minimum for students attending institutions classified as part of the public four-year sector, including **[**Linn State Technical College**]** **State Technical College of Missouri**; and

2. All students with an expected family contribution of twelve thousand dollars or less shall receive at least the minimum award amount for his or her institution. Maximum award amounts for an eligible student with an expected family contribution above seven thousand dollars shall be reduced by ten percent of the maximum expected family contribution for his or her increment group. Any award amount shall be reduced by the amount of a student's payment from the A+ schools program or any successor program to it. For purposes of this subsection, the term "increment group" shall mean a group organized by expected family contribution in five hundred dollar increments into which all eligible students shall be placed.

3. If appropriated funds are insufficient to fund the program as described, the maximum award shall be reduced across all sectors by the percentage of the shortfall. If appropriated funds exceed the amount necessary to fund the program, the additional funds shall be used to increase the number of recipients by raising the cutoff for the expected family contribution rather than by increasing the size of the award.

4. Every three years, beginning with academic year 2009-10, the award amount may be adjusted to increase no more than the Consumer Price Index for All Urban Consumers (CPI-U),

1982-1984 = 100, not seasonally adjusted, as defined and officially recorded by the United States Department of Labor, or its successor agency, for the previous academic year. The coordinating board shall prepare a report prior to the legislative session for use of the general assembly and the governor in determining budget requests which shall include the amount of funds necessary to maintain full funding of the program based on the baseline established for the program upon the effective date of sections 173.1101 to 173.1107. Any increase in the award amount shall not become effective unless an increase in the amount of money appropriated to the program necessary to cover the increase in award amount is passed by the general assembly.

If any disability beneficiary who has not attained sixty years of age refuses to submit to a medical examination, his or her disability pension may be discontinued **by the board of trustees of the police retirement system** until his or her withdrawal of such refusal, and if his or her refusal continues for one year, all rights in and to such pension may be revoked by the board of trustees.

4. If the medical **[**director**]** **board** certifies to the board of trustees that a disability beneficiary is able to perform the duties of a police officer, **[**and if the board of trustees concurs with the medical director's determination,**]** then such beneficiary's disability pension shall cease.

5. If upon cessation of a disability pension under subsection 4 of this section, the former disability beneficiary is restored to active service, he or she shall again become a member, and he or she shall contribute thereafter at the same rate as other members. Upon his or her subsequent retirement, he or she shall be credited with all of his or her active service time as a member including the service time prior to receiving disability retirement, but not including any time during which the former disability beneficiary received a disability pension under this section.

6. If upon cessation of a disability pension under subsection 4 of this section, the former disability beneficiary is not restored to active service, such former disability beneficiary shall be entitled to the retirement benefit to which such former disability beneficiary would have been

entitled if such former disability beneficiary had terminated service for any reason other than dishonesty or being convicted of a felony at the time of such cessation of such former disability beneficiary's disability pension. For purposes of such retirement benefits, such former disability beneficiary shall be credited with all of the former disability beneficiary's active service time as a member, but not including any time during which the former disability beneficiary received a disability beneficiary pension under this section.

208.053. LOW-WAGE TRAP ELIMINATION ACT — HAND-UP PILOT PROGRAM, TRANSITIONING OF PERSONS RECEIVING CHILD CARE SUBSIDIES — PREMIUMS — REPORT — FUND CREATED, PURPOSE — RULEMAKING — SUNSET PROVISION. — 1. The provisions of this section shall be known as the "Low-Wage Trap Elimination Act". In order to more effectively transition persons receiving state-funded child care subsidy benefits under this chapter, the children's division, in conjunction with the department of revenue, shall, subject to appropriations, by January 1, 2013, implement a pilot program in at least one rural county and in at least one urban child care center that serves at least three hundred families, to be called the "Hand-up Program", to allow willing recipients who wish to participate in the program to continue to receive such child care subsidy benefits while sharing in the cost of such benefits through the payment of a premium, as follows:

(1) For purposes of this section, "full child care benefits" shall be the full benefits awarded to a recipient based on the income eligibility amount established by the division through the annual appropriations process as of August 28, 2012, to qualify for the benefits and shall not include the transitional child care benefits that are awarded to recipients whose income surpasses the eligibility level for full benefits to continue. The hand-up program shall be voluntary and shall be designed such that a participating recipient will not be faced with a sudden loss of child care benefits should the recipient's income rise above the maximum allowable monthly income for persons to receive full child care benefits as of August 28, 2012. In such instance, the recipient shall be permitted to continue to receive such benefits if the recipient pays a premium, to be paid via a payroll deduction if possible, to be applied only to that portion of the recipient's income above such maximum allowable monthly income for the receipt of full child care benefits as follows:

(a) The premium shall be forty-four percent of the recipient's excess adjusted gross income over the maximum allowable monthly income for the applicable family size for the receipt of child care benefits;

(b) The premium shall be paid on a monthly basis by the participating recipient, or may be paid on a different periodic basis if through a payroll deduction consistent with the payroll period of the person's employer;

(c) The division shall develop a payroll deduction program in conjunction with the department of revenue, and shall promulgate rules for the payment of premiums, through such payroll deduction program or through an alternate method to be determined by the division, owed under the hand-up program; and

(d) Participating recipients who fail to pay the premium owed shall be removed permanently from the program after sixty days of nonpayment;

(2) Subject to the receipt of federal waivers if necessary, participating recipients shall be eligible to receive child care service benefits at income levels all the way up to the level at which a person's premium equals the value of the child care service benefits received by the recipient;

(3) Only those recipients who currently receive full child care benefits as of joining the program and who had been receiving full child care service benefits **[**continuously since on or before August 28, 2012**]** **for a period of at least four months prior to implementation by the division of this program**, shall be eligible to participate in the program. Only those recipients who agree to the terms of the hand-up program during a ninety-day sign-up period shall be allowed to participate in the program, pursuant to rules to be promulgated by the division; and

(4) A participating recipient shall be allowed to opt out of the program at any time, but such person shall not be allowed to participate in the program a second time.

2. The division shall track the number of participants in the hand-up program, premiums and taxes paid by each participant in the program and the aggregate of such premiums and taxes, as well as the aggregate of those taxes paid on income exceeding the maximum allowable income for receiving full child care benefits outside the hand-up program, and shall issue an annual report to the general assembly by January 1, 2014, and annually on January first thereafter, detailing the effectiveness of the pilot program in encouraging recipients to increase their income levels above the income maximum applicable to each recipient. The report shall also detail the costs of administration and the increased amount of state income tax paid and premiums paid as a result of the program, as well as an analysis of whether the pilot program could be expanded to include other types of benefits including but not limited to food stamps, temporary assistance for needy families, low-income heating assistance, women, infants and children supplemental nutrition program, the state children's health insurance program, and MO HealthNet benefits.

3. The division shall pursue all necessary waivers from the federal government to implement the hand-up program with the goal of allowing participating recipients to receive child care service benefits at income levels all the way up to the level at which a person's premium equals the value of the child care service benefits received by the recipient. If the division is unable to obtain such waivers, the division shall implement the program to the degree possible without such waivers.

4. (1) There is hereby created in the state treasury the "Hand-Up Program Premium Fund" which shall consist of premiums collected under this section. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.

(2) All premiums received under the program shall be deposited in the fund, out of which the cost of administering the hand-up program shall be paid, as well as the necessary payments to the federal government and to the state general revenue fund. Child care benefits provided under the hand-up program shall continue to be paid for as under the existing state child care assistance program.

5. After the first year of the program, or sooner if feasible, the cost of administering the program shall be paid out of the premiums received. Any premiums collected exceeding the cost of administering the program shall, if required by federal law, be shared with the federal government and the state general revenue fund in the same proportion that the federal government shares in the cost of funding the child care assistance program with the state.

6. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated under this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2012, shall be invalid and void.

7. Pursuant to section 23.253 of the Missouri sunset act:

(1) The provisions of the new program authorized under this section shall sunset automatically three years after August 28, **[**2012**]** **2014**, unless reauthorized by an act of the general assembly; and

(2) If such program is reauthorized, the program authorized under this section shall sunset automatically six years after the effective date of the reauthorization of this section; and

(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under this section is sunset.

208.146. TICKET-TO-WORK HEALTH ASSURANCE PROGRAM — ELIGIBILITY — EXPIRATION DATE. — 1. The program established under this section shall be known as the "Ticket to Work Health Assurance Program". Subject to appropriations and in accordance with the federal Ticket to Work and Work Incentives Improvement Act of 1999 (TWWIIA), Public Law 106-170, the medical assistance provided for in section 208.151 may be paid for a person who is employed and who:

Individuals with gross incomes in excess of one hundred percent of the federal poverty level shall pay a premium for participation in accordance with subsection 4 of this section.

Self-employed persons shall provide proof of payment of Medicare and Social Security taxes for income to be considered earned.

3. (1) For purposes of determining eligibility under this section, the available asset limit and the definition of available assets shall be the same as those used to determine MO HealthNet eligibility for permanent and totally disabled individuals under subdivision (24) of subsection 1 of section 208.151 except for:

(a) Medical savings accounts limited to deposits of earned income and earnings on such income while a participant in the program created under this section with a value not to exceed five thousand dollars per year; and

(b) Independent living accounts limited to deposits of earned income and earnings on such income while a participant in the program created under this section with a value not to exceed five thousand dollars per year. For purposes of this section, an "independent living account" means an account established and maintained to provide savings for transportation, housing, home modification, and personal care services and assistive devices associated with such person's disability.

(2) To determine net income, the following shall be disregarded:

(g) A standard deduction for impairment-related employment expenses equal to one-half of the disabled worker's earned income.

4. Any person whose gross income exceeds one hundred percent of the federal poverty level shall pay a premium for participation in the medical assistance provided in this section. Such premium shall be:

(1) For a person whose gross income is more than one hundred percent but less than one hundred fifty percent of the federal poverty level, four percent of income at one hundred percent of the federal poverty level;

(2) For a person whose gross income equals or exceeds one hundred fifty percent but is less than two hundred percent of the federal poverty level, four percent of income at one hundred fifty percent of the federal poverty level;

An increase in premiums resulting from a reported change in income or household size shall be effective with the next premium invoice that is mailed to a person after due process requirements have been met. A decrease in premiums shall be effective the first day of the month immediately following the month in which the change is reported.

6. If an eligible person's employer offers employer-sponsored health insurance and the department of social services determines that it is more cost effective, such person shall participate in the employer-sponsored insurance. The department shall pay such person's portion of the premiums, co-payments, and any other costs associated with participation in the employer-sponsored health insurance.

7. The provisions of this section shall expire **[**six years after**]** August 28, **[**2007**]** **2019**.

There is hereby created in the state treasury the "Missouri Senior Services Protection Fund", which shall consist of money collected under subsection 2 of this section. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and, upon appropriation, money in the fund shall be used solely for the administration of subsection 2 of this section. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

2. The state treasurer shall deposit from moneys that otherwise would have been deposited into the general revenue fund an amount equal to fifty-five million one hundred thousand dollars into the Missouri senior services protection fund. At least one-quarter of such amount shall be deposited on or before July 15, 2013, an additional one-quarter by October 15, 2013, and an additional one-quarter by January 15, 2014. The remaining amount shall be deposited by March 15, 2014. Moneys in the fund shall be allocated for services for low-income seniors and people with disabilities.

376.1900. DEFINITIONS — REIMBURSEMENT FOR TELEHEALTH SERVICES, WHEN. — 1. As used in this section, the following terms shall mean:

(1) "Electronic visit", or "e-Visit", an online electronic medical evaluation and management service completed using a secured web-based or similar electronic-based communications network for a single patient encounter. An electronic visit shall be initiated by a patient or by the guardian of a patient with the health care provider, be completed using a federal Health Insurance Portability and Accountability Act (HIPAA) compliant online connection, and include a permanent record of the electronic visit;

(2) "Health benefit plan" shall have the same meaning ascribed to it in section 376.1350;

(3) "Health care provider" shall have the same meaning ascribed to it in section 376.1350;

(4) "Health care service", a service for the diagnosis, prevention, treatment, cure or relief of a physical or mental health condition, illness, injury or disease;

(5) "Health carrier" shall have the same meaning ascribed to it in section 376.1350;

(6) "Telehealth" shall have the same meaning ascribed to it in section 208.670.

2. Each health carrier or health benefit plan that offers or issues health benefit plans which are delivered, issued for delivery, continued, or renewed in this state on or after January 1, 2014, shall not deny coverage for a health care service on the basis that the health care service is provided through telehealth if the same service would be covered if provided through face-to-face diagnosis, consultation, or treatment.

3. A health carrier may not exclude an otherwise covered health care service from coverage solely because the service is provided through telehealth rather than face-to-face consultation or contact between a health care provider and a patient.

4. A health carrier shall not be required to reimburse a telehealth provider or a consulting provider for site origination fees or costs for the provision of telehealth services; however, subject to correct coding, a health carrier shall reimburse a health care provider for the diagnosis, consultation, or treatment of an insured or enrollee when the health care service is delivered through telehealth on the same basis that the health carrier covers the service when it is delivered in person.

5. A health care service provided through telehealth shall not be subject to any greater deductible, copayment, or coinsurance amount than would be applicable if the same health care service was provided through face-to-face diagnosis, consultation, or treatment.

6. A health carrier shall not impose upon any person receiving benefits under this section any copayment, coinsurance, or deductible amount, or any policy year, calendar year, lifetime, or other durational benefit limitation or maximum for benefits or services, that is not equally imposed upon all terms and services covered under the policy, contract, or health benefit plan.

7. Nothing in this section shall preclude a health carrier from undertaking utilization review to determine the appropriateness of telehealth as a means of delivering a health care service, provided that the determinations shall be made in the same manner as those regarding the same service when it is delivered in person.

8. A health carrier or health benefit plan may limit coverage for health care services that are provided through telehealth to health care providers that are in a network approved by the plan or the health carrier.

9. Nothing in this section shall be construed to require a health care provider to be physically present with a patient where the patient is located unless the health care provider who is providing health care services by means of telehealth determines that the presence of a health care provider is necessary.

10. The provisions of this section shall not apply to a supplemental insurance policy, including a life care contract, accident-only policy, specified disease policy, hospital policy providing a fixed daily benefit only, Medicare supplement policy, long-term care policy, short-term major medical policies of six months' or less duration, or any other supplemental policy as determined by the director of the department of insurance, financial institutions and professional registration.

SECTION B. EMERGENCY CLAUSE. — Because immediate action is necessary to protect low-income seniors and disabled persons, the enactment of section 208.1050 of this act is deemed necessary for the immediate preservation of the public health, welfare, peace and safety, and is hereby declared to be an emergency act within the meaning of the constitution, and the enactment of section 208.1050 of this act shall be in full force and effect upon its passage and approval.

SECTION C. DELAYED EFFECTIVE DATE. — The enactment of section 376.1900 of this act shall become effective January 1, 2014.

287.020. DEFINITIONS — INTENT TO ABROGATE EARLIER CASE LAW. — 1. The word "employee" as used in this chapter shall be construed to mean every person in the service of any

employer, as defined in this chapter, under any contract of hire, express or implied, oral or written, or under any appointment or election, including executive officers of corporations. Except as otherwise provided in section 287.200, any reference to any employee who has been injured shall, when the employee is dead, also include his dependents, and other persons to whom compensation may be payable. The word "employee" shall also include all minors who work for an employer, whether or not such minors are employed in violation of law, and all such minors are hereby made of full age for all purposes under, in connection with, or arising out of this chapter. The word "employee" shall not include an individual who is the owner, as defined in subsection 43 of section 301.010, and operator of a motor vehicle which is leased or contracted with a driver to a for-hire motor carrier operating within a commercial zone as defined in section 390.020 or 390.041, or operating under a certificate issued by the Missouri department of transportation or by the United States Department of Transportation, or any of its subagencies. **The word "employee" also shall not include any person performing services for board, lodging, aid, or sustenance received from any religious, charitable, or relief organization.**

2. The word "accident" as used in this chapter shall mean an unexpected traumatic event or unusual strain identifiable by time and place of occurrence and producing at the time objective symptoms of an injury caused by a specific event during a single work shift. An injury is not compensable because work was a triggering or precipitating factor.

3. (1) In this chapter the term "injury" is hereby defined to be an injury which has arisen out of and in the course of employment. An injury by accident is compensable only if the accident was the prevailing factor in causing both the resulting medical condition and disability. "The prevailing factor" is defined to be the primary factor, in relation to any other factor, causing both the resulting medical condition and disability.

(2) An injury shall be deemed to arise out of and in the course of the employment only if:

(a) It is reasonably apparent, upon consideration of all the circumstances, that the accident is the prevailing factor in causing the injury; and

(b) It does not come from a hazard or risk unrelated to the employment to which workers would have been equally exposed outside of and unrelated to the employment in normal nonemployment life.

(3) An injury resulting directly or indirectly from idiopathic causes is not compensable.

(4) A cardiovascular, pulmonary, respiratory, or other disease, or cerebrovascular accident or myocardial infarction suffered by a worker is an injury only if the accident is the prevailing factor in causing the resulting medical condition.

(5) The terms "injury" and "personal injuries" shall mean violence to the physical structure of the body and to the personal property which is used to make up the physical structure of the body, such as artificial dentures, artificial limbs, glass eyes, eyeglasses, and other prostheses which are placed in or on the body to replace the physical structure and such disease or infection as naturally results therefrom. These terms shall in no case except as specifically provided in this chapter be construed to include occupational disease in any form, nor shall they be construed to include any contagious or infectious disease contracted during the course of the employment, nor shall they include death due to natural causes occurring while the worker is at work.

4. "Death" when mentioned as a basis for the right to compensation means only death resulting from such violence and its resultant effects occurring within three hundred weeks after the accident; except that in cases of occupational disease, the limitation of three hundred weeks shall not be applicable.

5. Injuries sustained in company-owned or subsidized automobiles in accidents that occur while traveling from the employee's home to the employer's principal place of business or from the employer's principal place of business to the employee's home are not compensable. The extension of premises doctrine is abrogated to the extent it extends liability for accidents that occur on property not owned or controlled by the employer even if the accident occurs on

customary, approved, permitted, usual or accepted routes used by the employee to get to and from their place of employment.

6. The term "total disability" as used in this chapter shall mean inability to return to any employment and not merely mean inability to return to the employment in which the employee was engaged at the time of the accident.

7. As used in this chapter and all acts amendatory thereof, the term "commission" shall hereafter be construed as meaning and referring exclusively to the labor and industrial relations commission of Missouri, and the term "director" shall hereafter be construed as meaning the director of the department of insurance, financial institutions and professional registration of the state of Missouri or such agency of government as shall exercise the powers and duties now conferred and imposed upon the department of insurance, financial institutions and professional registration of the state of Missouri.

8. The term "division" as used in this chapter means the division of workers' compensation of the department of labor and industrial relations of the state of Missouri.

9. For the purposes of this chapter, the term "minor" means a person who has not attained the age of eighteen years; except that, for the purpose of computing the compensation provided for in this chapter, the provisions of section 287.250 shall control.

10. In applying the provisions of this chapter, it is the intent of the legislature to reject and abrogate earlier case law interpretations on the meaning of or definition of "accident", "occupational disease", "arising out of", and "in the course of the employment" to include, but not be limited to, holdings in: Bennett v. Columbia Health Care and Rehabilitation, 80 S.W.3d 524 (Mo.App. W.D. 2002); Kasl v. Bristol Care, Inc., 984 S.W.2d 852 (Mo.banc 1999); and Drewes v. TWA, 984 S.W.2d 512 (Mo.banc 1999) and all cases citing, interpreting, applying, or following those cases.

11. For the purposes of this chapter, "occupational diseases due to toxic exposure" shall only include the following: mesothelioma, asbestosis, berylliosis, coal worker's pneumoconiosis, brochiolitis obliterans, silicosis, silicotuberculosis, manganism, acute myelogenous leukemia, and myelodysplastic syndrome.

287.067. OCCUPATIONAL DISEASE DEFINED — REPETITIVE MOTION, LOSS OF HEARING, RADIATION INJURY, COMMUNICABLE DISEASE, OTHERS. — 1. In this chapter the term "occupational disease" is hereby defined to mean, unless a different meaning is clearly indicated by the context, an identifiable disease arising with or without human fault out of and in the course of the employment. Ordinary diseases of life to which the general public is exposed outside of the employment shall not be compensable, except where the diseases follow as an incident of an occupational disease as defined in this section. The disease need not to have been foreseen or expected but after its contraction it must appear to have had its origin in a risk connected with the employment and to have flowed from that source as a rational consequence.

2. An injury **or death** by occupational disease is compensable only if the occupational exposure was the prevailing factor in causing both the resulting medical condition and disability. The "prevailing factor" is defined to be the primary factor, in relation to any other factor, causing both the resulting medical condition and disability. Ordinary, gradual deterioration, or progressive degeneration of the body caused by aging or by the normal activities of day-to-day living shall not be compensable.

3. An injury due to repetitive motion is recognized as an occupational disease for purposes of this chapter. An occupational disease due to repetitive motion is compensable only if the occupational exposure was the prevailing factor in causing both the resulting medical condition and disability. The "prevailing factor" is defined to be the primary factor, in relation to any other factor, causing both the resulting medical condition and disability. Ordinary, gradual deterioration, or progressive degeneration of the body caused by aging or by the normal activities of day-to-day living shall not be compensable.

4. "Loss of hearing due to industrial noise" is recognized as an occupational disease for purposes of this chapter and is hereby defined to be a loss of hearing in one or both ears due to prolonged exposure to harmful noise in employment. "Harmful noise" means sound capable of producing occupational deafness.

5. "Radiation disability" is recognized as an occupational disease for purposes of this chapter and is hereby defined to be that disability due to radioactive properties or substances or to Roentgen rays (X-rays) or exposure to ionizing radiation caused by any process involving the use of or direct contact with radium or radioactive properties or substances or the use of or direct exposure to Roentgen rays (X-rays) or ionizing radiation.

6. Disease of the lungs or respiratory tract, hypotension, hypertension, or disease of the heart or cardiovascular system, including carcinoma, may be recognized as occupational diseases for the purposes of this chapter and are defined to be disability due to exposure to smoke, gases, carcinogens, inadequate oxygen, of paid firefighters of a paid fire department or paid police officers of a paid police department certified under chapter 590 if a direct causal relationship is established, or psychological stress of firefighters of a paid fire department **or paid peace officers of a police department who are certified under chapter 590** if a direct causal relationship is established.

7. Any employee who is exposed to and contracts any contagious or communicable disease arising out of and in the course of his or her employment shall be eligible for benefits under this chapter as an occupational disease.

8. With regard to occupational disease due to repetitive motion, if the exposure to the repetitive motion which is found to be the cause of the injury is for a period of less than three months and the evidence demonstrates that the exposure to the repetitive motion with the immediate prior employer was the prevailing factor in causing the injury, the prior employer shall be liable for such occupational disease.

287.120. LIABILITY OF EMPLOYER SET OUT — COMPENSATION INCREASED OR REDUCED, WHEN — USE OF ALCOHOL OR CONTROLLED SUBSTANCES OR VOLUNTARY RECREATIONAL ACTIVITIES, INJURY FROM — EFFECT ON COMPENSATION — MENTAL INJURIES, REQUIREMENTS, FIREFIGHTER STRESS NOT AFFECTED. — 1. Every employer subject to the provisions of this chapter shall be liable, irrespective of negligence, to furnish compensation under the provisions of this chapter for personal injury or death of the employee by accident **or occupational disease** arising out of and in the course of the employee's employment. Any employee of such employer shall not be liable for any injury or death for which compensation is recoverable under this chapter and every employer and employees of such employer shall be released from all other liability whatsoever, whether to the employee or any other person, except that an employee shall not be released from liability for injury or death if the employee engaged in an affirmative negligent act that purposefully and dangerously caused or increased the risk of injury. The term "accident" as used in this section shall include, but not be limited to, injury or death of the employee caused by the unprovoked violence or assault against the employee by any person.

2. The rights and remedies herein granted to an employee shall exclude all other rights and remedies of the employee, his wife, her husband, parents, personal representatives, dependents, heirs or next kin, at common law or otherwise, on account of such injury or death **by accident or occupational disease**, except such rights and remedies as are not provided for by this chapter.

3. No compensation shall be allowed under this chapter for the injury or death due to the employee's intentional self-inflicted injury, but the burden of proof of intentional self-inflicted injury shall be on the employer or the person contesting the claim for allowance.

4. Where the injury is caused by the failure of the employer to comply with any statute in this state or any lawful order of the division or the commission, the compensation and death benefit provided for under this chapter shall be increased fifteen percent.

5. Where the injury is caused by the failure of the employee to use safety devices where provided by the employer, or from the employee's failure to obey any reasonable rule adopted by the employer for the safety of employees, the compensation and death benefit provided for herein shall be reduced at least twenty-five but not more than fifty percent; provided, that it is shown that the employee had actual knowledge of the rule so adopted by the employer; and provided, further, that the employer had, prior to the injury, made a reasonable effort to cause his or her employees to use the safety device or devices and to obey or follow the rule so adopted for the safety of the employees.

6. (1) Where the employee fails to obey any rule or policy adopted by the employer relating to a drug-free workplace or the use of alcohol or nonprescribed controlled drugs in the workplace, the compensation and death benefit provided for herein shall be reduced fifty percent if the injury was sustained in conjunction with the use of alcohol or nonprescribed controlled drugs.

(2) If, however, the use of alcohol or nonprescribed controlled drugs in violation of the employer's rule or policy is the proximate cause of the injury, then the benefits or compensation otherwise payable under this chapter for death or disability shall be forfeited.

(3) The voluntary use of alcohol to the percentage of blood alcohol sufficient under Missouri law to constitute legal intoxication shall give rise to a rebuttable presumption that the voluntary use of alcohol under such circumstances was the proximate cause of the injury. A preponderance of the evidence standard shall apply to rebut such presumption. An employee's refusal to take a test for alcohol or a nonprescribed controlled substance, as defined by section 195.010, at the request of the employer shall result in the forfeiture of benefits under this chapter if the employer had sufficient cause to suspect use of alcohol or a nonprescribed controlled substance by the claimant or if the employer's policy clearly authorizes post-injury testing.

7. Where the employee's participation in a recreational activity or program is the prevailing cause of the injury, benefits or compensation otherwise payable under this chapter for death or disability shall be forfeited regardless that the employer may have promoted, sponsored or supported the recreational activity or program, expressly or impliedly, in whole or in part. The forfeiture of benefits or compensation shall not apply when:

(1) The employee was directly ordered by the employer to participate in such recreational activity or program;

(2) The employee was paid wages or travel expenses while participating in such recreational activity or program; or

(3) The injury from such recreational activity or program occurs on the employer's premises due to an unsafe condition and the employer had actual knowledge of the employee's participation in the recreational activity or program and of the unsafe condition of the premises and failed to either curtail the recreational activity or program or cure the unsafe condition.

8. Mental injury resulting from work-related stress does not arise out of and in the course of the employment, unless it is demonstrated that the stress is work related and was extraordinary and unusual. The amount of work stress shall be measured by objective standards and actual events.

9. A mental injury is not considered to arise out of and in the course of the employment if it resulted from any disciplinary action, work evaluation, job transfer, layoff, demotion, termination or any similar action taken in good faith by the employer.

10. The ability of a firefighter to receive benefits for psychological stress under section 287.067 shall not be diminished by the provisions of subsections 8 and 9 of this section.

287.140. EMPLOYER TO PROVIDE MEDICAL AND OTHER SERVICES, TRANSPORTATION, ARTIFICIAL DEVICES, REACTIVATION OF CLAIM — DUTIES OF HEALTH CARE PROVIDERS — REFUSAL OF TREATMENT, EFFECT — MEDICAL EVIDENCE — DIVISION, COMMISSION RESPONSIBILITIES — NOTICE TO HEALTH CARE PROVIDER OF WORKERS' COMPENSATION CLAIM, CONTENTS, EFFECT — USE OF EMPLOYEE LEAVE TIME. — 1. In addition to all other

compensation paid to the employee under this section, the employee shall receive and the employer shall provide such medical, surgical, chiropractic, and hospital treatment, including nursing, custodial, ambulance and medicines, as may reasonably be required after the injury or disability, to cure and relieve from the effects of the injury. If the employee desires, he shall have the right to select his own physician, surgeon, or other such requirement at his own expense. Where the requirements are furnished by a public hospital or other institution, payment therefor shall be made to the proper authorities. Regardless of whether the health care provider is selected by the employer or is selected by the employee at the employee's expense, the health care provider shall have the affirmative duty to communicate fully with the employee regarding the nature of the employee's injury and recommended treatment exclusive of any evaluation for a permanent disability rating. Failure to perform such duty to communicate shall constitute a disciplinary violation by the provider subject to the provisions of chapter 620. When an employee is required to submit to medical examinations or necessary medical treatment at a place outside of the local or metropolitan area from the employee's principal place of employment, the employer or its insurer shall advance or reimburse the employee for all necessary and reasonable expenses; except that an injured employee who resides outside the state of Missouri and who is employed by an employer located in Missouri shall have the option of selecting the location of services provided in this section either at a location within one hundred miles of the injured employee's residence, place of injury or place of hire by the employer. The choice of provider within the location selected shall continue to be made by the employer. In case of a medical examination if a dispute arises as to what expenses shall be paid by the employer, the matter shall be presented to the legal advisor, the administrative law judge or the commission, who shall set the sum to be paid and same shall be paid by the employer prior to the medical examination. In no event, however, shall the employer or its insurer be required to pay transportation costs for a greater distance than two hundred fifty miles each way from place of treatment.

2. If it be shown to the division or the commission that the requirements are being furnished in such manner that there is reasonable ground for believing that the life, health, or recovery of the employee is endangered thereby, the division or the commission may order a change in the physician, surgeon, hospital or other requirement.

3. All fees and charges under this chapter shall be fair and reasonable, shall be subject to regulation by the division or the commission, or the board of rehabilitation in rehabilitation cases. A health care provider shall not charge a fee for treatment and care which is governed by the provisions of this chapter greater than the usual and customary fee the provider receives for the same treatment or service when the payor for such treatment or service is a private individual or a private health insurance carrier. The division or the commission, or the board of rehabilitation in rehabilitation cases, shall also have jurisdiction to hear and determine all disputes as to such charges. A health care provider is bound by the determination upon the reasonableness of health care bills.

4. The division shall, by regulation, establish methods to resolve disputes concerning the reasonableness of medical charges, services, or aids. This regulation shall govern resolution of disputes between employers and medical providers over fees charged, whether or not paid, and shall be in lieu of any other administrative procedure under this chapter. The employee shall not be a party to a dispute over medical charges, nor shall the employee's recovery in any way be jeopardized because of such dispute. **Any application for payment of additional reimbursement, as such term is used in 8 CSR 50-2.030, as amended, shall be filed not later than:**

(1) Two years from the date the first notice of dispute of the medical charge was received by the health care provider if such services were rendered before July 1, 2013; and

(2) One year from the date the first notice of dispute of the medical charge was received by the health care provider if such services were rendered after July 1, 2013.

Notice shall be presumed to occur no later than five business days after transmission by certified United States mail.

5. No compensation shall be payable for the death or disability of an employee, if and insofar as the death or disability may be caused, continued or aggravated by any unreasonable refusal to submit to any medical or surgical treatment or operation, the risk of which is, in the opinion of the division or the commission, inconsiderable in view of the seriousness of the injury. If the employee dies as a result of an operation made necessary by the injury, the death shall be deemed to be caused by the injury.

6. The testimony of any physician or chiropractic physician who treated the employee shall be admissible in evidence in any proceedings for compensation under this chapter, subject to all of the provisions of section 287.210.

7. Every hospital or other person furnishing the employee with medical aid shall permit its record to be copied by and shall furnish full information to the division or the commission, the employer, the employee or his dependents and any other party to any proceedings for compensation under this chapter, and certified copies of the records shall be admissible in evidence in any such proceedings.

8. The employer may be required by the division or the commission to furnish an injured employee with artificial legs, arms, hands, surgical orthopedic joints, or eyes, or braces, as needed, for life whenever the division or the commission shall find that the injured employee may be partially or wholly relieved of the effects of a permanent injury by the use thereof. The director of the division shall establish a procedure whereby a claim for compensation may be reactivated after settlement of such claim is completed. The claim shall be reactivated only after the claimant can show good cause for the reactivation of this claim and the claim shall be made only for the payment of medical procedures involving life-threatening surgical procedures or if the claimant requires the use of a new, or the modification, alteration or exchange of an existing, prosthetic device. For the purpose of this subsection, "life threatening" shall mean a situation or condition which, if not treated immediately, will likely result in the death of the injured worker.

9. Nothing in this chapter shall prevent an employee being provided treatment for his injuries by prayer or spiritual means if the employer does not object to the treatment.

10. The employer shall have the right to select the licensed treating physician, surgeon, chiropractic physician, or other health care provider; provided, however, that such physicians, surgeons or other health care providers shall offer only those services authorized within the scope of their licenses. For the purpose of this subsection, subsection 2 of section 287.030 shall not apply.

11. Any physician or other health care provider who orders, directs or refers a patient for treatment, testing, therapy or rehabilitation at any institution or facility shall, at or prior to the time of the referral, disclose in writing if such health care provider, any of his partners or his employer has a financial interest in the institution or facility to which the patient is being referred, to the following:

(1) The patient;

(2) The employer of the patient with workers' compensation liability for the injury or disease being treated;

(3) The workers' compensation insurer of such employer; and

(4) The workers' compensation adjusting company for such insurer.

12. Violation of subsection 11 of this section is a class A misdemeanor.

13. (1) No hospital, physician or other health care provider, other than a hospital, physician or health care provider selected by the employee at his own expense pursuant to subsection 1 of this section, shall bill or attempt to collect any fee or any portion of a fee for services rendered to an employee due to a work-related injury or report to any credit reporting agency any failure of the employee to make such payment, when an injury covered by this chapter has occurred and such hospital, physician or health care provider has received actual notice given in writing by the employee, the employer or the employer's insurer. Actual notice

shall be deemed received by the hospital, physician or health care provider five days after mailing by certified mail by the employer or insurer to the hospital, physician or health care provider.

(2) The notice shall include:

(a) The name of the employer;

(b) The name of the insurer, if known;

(c) The name of the employee receiving the services;

(d) The general nature of the injury, if known; and

(e) Where a claim has been filed, the claim number, if known.

(3) When an injury is found to be noncompensable under this chapter, the hospital, physician or other health care provider shall be entitled to pursue the employee for any unpaid portion of the fee or other charges for authorized services provided to the employee. Any applicable statute of limitations for an action for such fees or other charges shall be tolled from the time notice is given to the division by a hospital, physician or other health care provider pursuant to subdivision (6) of this subsection, until a determination of noncompensability in regard to the injury which is the basis of such services is made, or in the event there is an appeal to the labor and industrial relations commission, until a decision is rendered by that commission.

(4) If a hospital, physician or other health care provider or a debt collector on behalf of such hospital, physician or other health care provider pursues any action to collect from an employee after such notice is properly given, the employee shall have a cause of action against the hospital, physician or other health care provider for actual damages sustained plus up to one thousand dollars in additional damages, costs and reasonable attorney's fees.

(5) If an employer or insurer fails to make payment for authorized services provided to the employee by a hospital, physician or other health care provider pursuant to this chapter, the hospital, physician or other health care provider may proceed pursuant to subsection 4 of this section with a dispute against the employer or insurer for any fees or other charges for services provided.

(6) A hospital, physician or other health care provider whose services have been authorized in advance by the employer or insurer may give notice to the division of any claim for fees or other charges for services provided for a work-related injury that is covered by this chapter, with copies of the notice to the employee, employer and the employer's insurer. Where such notice has been filed, the administrative law judge may order direct payment from the proceeds of any settlement or award to the hospital, physician or other health care provider for such fees as are determined by the division. The notice shall be on a form prescribed by the division.

14. The employer may allow or require an employee to use any of the employee's accumulated paid leave, personal leave, or medical or sick leave to attend to medical treatment, physical rehabilitation, or medical evaluations during work time. The intent of this subsection is to specifically supercede and abrogate any case law that contradicts the express language of this section.

287.150. SUBROGATION TO RIGHTS OF EMPLOYEE OR DEPENDENTS AGAINST THIRD PERSON, EFFECT OF RECOVERY — CONSTRUCTION DESIGN PROFESSIONAL, IMMUNITY FROM LIABILITY, WHEN, EXCEPTION — WAIVER OF SUBROGATION RIGHTS ON CERTAIN CONTRACTS VOID, EMPLOYER'S LIEN ON SUBROGATION RECOVERY, WHEN — THIRD PARTY LIABILITY, SUBROGATION, EFFECT ON. — 1. Where a third person is liable to the employee or to the dependents, for the injury or death, the employer shall be subrogated to the right of the employee or to the dependents against such third person, and the recovery by such employer shall not be limited to the amount payable as compensation to such employee or dependents, but such employer may recover any amount which such employee or his dependents would have been entitled to recover. Any recovery by the employer against such third person shall be apportioned between the employer and employee or his dependents using the provisions of subsections 2 and 3 of this section.

2. When a third person is liable for the death of an employee and compensation is paid or payable under this chapter, and recovery is had by a dependent under this chapter either by judgment or settlement for the wrongful death of the employee, the employer shall have a subrogation lien on any recovery and shall receive or have credit for sums paid or payable under this chapter to any of the dependents of the deceased employee to the extent of the settlement or recovery by such dependents for the wrongful death. Recovery by the employer and credit for future installments shall be computed using the provisions of subsection 3 of this section relating to comparative fault of the employee.

3. Whenever recovery against the third person is effected by the employee or his dependents, the employer shall pay from his share of the recovery a proportionate share of the expenses of the recovery, including a reasonable attorney fee. After the expenses and attorney fee have been paid, the balance of the recovery shall be apportioned between the employer and the employee or his dependents in the same ratio that the amount due the employer bears to the total amount recovered if there is no finding of comparative fault on the part of the employee, or the total damages determined by the trier of fact if there is a finding of comparative fault on the part of the employee. Notwithstanding the foregoing provision, the balance of the recovery may be divided between the employer and the employee or his dependents as they may otherwise agree. Any part of the recovery found to be due to the employer, the employee or his dependents shall be paid forthwith and any part of the recovery paid to the employee or his dependents under this section shall be treated by them as an advance payment by the employer on account of any future installments of compensation in the following manner:

(1) The total amount paid to the employee or his dependents shall be treated as an advance payment if there is no finding of comparative fault on the part of the employee; or

(2) A percentage of the amount paid to the employee or his dependents equal to the percentage of fault assessed to the third person from whom recovery is made shall be treated as an advance payment if there is a finding of comparative fault on the part of the employee.

4. In any case in which an injured employee has been paid benefits from the second injury fund as provided in subsection 3 of section 287.141, and recovery is had against the third party liable to the employee for the injury, the second injury fund shall be subrogated to the rights of the employee against said third party to the extent of the payments made to him from such fund, subject to provisions of subsections 2 and 3 of this section.

5. No construction design professional who is retained to perform professional services on a construction project or any employee of a construction design professional who is assisting or representing the construction design professional in the performance of professional services on the site of the construction project shall be liable for any injury resulting from the employer's failure to comply with safety standards on a construction project for which compensation is recoverable under the workers' compensation law, unless responsibility for safety practices is specifically assumed by contract. The immunity provided by this subsection to any construction design professional shall not apply to the negligent preparation of design plans or specifications.

6. Any provision in any contract or subcontract, where one party is an employer in the construction group of code classifications, which purports to waive subrogation rights provided under this section in anticipation of a future injury or death is hereby declared against public policy and void. Each contract of insurance for workers' compensation shall require the insurer to diligently pursue all subrogation rights of the employer and shall require the employer to fully cooperate with the insurer in pursuing such recoveries, except that the employer may enter into compromise agreements with an insurer in lieu of the insurer pursuing subrogation against another party. The amount of any subrogation recovery by an insurer shall be credited against the amount of the actual paid losses in the determination of such employer's experience modification factor within forty-five days of the collection of such amount.

7. Notwithstanding any other provision of this section, when a third person or party is liable to the employee, to the dependents of an employee, or to any person eligible to sue

for the employer's wrongful death as provided is section 537.080 in a case where the employee suffers or suffered from an occupational disease due to toxic exposure and the employee, dependents, or persons eligible to sue for wrongful death are compensated under this chapter, in no case shall the employer then be subrogated to the rights of an employee, dependents, or persons eligible to sue for wrongful death against such third person or party when the occupational disease due to toxic exposure arose from the employee's work for employer.

287.200. PERMANENT TOTAL DISABILITY, AMOUNT TO BE PAID — SUSPENSION OF PAYMENTS, WHEN — TOXIC EXPOSURE, TREATMENT OF CLAIMS. — 1. Compensation for permanent total disability shall be paid during the continuance of such disability for the lifetime of the employee at the weekly rate of compensation in effect under this subsection on the date of the injury for which compensation is being made. The word "employee" as used in this section shall not include the injured worker's dependents, estate, or other persons to whom compensation may be payable as provided in subsection 1 of section 287.020. The amount of such compensation shall be computed as follows:

(1) For all injuries occurring on or after September 28, 1983, but before September 28, 1986, the weekly compensation shall be an amount equal to sixty-six and two-thirds percent of the injured employee's average weekly earnings during the year immediately preceding the injury, as of the date of the injury; provided that the weekly compensation paid under this subdivision shall not exceed an amount equal to seventy percent of the state average weekly wage, as such wage is determined by the division of employment security, as of the July first immediately preceding the date of injury;

(2) For all injuries occurring on or after September 28, 1986, but before August 28, 1990, the weekly compensation shall be an amount equal to sixty-six and two-thirds percent of the injured employee's average weekly earnings during the year immediately preceding the injury, as of the date of the injury; provided that the weekly compensation paid under this subdivision shall not exceed an amount equal to seventy-five percent of the state average weekly wage, as such wage is determined by the division of employment security, as of the July first immediately preceding the date of injury;

(3) For all injuries occurring on or after August 28, 1990, but before August 28, 1991, the weekly compensation shall be an amount equal to sixty-six and two-thirds percent of the injured employee's average weekly earnings as of the date of the injury; provided that the weekly compensation paid under this subdivision shall not exceed an amount equal to one hundred percent of the state average weekly wage;

(4) For all injuries occurring on or after August 28, 1991, the weekly compensation shall be an amount equal to sixty-six and two-thirds percent of the injured employee's average weekly earnings as of the date of the injury; provided that the weekly compensation paid under this subdivision shall not exceed an amount equal to one hundred five percent of the state average weekly wage;

(5) For all injuries occurring on or after September 28, 1981, the weekly compensation shall in no event be less than forty dollars per week.

2. Permanent total disability benefits that have accrued through the date of the injured employee's death are the only permanent total disability benefits that are to be paid in accordance with section 287.230. The right to unaccrued compensation for permanent total disability of an injured employee terminates on the date of the injured employee's death in accordance with section 287.230, and does not survive to the injured employee's dependents, estate, or other persons to whom compensation might otherwise be payable.

3. All claims for permanent total disability shall be determined in accordance with the facts. When an injured employee receives an award for permanent total disability but by the use of glasses, prosthetic appliances, or physical rehabilitation the employee is restored to his regular work or its equivalent, the life payment mentioned in subsection 1 of this section shall be

suspended during the time in which the employee is restored to his regular work or its equivalent. The employer and the division shall keep the file open in the case during the lifetime of any injured employee who has received an award of permanent total disability. In any case where the life payment is suspended under this subsection, the commission may at reasonable times review the case and either the employee or the employer may request an informal conference with the commission relative to the resumption of the employee's weekly life payment in the case.

4. For all claims filed on or after the effective date of this section for occupational diseases due to toxic exposure which result in a permanent total disability or death, benefits in this chapter shall be provided as follows:

(1) Notwithstanding any provision of law to the contrary, such amount as due to the employee during said employee's life as provided for under this chapter for an award of permanent total disability and death, except such amount shall only be paid when benefits under subdivision (2) and (3) of this subsection have been exhausted;

(2) For occupational diseases due to toxic exposure, but not including mesothelioma, an amount equal to two hundred percent of the state's average weekly wage as of the date of diagnosis for one hundred weeks paid by the employer; and

(3) In cases where occupational diseases due to toxic exposure are diagnosed to be mesothelioma:

(a) For employers that have elected to accept mesothelioma liability under this subsection, an additional amount of three hundred percent of the state's average weekly wage for two hundred twelve weeks shall be paid by the employer or group of employers such employer is a member of. Employers that elect to accept mesothelioma liability under this subsection may do so by either insuring their liability, by qualifying as a self-insurer, or by becoming a member of a group insurance pool. A group of employers may enter into an agreement to pool their liabilities under this subsection. If such group is joined, individual members shall not be required to qualify as individual self-insurers. Such group shall comply with section 287.223. In order for an employer to make such an election, the employer shall provide the department with notice of such an election in a manner established by the department. The provisions of this paragraph shall expire on December 31, 2038; or

(b) For employers who reject mesothelioma under this subsection, then the exclusive remedy provisions under section 287.120 shall not apply to such liability. The provisions of this paragraph shall expire on December 31, 2038; and

(4) The provisions of subdivision (2) and paragraph (a) of subdivision (3) of this subsection shall not be subject to suspension of benefits as provided in subsection 3 of this section; and

(5) Notwithstanding any other provision of this chapter to the contrary, should the employee die before the additional benefits provided for in subdivision (2) and paragraph (a) of subdivision (3) of this subsection are paid, the additional benefits are payable to the employee's spouse or children, natural or adopted, legitimate or illegitimate, in addition to benefits provided under section 287.240. If there is no surviving spouse or children and the employee has received less than the additional benefits provided for in subdivision (2) and paragraph (a) of subdivision (3) of this subsection the remainder of such additional benefits shall be paid as a single payment to the estate of the employee;

(6) The provisions of subdivision (1) of this subsection shall not be construed to affect the employee's ability to obtain medical treatment at the employer's expense or any other benefits otherwise available under this chapter.

5. Any employee who obtains benefits under subdivision (2) of subsection 4 of this section for acquiring asbestosis who later obtains an award for mesothelioma, shall not receive more benefits than such employee would receive having only obtained benefits for mesothelioma under this section.

287.210. PHYSICAL EXAMINATION OF EMPLOYEE — EXCHANGE OF MEDICAL RECORDS — ADMISSIBILITY OF PHYSICIAN'S, CORONER'S RECORDS — AUTOPSY MAY BE ORDERED. — 1. After an employee has received an injury he shall from time to time thereafter during disability submit to reasonable medical examination at the request of the employer, **[**his**]** **the employer's** insurer, the commission, the division **[**or**],** an administrative law judge, **or the attorney general on behalf of the second injury fund if the employer has not obtained a medical examination report,** the time and place of which shall be fixed with due regard to the convenience of the employee and his physical condition and ability to attend. The employee may have his own physician present, and if the employee refuses to submit to the examination, or in any way obstructs it, his right to compensation shall be forfeited during such period unless in the opinion of the commission the circumstances justify the refusal or obstruction.

2. The commission, the division or administrative law judge shall, when deemed necessary, appoint a duly qualified impartial physician to examine the injured employee, and any physician so chosen, if he accepts the appointment, shall promptly make the examination requested and make a complete medical report to the commission or the division in such duplication as to provide all parties with copies thereof. The physician's fee shall be fair and reasonable, as provided in subsection 3 of section 287.140, and the fee and other reasonable costs of the impartial examination may be paid as other costs under this chapter. If all the parties shall have had reasonable access thereto, the report of the physician shall be admissible in evidence.

3. The testimony of any physician who treated or examined the injured employee shall be admissible in evidence in any proceedings for compensation under this chapter, but only if the medical report of the physician has been made available to all parties as in this section provided. Immediately upon receipt of notice from the division or the commission setting a date for hearing of a case in which the nature and extent of an employee's disability is to be determined, the parties or their attorneys shall arrange, without charge or costs, each to the other, for an exchange of all medical reports, including those made both by treating and examining physician or physicians, to the end that the parties may be commonly informed of all medical findings and opinions. The exchange of medical reports shall be made at least seven days before the date set for the hearing and failure of any party to comply may be grounds for asking for and receiving a continuance, upon proper showing by the party to whom the medical reports were not furnished. If any party fails or refuses to furnish the opposing party with the medical report of the treating or examining physician at least seven days before such physician's deposition or personal testimony at the hearing, as in this section provided, upon the objection of the party who was not provided with the medical report, the physician shall not be permitted to testify at that hearing or by medical deposition.

4. Upon request, an administrative law judge, the division, or the commission shall be provided with a copy of any medical report.

5. As used in this chapter the terms "physician's report" and "medical report" mean the report of any physician made on any printed form authorized by the division or the commission or any complete medical report. As used in this chapter the term "complete medical report" means the report of a physician giving the physician's qualifications and the patient's history, complaints, details of the findings of any and all laboratory, X-ray and all other technical examinations, diagnosis, prognosis, nature of disability, if any, and an estimate of the percentage of permanent partial disability, if any. An element or elements of a complete medical report may be met by the physician's records.

6. Upon the request of a party, the physician or physicians who treated or are treating the injured employee shall be required to furnish to the parties a rating and complete medical report on the injured employee, at the expense of the party selecting the physician, along with a complete copy of the physician's clinical record including copies of any records and reports received from other health care providers.

7. The testimony of a treating or examining physician may be submitted in evidence on the issues in controversy by a complete medical report and shall be admissible without other

foundational evidence subject to compliance with the following procedures. The party intending to submit a complete medical report in evidence shall give notice at least sixty days prior to the hearing to all parties and shall provide reasonable opportunity to all parties to obtain cross-examination testimony of the physician by deposition. The notice shall include a copy of the report and all the clinical and treatment records of the physician including copies of all records and reports received by the physician from other health care providers. The party offering the report must make the physician available for cross-examination testimony by deposition not later than seven days before the matter is set for hearing, and each cross-examiner shall compensate the physician for the portion of testimony obtained in an amount not to exceed a rate of reasonable compensation taking into consideration the specialty practiced by the physician. Cross-examination testimony shall not bind the cross-examining party. Any testimony obtained by the offering party shall be at that party's expense on a proportional basis, including the deposition fee of the physician. Upon request of any party, the party offering a complete medical report in evidence must also make available copies of X rays or other diagnostic studies obtained by or relied upon by the physician. Within ten days after receipt of such notice a party shall dispute whether a report meets the requirements of a complete medical report by providing written objections to the offering party stating the grounds for the dispute, and at the request of any party, the administrative law judge shall rule upon such objections upon pretrial hearing whether the report meets the requirements of a complete medical report and upon the admissibility of the report or portions thereof. If no objections are filed the report is admissible, and any objections thereto are deemed waived. Nothing herein shall prevent the parties from agreeing to admit medical reports or records by consent. **[**The provisions of this subsection shall not apply to claims against the second injury fund.**]**

8. Certified copies of the proceedings before any coroner holding an inquest over the body of any employee receiving an injury in the course of his employment resulting in death shall be admissible in evidence in any proceedings for compensation under this chapter, and it shall be the duty of the coroner to give notice of the inquest to the employer and the dependents of the deceased employee, who shall have the right to cross-examine the witness.

9. The division or the commission may in its discretion in extraordinary cases order a postmortem examination and for that purpose may also order a body exhumed.

287.220. COMPENSATION AND PAYMENT OF COMPENSATION FOR DISABILITY — SECOND INJURY FUND CREATED, SERVICES COVERED, ACTUARIAL STUDIES REQUIRED — FAILURE OF EMPLOYER TO INSURE, PENALTY — RECORDS OPEN TO PUBLIC, WHEN — CONCURRENT EMPLOYERS, EFFECT — PRIORITY OF PAYMENT OF LIABILITIES OF FUND. — 1. **There is hereby created in the state treasury a special fund to be known as the "Second Injury Fund" created exclusively for the purposes as in this section provided and for special weekly benefits in rehabilitation cases as provided in section 287.141. Maintenance of the second injury fund shall be as provided by section 287.710. The state treasurer shall be the custodian of the second injury fund which shall be deposited the same as are state funds and any interest accruing thereon shall be added thereto. The fund shall be subject to audit the same as state funds and accounts and shall be protected by the general bond given by the state treasurer. Upon the requisition of the director of the division of workers' compensation, warrants on the state treasurer for the payment of all amounts payable for compensation and benefits out of the second injury fund shall be issued.**

2. All cases of permanent disability where there has been previous disability **due to injuries occurring prior to the effective date of this section** shall be compensated as **[**herein**]** provided **in this subsection**. Compensation shall be computed on the basis of the average earnings at the time of the last injury. If any employee who has a preexisting permanent partial disability whether from compensable injury or otherwise, of such seriousness as to constitute a hindrance or obstacle to employment or to obtaining reemployment if the employee becomes unemployed, and the preexisting permanent partial disability, if a body as a whole injury, equals

a minimum of fifty weeks of compensation or, if a major extremity injury only, equals a minimum of fifteen percent permanent partial disability, according to the medical standards that are used in determining such compensation, receives a subsequent compensable injury resulting in additional permanent partial disability so that the degree or percentage of disability, in an amount equal to a minimum of fifty weeks compensation, if a body as a whole injury or, if a major extremity injury only, equals a minimum of fifteen percent permanent partial disability, caused by the combined disabilities is substantially greater than that which would have resulted from the last injury, considered alone and of itself, and if the employee is entitled to receive compensation on the basis of the combined disabilities, the employer at the time of the last injury shall be liable only for the degree or percentage of disability which would have resulted from the last injury had there been no preexisting disability. After the compensation liability of the employer for the last injury, considered alone, has been determined by an administrative law judge or the commission, the degree or percentage of employee's disability that is attributable to all injuries or conditions existing at the time the last injury was sustained shall then be determined by that administrative law judge or by the commission and the degree or percentage of disability which existed prior to the last injury plus the disability resulting from the last injury, if any, considered alone, shall be deducted from the combined disability, and compensation for the balance, if any, shall be paid out of a special fund known as the second injury fund, hereinafter provided for. If the previous disability or disabilities, whether from compensable injury or otherwise, and the last injury together result in total and permanent disability, the minimum standards under this subsection for a body as a whole injury or a major extremity injury shall not apply and the employer at the time of the last injury shall be liable only for the disability resulting from the last injury considered alone and of itself; except that if the compensation for which the employer at the time of the last injury is liable is less than the compensation provided in this chapter for permanent total disability, then in addition to the compensation for which the employer is liable and after the completion of payment of the compensation by the employer, the employee shall be paid the remainder of the compensation that would be due for permanent total disability under section 287.200 out of **[**a special fund known as the "Second Injury Fund" hereby created exclusively for the purposes as in this section provided and for special weekly benefits in rehabilitation cases as provided in section 287.141. Maintenance of the second injury fund shall be as provided by section 287.710. The state treasurer shall be the custodian of the second injury fund which shall be deposited the same as are state funds and any interest accruing thereon shall be added thereto. The fund shall be subject to audit the same as state funds and accounts and shall be protected by the general bond given by the state treasurer. Upon the requisition of the director of the division of workers' compensation, warrants on the state treasurer for the payment of all amounts payable for compensation and benefits out of the second injury fund shall be issued.

2.**]** **the second injury fund.**

3. All claims against the second injury fund for injuries occurring after the effective date of this section and all claims against the second injury fund involving a subsequent compensable injury which is an occupational disease filed after the effective date of this section shall be compensated as provided in this subsection.

(1) No claims for permanent partial disability occurring after the effective date of this section shall be filed against the second injury fund. Claims for permanent total disability under section 287.200 against the second injury fund shall be compensable only when the following conditions are met:

(a) a. An employee has a medically documented preexisting disability equaling a minimum of fifty weeks of permanent partial disability compensation according to the medical standards that are used in determining such compensation which is:

i. A direct result of active military duty in any branch of the United States armed forces; or

ii. A direct result of a compensable injury as defined in section 287.020; or

iii. Not a compensable injury, but such preexisting disability directly and significantly aggravates or accelerates the subsequent work-related injury and shall not include unrelated preexisting injuries or conditions that do not aggravate or accelerate the subsequent work-related injury; or

iv. A preexisting permanent partial disability of an extremity, loss of eyesight in one eye, or loss of hearing in one ear, when there is a subsequent compensable work-related injury as set forth in subparagraph b of the opposite extremity, loss of eyesight in the other eye, or loss of hearing in the other ear; and

b. Such employee thereafter sustains a subsequent compensable work-related injury that, when combined with the preexisting disability, as set forth in items i, ii, iii, or iv of subparagraph a of this paragraph, results in a permanent total disability as defined under this chapter; or

(b) An employee is employed in a sheltered workshop as established in sections 205.968 to 205.972 or sections 178.900 to 178.960 and such employee thereafter sustains a compensable work-related injury that, when combined with the preexisting disability, results in a permanent total disability as defined under this chapter.

(2) When an employee is entitled to compensation as provided in this subsection, the employer at the time of the last work-related injury shall only be liable for the disability resulting from the subsequent work-related injury considered alone and of itself.

(3) Compensation for benefits payable under this subsection shall be based on the employee's compensation rate calculated under section 287.250.

4. In all cases in which a recovery against the second injury fund is sought for permanent partial disability, permanent total disability, or death, the state treasurer as custodian thereof shall be named as a party, and shall be entitled to defend against the claim.

(1) The state treasurer, with the advice and consent of the attorney general of Missouri, may enter into compromise settlements as contemplated by section 287.390, or agreed statements of fact that would affect the second injury fund. All awards for permanent partial disability, permanent total disability, or death affecting the second injury fund shall be subject to the provisions of this chapter governing review and appeal.

(2) For all claims filed against the second injury fund on or after July 1, 1994, the attorney general shall use assistant attorneys general except in circumstances where an actual or potential conflict of interest exists, to provide legal services as may be required in all claims made for recovery against the fund. Any legal expenses incurred by the attorney general's office in the handling of such claims, including, but not limited to, medical examination fees **incurred under sections 287.210 and the expenses provided for under section 287.140**, expert witness fees, court reporter expenses, travel costs, and related legal expenses shall be paid by the fund. Effective July 1, 1993, the payment of such legal expenses shall be contingent upon annual appropriations made by the general assembly, from the fund, to the attorney general's office for this specific purpose.

[3.**]** **5.** If more than one injury in the same employment causes concurrent temporary disabilities, compensation shall be payable only for the longest and largest paying disability.

[4.**]** **6.** If more than one injury in the same employment causes concurrent and consecutive permanent partial disability, compensation payments for each subsequent disability shall not begin until the end of the compensation period of the prior disability.

[5.**]** **7.** If an employer fails to insure or self-insure as required in section 287.280, funds from the second injury fund may be withdrawn to cover the fair, reasonable, and necessary expenses **incurred relating to claims for injuries occurring prior to the effective date of this section,** to cure and relieve the effects of the injury or disability of an injured employee in the employ of an uninsured employer **consistent with subsection 3 of section 287.140**, or in the case of death of an employee in the employ of an uninsured employer, funds from the second injury fund may be withdrawn to cover fair, reasonable, and necessary expenses **incurred relating to a death occurring prior to the effective date of this section,** in the manner

required in sections 287.240 and 287.241. In defense of claims arising under this subsection, the treasurer of the state of Missouri, as custodian of the second injury fund, shall have the same defenses to such claims as would the uninsured employer. Any funds received by the employee or the employee's dependents, through civil or other action, must go towards reimbursement of the second injury fund, for all payments made to the employee, the employee's dependents, or paid on the employee's behalf, from the second injury fund pursuant to this subsection. The office of the attorney general of the state of Missouri shall bring suit in the circuit court of the county in which the accident occurred against any employer not covered by this chapter as required in section 287.280.

[6.**]** **8.** Every **[**three years**]** **year** the second injury fund shall have an actuarial study made to determine the solvency of the fund **taking into consideration any existing balance carried forward from a previous year**, appropriate funding level of the fund, and forecasted expenditures from the fund. The first actuarial study shall be completed prior to July 1, **[**1988**]** **2014**. The expenses of such actuarial studies shall be paid out of the fund for the support of the division of workers' compensation.

[7.**]** **9.** The director of the division of workers' compensation shall maintain the financial data and records concerning the fund for the support of the division of workers' compensation and the second injury fund. The division shall also compile and report data on claims made pursuant to subsection **[**9**]** **11** of this section. The attorney general shall provide all necessary information to the division for this purpose.

[8.**]** **10.** All claims for fees and expenses filed against the second injury fund and all records pertaining thereto shall be open to the public.

[9.**]** **11.** Any employee who at the time a compensable work-related injury is sustained **prior to the effective date of this section** is employed by more than one employer, the employer for whom the employee was working when the injury was sustained shall be responsible for wage loss benefits applicable only to the earnings in that employer's employment and the injured employee shall be entitled to file a claim against the second injury fund for any additional wage loss benefits attributed to loss of earnings from the employment or employments where the injury did not occur, up to the maximum weekly benefit less those benefits paid by the employer in whose employment the employee sustained the injury. The employee shall be entitled to a total benefit based on the total average weekly wage of such employee computed according to subsection 8 of section 287.250. The employee shall not be entitled to a greater rate of compensation than allowed by law on the date of the injury. The employer for whom the employee was working where the injury was sustained shall be responsible for all medical costs incurred in regard to that injury.

12. No compensation shall be payable from the second injury fund if the employee files a claim for compensation under the workers' compensation law of another state with jurisdiction over the employee's injury or accident or occupational disease.

13. Notwithstanding the requirements of section 287.470, the life payments to an injured employee made from the fund shall be suspended when the employee is able to obtain suitable gainful employment or be self-employed in view of the nature and severity of the injury. The division shall promulgate rules setting forth a reasonable standard means test to determine if such employment warrants the suspension of benefits.

14. All awards issued under this chapter affecting the second injury fund shall be subject to the provisions of this chapter governing review and appeal.

15. The division shall pay any liabilities of the fund in the following priority:

(1) Expenses related to the legal defense of the fund under subsection 4 of this section;

(2) Permanent total disability awards in the order in which claims are settled or finally adjudicated;

(3) Permanent partial disability awards in the order in which such claims are settled or finally adjudicated;

(4) Medical expenses incurred prior to July 1, 2012, under subsection 7 of this section; and

(5) Interest on unpaid awards.

Such liabilities shall be paid to the extent the fund has a positive balance. Any unpaid amounts shall remain an ongoing liability of the fund until satisfied.

16. Post award interest for the purpose of second injury fund claims shall be set at the adjusted rate of interest established by the director of revenue pursuant to section 32.065 or five percent, whichever is greater.

287.223. MISSOURI MESOTHELIOMA RISK MANAGEMENT FUND CREATED — DEFINITIONS — ISSUANCE OF PAYMENTS, WHEN — BOARD OF TRUSTEES, APPOINTMENT, MEETINGS, DUTIES. — 1. There is hereby created the "Missouri Mesothelioma Risk Management Fund", which shall be a body corporate and politic. The board of trustees of this fund shall have the powers and duties specified in this section and such other powers as may be necessary or proper to enable it, its officers, employees and agents to carry out fully and effectively all the purposes of this section.

2. Unless otherwise clearly indicated by the context, the following words and terms as used in this section mean:

(1) "Board", the board of trustees of the Missouri mesothelioma risk management fund;

(2) "Fund", the Missouri mesothelioma risk management fund established by subsection 1 of this section.

3. Any employer may participate in the Missouri mesothelioma risk management fund and use funds collected under this section to pay mesothelioma awards made against an employer member of the fund.

4. Employers who participate in the fund shall make annual contributions to the fund in the amount determined by the board in accordance with this section relating to rates established by insurers. Participation in the fund has the same effect as purchase of insurance by such employer, as otherwise provided by law, and shall have the same effect as a self-insurance plan. Moneys in the fund shall be available for:

(1) The payment and settlement of all claims for which coverage has been obtained by any employer participating in the fund in accordance with coverages offered by the board relating to mesothelioma awards pursuant to paragraph (a) of subdivision (3) of subsection 4 of section 287.200;

(2) Attorney's fees and expenses incurred in the administration and representation of the fund.

5. No amount in excess of the amount specified by paragraph (a) of subdivision (3) of subsection 4 of section 287.200 shall be paid from the fund for the payment of claims arising out of any award.

6. The board of trustees of the fund shall issue payment of benefits in accordance with coverages offered by the board. For any year in which any employer does not make a yearly contribution to the fund, the board of trustees of the fund shall not be responsible, in any way, for payment of any claim arising from an occurrence in that year. Any employer which discontinues its participation in the fund may not resume participation in the fund for five calendar years after discontinuing participation. Should an employer fail to make a yearly contribution, such employer shall be liable pursuant to paragraph (b) of subdivision (3) of subsection 4 of section 287.200 if a claim is made in such year. If ongoing benefits are due by the fund for an employer who fail to make a yearly contribution, such employer shall be liable to the fund for the ongoing benefits.

7. All staff for the fund shall be provided by the department of labor except as otherwise specifically determined by the board. The fund shall reimburse the department of labor for all costs of providing staff required by this subsection. Such reimbursement

shall be made on an annual basis, pursuant to contract negotiated between the fund and the department of labor. The fund is a body corporate and politic, and the state of Missouri shall not be liable in any way with respect to claims made against the fund or against member employers covered by the fund, nor with respect to any expense of operation of the fund. Money in the fund is not state money nor is it money collected or received by the state.

8. Each participating employer shall notify the board of trustees of the fund within seven working days of the time notice is received that a claim for benefits has been made against the employer. The employer shall supply information to the board of trustees of the fund concerning any claim upon request. It shall also notify the board of trustees of the fund upon the closing of any claim.

9. The board may contract with independent insurance agents, authorizing such agents to accept contributions to the fund from employers on behalf of the board upon such terms and conditions as the board deems necessary, and may provide a reasonable method of compensating such agents. Such compensation shall not be additional to the contribution to the fund.

10. There is hereby established a "Board of Trustees of the Missouri Mesothelioma Risk Management Fund" which shall consist of the director of the department of labor, and four members, appointed by the governor with the advice and consent of the senate, who are officers or employees of those employers participating in the fund. No more than two members appointed by the governor shall be of the same political party. The members appointed by the governor shall serve four-year terms, except that the original appointees shall be appointed for the following terms: one for one year, one for two years, one for three years, and one for four years. Any vacancies occurring on the board shall be filled in the same manner. In appointing the initial board of trustees the governor may anticipate which public entities will participate in the fund, and the appointees may serve the terms designated herein, unless they sooner resign or are removed in accordance with law.

11. No trustee shall be liable personally in any way with respect to claims made against the fund or against member employers covered by the fund.

12. The board shall elect one of their members as chairman. He or she shall preside over meetings of the board and perform such other duties as shall be required by action of the board.

13. The chairman shall appoint another board member as vice chairman, and the vice chairman shall perform the duties of the chairman in the absence of the latter or upon his inability or refusal to act.

14. The board shall appoint a secretary who shall have charge of the offices and records of the fund, subject to the direction of the board.

15. The board shall meet in Jefferson City, Missouri, upon the written call of the chairman or by the agreement of any three members of the board. Notice of the meeting shall be delivered to all other trustees in person or by depositing notice in a United States post office in a properly stamped and addressed envelope not less than six days prior to the date fixed for the meeting. The board may meet at any time by unanimous mutual consent.

16. Three trustees shall constitute a quorum for the transaction of business, and any official action of the board shall be based on a majority vote of the trustees present.

17. The trustees shall serve without compensation but shall receive from the fund their actual and necessary expenses incurred in the performance of their duties for the board.

18. Duties performed for the fund by any member of the board who is an employee of a member employer shall be considered duties in connection with the regular

employment of such employer, and such person shall suffer no loss in regular compensation by reason of the performance of such duties.

19. The board shall keep a complete record of all its proceedings.

20. A statement covering the operations of the fund for the year, including income and disbursements, and of the financial condition of the fund at the end of the year, showing the valuation and appraisal of its assets and liabilities, as of July first, shall each year be delivered to the governor and be made readily available to public entities.

21. The general administration of, and responsibility for, the proper operation of the fund, including all decisions relating to payments from the fund, are hereby vested in the board of trustees.

22. The board shall determine and prescribe all rules, regulations, coverages to be offered, forms and rates to carry out the purposes of this section.

23. The board shall have exclusive jurisdiction and control over the funds and property of the fund.

24. No trustee or staff member of the fund shall receive any gain or profit from any moneys or transactions of the fund.

25. Any trustee or staff member accepting any gratuity or compensation for the purpose of influencing his or her action with respect to the investment of the funds of the system or in the operations of the fund shall forfeit his or her office.

26. The board shall have the authority to use moneys from the fund to purchase one or more policies of insurance or reinsurance to cover the liabilities of participating employers members which are covered by the fund. If such insurance can be procured, the board shall have the authority to procure insurance covering participating member employers per occurrence for liabilities covered by the fund. The costs of such insurance shall be considered in determining the contribution of each employer member.

27. The board shall have the authority to use moneys from the fund to assist participating members in assessing and reducing the risk of liabilities which may be covered by the fund.

28. The board shall set up and maintain a Missouri mesothelioma risk management fund account in which shall be placed all contributions, premiums, and income from all sources. All property, money, funds, investments, and rights which shall belong to, or be available for expenditure or use by, the fund shall be dedicated to and held in trust for the purposes set out in this section and no other. The board shall have power, in the name of and on behalf of the fund, to purchase, acquire, hold, invest, lend, lease, sell, assign, transfer, and dispose of all property, rights, and securities, and enter into written contracts, all as may be necessary or proper to carry out the purposes of this section.

29. All moneys received by or belonging to the fund shall be paid to the secretary and deposited by him or her to the credit of the fund in one or more banks or trust companies. No such money shall be deposited in or be retained by any bank and trust company which does not have on deposit with the board at the time the kind and value of collateral required by section 30.270 for depositories of the state treasurer. The secretary shall be responsible for all funds, securities, and property belonging to the fund, and shall give such corporate surety bond for the faithful handling of the same as the board shall require.

30. So far as practicable, the funds and property of the fund shall be kept safely invested so as to earn a reasonable return. The board may invest the funds of the fund as permitted by the laws of Missouri relating to the investment of the capital, reserve, and surplus funds of casualty insurance companies organized under the laws of Missouri.

31. If contributions to the fund do not produce sufficient funds to pay any claims which may be due, the board shall assess and each member, including any member who has withdrawn but was a member in the year in which the assessment is required, shall pay such additional amounts which are each member's proportionate share of total claims

allowed and due. The provisions of this subsection shall apply retroactively to the creation of the Missouri mesothelioma risk management fund.

32. The board, in order to carry out the purposes for which the fund is established, may select and employ, or contract with, persons experienced in insurance underwriting, accounting, the servicing of claims, and rate making, who shall serve at the board's pleasure, as technical advisors in establishing the annual contribution, or may call upon the director of the department of insurance, financial institutions and professional registration for such services.

33. Nothing in this section, shall be construed to broaden or restrict the liability of the member employers participating in the fund beyond the provisions of this sections, nor to abolish or waive any defense at law which might otherwise be available to any employer member.

34. If, at the end of any fiscal year, the fund has a balance exceeding projected needs, and adequate reserves, the board may in its discretion refund on a pro rata basis to all participating employer members an amount based on the contributions of the public entity for the immediately preceding year.

287.280. EMPLOYER'S ENTIRE LIABILITY TO BE COVERED, SELF-INSURER OR APPROVED CARRIER — EXCEPTION — GROUP OF EMPLOYERS MAY QUALIFY AS SELF-INSURERS — UNIFORM EXPERIENCE RATING PLAN — FAILURE TO INSURE, EFFECT — RULES — CONFIDENTIAL RECORDS. — 1. Every employer subject to the provisions of this chapter shall, on either an individual or group basis, insure **[**his**]** **their** entire liability **[**thereunder**]** **under the workers' compensation law; and may insure in whole or in part their employer liability, under a policy of insurance or a self-insurance plan**, except as hereafter provided, with some insurance carrier authorized to insure such liability in this state, except that an employer or group of employers may themselves carry the whole or any part of the liability without insurance upon satisfying the division of their ability **[**so to do**]** **to do so**. If an employer or group of employers have qualified to self-insure their liability under this chapter, the division of workers' compensation may, if it finds after a hearing that the employer or group of employers are willfully and intentionally violating the provisions of this chapter with intent to defraud their employees of their right to compensation, suspend or revoke the right of the employer or group of employers to self-insure their liability. If the employer or group of employers fail to comply with this section, an injured employee or his dependents may elect after the injury either to bring an action against such employer or group of employers to recover damages for personal injury or death and it shall not be a defense that the injury or death was caused by the negligence of a fellow servant, or that the employee had assumed the risk of the injury or death, or that the injury or death was caused to any degree by the negligence of the employee; or to recover under this chapter with the compensation payments commuted and immediately payable; or, if the employee elects to do so, he or she may file a request with the division for payment to be made for medical expenses out of the second injury fund as provided in subsection 5 of section 287.220. If the employer or group of employers are carrying their own insurance, on the application of any person entitled to compensation and on proof of default in the payment of any installment, the division shall require the employer or group of employers to furnish security for the payment of the compensation, and if not given, all other compensation shall be commuted and become immediately payable; provided, that employers engaged in the mining business shall be required to insure only their liability hereunder to the extent of the equivalent of the maximum liability under this chapter for ten deaths in any one accident, but the employer or group of employers may carry their own risk for any excess liability. When a group of employers enter into an agreement to pool their liabilities under this chapter, individual members will not be required to qualify as individual self-insurers.

2. Groups of employers qualified to insure their liability pursuant to chapter 537 or this chapter, shall utilize a uniform experience rating plan promulgated by an approved advisory

organization. Such groups shall develop experience ratings for their members based on the plan. Nothing in this section shall relieve an employer from remitting, without any charge to the employer, the employer's claims history to an approved advisory organization.

3. For every entity qualified to group self-insure their liability pursuant to this chapter or chapter 537, each entity shall not authorize total discounts for any individual member exceeding twenty-five percent beginning January 1, 1999. All discounts shall be based on objective quantitative factors and applied uniformly to all trust members.

4. Any group of employers that have qualified to self-insure their liability pursuant to this chapter shall file with the division premium rates, based on pure premium rate data, adjusted for loss development and loss trending as filed by the advisory organization with the department of insurance, financial institutions and professional registration pursuant to section 287.975, plus any estimated expenses and other factors or based on average rate classifications calculated by the department of insurance, financial institutions and professional registration as taken from the premium rates filed by the twenty insurance companies providing the greatest volume of workers' compensation insurance coverage in this state. The rate is inadequate if funds equal to the full ultimate cost of anticipated losses and loss adjustment expenses are not produced when the prospective loss costs are applied to anticipated payrolls. The provisions of this subsection shall not apply to those political subdivisions of this state that have qualified to self-insure their liability pursuant to this chapter as authorized by section 537.620 on an assessment plan. Any such group may file with the division a composite rate for all coverages provided under that section.

5. Any finding or determination made by the division under this section may be reviewed as provided in sections 287.470 and 287.480.

6. No rule or portion of a rule promulgated under the authority of this section shall become effective unless it has been promulgated pursuant to the provisions of section 536.024.

7. Any records submitted pursuant to this section, and pursuant to any rule promulgated by the division pursuant to this section, shall be considered confidential and not subject to chapter 610. Any party to a workers' compensation case involving the party that submitted the records shall be able to subpoena the records for use in a workers' compensation case, if the information is otherwise relevant.

287.610. ADDITIONAL ADMINISTRATIVE LAW JUDGES, APPOINTMENT AND QUALIFICATION, LIMIT ON NUMBER — ANNUAL EVALUATIONS — REVIEW COMMITTEE, RETENTION VOTE — JURISDICTION, POWERS — CONTINUING TRAINING REQUIRED — PERFORMANCE AUDITS REQUIRED — RULES. — 1. After August 28, 2005, the division may appoint additional administrative law judges for a maximum of forty authorized administrative law judges. Appropriations shall be based upon necessity, measured by the requirements and needs of each division office. Administrative law judges shall be duly licensed lawyers under the laws of this state. Administrative law judges shall not practice law or do law business and shall devote their whole time to the duties of their office. The director of the division of workers' compensation shall publish and maintain on the division's website the appointment dates or initial dates of service for all administrative law judges.

2. **[**The division director, as a member of the administrative law judge review committee, hereafter referred to as "the committee", shall perform, in conjunction with the committee, a performance audit of all administrative law judges by August 28, 2006. The division director, in conjunction with the committee, shall establish the written performance audit standards on or before October 1, 2005.

3.**]** The thirteen administrative law judges with the most years of service shall be subject to a retention vote on August 28, 2008. The next thirteen administrative law judges with the most years of service in descending order shall be subject to a retention vote on August 28, 2012. Administrative law judges appointed and not previously referenced in this subsection shall be subject to a retention vote on August 28, 2016. Subsequent retention votes shall be held every

twelve years. Any administrative law judge who has received two or more votes of no confidence under performance audits by the committee shall not receive a vote of retention.

[4.**]** **3.** The administrative law judge review committee members shall not have any direct or indirect employment or financial connection with a workers' compensation insurance company, claims adjustment company, health care provider nor be a practicing workers' compensation attorney. All members of the committee shall have a working knowledge of workers' compensation.

[5.**]** **4.** The committee shall within thirty days of completing each performance audit make a recommendation of confidence or no confidence for each administrative law judge.

[6.**]** **5.** The administrative law judges appointed by the division shall only have jurisdiction to hear and determine claims upon original hearing and shall have no jurisdiction upon any review hearing, either in the way of an appeal from an original hearing or by way of reopening any prior award, except to correct a clerical error in an award or settlement if the correction is made by the administrative law judge within twenty days of the original award or settlement. The labor and industrial relations commission may remand any decision of an administrative law judge for a more complete finding of facts. The commission may also correct a clerical error in awards or settlements within thirty days of its final award. With respect to original hearings, the administrative law judges shall have such jurisdiction and powers as are vested in the division of workers' compensation under other sections of this chapter, and wherever in this chapter the word "commission", "commissioners" or "division" is used in respect to any original hearing, those terms shall mean the administrative law judges appointed under this section. When a hearing is necessary upon any claim, the division shall assign an administrative law judge to such hearing. Any administrative law judge shall have power to approve contracts of settlement, as provided by section 287.390, between the parties to any compensation claim or dispute under this chapter pending before the division of workers' compensation. Any award by an administrative law judge upon an original hearing shall have the same force and effect, shall be enforceable in the same manner as provided elsewhere in this chapter for awards by the labor and industrial relations commission, and shall be subject to review as provided by section 287.480.

[7.**]** **6.** Any of the administrative law judges employed pursuant to this section may be assigned on a temporary basis to the branch offices as necessary in order to ensure the proper administration of this chapter.

[8.**]** **7.** All administrative law judges shall be required to participate in, on a continuing basis, specific training that shall pertain to those elements of knowledge and procedure necessary for the efficient and competent performance of the administrative law judges' required duties and responsibilities. Such training requirements shall be established by the division subject to appropriations and shall include training in medical determinations and records, mediation and legal issues pertaining to workers' compensation adjudication. Such training may be credited toward any continuing legal education requirements.

[9.**]** **8.** (1) **[**The director of the division, in conjunction with**]** The administrative law judge review committee**[**,**]** shall conduct a performance audit of all administrative law judges every two years. The audit results, stating the committee's recommendation of confidence or no confidence of each administrative law judge shall be sent to the governor no later than the first week of each legislative session immediately following such audit. Any administrative law judge who has received **[**two**]** **three** or more votes of no confidence under **two successive** performance audits by the committee may have their appointment immediately withdrawn.

(2) The review committee shall consist of **[**the division director, who shall be appointed by the governor,**]** one member appointed by the president pro tem of the senate, one member appointed by the minority leader of the senate, one member appointed by the speaker of the house of representatives, and one member appointed by the minority leader of the house of representatives. The governor shall appoint to the committee one member selected from the commission on retirement, removal, and discipline of judges. This member shall act as a

member ex-officio and shall not have a vote in the committee. **[**The division director shall serve as the chairperson of the committee, and shall serve on the committee during the time of employment in such position.**]** **The committee shall annually elect a chairperson from its members for a term of one year.** The term of service for all **[**other**]** members shall be two years. The review committee members shall all serve without compensation. Necessary expenses for review committee members and all necessary support services to the review committee shall be provided by the division.

[10.**]** **9.** No rule or portion of a rule promulgated pursuant to the authority of this section shall become effective unless it has been promulgated pursuant to the provisions of chapter 536.

287.715. ANNUAL SURCHARGE REQUIRED FOR SECOND INJURY FUND, AMOUNT, HOW COMPUTED, COLLECTION — VIOLATION, PENALTY — SUPPLEMENTAL SURCHARGE, AMOUNT. — 1. For the purpose of providing for revenue for the second injury fund, every authorized self-insurer, and every workers' compensation policyholder insured pursuant to the provisions of this chapter, shall be liable for payment of an annual surcharge in accordance with the provisions of this section. The annual surcharge imposed under this section shall apply to all workers' compensation insurance policies and self-insurance coverages which are written or renewed on or after April 26, 1988, including the state of Missouri, including any of its departments, divisions, agencies, commissions, and boards or any political subdivisions of the state who self-insure or hold themselves out to be any part self-insured. Notwithstanding any law to the contrary, the surcharge imposed pursuant to this section shall not apply to any reinsurance or retrocessional transaction.

2. Beginning October 31, 2005, and each year thereafter, the director of the division of workers' compensation shall estimate the amount of benefits payable from the second injury fund during the following calendar year and shall calculate the total amount of the annual surcharge to be imposed during the following calendar year upon all workers' compensation policyholders and authorized self-insurers. The amount of the annual surcharge percentage to be imposed upon each policyholder and self-insured for the following calendar year commencing with the calendar year beginning on January 1, 2006, shall be set at and calculated against a percentage, not to exceed three percent, of the policyholder's or self-insured's workers' compensation net deposits, net premiums, or net assessments for the previous policy year, rounded up to the nearest one-half of a percentage point, that shall generate, as nearly as possible, one hundred ten percent of the moneys to be paid from the second injury fund in the following calendar year, less any moneys contained in the fund at the end of the previous calendar year. All policyholders and self-insurers shall be notified by the division of workers' compensation within ten calendar days of the determination of the surcharge percent to be imposed for, and paid in, the following calendar year. The net premium equivalent for individual self-insured employers and any group of political subdivisions of this state qualified to self-insure their liability pursuant to this chapter as authorized by section 537.620 shall be based on average rate classifications calculated by the department of insurance, financial institutions and professional registration as taken from premium rates filed by the twenty insurance companies providing the greatest volume of workers' compensation insurance coverage in this state. For employers qualified to self-insure their liability pursuant to this chapter, the rates filed by such group of employers in accordance with subsection 2 of section 287.280 shall be the net premium equivalent. The director may advance funds from the workers' compensation fund to the second injury fund if surcharge collections prove to be insufficient. Any funds advanced from the workers' compensation fund to the second injury fund must be reimbursed by the second injury fund no later than December thirty-first of the year following the advance. The surcharge shall be collected from policyholders by each insurer at the same time and in the same manner that the premium is collected, but no insurer or its agent shall be entitled to any portion of the surcharge as a fee or commission for its collection. The surcharge is not subject to any taxes, licenses or fees.

3. All surcharge amounts imposed by this section shall be deposited to the credit of the second injury fund.

4. Such surcharge amounts shall be paid quarterly by insurers and self-insurers, and insurers shall pay the amounts not later than the thirtieth day of the month following the end of the quarter in which the amount is received from policyholders. If the director of the division of workers' compensation fails to calculate the surcharge by the thirty-first day of October of any year for the following year, any increase in the surcharge ultimately set by the director shall not be effective for any calendar quarter beginning less than sixty days from the date the director makes such determination.

5. If a policyholder or self-insured fails to make payment of the surcharge or an insurer fails to make timely transfer to the division of surcharges actually collected from policyholders, as required by this section, a penalty of one-half of one percent of the surcharge unpaid, or untransferred, shall be assessed against the liable policyholder, self-insured or insurer. Penalties assessed under this subsection shall be collected in a civil action by a summary proceeding brought by the director of the division of workers' compensation.

6. Notwithstanding subsection 2 of this section to the contrary, the director of the division of workers' compensation shall collect a supplemental surcharge not to exceed three percent for calendar years 2014 to 2021 of the policyholder's or self-insured's workers' compensation net deposits, net premiums, or net assessments for the previous policy year, rounded up to the nearest one-half of a percentage point. All policyholders and self-insurers shall be notified by the division of the supplemental surcharge percentage to be imposed for such period of time as part of the notice provided in subsection 2 of this section. The provisions of this subsection shall expire on December 31, 2021.

7. Funds collected under the provisions of this chapter shall be the sole funding source of the second injury fund.

287.745. DELINQUENT TAXES, INTEREST, RATE — OVERPAYMENT OF TAXES, CREDIT. — 1. If the tax imposed by sections 287.690, 287.710, and 287.715 are not paid when due, the taxpayer shall be required to pay, as part of such tax, interest thereon at the rate of one and one-half percent per month for each month or fraction thereof delinquent. In the event the state prevails in any dispute concerning an assessment of tax which has not been paid by the taxpayer, interest shall be paid upon the amount found due to the state at the rate of one and one-half percent per month for each month or fraction thereof delinquent.

2. In any legal contest concerning the amount of tax under sections 287.690, 287.710 and 287.715 for a calendar year, the quarterly installments for the following year shall continue to be made based upon the amount assessed by the director of revenue for the year in question. If after the end of any taxable year, the amount of the actual tax due is less than the total amount of the installments actually paid, the amount by which the amount paid exceeds the amount due shall **at the election of the taxpayer** be **refunded or** credited against the tax for the following year and **in the event of a credit,** deducted from the quarterly installment otherwise due on June first.

287.955. INSURERS TO ADHERE TO UNIFORM CLASSIFICATION SYSTEM, PLAN — DIRECTOR TO DESIGNATE ADVISORY ORGANIZATION, PURPOSE, DUTIES. — 1. Every workers' compensation insurer shall adhere to a uniform classification system and uniform experience rating plan filed with the director by the advisory organization designated by the director and subject to his disapproval.

2. An insurer may develop subclassifications of the uniform classification system upon which a rate may be made, except that such subclassifications shall be filed with the director thirty days prior to their use. The director shall disapprove subclassifications if the insurer fails to demonstrate that the data thereby produced can be reported consistent with the uniform statistical plan and classification system.

[2.] **3.** The director shall designate an advisory organization to assist him in gathering, compiling and reporting relevant statistical information. Every workers' compensation insurer shall record and report its workers' compensation experience to the designated advisory organization as set forth in the uniform statistical plan approved by the director.

[3.] **4.** The designated advisory organization shall develop and file manual rules, subject to the approval of the director, reasonably related to the recording and reporting of data pursuant to the uniform statistical plan, uniform experience rating plan, and the uniform classification system.

5. Every workers' compensation insurer shall adhere to the approved manual rules and experience rating plan in writing and reporting its business. No insurer shall agree with any other insurer or with the advisory organization to adhere to manual rules which are not reasonably related to the recording and reporting of data pursuant to the uniform classification system of the uniform statistical plan.

6. A workers' compensation insurer may develop an individual risk premium modification rating plan which prospectively modifies premium based upon individual risk characteristics which are predictive of future loss. Such rating plan shall be filed thirty days prior to use and may be subject to disapproval by the director.

(1) The rating plan shall establish objective standards for measuring variations in individual risks for hazards or expense or both. The rating plan shall be actuarially justified and shall not result in premiums which are excessive, inadequate, or unfairly discriminatory. The rating plan shall not utilize factors which are duplicative of factors otherwise utilized in the development of rates or premiums, including the uniform classification system and the uniform experience rating plan. The premium modification factors utilized under the rating plan shall be applied on a statewide basis, with no premium modifications based solely upon the geographic location of the employer.

(2) Within thirty days of a request, the insurer shall clearly disclose to the employer the individual risk characteristics which result in premium modifications. However, this disclosure shall not in any way require the release to the insured employer of any trade secret or proprietary information or data used to derive the premium modification and that meets the definitions of, and is protected by, the provisions of chapter 417.

(3) Premium modifications under this subsection may be determined by an underwriter assessing the individual risk characteristics and applying premium credits and debits as specified under a schedule rating plan. Alternatively, an insurer may utilize software or a computer risk modeling system designed to identify and assess individual risk characteristics and which systematically and uniformly applies premium modifications to similarly-situated employers.

(a) Premium modifications resulting from a schedule rating plan, with an underwriter determining individual risk characteristics, shall be limited to plus or minus twenty-five percent. An additional ten percent credit may be given for a reduction in the insurer's expenses.

(b) Premium modifications resulting from a risk modeling system shall be limited to plus or minus fifty percent. Premium modifications resulting from a risk modeling system shall be reported separately under the uniform statistical plan from premium modifications resulting from a schedule rating plan.

(c) Premium credits or reductions shall not be removed or reduced unless there is a change in the insurer, the insurer amends or withdraws the rating plan, or unless there is a corresponding change in the insured employer's operations or risk characteristics underlying the credit or reduction.

(7) "Eligible student", any elementary or secondary student who attended public school in Missouri the preceding semester, or who will be attending school in Missouri for the first time, who has an individualized education program based on a special needs condition or who has a medical diagnosis by a qualified health professional of a special needs condition;

3. The department of elementary and secondary education shall develop a master list of resources available to the parents of children with an autism spectrum disorder and shall maintain a web page for the information. The department may contract out or delegate these duties to a nonprofit organization. Priority in referral for funding shall be given to children who have not yet entered elementary school.

4. The director shall determine, at least annually, which organizations in this state may be classified as scholarship granting organizations. The director may require of an organization seeking to be classified as a scholarship granting organization whatever information which is reasonably necessary to make such a determination. The director shall classify an organization as a scholarship granting organization if such organization meets the definition set forth in this section.

5. The director shall establish a procedure by which a donor can determine if an organization has been classified as a scholarship granting organization. Scholarship granting organizations shall be permitted to decline a contribution from a donor.

6. Each scholarship granting organization shall provide information to the director concerning the identity of each donor making a contribution to the scholarship granting organization.

7. (1) The director shall annually make a determination on the number of students in Missouri with an individualized education program based upon special needs as defined in this section. The director shall use ten percent of this number to determine the maximum number of students to receive scholarships from a scholarship granting organization in that year for students with special needs who have at the time of application an individualized education program, plus a number calculated by the

director by applying the state's latest available autism, cerebral palsy, Down syndrome, and Angelman syndrome incidence rates to the state's population of children from age five to nineteen who are not enrolled in public schools and taking ten percent of that number. The total of these two calculations shall constitute the maximum number of scholarships available to students.

(2) The director shall also annually make a determination on the number of children in Missouri whose parent or guardian has enrolled the child in First Steps, received an individualized family services program based on special needs, and filed a complaint through the Individuals with Disabilities Education Act, Part C, and received a negative response. (3) The director shall publicly announce the number of each category of scholarship opportunities available each year. Once a scholarship granting organization has decided to provide a student or child with a scholarship, it shall promptly notify the director. The director shall keep a running tally of the number of scholarships granted in the order in which they were reported. Once the tally reaches the annual limit of scholarships for eligible students or children, the director shall notify all of the participating scholarship granting organizations that they shall not issue any more scholarships and any more receipts for contributions. If the scholarship granting organizations have not expended all of their available scholarship funds in that year at the time when the limit is reached, the available .scholarship funds may be carried over into the next year. These unexpended funds shall not be counted as part of the requirement in subdivision (3) of subsection 10 of this section for that year. Any receipt for a scholarship contribution issued by a scholarship granting organization before the director has publicly announced the student or child limit has been reached shall be valid.

8. Each scholarship granting organization participating in the program shall:

(4) Ensure that the scholarships provided do not exceed an average of twenty thousand dollars per eligible child or fifty thousand dollars per eligible student;

(5) Inform the parent or guardian of the student or child applying for a scholarship that accepting the scholarship is tantamount to a "parentally placed private school student" pursuant to 34 CFR 300.130 and, thus, neither the department nor any Missouri public school is responsible to provide the student with a free appropriate public education pursuant to the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act of 1973;

(6) Distribute periodic scholarship payments as checks made out to a student's or child's parent and mailed to the qualified school where the student is enrolled or qualified service provider used by the child. The parent or guardian shall endorse the check before it can be deposited;

(8) Ensure that scholarships are portable during the school year and can be used at any qualified school that accepts the eligible student or at a different qualified service

provider for an eligible child according to a parent's wishes. If a student moves to a new qualified school during a school year or to a different qualified service provider for an eligible child, the scholarship amount may be prorated;

(9) Demonstrate its financial accountability by:

(a) Submitting a financial information report for the organization that complies with uniform financial accounting standards established by the department and conducted by a certified public accountant; and

(b) Having the auditor certify that the report is free of material misstatements;

(a) Adhere to the best practices recommendations of the Missouri Autism Guidelines Initiative or document why it is varying from the guidelines;

(c) Provide documentation in the student's or child's record of the rationale for the use of any intervention that is categorized as unestablished, insufficient evidence, or level 3 by the Missouri Autism Guidelines Initiative Guide to Evidence-based Interventions; and

(6) Certify that in providing any educational services or behavior strategies to a scholarship recipient with a diagnosis of, or an individualized family services program based upon Down syndrome, Angelman syndrome, or cerebral palsy, it will use student, teacher, teaching, and school influences that rank in the zone of desired effects in the meta-analysis of John Hattie, or equivalent analyses as determined by the department, or document why it is using a method that has not been determined by analysis to rank in the zone of desired effects.

10. Scholarship granting organizations shall not provide educational scholarships for students to attend any school or children to receive services from any qualified service provider with paid staff or board members who are relatives within the first degree of consanguinity or affinity.

14. The department shall provide a standardized format for scholarship granting organizations to report the information in this section.

16. If the department believes that a scholarship granting organization has intentionally and substantially failed to comply with the requirements of this section, the department may hold a hearing before the director or the director's designee to bar a scholarship granting organization from participating in the program. The director or the director's designee shall issue a decision within thirty days. A scholarship granting organization may appeal the director's decision to the administrative hearing commission for a hearing in accordance with the provisions of chapter 621.

17. If the scholarship granting organization is barred from participating in the program, the department shall notify affected scholarship students or children and their parents of this decision within fifteen days.

18. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2013, shall be invalid and void.

24. The general assembly may require periodic updates on the status of the study from the department. The individuals completing the study shall make their data and methodology available for public review while complying with the requirements of the Family Educational Rights and Privacy Act, as amended.

(2) By the state board, under rules and regulations prescribed by the state board with advice from the advisory council established by section 168.015 to any individual who presents to the

state board a valid doctoral degree from an accredited institution of higher education accredited by a regional accrediting association such as North Central Association. Such certificate shall be limited to the major area of postgraduate study of the holder, shall be issued only after successful completion of the examination required for graduation pursuant to rules adopted by the state board of education, and shall be restricted to those certificates established pursuant to subdivision (1) of subsection 3 of this section;

(3) By the state board, which shall issue the professional certificate classification in both the general and specialized areas most closely aligned with the current areas of certification approved by the state board, commensurate with the years of teaching experience of the applicant, and based upon the following criteria:

(a) Recommendation of a state-approved baccalaureate-level teacher preparation program;

(b) Successful attainment of the Missouri qualifying score on the exit assessment for teachers or administrators designated by the state board of education. Applicants who have not successfully achieved a qualifying score on the designated examinations will be issued a two-year nonrenewable provisional certificate; and

(c) Upon completion of a background check as prescribed in section 168.133 and possession of a valid teaching certificate in the state from which the applicant's teacher preparation program was completed;

Such certificate shall be limited to the major area of study of the holder and shall be restricted to those certificates established under subdivision (1) of subsection 3 of this section. Holders of certificates granted under this subdivision shall be exempt from the teacher tenure act under sections 168.102 to 168.130 and each school district shall have the decision-making authority on whether to hire the holders of such certificates; or

(5) By the state board, under rules and regulations prescribed by it, on the basis of certification by the American Board for Certification of Teacher Excellence (ABCTE) and verification of ability to work with children as demonstrated by sixty contact hours in any one of the following areas as validated by the school principal: sixty contact hours in the classroom, of which at least forty-five must be teaching; sixty contact hours as a substitute teacher, with at least thirty consecutive hours in the same classroom; sixty contact hours of teaching in a private school; or sixty contact hours of teaching as a paraprofessional, for an initial four-year ABCTE certificate of license to teach, except that such certificate shall not be granted for the areas of early childhood education, elementary education, or special education. Upon the completion of the requirements listed in paragraphs (a), (b), (c), and (d) of this subdivision, an applicant shall be eligible to apply for a career continuous professional certificate under subdivision (2) of subsection 3 of this section:

(a) Completion of thirty contact hours of professional development within four years, which may include hours spent in class in an appropriate college curriculum;

(b) Validated completion of two years of the mentoring program of the American Board for Certification of Teacher Excellence or a district mentoring program approved by the state board of education;

(c) Attainment of a successful performance-based teacher evaluation; and

(d) Participate in a beginning teacher assistance program.

2. All valid teaching certificates issued pursuant to law or state board policies and regulations prior to September 1, 1988, shall be exempt from the professional development requirements of this section and shall continue in effect until they expire, are revoked or suspended, as provided by law. When such certificates are required to be renewed, the state board or its designee shall grant to each holder of such a certificate the certificate most nearly equivalent to the one so held. Anyone who holds, as of August 28, 2003, a valid PC-I, PC-II, or

continuous professional certificate shall, upon expiration of his or her current certificate, be issued the appropriate level of certificate based upon the classification system established pursuant to subsection 3 of this section.

3. Certificates of license to teach in the public schools of the state shall be based upon minimum requirements prescribed by the state board of education which shall include completion of a background check as prescribed in section 168.133. The state board shall provide for the following levels of professional certification: an initial professional certificate and a career continuous professional certificate.

(1) The initial professional certificate shall be issued upon completion of requirements established by the state board of education and shall be valid based upon verification of actual teaching within a specified time period established by the state board of education. The state board shall require holders of the four-year initial professional certificate to:

(a) Participate in a mentoring program approved and provided by the district for a minimum of two years;

(b) Complete thirty contact hours of professional development, which may include hours spent in class in an appropriate college curriculum, or for holders of a certificate under subdivision (4) of subsection 1 of this section, an amount of professional development in proportion to the certificate holder's hours in the classroom, if the certificate holder is employed less than full time; and

(c) Participate in a beginning teacher assistance program;

(2) (a) The career continuous professional certificate shall be issued upon verification of completion of four years of teaching under the initial professional certificate and upon verification of the completion of the requirements articulated in paragraphs (a), (b), and (c) of subdivision (1) of this subsection or paragraphs (a), (b), (c), and (d) of subdivision (5) of subsection 1 of this section.

(b) The career continuous professional certificate shall be continuous based upon verification of actual employment in an educational position as provided for in state board guidelines and completion of fifteen contact hours of professional development per year which may include hours spent in class in an appropriate college curriculum. Should the possessor of a valid career continuous professional certificate fail, in any given year, to meet the fifteen-hour professional development requirement, the possessor may, within two years, make up the missing hours. In order to make up for missing hours, the possessor shall first complete the fifteen-hour requirement for the current year and then may count hours in excess of the current year requirement as make-up hours. Should the possessor fail to make up the missing hours within two years, the certificate shall become inactive. In order to reactivate the certificate, the possessor shall complete twenty-four contact hours of professional development which may include hours spent in the classroom in an appropriate college curriculum within the six months prior to or after reactivating his or her certificate. The requirements of this paragraph shall be monitored and verified by the local school district which employs the holder of the career continuous professional certificate.

(c) A holder of a career continuous professional certificate shall be exempt from the professional development contact hour requirements of paragraph (b) of this subdivision if such teacher has a local professional development plan in place within such teacher's school district and meets two of the three following criteria:

a. Has ten years of teaching experience as defined by the state board of education;

b. Possesses a master's degree; or

c. Obtains a rigorous national certification as approved by the state board of education.

4. Policies and procedures shall be established by which a teacher who was not retained due to a reduction in force may retain the current level of certification. There shall also be established policies and procedures allowing a teacher who has not been employed in an educational position for three years or more to reactivate his or her last level of certification by completing twenty-four contact hours of professional development which may include hours

spent in the classroom in an appropriate college curriculum within the six months prior to or after reactivating his or her certificate.

5. The state board shall, upon completion of a background check as prescribed in section 168.133, issue a professional certificate classification in the areas most closely aligned with an applicant's current areas of certification, commensurate with the years of teaching experience of the applicant, to any person who is hired to teach in a public school in this state and who possesses a valid teaching certificate from another state or certification under subdivision (4) of subsection 1 of this section, provided that the certificate holder shall annually complete the state board's requirements for such level of certification, and shall establish policies by which residents of states other than the state of Missouri may be assessed a fee for a certificate license to teach in the public schools of Missouri. Such fee shall be in an amount sufficient to recover any or all costs associated with the issuing of a certificate of license to teach. The board shall promulgate rules to authorize the issuance of a provisional certificate of license, which shall allow the holder to assume classroom duties pending the completion of a criminal background check under section 168.133, for any applicant who:

(1) Is the spouse of a member of the Armed Forces stationed in Missouri;

(2) Relocated from another state within one year of the date of application;

(3) Underwent a criminal background check in order to be issued a teaching certificate of license from another state; and

(4) Otherwise qualifies under this section.

6. The state board may assess to holders of an initial professional certificate a fee, to be deposited into the excellence in education revolving fund established pursuant to section 160.268, for the issuance of the career continuous professional certificate. However, such fee shall not exceed the combined costs of issuance and any criminal background check required as a condition of issuance. Applicants for the initial ABCTE certificate shall be responsible for any fees associated with the program leading to the issuance of the certificate, but nothing in this section shall prohibit a district from developing a policy that permits fee reimbursement.

7. Any member of the public school retirement system of Missouri who entered covered employment with ten or more years of educational experience in another state or states and held a certificate issued by another state and subsequently worked in a school district covered by the public school retirement system of Missouri for ten or more years who later became certificated in Missouri shall have that certificate dated back to his or her original date of employment in a Missouri public school.

2. In lieu of the retirement allowance provided in subsection 1 of this section, a member whose age is sixty years or more on September 28, 1975, may elect to have the member's retirement allowance calculated as a sum of the following items:

(1) Sixty cents plus one and five-tenths percent of the member's final average salary for each year of membership service;

(3) Three-fourths of one percent of the sum of subdivisions (1) and (2) of this subsection for each month of attained age in excess of sixty years but not in excess of age sixty-five.

3. (1) In lieu of the retirement allowance provided either in subsection 1 or 2 of this section, collectively called "option 1", a member whose creditable service is twenty-five years or more or who has attained the age of fifty-five with five or more years of creditable service may elect in the member's application for retirement to receive the actuarial equivalent of the member's retirement allowance in reduced monthly payments for life during retirement with the provision that:

Option 2. Upon the member's death the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the member as the member shall have nominated in the member's election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the retired member elected option 1; OR

Option 3. Upon the death of the member three-fourths of the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the member elected option 1; OR

Option 4. Upon the death of the member one-half of the reduced retirement allowance shall be continued throughout the life of, and paid to, such person as has an insurable interest in

the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance shall be increased to the amount the retired member would be receiving had the member elected option 1; OR

Option 5. Upon the death of the member prior to the member having received one hundred twenty monthly payments of the member's reduced allowance, the remainder of the one hundred twenty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the one hundred twenty monthly payments, the total of the remainder of such one hundred twenty monthly payments shall be paid to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the last person, in that order of precedence, to receive a monthly allowance in a lump sum payment. If the total of the one hundred twenty payments paid to the retired individual and the beneficiary of the retired individual is less than the total of the member's accumulated contributions, the difference shall be paid to the beneficiary in a lump sum; OR

Option 6. Upon the death of the member prior to the member having received sixty monthly payments of the member's reduced allowance, the remainder of the sixty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the sixty monthly payments, the total of the remainder of such sixty monthly payments shall be paid to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the last person, in that order of precedence, to receive a monthly allowance in a lump sum payment. If the total of the sixty payments paid to the retired individual and the beneficiary of the retired individual is less than the total of the member's accumulated contributions, the difference shall be paid to the beneficiary in a lump sum.

(2) The election of an option may be made only in the application for retirement and such application must be filed prior to the date on which the retirement of the member is to be effective. If either the member or the person nominated to receive the survivorship payments dies before the effective date of retirement, the option shall not be effective, provided that:

(a) If the member or a person retired on disability retirement dies after acquiring twenty-five or more years of creditable service or after attaining the age of fifty-five years and acquiring five or more years of creditable service and before retirement, except retirement with disability benefits, and the person named by the member as the member's beneficiary has an insurable interest in the life of the deceased member, the designated beneficiary may elect to receive either survivorship benefits under option 2 or a payment of the accumulated contributions of the member. If survivorship benefits under option 2 are elected and the member at the time of death would have been eligible to receive an actuarial equivalent of the member's retirement allowance, the designated beneficiary may further elect to defer the option 2 payments until the date the member would have been eligible to receive the retirement allowance provided in subsection 1 or 2 of this section;

(b) If the member or a person retired on disability retirement dies before attaining age fifty-five but after acquiring five but fewer than twenty-five years of creditable service, and the person named as the member's beneficiary has an insurable interest in the life of the deceased member, the designated beneficiary may elect to receive either a payment of the member's accumulated contributions, or survivorship benefits under option 2 to begin on the date the member would first have been eligible to receive an actuarial equivalent of the member's retirement allowance, or to begin on the date the member would first have been eligible to receive the retirement allowance provided in subsection 1 or 2 of this section.

4. If the total of the retirement or disability allowance paid to an individual before the death of the individual is less than the accumulated contributions at the time of retirement, the

difference shall be paid to the beneficiary of the individual, or to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the individual in that order of precedence. If an optional benefit as provided in option 2, 3 or 4 in subsection 3 of this section had been elected, and the beneficiary dies after receiving the optional benefit, and if the total retirement allowance paid to the retired individual and the beneficiary of the retired individual is less than the total of the contributions, the difference shall be paid to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the beneficiary, in that order of precedence, unless the retired individual designates a different recipient with the board at or after retirement.

5. If a member dies and his or her financial institution is unable to accept the final payment or payments due to the member, the final payment or payments shall be paid to the beneficiary of the member or, if there is no beneficiary, to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the member, in that order of precedence, unless otherwise stated. If the beneficiary of a deceased member dies and his or her financial institution is unable to accept the final payment or payments, the final payment or payments shall be paid to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the member, in that order of precedence, unless otherwise stated.

6. If a member dies before receiving a retirement allowance, the member's accumulated contributions at the time of the death of the member shall be paid to the beneficiary of the member or, if there is no beneficiary, to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or to the estate of the member, in that order of precedence; except that, no such payment shall be made if the beneficiary elects option 2 in subsection 3 of this section, unless the beneficiary dies before having received benefits pursuant to that subsection equal to the accumulated contributions of the member, in which case the amount of accumulated contributions in excess of the total benefits paid pursuant to that subsection shall be paid to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the beneficiary, in that order of precedence.

7. If a member ceases to be a public school employee as herein defined and certifies to the board of trustees that such cessation is permanent, or if the membership of the person is otherwise terminated, the member shall be paid the member's accumulated contributions with interest.

8. Notwithstanding any provisions of sections 169.010 to 169.141 to the contrary, if a member ceases to be a public school employee after acquiring five or more years of membership service in Missouri, the member may at the option of the member leave the member's contributions with the retirement system and claim a retirement allowance any time after reaching the minimum age for voluntary retirement. When the member's claim is presented to the board, the member shall be granted an allowance as provided in sections 169.010 to 169.141 on the basis of the member's age, years of service, and the provisions of the law in effect at the time the member requests the member's retirement to become effective.

9. The retirement allowance of a member retired because of disability shall be nine-tenths of the allowance to which the member's creditable service would entitle the member if the member's age were sixty, or fifty percent of one-twelfth of the annual salary rate used in determining the member's contributions during the last school year for which the member received a year of creditable service immediately prior to the member's disability, whichever is greater, except that no such allowance shall exceed the retirement allowance to which the member would have been entitled upon retirement at age sixty if the member had continued to teach from the date of disability until age sixty at the same salary rate.

10. Notwithstanding any provisions of sections 169.010 to 169.141 to the contrary, from October 13, 1961, the contribution rate pursuant to sections 169.010 to 169.141 shall be multiplied by the factor of two-thirds for any member of the system for whom federal Old Age and Survivors Insurance tax is paid from state or local tax funds on account of the member's

employment entitling the person to membership in the system. The monetary benefits for a member who elected not to exercise an option to pay into the system a retroactive contribution of four percent on that part of the member's annual salary rate which was in excess of four thousand eight hundred dollars but not in excess of eight thousand four hundred dollars for each year of employment in a position covered by this system between July 1, 1957, and July 1, 1961, as provided in subsection 10 of this section as it appears in RSMo, 1969, shall be the sum of:

(1) For years of service prior to July 1, 1946, six-tenths of the full amount payable for years of membership service;

(2) For years of membership service after July 1, 1946, in which the full contribution rate was paid, full benefits under the formula in effect at the time of the member's retirement;

(3) For years of membership service after July 1, 1957, and prior to July 1, 1961, the benefits provided in this section as it appears in RSMo, 1959; except that if the member has at least thirty years of creditable service at retirement the member shall receive the benefit payable pursuant to that section as though the member's age were sixty-five at retirement;

(4) For years of membership service after July 1, 1961, in which the two-thirds contribution rate was paid, two-thirds of the benefits under the formula in effect at the time of the member's retirement.

11. The monetary benefits for each other member for whom federal Old Age and Survivors Insurance tax is or was paid at any time from state or local funds on account of the member's employment entitling the member to membership in the system shall be the sum of:

(1) For years of service prior to July 1, 1946, six-tenths of the full amount payable for years of membership service;

(2) For years of membership service after July 1, 1946, in which the full contribution rate was paid, full benefits under the formula in effect at the time of the member's retirement;

(3) For years of membership service after July 1, 1957, in which the two-thirds contribution rate was paid, two-thirds of the benefits under the formula in effect at the time of the member's retirement.

12. Any retired member of the system who was retired prior to September 1, 1972, or beneficiary receiving payments under option 1 or option 2 of subsection 3 of this section, as such option existed prior to September 1, 1972, will be eligible to receive an increase in the retirement allowance of the member of two percent for each year, or major fraction of more than one-half of a year, which the retired member has been retired prior to July 1, 1975. This increased amount shall be payable commencing with January, 1976, and shall thereafter be referred to as the member's retirement allowance. The increase provided for in this subsection shall not affect the retired member's eligibility for compensation provided for in section 169.580 or 169.585, nor shall the amount being paid pursuant to these sections be reduced because of any increases provided for in this section.

13. If the board of trustees determines that the cost of living, as measured by generally accepted standards, increases two percent or more in the preceding fiscal year, the board shall increase the retirement allowances which the retired members or beneficiaries are receiving by two percent of the amount being received by the retired member or the beneficiary at the time the annual increase is granted by the board with the provision that the increases provided for in this subsection shall not become effective until the fourth January first following the member's retirement or January 1, 1977, whichever later occurs, or in the case of any member retiring on or after July 1, 2000, the increase provided for in this subsection shall not become effective until the third January first following the member's retirement, or in the case of any member retiring on or after July 1, 2001, the increase provided for in this subsection shall not become effective until the second January first following the member's retirement. Commencing with January 1, 1992, if the board of trustees determines that the cost of living has increased five percent or more in the preceding fiscal year, the board shall increase the retirement allowances by five percent. The total of the increases granted to a retired member or the beneficiary after December 31, 1976, may not exceed eighty percent of the retirement allowance established at retirement or as

previously adjusted by other subsections. If the cost of living increases less than five percent, the board of trustees may determine the percentage of increase to be made in retirement allowances, but at no time can the increase exceed five percent per year. If the cost of living decreases in a fiscal year, there will be no increase in allowances for retired members on the following January first.

14. The board of trustees may reduce the amounts which have been granted as increases to a member pursuant to subsection 13 of this section if the cost of living, as determined by the board and as measured by generally accepted standards, is less than the cost of living was at the time of the first increase granted to the member; except that, the reductions shall not exceed the amount of increases which have been made to the member's allowance after December 31, 1976.

15. Any application for retirement shall include a sworn statement by the member certifying that the spouse of the member at the time the application was completed was aware of the application and the plan of retirement elected in the application.

16. Notwithstanding any other provision of law, any person retired prior to September 28, 1983, who is receiving a reduced retirement allowance under option 1 or option 2 of subsection 3 of this section, as such option existed prior to September 28, 1983, and whose beneficiary nominated to receive continued retirement allowance payments under the elected option dies or has died, shall upon application to the board of trustees have his or her retirement allowance increased to the amount he or she would have been receiving had the option not been elected, actuarially adjusted to recognize any excessive benefits which would have been paid to him or her up to the time of application.

17. Benefits paid pursuant to the provisions of the public school retirement system of Missouri shall not exceed the limitations of Section 415 of Title 26 of the United States Code except as provided pursuant to this subsection. Notwithstanding any other law to the contrary, the board of trustees may establish a benefit plan pursuant to Section 415(m) of Title 26 of the United States Code. Such plan shall be created solely for the purpose described in Section 415(m)(3)(A) of Title 26 of the United States Code. The board of trustees may promulgate regulations necessary to implement the provisions of this subsection and to create and administer such benefit plan.

18. Notwithstanding any other provision of law to the contrary, any person retired before, on, or after May 26, 1994, shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such requests. As compensation for such duties the person shall receive an amount based on the person's years of service so that the total amount received pursuant to sections 169.010 to 169.141 shall be at least the minimum amounts specified in subdivisions (1) to (4) of this subsection. In determining the minimum amount to be received, the amounts in subdivisions (3) and (4) of this subsection shall be adjusted in accordance with the actuarial adjustment, if any, that was applied to the person's retirement allowance. In determining the minimum amount to be received, beginning September 1, 1996, the amounts in subdivisions (1) and (2) of this subsection shall be adjusted in accordance with the actuarial adjustment, if any, that was applied to the person's retirement allowance due to election of an optional form of retirement having a continued monthly payment after the person's death. Notwithstanding any other provision of law to the contrary, no person retired before, on, or after May 26, 1994, and no beneficiary of such a person, shall receive a retirement benefit pursuant to sections 169.010 to 169.141 based on the person's years of service less than the following amounts:

(1) Thirty or more years of service, one thousand two hundred dollars;

(2) At least twenty-five years but less than thirty years, one thousand dollars;

(3) At least twenty years but less than twenty-five years, eight hundred dollars;

(4) At least fifteen years but less than twenty years, six hundred dollars.

19. Notwithstanding any other provisions of law to the contrary, any person retired prior to May 26, 1994, and any designated beneficiary of such a retired member who was deceased

prior to July 1, 1999, shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement or aging and upon request shall give written or oral opinions to the board in response to such requests. Beginning September 1, 1996, as compensation for such service, the member shall have added, pursuant to this subsection, to the member's monthly annuity as provided by this section a dollar amount equal to the lesser of sixty dollars or the product of two dollars multiplied by the member's number of years of creditable service. Beginning September 1, 1999, the designated beneficiary of the deceased member shall as compensation for such service have added, pursuant to this subsection, to the monthly annuity as provided by this section a dollar amount equal to the lesser of sixty dollars or the product of two dollars multiplied by the member's number of years of creditable service. The total compensation provided by this section including the compensation provided by this subsection shall be used in calculating any future cost-of-living adjustments provided by subsection 13 of this section.

20. Any member who has retired prior to July 1, 1998, and the designated beneficiary of a deceased retired member shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such requests. As compensation for such duties the person shall receive a payment equivalent to eight and seven-tenths percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 13 and 14 of this section for the purposes of the limit on the total amount of increases which may be received.

21. Any member who has retired shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such request. As compensation for such duties, the beneficiary of the retired member, or, if there is no beneficiary, the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the retired member, in that order of precedence, shall receive as a part of compensation for these duties a death benefit of five thousand dollars.

If a retirant is reemployed by any employer in any capacity, whether pursuant to this section, or section 169.331, 169.580, or 169.585, or as a regular employee, the amount of such person's retirement allowance attributable to service prior to the person's first retirement date shall not be changed by the reemployment. The sum calculated pursuant to this subsection shall not exceed the greater of sixty percent of the person's average final compensation as of the second retirement date or the amount determined pursuant to subdivision (1) of this subsection. Compensation earned prior to the person's first retirement date shall be considered in determining the person's average final compensation as of the second retirement date if such compensation would otherwise be included in determining the person's average final compensation.

3. The board of trustees shall determine annually whether the investment return on funds of the system can provide for an increase in benefits for retirants eligible for such increase. A retirant shall and will be eligible for an increase awarded pursuant to this section as of the second January following the date the retirant commenced receiving retirement benefits. Any such

increase shall also apply to any monthly joint and survivor retirement allowance payable to such retirant's beneficiaries, regardless of age. The board shall make such determination as follows:

(1) After determination by the actuary of the investment return for the preceding year as of December thirty-first (the "valuation year"), the actuary shall recommend to the board of trustees what portion of the investment return is available to provide such benefits increase, if any, and shall recommend the amount of such benefits increase, if any, to be implemented as of the first day of the thirteenth month following the end of the valuation year, and **[**the**]** first payable on or about the first day of the fourteenth month following the end of the valuation year. (d) A benefit increase, under this section, once awarded, cannot be reduced in succeeding years;

(2) The board of trustees shall review the actuary's recommendation and report and shall, in their discretion, determine if any increase is prudent and, if so, shall determine the amount of increase to be awarded.

4. This section does not guarantee an annual increase to any retirant.

5. If an inactive member becomes an active member after June 30, 2001, and after a break in service, unless the person earns at least four additional years of creditable service without another break in service, upon retirement the person's retirement allowance shall be calculated separately for each separate period of service ending in a break in service. The retirement allowance shall be the sum of the separate retirement allowances computed for each such period of service using the benefit formula in effect, the person's average final compensation as of the last day of such period of service and the creditable service the person earned during such period of service; provided, however, if the person earns at least four additional years of creditable service without another break in service, all of the person's creditable service prior to and including such service shall be aggregated and, upon retirement, the retirement allowance shall be computed using the benefit formula in effect and the person's average final compensation as of the last day of such period of four or more years and all of the creditable service the person earned prior to and during such period.

6. Notwithstanding anything contained in this section to the contrary, the amount of the annual service retirement allowance payable to any retirant pursuant to the provisions of sections 169.270 to 169.400, including any adjustments made pursuant to subsection 3 of this section, shall at all times comply with the provisions and limitations of Section 415 of the Internal Revenue Code of 1986, as amended, and the regulations thereunder, the terms of which are specifically incorporated herein by reference.

7. Such retirement systems shall report their progress annually to the joint committee on public employee retirement and the governor's minority advocacy commission.

169.350. ASSETS HELD IN TWO FUNDS — SOURCE AND DISBURSEMENT — DEDUCTIONS — CONTRIBUTIONS, EMPLOYER MAY ELECT TO PAY PART OR ALL OF EMPLOYEE'S CONTRIBUTION, PROCEDURE — RATE OF CONTRIBUTIONS TO BE CALCULATED. — 1. All of the assets of the retirement system (other than tangible real or personal property owned by the

retirement system for use in carrying out its duties, such as office supplies and furniture) shall be credited, according to the purpose for which they are held, in either the employees' contribution fund or the general reserve fund.

(1) The employees' contribution fund shall be the fund in which shall be accumulated the contributions of the members. The employer shall, except as provided in subdivision (5) of this subsection, cause to be deducted from the compensation of each member on each and every payroll, for each and every payroll period, the pro rata portion of five and nine-tenths percent of his annualized compensation. Effective January 1, 1999, **through December 31, 2013,** the employer shall deduct an additional one and six-tenths percent of the member's annualized compensation. **For 2014 and for each subsequent year, the employer shall deduct from each member's annualized compensation the rate of contribution determined for such year by the actuary for the retirement system in the manner provided in subsection 4 of this section.**

(2) The employer shall pay all such deductions and any amount it may elect to pay pursuant to subdivision (5) of this subsection to the retirement system at once. The retirement system shall credit such deductions and such amounts to the individual account of each member from whose compensation the deduction was made or with respect to whose compensation the amount was paid pursuant to subdivision (5) of this subsection. In determining the deduction for a member in any payroll period, the board of trustees may consider the rate of compensation payable to such member on the first day of the payroll period as continuing throughout such period.

(3) The deductions provided for herein are declared to be a part of the compensation of the member and the making of such deductions shall constitute payments by the member out of the person's compensation and such deductions shall be made notwithstanding that the amount actually paid to the member after such deductions is less than the minimum compensation provided by law for any member. Every member shall be deemed to consent to the deductions made and provided for herein, and shall receipt for the person's full compensation, and the making of the deduction and the payment of compensation less the deduction shall be a full and complete discharge and acquittance of all claims and demands whatsoever for services rendered during the period covered by the payment except as to benefits provided by sections 169.270 to 169.400.

(4) The accumulated contributions with interest of a member withdrawn by the person or paid to the person's estate or designated beneficiary in the event of the person's death before retirement shall be paid from the employees' contribution fund. Upon retirement of a member the member's accumulated contributions with interest shall be transferred from the employees' contribution fund to the general reserve fund.

(5) The employer may elect to pay on behalf of all members all or part of the amount that the members would otherwise be required to contribute to the employees' contribution fund pursuant to subdivision (1) of this subsection. Such amounts paid by the employer shall be in lieu of members' contributions and shall be treated for all purposes of sections 169.270 to 169.400 as contributions made by members. Notwithstanding any other provision of this chapter to the contrary, no member shall be entitled to receive such amounts directly. The election shall be made by a duly adopted resolution of the employer's board and shall remain in effect for at least one year from the effective date thereof. The election may be thereafter terminated only by an affirmative act of the employer's board notwithstanding any limitation in the term thereof in the adopting resolution. Any such termination resolution shall be adopted at least sixty days prior to the effective date thereof, and the effective date thereof shall coincide with a fiscal year-end of the employer. In the absence of such a termination resolution, the election shall remain in effect from fiscal year to fiscal year.

2. The general reserve fund shall be the fund in which shall be accumulated all reserves for the payment of all benefit expenses and other demands whatsoever upon the retirement system except those items heretofore allocated to the employees' contribution fund.

(1) All contributions by the employer, except those the employer elects to make on behalf of the members pursuant to subdivision (5) of subsection 1 of this section, shall be credited to the general reserve fund.

(2) Should a retirant be restored to active service and again become a member of the retirement system, the excess, if any, of the person's accumulated contributions over benefits received by the retirant shall be transferred from the general reserve fund to the employees' contribution fund and credited to the person's account.

3. Gifts, devises, bequests and legacies may be accepted by the board of trustees and deposited in the general reserve fund to be held, invested and used at its discretion for the benefit of the retirement system except where specific direction for the use of a gift is made by a donor.

4. Beginning in 2013, the actuary for the retirement system shall annually calculate the rate of employer contributions and member contributions for 2014 and for each subsequent calendar year, expressed as a level percentage of the annualized compensation of the members, subject to the following:

(1) The rate of contribution for any calendar year shall be determined based on an actuarial valuation of the retirement system as of the first day of the prior calendar year. Such actuarial valuation shall be performed using the actuarial cost method and actuarial assumptions adopted by the board of trustees and in accordance with accepted actuarial standards of practice in effect at the time the valuation is performed, as promulgated by the actuarial standards board or its successor;

(2) The target combined employer and member contribution rate shall be the amount actuarially required to cover the normal cost and amortize any unfunded accrued actuarial liability over a period that shall not exceed thirty years from the date of the valuation;

(3) The target combined rate as so determined shall be allocated equally between the employer contribution rate and the member contribution rate, provided, however, that the level rate of contributions to be paid by the employers and the level rate of contributions to be deducted from the compensation of members for any calender year shall each be limited as follows:

(a) The contribution rate shall not be less than seven and one-half percent;

(b) The contribution rate shall not exceed nine percent; and

(c) Changes in the contribution rate from year to year shall be in increments of one-half percent such that the contribution rate for any year shall not be greater than or less than the rate in effect for the prior year by more than one-half percent;

(4) The board of trustees shall certify to the employers the contribution rate for the following calendar year no later than six months prior to the date such rate is to be effective.

169.670. BENEFITS, HOW COMPUTED — BENEFICIARY BENEFITS, OPTIONS, ELECTION OF. — 1. The retirement allowance of a member whose age at retirement is sixty years or more and whose creditable service is five years or more, or whose sum of age and creditable service equals eighty years or more, or whose creditable service is thirty years or more regardless of age, shall be the sum of the following items:

(1) For each year of membership service, one and sixty-one hundredths percent of the member's final average salary;

(2) Six-tenths of the amount payable for a year of membership service for each year of prior service;

(3) Eighty-five one-hundredths of one percent of any amount by which the member's average compensation for services rendered prior to July 1, 1973, exceeds the average monthly compensation on which federal Social Security taxes were paid during the period over which such average compensation was computed, for each year of membership service credit for

services rendered prior to July 1, 1973, plus six-tenths of the amount payable for a year of membership service for each year of prior service credit;

(4) In lieu of the retirement allowance otherwise provided by subdivisions (1) to (3) of this subsection, **[**between July 1, 2001, and July 1, 2013,**]** a member may elect to receive a retirement allowance of:

(a) One and fifty-nine hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-nine years or more but less than thirty years and the member has not attained the age of fifty-five;

(b) One and fifty-seven hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-eight years or more but less than twenty-nine years, and the member has not attained the age of fifty-five;

(c) One and fifty-five hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-seven years or more but less than twenty-eight years and the member has not attained the age of fifty-five;

(d) One and fifty-three hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-six years or more but less than twenty-seven years and the member has not attained the age of fifty-five;

(e) One and fifty-one hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-five years or more but less than twenty-six years and the member has not attained the age of fifty-five; and

(5) In addition to the retirement allowance provided in subdivisions (1) to (3) of this subsection, a member retiring on or after July 1, 2001, whose creditable service is thirty years or more or whose sum of age and creditable service is eighty years or more, shall receive a temporary retirement allowance equivalent to eight-tenths of one percent of the member's final average salary multiplied by the member's years of service until such time as the member reaches the minimum age for Social Security retirement benefits.

2. If the board of trustees determines that the cost of living, as measured by generally accepted standards, increases five percent or more in the preceding fiscal year, the board shall increase the retirement allowances which the retired members or beneficiaries are receiving by five percent of the amount being received by the retired member or the beneficiary at the time the annual increase is granted by the board; provided that, the increase provided in this subsection shall not become effective until the fourth January first following a member's retirement or January 1, 1982, whichever occurs later, and the total of the increases granted to a retired member or the beneficiary after December 31, 1981, may not exceed eighty percent of the retirement allowance established at retirement or as previously adjusted by other provisions of law. If the cost of living increases less than five percent, the board of trustees may determine the percentage of increase to be made in retirement allowances, but at no time can the increase exceed five percent per year. If the cost of living decreases in a fiscal year, there will be no increase in allowances for retired members on the following January first.

3. The board of trustees may reduce the amounts which have been granted as increases to a member pursuant to subsection 2 of this section if the cost of living, as determined by the board and as measured by generally accepted standards, is less than the cost of living was at the time of the first increase granted to the member; provided that, the reductions shall not exceed the amount of increases which have been made to the member's allowance after December 31, 1981.

4. (1) In lieu of the retirement allowance provided in subsection 1 of this section, called option 1, a member whose creditable service is twenty-five years or more or who has attained age fifty-five with five or more years of creditable service may elect, in the application for retirement, to receive the actuarial equivalent of the member's retirement allowance in reduced monthly payments for life during retirement with the provision that:

Option 2. Upon the member's death, the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the

member as the member shall have nominated in the member's election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the member elected option 1; OR

Option 3. Upon the death of the member three-fourths of the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the member elected option 1; OR

Option 4. Upon the death of the member one-half of the reduced retirement allowance shall be continued throughout the life of, and paid to, such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance shall be increased to the amount the retired member would be receiving had the member elected option 1; OR

Option 5. Upon the death of the member prior to the member having received one hundred twenty monthly payments of the member's reduced allowance, the remainder of the one hundred twenty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the one hundred twenty monthly payments, the reserve for the remainder of such one hundred twenty monthly payments shall be paid to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the last person, in that order of precedence, to receive a monthly allowance in a lump sum payment. If the total of the one hundred twenty payments paid to the retired individual and the beneficiary of the retired individual is less than the total of the member's accumulated contributions, the difference shall be paid to the beneficiary in a lump sum; OR

Option 6. Upon the death of the member prior to the member having received sixty monthly payments of the member's reduced allowance, the remainder of the sixty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the sixty monthly payments, the reserve for the remainder of such sixty monthly payments shall be paid to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the last person, in that order of precedence, to receive a monthly allowance in a lump sum payment. If the total of the sixty payments paid to the retired individual and the beneficiary of the retired individual is less than the total of the member's accumulated contributions, the difference shall be paid to the beneficiary in a lump sum; OR

Option 7. A plan of variable monthly benefit payments which provides, in conjunction with the member's retirement benefits under the federal Social Security laws, level or near-level retirement benefit payments to the member for life during retirement, and if authorized, to an appropriate beneficiary designated by the member. Such a plan shall be actuarially equivalent to the retirement allowance under option 1 and shall be available for election only if established by the board of trustees under duly adopted rules.

(2) The election of an option may be made only in the application for retirement and such application must be filed prior to the date on which the retirement of the member is to be effective. If either the member or the person nominated dies before the effective date of retirement, the option shall not be effective, provided that:

(a) If the member or a person retired on disability retirement dies after attaining age fifty-five and acquiring five or more years of creditable service or after acquiring twenty-five or more years of creditable service and before retirement, except retirement with disability benefits, and

the person named by the member as the member's beneficiary has an insurable interest in the life of the deceased member, the designated beneficiary may elect to receive either survivorship payments under option 2 or a payment of the member's accumulated contributions. If survivorship benefits under option 2 are elected and the member at the time of death would have been eligible to receive an actuarial equivalent of the member's retirement allowance, the designated beneficiary may further elect to defer the option 2 payments until the date the member would have been eligible to receive the retirement allowance provided in subsection 1 of this section.

(b) If the member or a person retired on disability retirement dies before attaining age fifty-five but after acquiring five but fewer than twenty-five years of creditable service, and the person named as the beneficiary has an insurable interest in the life of the deceased member or disability retiree, the designated beneficiary may elect to receive either a payment of the person's accumulated contributions or survivorship benefits under option 2 to begin on the date the member would first have been eligible to receive an actuarial equivalent of the person's retirement allowance, or to begin on the date the member would first have been eligible to receive the retirement allowance provided in subsection 1 of this section.

5. If the total of the retirement or disability allowances paid to an individual before the person's death is less than the person's accumulated contributions at the time of the person's retirement, the difference shall be paid to the person's beneficiary or, if there is no beneficiary, to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or person's estate, in that order of precedence; provided, however, that if an optional benefit, as provided in option 2, 3 or 4 in subsection 4 of this section, had been elected and the beneficiary dies after receiving the optional benefit, then, if the total retirement allowances paid to the retired individual and the individual's beneficiary are less than the total of the contributions, the difference shall be paid to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the beneficiary, in that order of precedence, unless the retired individual designates a different recipient with the board at or after retirement.

6. If a member dies and his or her financial institution is unable to accept the final payment or payments due to the member, the final payment or payments shall be paid to the beneficiary of the member or, if there is no beneficiary, to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the member, in that order of precedence, unless otherwise stated. If the beneficiary of a deceased member dies and his or her financial institution is unable to accept the final payment or payments, the final payment or payments shall be paid to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the member, in that order of precedence, unless otherwise stated.

7. If a member dies before receiving a retirement allowance, the member's accumulated contributions at the time of the member's death shall be paid to the member's beneficiary or, if there is no beneficiary, to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or to the member's estate; provided, however, that no such payment shall be made if the beneficiary elects option 2 in subsection 4 of this section, unless the beneficiary dies before having received benefits pursuant to that subsection equal to the accumulated contributions of the member, in which case the amount of accumulated contributions in excess of the total benefits paid pursuant to that subsection shall be paid to the surviving spouse, surviving children in equal shares, surviving parents in equal shares, or estate of the beneficiary, in that order of precedence.

8. If a member ceases to be an employee as defined in section 169.600 and certifies to the board of trustees that such cessation is permanent or if the person's membership is otherwise terminated, the person shall be paid the person's accumulated contributions with interest.

9. Notwithstanding any provisions of sections 169.600 to 169.715 to the contrary, if a member ceases to be an employee as defined in section 169.600 after acquiring five or more years of creditable service, the member may, at the option of the member, leave the member's

contributions with the retirement system and claim a retirement allowance any time after the member reaches the minimum age for voluntary retirement. When the member's claim is presented to the board, the member shall be granted an allowance as provided in sections 169.600 to 169.715 on the basis of the member's age and years of service.

10. The retirement allowance of a member retired because of disability shall be nine-tenths of the allowance to which the member's creditable service would entitle the member if the member's age were sixty.

11. Notwithstanding any provisions of sections 169.600 to 169.715 to the contrary, any member who is a member prior to October 13, 1969, may elect to have the member's retirement allowance computed in accordance with sections 169.600 to 169.715 as they existed prior to October 13, 1969.

12. Any application for retirement shall include a sworn statement by the member certifying that the spouse of the member at the time the application was completed was aware of the application and the plan of retirement elected in the application.

13. Notwithstanding any other provision of law, any person retired prior to August 14, 1984, who is receiving a reduced retirement allowance under option 1 or 2 of subsection 4 of this section, as the option existed prior to August 14, 1984, and whose beneficiary nominated to receive continued retirement allowance payments under the elected option dies or has died, shall upon application to the board of trustees have the person's retirement allowance increased to the amount the person would have been receiving had the person not elected the option actuarially adjusted to recognize any excessive benefits which would have been paid to the person up to the time of the application.

14. Benefits paid pursuant to the provisions of the public education employee retirement system of Missouri shall not exceed the limitations of Section 415 of Title 26 of the United States Code, except as provided under this subsection. Notwithstanding any other law, the board of trustees may establish a benefit plan under Section 415(m) of Title 26 of the United States Code. Such plan shall be credited solely for the purpose described in Section 415(m)(3)(A) of Title 26 of the United States Code. The board of trustees may promulgate regulations necessary to implement the provisions of this subsection and to create and administer such benefit plan.

15. Any member who has retired prior to July 1, 1999, and the designated beneficiary of a deceased retired member upon request shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging. As compensation for such duties the person shall receive a payment equivalent to seven and four-tenths percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 2 and 3 of this section for the purposes of the limit on the total amount of increases which may be received.

16. Any member who has retired prior to July 1, 2000, and the designated beneficiary of a deceased retired member upon request shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging. As compensation for such duties the person shall receive a payment equivalent to three and four-tenths percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 2 and 3 of this section for the purposes of the limit on the total amount of increases which may be received.

17. Any member who has retired prior to July 1, 2001, and the designated beneficiary of a deceased retired member upon request shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging. As compensation for such duties the person shall receive a payment equivalent to seven and one-tenth percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 2

and 3 of this section for the purposes of the limit on the total amount of increases which may be received.

BOOKS OF RELIGIOUS NATURE MAY BE USED, WHEN. — Books of a religious nature may be used in the classroom as part of instruction in elective courses in literature and history, as long as such books are not used in a manner so as to violate the establishment clause of the First Amendment to the United States Constitution.

32.087. LOCAL SALES TAXES, PROCEDURES AND DUTIES OF DIRECTOR OF REVENUE, GENERALLY — EFFECTIVE DATE OF TAX — DUTY OF RETAILERS AND DIRECTOR OF REVENUE — EXEMPTIONS — DISCOUNTS ALLOWED — PENALTIES — MOTOR VEHICLE AND

BOAT SALES, MOBILE TELECOMMUNICATIONS SERVICES — BOND REQUIRED — ANNUAL REPORT OF DIRECTOR, CONTENTS — DELINQUENT PAYMENTS — REAPPROVAL, EFFECT, PROCEDURES. — 1. Within ten days after the adoption of any ordinance or order in favor of adoption of any local sales tax authorized under the local sales tax law by the voters of a taxing entity, the governing body or official of such taxing entity shall forward to the director of revenue by United States registered mail or certified mail a certified copy of the ordinance or order. The ordinance or order shall reflect the effective date thereof.

2. Any local sales tax so adopted shall become effective on the first day of the second calendar quarter after the director of revenue receives notice of adoption of the local sales tax, except as provided in subsection 18 of this section**, and shall be imposed on all transactions on which the Missouri state sales tax is imposed**.

3. Every retailer within the jurisdiction of one or more taxing entities which has imposed one or more local sales taxes under the local sales tax law shall add all taxes so imposed along with the tax imposed by the sales tax law of the state of Missouri to the sale price and, when added, the combined tax shall constitute a part of the price, and shall be a debt of the purchaser to the retailer until paid, and shall be recoverable at law in the same manner as the purchase price. The combined rate of the state sales tax and all local sales taxes shall be the sum of the rates, multiplying the combined rate times the amount of the sale.

4. The brackets required to be established by the director of revenue under the provisions of section 144.285 shall be based upon the sum of the combined rate of the state sales tax and all local sales taxes imposed under the provisions of the local sales tax law.

5. (1) The ordinance or order imposing a local sales tax under the local sales tax law shall impose **a tax** upon all **[**sellers a tax for the privilege of engaging in the business of selling tangible personal property or rendering taxable services at retail**]** **transactions upon which the Missouri state sales tax is imposed** to the extent and in the manner provided in sections 144.010 to 144.525, and the rules and regulations of the director of revenue issued pursuant thereto; except that the rate of the tax shall be the sum of the combined rate of the state sales tax or state highway use tax and all local sales taxes imposed under the provisions of the local sales tax law.

(2) Notwithstanding any other provision of law to the contrary, local taxing jurisdictions, except those in which voters previously have approved a local use tax under section 144.757, shall have placed on the ballot on or after the general election in November 2014, but no later than the general election in November 2016, whether to repeal application of the local sales tax to the titling of motor vehicles, trailers, boats, and outboard motors that are subject to state sales tax under section 144.020 and purchased from a source other than a licensed Missouri dealer. The ballot question presented to the local voters shall contain substantially the following language:

Shall the ..... (local jurisdiction's name) discontinue applying and collecting the local sales tax on the titling of motor vehicles, trailers, boats, and outboard motors that were purchased from a source other than a licensed Missouri dealer? Approval of this measure will result in a reduction of local revenue to provide for vital services for ..... (local jurisdiction's name) and it will place Missouri dealers of motor vehicles, outboard motors, boats, and trailers at a competitive disadvantage to non-Missouri dealers of motor vehicles, outboard motors, boats, and trailers.

[ ] YES [ ] NO

If you are in favor of the question, place an "X" in the box opposite "YES". If you are opposed to the question, place an "X" in the box opposite "NO".

(3) If the ballot question set forth in subdivision (2) of this subsection receives a majority of the votes cast in favor of the proposal, or if the local taxing jurisdiction fails to place the ballot question before the voters on or before the general election in November 2016, the local taxing jurisdiction shall cease applying the local sales tax to the titling of

motor vehicles, trailers, boats, and outboard motors that were purchased from a source other than a licensed Missouri dealer.

(4) In addition to the requirement that the ballot question set forth in subdivision (2) of this subsection be placed before the voters, the governing body of any local taxing jurisdiction that previously had imposed a local use tax on the use of motor vehicles, trailers, boats, and outboard motors may, at any time, place a proposal on the ballot at any election to repeal application of the local sales tax to the titling of motor vehicles, trailers, boats, and outboard motors purchased from a source other than a licensed Missouri dealer. If a majority of the votes cast by the registered voters voting thereon are in favor of the proposal to repeal application of the local sales tax to such titling, then the local sales tax shall no longer be applied to the titling of motor vehicles, trailers, boats, and outboard motors purchased from a source other than a licensed Missouri dealer. If a majority of the votes cast by the registered voters voting thereon are opposed to the proposal to repeal application of the local sales tax to such titling, such application shall remain in effect.

(5) In addition to the requirement that the ballot question set forth in subdivision (2) of this subsection be placed before the voters on or after the general election in November 2014, and on or before the general election in November 2016, whenever the governing body of any local taxing jurisdiction imposing a local sales tax on the sale of motor vehicles, trailers, boats, and outboard motors receives a petition, signed by fifteen percent of the registered voters of such jurisdiction voting in the last gubernatorial election and calling for a proposal to be placed on the ballot at any election to repeal application of the local sales tax to the titling of motor vehicles, trailers, boats, and outboard motors purchased from a source other than a licensed Missouri dealer, the governing body shall submit to the voters of such jurisdiction a proposal to repeal application of the local sales tax to such titling. If a majority of the votes cast by the registered voters voting thereon are in favor of the proposal to repeal application of the local sales tax to such titling, then the local sales tax shall no longer be applied to the titling of motor vehicles, trailers, boats, and outboard motors purchased from a source other than a licensed Missouri dealer. If a majority of the votes cast by the registered voters voting thereon are opposed to the proposal to repeal application of the local sales tax to such titling, such application shall remain in effect.

(6) Nothing in this subsection shall be construed to authorize the voters of any jurisdiction to repeal application of any state sales or use tax.

(7) If any local sales tax on the titling of motor vehicles, trailers, boats, and outboard motors purchased from a source other than a licensed Missouri dealer is repealed, such repeal shall take effect on the first day of the second calendar quarter after the election. If any local sales tax on the titling of motor vehicles, trailers, boats, and outboard motors purchased from a source other than a licensed Missouri dealer is required to cease to be applied or collected due to failure of a local taxing jurisdiction to hold an election pursuant to subdivision (2) of this subsection, such cessation shall take effect on March 1, 2017.

6. On and after the effective date of any local sales tax imposed under the provisions of the local sales tax law, the director of revenue shall perform all functions incident to the administration, collection, enforcement, and operation of the tax, and the director of revenue shall collect in addition to the sales tax for the state of Missouri all additional local sales taxes authorized under the authority of the local sales tax law. All local sales taxes imposed under the local sales tax law together with all taxes imposed under the sales tax law of the state of Missouri shall be collected together and reported upon such forms and under such administrative rules and regulations as may be prescribed by the director of revenue.

7. All applicable provisions contained in sections 144.010 to 144.525 governing the state sales tax and section 32.057, the uniform confidentiality provision, shall apply to the collection

of any local sales tax imposed under the local sales tax law except as modified by the local sales tax law.

8. All exemptions granted to agencies of government, organizations, persons and to the sale of certain articles and items of tangible personal property and taxable services under the provisions of sections 144.010 to 144.525, as these sections now read and as they may hereafter be amended, it being the intent of this general assembly to ensure that the same sales tax exemptions granted from the state sales tax law also be granted under the local sales tax law, are hereby made applicable to the imposition and collection of all local sales taxes imposed under the local sales tax law.

9. The same sales tax permit, exemption certificate and retail certificate required by sections 144.010 to 144.525 for the administration and collection of the state sales tax shall satisfy the requirements of the local sales tax law, and no additional permit or exemption certificate or retail certificate shall be required; except that the director of revenue may prescribe a form of exemption certificate for an exemption from any local sales tax imposed by the local sales tax law.

10. All discounts allowed the retailer under the provisions of the state sales tax law for the collection of and for payment of taxes under the provisions of the state sales tax law are hereby allowed and made applicable to any local sales tax collected under the provisions of the local sales tax law.

11. The penalties provided in section 32.057 and sections 144.010 to 144.525 for a violation of the provisions of those sections are hereby made applicable to violations of the provisions of the local sales tax law.

12. (1) For the purposes of any local sales tax imposed by an ordinance or order under the local sales tax law, all sales, except the sale of motor vehicles, trailers, boats, and outboard motors **required to be titled under the laws of the state of Missouri**, shall be deemed to be consummated at the place of business of the retailer unless the tangible personal property sold is delivered by the retailer or his agent to an out-of-state destination. In the event a retailer has more than one place of business in this state which participates in the sale, the sale shall be deemed to be consummated at the place of business of the retailer where the initial order for the tangible personal property is taken, even though the order must be forwarded elsewhere for acceptance, approval of credit, shipment or billing. A sale by a retailer's agent or employee shall be deemed to be consummated at the place of business from which he works.

(2) For the purposes of any local sales tax imposed by an ordinance or order under the local sales tax law, **the sales tax upon the titling of** all **[**sales of**]** motor vehicles, trailers, boats, and outboard motors shall be **[**deemed to be consummated**] imposed** at the **rate in effect at the location of the** residence of the purchaser**, and remitted to that local taxing entity,** and not at the place of business of the retailer, or the place of business from which the retailer's agent or employee works.

(3) For the purposes of any local tax imposed by an ordinance or under the local sales tax law on charges for mobile telecommunications services, all taxes of mobile telecommunications service shall be imposed as provided in the Mobile Telecommunications Sourcing Act, 4 U.S.C. Sections 116 through 124, as amended.

13. Local sales taxes **[**imposed pursuant to the local sales tax law**] shall not be imposed on the seller [**on the purchase and sale**]** of motor vehicles, trailers, boats, and outboard motors **[**shall not be collected and remitted by the seller,**] required to be titled under the laws of the state of Missouri**, but shall be collected **from the purchaser** by the director of revenue at the time application is made for a certificate of title, if the address of the applicant is within a taxing entity imposing a local sales tax under the local sales tax law.

14. The director of revenue and any of his deputies, assistants and employees who have any duties or responsibilities in connection with the collection, deposit, transfer, transmittal, disbursement, safekeeping, accounting, or recording of funds which come into the hands of the director of revenue under the provisions of the local sales tax law shall enter a surety bond or

bonds payable to any and all taxing entities in whose behalf such funds have been collected under the local sales tax law in the amount of one hundred thousand dollars for each such tax; but the director of revenue may enter into a blanket bond covering himself and all such deputies, assistants and employees. The cost of any premium for such bonds shall be paid by the director of revenue from the share of the collections under the sales tax law retained by the director of revenue for the benefit of the state.

15. The director of revenue shall annually report on his management of each trust fund which is created under the local sales tax law and administration of each local sales tax imposed under the local sales tax law. He shall provide each taxing entity imposing one or more local sales taxes authorized by the local sales tax law with a detailed accounting of the source of all funds received by him for the taxing entity. Notwithstanding any other provisions of law, the state auditor shall annually audit each trust fund. A copy of the director's report and annual audit shall be forwarded to each taxing entity imposing one or more local sales taxes.

16. Within the boundaries of any taxing entity where one or more local sales taxes have been imposed, if any person is delinquent in the payment of the amount required to be paid by him under the local sales tax law or in the event a determination has been made against him for taxes and penalty under the local sales tax law, the limitation for bringing suit for the collection of the delinquent tax and penalty shall be the same as that provided in sections 144.010 to 144.525. Where the director of revenue has determined that suit must be filed against any person for the collection of delinquent taxes due the state under the state sales tax law, and where such person is also delinquent in payment of taxes under the local sales tax law, the director of revenue shall notify the taxing entity in the event any person fails or refuses to pay the amount of any local sales tax due so that appropriate action may be taken by the taxing entity.

17. Where property is seized by the director of revenue under the provisions of any law authorizing seizure of the property of a taxpayer who is delinquent in payment of the tax imposed by the state sales tax law, and where such taxpayer is also delinquent in payment of any tax imposed by the local sales tax law, the director of revenue shall permit the taxing entity to join in any sale of property to pay the delinquent taxes and penalties due the state and to the taxing entity under the local sales tax law. The proceeds from such sale shall first be applied to all sums due the state, and the remainder, if any, shall be applied to all sums due such taxing entity.

18. If a local sales tax has been in effect for at least one year under the provisions of the local sales tax law and voters approve reimposition of the same local sales tax at the same rate at an election as provided for in the local sales tax law prior to the date such tax is due to expire, the tax so reimposed shall become effective the first day of the first calendar quarter after the director receives a certified copy of the ordinance, order or resolution accompanied by a map clearly showing the boundaries thereof and the results of such election, provided that such ordinance, order or resolution and all necessary accompanying materials are received by the director at least thirty days prior to the expiration of such tax. Any administrative cost or expense incurred by the state as a result of the provisions of this subsection shall be paid by the city or county reimposing such tax.

The municipality may, in the ordinance, pledge the funds in the special allocation fund for the payment of such costs and obligations and provide for the collection of payments in lieu of taxes, the lien of which may be foreclosed in the same manner as a special assessment lien as provided in section 88.861. The general administration and the responsibility for the proper operation of the retirement system are hereby vested in a board of trustees of twelve persons who shall be resident taxpayers of the school district, as follows:

(1) Four trustees to be appointed for terms of four years by the board of education; provided, however, that the terms of office of the first four trustees so appointed shall begin immediately upon their appointment and shall expire one, two, three and four years from the date the retirement system becomes operative, respectively;

(2) Four trustees to be elected for terms of four years by and from the members of the retirement system; provided, however, that the terms of office of the first four trustees so elected shall begin immediately upon their election and shall expire one, two, three and four years from the date the retirement system becomes operative, respectively;

(3) The ninth trustee shall be the superintendent of schools of the school district;

No vacancy or vacancies on the board of trustees shall impair the power of the remaining trustees to administer the retirement system pending the filling of such vacancy or vacancies.

3. In the event of a lapse of the school district's corporate organization as described in subsections 1 and 4 of section 162.081, the general administration and responsibility for the proper operation of the retirement system shall continue to be vested in a twelve-person board of trustees, all of whom shall be resident taxpayers of a city, other than a city not within a county, of four hundred thousand or more. In such event, if vacancies occur in the offices of the four trustees appointed, prior to the lapse, by the board of education, or in the offices of the four trustees elected, prior to the lapse, by the members of the retirement system, or in the office of trustee held, prior to the lapse, by the superintendent of schools in the school district, as provided in subdivisions (1), (2) and (3) of subsection 1 of this section, the board of trustees shall appoint a qualified person to fill each vacancy and subsequent vacancies in the office of trustee for terms of up to four years, as determined by the board of trustees.

Such oath shall be subscribed to by the trustee making it and filed in the office of the clerk of the circuit court.

5. Each trustee shall be entitled to one vote in the board of trustees. Seven trustees shall constitute a quorum at any meeting of the board of trustees. At any meeting of the board of trustees where a quorum is present, the vote of at least seven of the trustees in support of a

motion, resolution or other matter is necessary to be the decision of the board; provided, however, that in the event of a lapse in the school district's corporate organization as described in subsections 1 and 4 of section 162.081, a majority of the trustees then in office shall constitute a quorum at any meeting of the board of trustees, and the vote of a majority of the trustees then in office in support of a motion, resolution or other matter shall be necessary to be the decision of the board.

6. The board of trustees shall have exclusive original jurisdiction in all matters relating to or affecting the funds herein provided for, including, in addition to all other matters, all claims for benefits or refunds, and its action, decision or determination in any matter shall be reviewable in accordance with chapter 536 or chapter 621. Subject to the limitations of sections 169.270 to 169.400, the board of trustees shall, from time to time, establish rules and regulations for the administration of funds of the retirement system, for the transaction of its business, and for the limitation of the time within which claims may be filed.

7. The trustees shall serve without compensation. The board of trustees shall elect from its membership a chairman and a vice chairman. The board of trustees shall appoint an executive director who shall serve as the administrative officer of the retirement system and as secretary to the board of trustees. It shall employ one or more persons, firms or corporations experienced in the investment of moneys to serve as investment counsel to the board of trustees. The compensation of all persons engaged by the board of trustees and all other expenses of the board necessary for the operation of the retirement system shall be paid at such rates and in such amounts as the board of trustees shall approve, and shall be paid from the investment income.

8. The board of trustees shall keep in convenient form such data as shall be necessary for actuarial valuations of the various funds of the retirement system and for checking the experience of the system.

9. The board of trustees shall keep a record of all its proceedings which shall be open to public inspection. It shall prepare annually and furnish to the board of education and to each member of the retirement system who so requests a report showing the fiscal transactions of the retirement system for the preceding fiscal year, the amount of accumulated cash and securities of the system, and the last balance sheet showing the financial condition of the system by means of an actuarial valuation of the assets and liabilities of the retirement system.

10. The board of trustees shall have, in its own name, power to sue and to be sued, to enter into contracts, to own property, real and personal, and to convey the same; but the members of such board of trustees shall not be personally liable for obligations or liabilities of the board of trustees or of the retirement system.

11. The board of trustees shall arrange for necessary legal advice for the operation of the retirement system.

12. The board of trustees shall designate a medical board to be composed of three or more physicians who shall not be eligible for membership in the system and who shall pass upon all medical examinations required under the provisions of sections 169.270 to 169.400, shall investigate all essential statements and certificates made by or on behalf of a member in connection with an application for disability retirement and shall report in writing to the board of trustees its conclusions and recommendations upon all matters referred to it.

13. The board of trustees shall designate an actuary who shall be the technical advisor of the board of trustees on matters regarding the operation of the retirement system and shall perform such other duties as are required in connection therewith. Such person shall be qualified as an actuary by membership as a Fellow of the Society of Actuaries or by similar objective standards.

14. At least once in each five-year period the actuary shall make an investigation into the actuarial experience of the members, retirants and beneficiaries of the retirement system and, taking into account the results of such investigation, the board of trustees shall adopt for the retirement system such actuarial assumptions as the board of trustees deems necessary for the financial soundness of the retirement system.

15. On the basis of such actuarial assumptions as the board of trustees adopts, the actuary shall make annual valuations of the assets and liabilities of the funds of the retirement system.

16. The rate of contribution payable by the **[**employer**]** **employers** shall equal one and ninety-nine one-hundredths percent, effective July 1, 1993; three and ninety-nine one-hundredths percent, effective July 1, 1995; five and ninety-nine one-hundredths percent, effective July 1, 1996; seven and one-half percent effective January 1, 1999, and for **[**all**]** subsequent **calendar** years **through 2013. For calendar year 2014 and each subsequent year, the rate of contribution payable by the employers for each year shall be determined by the actuary for the retirement system in the manner provided in subsection 4 of section 169.350 and shall be certified by the board of trustees to the employers at least six months prior to the date such rate is to be effective**.

17. In the event of a lapse of a school district's corporate organization as described in subsections 1 and 4 of section 162.081, no retirement system, nor any of the assets of any retirement system, shall be transferred to or merged with another retirement system without prior approval of such transfer or merge by the board of trustees of the retirement system.

169.301. RETIREMENT BENEFITS TO VEST, WHEN — AMOUNT, HOW COMPUTED — OPTION OF CERTAIN MEMBERS TO TRANSFER PLANS, REQUIREMENTS — RETIRANT BECOMING ACTIVE MEMBER, EFFECT ON BENEFITS — TERMINATION OF SYSTEM, EFFECT OF — MILITARY SERVICE, EFFECT OF. — 1. Any active member who has completed five or more years of actual (not purchased) creditable service shall be entitled to a vested retirement benefit equal to the annual service retirement allowance provided in sections 169.270 to 169.400 payable after attaining the minimum normal retirement age and calculated in accordance with the law in effect on the last date such person was a regular employee; provided, that such member does not withdraw such person's accumulated contributions pursuant to section 169.328 prior to attaining the minimum normal retirement age.

2. Any member who elected on October 13, 1961, or within thirty days thereafter, to continue to contribute and to receive benefits under sections 169.270 to 169.400 may continue to be a member of the retirement system under the terms and conditions of the plan in effect immediately prior to October 13, 1961, or may, upon written request to the board of trustees, transfer to the present plan, provided that the member pays into the system any additional contributions with interest the member would have credited to the member's account if such person had been a member of the current plan since its inception or, if the person's contributions and interest are in excess of what the person would have paid, such person will receive a refund of such excess. The board of trustees shall adopt appropriate rules and regulations governing the operation of the plan in effect immediately prior to October 13, 1961.

3. Should a retirant again become an active member, such person's retirement allowance payments shall cease during such membership and shall be recalculated upon subsequent retirement to include any creditable service earned during the person's latest period of active membership in accordance with subsection 2 of section 169.324.

4. In the event of the complete termination of the retirement system established by section 169.280 or the complete discontinuance of contributions to such retirement system, the rights of all members to benefits accrued to the date of such termination or discontinuance, to the extent then funded, shall be fully vested and nonforfeitable.

5. If a member leaves employment with an employer to perform qualified military service, as defined in Section 414(u) of the Internal Revenue Code of 1986, as amended, and dies while in such service, the member's survivors shall be entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) that would have been provided had the member resumed employment with the employer and then terminated on account of death in accordance with the requirements of Sections **[**407(a)(37)**]** **401(a)(37)** and 414(u) of the Internal Revenue Code of 1986, as amended. In such event, the member's period of qualified

military [services] **service** shall be counted as creditable service for purposes of vesting but not for purposes of determining the amount of the member's retirement allowance.

169.324. RETIREMENT ALLOWANCES, AMOUNTS — RETIRANTS MAY SUBSTITUTE WITHOUT AFFECTING ALLOWANCE, LIMITATION — ANNUAL DETERMINATION OF ABILITY TO PROVIDE BENEFITS, STANDARDS — ACTION PLAN FOR USE OF MINORITY AND WOMEN MONEY MANAGERS, BROKERS AND INVESTMENT COUNSELORS. — 1. The annual service retirement allowance payable pursuant to section 169.320 [in equal monthly installments for life shall be the retirant's number of years of creditable service multiplied by one and three-fourths percent of the person's average final compensation, subject to a maximum of sixty percent of the person's average final compensation. For any member who retires as an active member on or after June 30, 1999, the annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life shall be the retirant's number of years of creditable service multiplied by two percent of the person's average final compensation, subject to a maximum of sixty percent of the person's average final compensation. Any member whose number of years of creditable service is greater than thirty-four and one-quarter on August 28, 1993, shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service as of August 28, 1993, multiplied by one and three-fourths percent of the person's average final compensation but shall not receive a greater annual service retirement allowance based on additional years of creditable service after August 28, 1993. Provided, however, that,] **shall be the retirant's number of years of creditable service multiplied by a percentage of the retirant's average final compensation, determined as follows:**

(1) A retirant whose last employment as a regular employee ended prior to June 30, 1999, shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service multiplied by one and three-fourths percent of the person's average final compensation, subject to a maximum of sixty percent of the person's average final compensation;

(2) A retirant whose number of years of creditable service is greater than thirty-four and one-quarter on August 28, 1993, shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service as of August 28, 1993, multiplied by one and three-fourths percent of the person's average final compensation but shall not receive a greater annual service retirement allowance based on additional years of creditable service after August 28, 1993;

(3) A retirant who was an active member of the retirement system at any time on or after June 30, 1999, and who either retires before January 1, 2014, or is a member of the retirement system on December 31, 2013, and remains a member continuously to retirement shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service multiplied by two percent of the person's average final compensation, subject to a maximum of sixty percent of the person's final compensation;

(4) A retirant who becomes a member of the retirement system on or after January 1, 2014, including any retirant who was a member of the retirement system before January 1, 2014, but ceased to be a member for any reason other than retirement, shall receive an annual service retirement allowance payable pursuant to section 169.320 in equal monthly installments for life equal to the retirant's number of years of creditable service multiplied by one and three-fourths percent of the person's average final compensation, subject to a maximum of sixty percent of the person's average final compensation;

(5) Notwithstanding the provisions of subdivisions (1) to (4) of this subsection, effective January 1, 1996, any **[**retiree**]** **retirant** who retired on, before or after January 1, 1996, with at least twenty years of creditable service shall receive at least three hundred dollars each month as a retirement allowance, or the actuarial equivalent thereof if the **[**retiree**]** **retirant** elected any of the options available under section 169.326. **[**Provided, further, any retiree**]** **Any retirant** who retired with at least ten years of creditable service shall receive at least one hundred fifty dollars each month as a retirement allowance, plus fifteen dollars for each additional full year of creditable service greater than ten years but less than twenty years (or the actuarial equivalent thereof if the **[**retiree**]** **retirant** elected any of the options available under section 169.326). Any beneficiary of a deceased **[**retiree**]** **retirant** who retired with at least ten years of creditable service and elected one of the options available under section 169.326 shall also be entitled to the actuarial equivalent of the minimum benefit provided by this subsection, determined from the option chosen.

2. Except as otherwise provided in sections 169.331, 169.580 and 169.585, payment of a retirant's retirement allowance will be suspended for any month for which such person receives remuneration from the person's employer or from any other employer in the retirement system established by section 169.280 for the performance of services except any such person other than a person receiving a disability retirement allowance under section 169.322 may serve as a nonregular substitute, part-time or temporary employee for not more than six hundred hours in any school year without becoming a member and without having the person's retirement allowance discontinued, provided that through such substitute, part-time, or temporary employment, the person may earn no more than fifty percent of the annual salary or wages the person was last paid by the employer before the person retired and commenced receiving a retirement allowance, adjusted for inflation. If a person exceeds such hours limit or such compensation limit, payment of the person's retirement allowance shall be suspended for the month in which such limit was exceeded and each subsequent month in the school year for which the person receives remuneration from any employer in the retirement system. If a retirant is reemployed by any employer in any capacity, whether pursuant to this section, or section 169.331, 169.580, or 169.585, or as a regular employee, the amount of such person's retirement allowance attributable to service prior to the person's first retirement date shall not be changed by the reemployment. If the person again becomes an active member and earns additional creditable service, upon the person's second retirement the person's retirement allowance shall be the sum of:

(1) The retirement allowance the person was receiving at the time the person's retirement allowance was suspended, pursuant to the payment option elected as of the first retirement date, plus the amount of any increase in such retirement allowance the person would have received pursuant to subsection 3 of this section had payments not been suspended during the person's reemployment; and

(2) An additional retirement allowance computed using the benefit formula in effect on the person's second retirement date, the person's creditable service following reemployment, and the person's average final annual compensation as of the second retirement date. The sum calculated pursuant to this subsection shall not exceed the greater of sixty percent of the person's average final compensation as of the second retirement date or the amount determined pursuant to subdivision (1) of this subsection. Compensation earned prior to the person's first retirement date shall be considered in determining the person's average final compensation as of the second retirement date if such compensation would otherwise be included in determining the person's average final compensation.

3. The board of trustees shall determine annually whether the investment return on funds of the system can provide for an increase in benefits for retirants eligible for such increase. A retirant shall and will be eligible for an increase awarded pursuant to this section as of the second January following the date the retirant commenced receiving retirement benefits. Any such

increase shall also apply to any monthly joint and survivor retirement allowance payable to such retirant's beneficiaries, regardless of age. The board shall make such determination as follows:

(1) After determination by the actuary of the investment return for the preceding year as of December thirty-first (the "valuation year"), the actuary shall recommend to the board of trustees what portion of the investment return is available to provide such benefits increase, if any, and shall recommend the amount of such benefits increase, if any, to be implemented as of the first day of the thirteenth month following the end of the valuation year, and **[**the**]** first payable on or about the first day of the fourteenth month following the end of the valuation year. The actuary shall make such recommendations so as not to affect the financial soundness of the retirement system, recognizing the following safeguards:

(a) The retirement system's funded ratio as of January first of the year preceding the year of a proposed increase shall be at least one hundred percent after adjusting for the effect of the proposed increase. The funded ratio is the ratio of assets to the pension benefit obligation;

(b) The actuarially required contribution rate, after adjusting for the effect of the proposed increase, may not exceed the **[**statutory**] then applicable employer and member** contribution rate **as determined under subsection 4 of section 169.350**;

(c) The actuary shall certify to the board of trustees that the proposed increase will not impair the actuarial soundness of the retirement system;

(d) A benefit increase, under this section, once awarded, cannot be reduced in succeeding years;

(2) The board of trustees shall review the actuary's recommendation and report and shall, in their discretion, determine if any increase is prudent and, if so, shall determine the amount of increase to be awarded.

4. This section does not guarantee an annual increase to any retirant.

5. If an inactive member becomes an active member after June 30, 2001, and after a break in service, unless the person earns at least four additional years of creditable service without another break in service, upon retirement the person's retirement allowance shall be calculated separately for each separate period of service ending in a break in service. The retirement allowance shall be the sum of the separate retirement allowances computed for each such period of service using the benefit formula in effect, the person's average final compensation as of the last day of such period of service and the creditable service the person earned during such period of service; provided, however, if the person earns at least four additional years of creditable service without another break in service, all of the person's creditable service prior to and including such service shall be aggregated and, upon retirement, the retirement allowance shall be computed using the benefit formula in effect and the person's average final compensation as of the last day of such period of four or more years and all of the creditable service the person earned prior to and during such period.

6. Notwithstanding anything contained in this section to the contrary, the amount of the annual service retirement allowance payable to any retirant pursuant to the provisions of sections 169.270 to 169.400, including any adjustments made pursuant to subsection 3 of this section, shall at all times comply with the provisions and limitations of Section 415 of the Internal Revenue Code of 1986, as amended, and the regulations thereunder, the terms of which are specifically incorporated herein by reference.

7. All retirement systems established by the laws of the state of Missouri shall develop a procurement action plan for utilization of minority and women money managers, brokers and investment counselors. Such retirement systems shall report their progress annually to the joint committee on public employee retirement and the governor's minority advocacy commission.

169.350. ASSETS HELD IN TWO FUNDS — SOURCE AND DISBURSEMENT — DEDUCTIONS — CONTRIBUTIONS, EMPLOYER MAY ELECT TO PAY PART OR ALL OF EMPLOYEE'S CONTRIBUTION, PROCEDURE — RATE OF CONTRIBUTIONS TO BE CALCULATED. — 1. All of the assets of the retirement system (other than tangible real or personal property owned by the

retirement system for use in carrying out its duties, such as office supplies and furniture) shall be credited, according to the purpose for which they are held, in either the employees' contribution fund or the general reserve fund.

(1) The employees' contribution fund shall be the fund in which shall be accumulated the contributions of the members. The employer shall, except as provided in subdivision (5) of this subsection, cause to be deducted from the compensation of each member on each and every payroll, for each and every payroll period, the pro rata portion of five and nine-tenths percent of his annualized compensation. Effective January 1, 1999, **through December 31, 2013,** the employer shall deduct an additional one and six-tenths percent of the member's annualized compensation. **For 2014 and for each subsequent year, the employer shall deduct from each member's annualized compensation the rate of contribution determined for such year by the actuary for the retirement system in the manner provided in subsection 4 of this section.**

(2) The employer shall pay all such deductions and any amount it may elect to pay pursuant to subdivision (5) of this subsection to the retirement system at once. The retirement system shall credit such deductions and such amounts to the individual account of each member from whose compensation the deduction was made or with respect to whose compensation the amount was paid pursuant to subdivision (5) of this subsection. In determining the deduction for a member in any payroll period, the board of trustees may consider the rate of compensation payable to such member on the first day of the payroll period as continuing throughout such period.

(3) The deductions provided for herein are declared to be a part of the compensation of the member and the making of such deductions shall constitute payments by the member out of the person's compensation and such deductions shall be made notwithstanding that the amount actually paid to the member after such deductions is less than the minimum compensation provided by law for any member. Every member shall be deemed to consent to the deductions made and provided for herein, and shall receipt for the person's full compensation, and the making of the deduction and the payment of compensation less the deduction shall be a full and complete discharge and acquittance of all claims and demands whatsoever for services rendered during the period covered by the payment except as to benefits provided by sections 169.270 to 169.400.

(4) The accumulated contributions with interest of a member withdrawn by the person or paid to the person's estate or designated beneficiary in the event of the person's death before retirement shall be paid from the employees' contribution fund. Upon retirement of a member the member's accumulated contributions with interest shall be transferred from the employees' contribution fund to the general reserve fund.

(5) The employer may elect to pay on behalf of all members all or part of the amount that the members would otherwise be required to contribute to the employees' contribution fund pursuant to subdivision (1) of this subsection. Such amounts paid by the employer shall be in lieu of members' contributions and shall be treated for all purposes of sections 169.270 to 169.400 as contributions made by members. Notwithstanding any other provision of this chapter to the contrary, no member shall be entitled to receive such amounts directly. The election shall be made by a duly adopted resolution of the employer's board and shall remain in effect for at least one year from the effective date thereof. The election may be thereafter terminated only by an affirmative act of the employer's board notwithstanding any limitation in the term thereof in the adopting resolution. Any such termination resolution shall be adopted at least sixty days prior to the effective date thereof, and the effective date thereof shall coincide with a fiscal year-end of the employer. In the absence of such a termination resolution, the election shall remain in effect from fiscal year to fiscal year.

9. If any person shall neglect or refuse to surrender the person's license, as provided herein, the director shall direct the state highway patrol or any peace or police officer to secure possession thereof and return it to the director.

10. Upon the issuance of a reinstatement or termination notice after a suspension or revocation of any person's license and driving privilege under the provisions of sections 302.010 to 302.540, the accumulated point value shall be reduced to four points, except that the points of any person serving as a member of the Armed Forces of the United States outside the limits of the United States during a period of suspension or revocation shall be reduced to zero upon the date of the reinstatement or termination of notice. Assignment recommendations, based upon the needs assessment as described in subdivision **[**(22)**]** **(24)** of section 302.010, shall be delivered in writing to the person with written notice that the person is entitled to have such assignment recommendations reviewed by the court if the person objects to the recommendations. The person may file a motion in the associate division of the circuit court of the county in which such assignment was given, on a printed form provided by the state

courts administrator, to have the court hear and determine such motion pursuant to the provisions of chapter 517. The motion shall name the person or entity making the needs assessment as the respondent and a copy of the motion shall be served upon the respondent in any manner allowed by law. Upon hearing the motion, the court may modify or waive any assignment recommendation that the court determines to be unwarranted based upon a review of the needs assessment, the person's driving record, the circumstances surrounding the offense, and the likelihood of the person committing a like offense in the future, except that the court may modify but may not waive the assignment to an education or rehabilitation program of a person determined to be a prior or persistent offender as defined in section 577.023 or of a person determined to have operated a motor vehicle with fifteen-hundredths of one percent or more by weight in such person's blood. Compliance with the court determination of the motion shall satisfy the provisions of this section for the purpose of reinstating such person's license to operate a motor vehicle. The respondent's personal appearance at any hearing conducted pursuant to this subsection shall not be necessary unless directed by the court.

15. The fees for the program authorized in subsection 14 of this section, or a portion thereof to be determined by the department of mental health, shall be paid by the person enrolled in the program. Any person who is enrolled in the program shall pay, in addition to any fee charged for the program, a supplemental fee in an amount to be determined by the department of mental health for the purposes of funding the substance abuse traffic offender program defined in section 302.010 and section 577.001 or a program determined to be comparable by the department of mental health. The administrator of the program shall remit to the division of alcohol and drug abuse of the department of mental health on or before the fifteenth day of each month the supplemental fee for all persons enrolled in the program, less two percent for administrative costs. Interest shall be charged on any unpaid balance of the supplemental fees due the division of alcohol and drug abuse pursuant to this section and shall accrue at a rate not to exceed the annual rate established pursuant to the provisions of section 32.065, plus three percentage points. The supplemental fees and any interest received by the department of mental health pursuant to this section shall be deposited in the mental health earnings fund which is created in section 630.053.

16. Any administrator who fails to remit to the division of alcohol and drug abuse of the department of mental health the supplemental fees and interest for all persons enrolled in the program pursuant to this section shall be subject to a penalty equal to the amount of interest accrued on the supplemental fees due the division pursuant to this section. If the supplemental fees, interest, and penalties are not remitted to the division of alcohol and drug abuse of the department of mental health within six months of the due date, the attorney general of the state of Missouri shall initiate appropriate action of the collection of said fees and interest accrued. The court shall assess attorney fees and court costs against any delinquent program.

17. Any person who has had a license to operate a motor vehicle suspended or revoked as a result of an assessment of points for a **[**violation under subdivision (9) of subsection 1 of section 302.302**]** **conviction for an intoxication-related traffic offense as defined under section 577.023, and who has a prior alcohol-related enforcement contact as defined under section 302.525,** shall be required to file proof with the director of revenue that any motor vehicle operated by the person is equipped with a functioning, certified ignition interlock device as a required condition of reinstatement of the license. The ignition interlock device shall further be required to be maintained on all motor vehicles operated by the person for a period of not less than six months immediately following the date of reinstatement. If the monthly monitoring reports show that the ignition interlock device has registered any confirmed blood alcohol concentration readings above the alcohol setpoint established by the department of transportation or that the person has tampered with or circumvented the ignition interlock device, then the period for which the person must maintain the ignition interlock device following the date of reinstatement shall be extended for an additional six months. If the person fails to maintain such

proof with the director, the license shall be resuspended or revoked and the person shall be guilty of a class A misdemeanor.

Upon hearing the motion, the court may modify or waive any assignment recommendation that the court determines to be unwarranted based upon a review of the needs assessment, the person's driving record, the circumstances surrounding the offense, and the likelihood of the person committing a like offense in the future, except that the court may modify but may not waive the assignment to an education or rehabilitation program of a person determined to be a prior or persistent offender as defined in section 577.023 or of a person determined to have operated a motor vehicle with fifteen-hundredths of one percent or more by weight in such person's blood. Compliance with the court determination of the motion shall satisfy the provisions of this section for the purpose of reinstating such person's license to operate a motor vehicle. The respondent's personal appearance at any hearing conducted pursuant to this subsection shall not be necessary unless directed by the court.

15. The fees for the program authorized in subsection 14 of this section, or a portion thereof to be determined by the department of mental health, shall be paid by the person enrolled in the program. Any person who is enrolled in the program shall pay, in addition to any fee charged for the program, a supplemental fee in an amount to be determined by the department of mental health for the purposes of funding the substance abuse traffic offender program defined in section 302.010 and section 577.001 or a program determined to be comparable by the department of mental health. The administrator of the program shall remit to the division of alcohol and drug abuse of the department of mental health on or before the fifteenth day of each month the supplemental fee for all persons enrolled in the program, less two percent for administrative costs. Interest shall be charged on any unpaid balance of the supplemental fees due the division of alcohol and drug abuse pursuant to this section and shall accrue at a rate not to exceed the annual rate established pursuant to the provisions of section 32.065, plus three percentage points. The supplemental fees and any interest received by the department of mental health pursuant to this section shall be deposited in the mental health earnings fund which is created in section 630.053.

16. Any administrator who fails to remit to the division of alcohol and drug abuse of the department of mental health the supplemental fees and interest for all persons enrolled in the program pursuant to this section shall be subject to a penalty equal to the amount of interest accrued on the supplemental fees due the division pursuant to this section. If the supplemental fees, interest, and penalties are not remitted to the division of alcohol and drug abuse of the department of mental health within six months of the due date, the attorney general of the state of Missouri shall initiate appropriate action of the collection of said fees and interest accrued. The court shall assess attorney fees and court costs against any delinquent program.

17. Any person who has had a license to operate a motor vehicle suspended or revoked as a result of an assessment of points for a violation under subdivision (9) of subsection 1 of section 302.302 shall be required to file proof with the director of revenue that any motor vehicle operated by the person is equipped with a functioning, certified ignition interlock device as a required condition of reinstatement of the license. The ignition interlock device shall further be required to be maintained on all motor vehicles operated by the person for a period of not less than six months immediately following the date of reinstatement. [302.309. RETURN OF LICENSE, WHEN — LIMITED DRIVING PRIVILEGE, WHEN GRANTED, APPLICATION, WHEN DENIED — JUDICIAL REVIEW OF DENIAL BY DIRECTOR OF REVENUE — RULEMAKING. RETURN OF LICENSE, WHEN — LIMITED DRIVING PRIVILEGE, WHEN GRANTED, APPLICATION, WHEN DENIED — JUDICIAL REVIEW OF DENIAL BY DIRECTOR OF REVENUE — RULEMAKING. — 1. Whenever any license is suspended pursuant to sections 302.302 to 302.309, the director of revenue shall return the license to the operator immediately upon the termination of the period of suspension and upon compliance with the requirements of chapter 303.

2. Any operator whose license is revoked pursuant to these sections, upon the termination of the period of revocation, shall apply for a new license in the manner prescribed by law.

3. (1) All circuit courts, the director of revenue, or a commissioner operating under section 478.007 shall have jurisdiction to hear applications and make eligibility determinations granting limited driving privileges. Any application may be made in writing to the director of revenue and the person's reasons for requesting the limited driving privilege shall be made therein.

(2) When any court of record having jurisdiction or the director of revenue finds that an operator is required to operate a motor vehicle in connection with any of the following:

(a) A business, occupation, or employment;

(b) Seeking medical treatment for such operator;

(c) Attending school or other institution of higher education;

(d) Attending alcohol or drug treatment programs;

(e) Seeking the required services of a certified ignition interlock device provider; or

(f) Any other circumstance the court or director finds would create an undue hardship on the operator;

the court or director may grant such limited driving privilege as the circumstances of the case justify if the court or director finds undue hardship would result to the individual, and while so operating a motor vehicle within the restrictions and limitations of the limited driving privilege the driver shall not be guilty of operating a motor vehicle without a valid license.

(3) An operator may make application to the proper court in the county in which such operator resides or in the county in which is located the operator's principal place of business or employment. Any application for a limited driving privilege made to a circuit court shall name the director as a party defendant and shall be served upon the director prior to the grant of any limited privilege, and shall be accompanied by a copy of the applicant's driving record as certified by the director. Any applicant for a limited driving privilege shall have on file with the department of revenue proof of financial responsibility as required by chapter 303. Any application by a person who transports persons or property as classified in section 302.015 may be accompanied by proof of financial responsibility as required by chapter 303, but if proof of financial responsibility does not accompany the application, or if the applicant does not have on file with the department of revenue proof of financial responsibility, the court or the director has discretion to grant the limited driving privilege to the person solely for the purpose of operating a vehicle whose owner has complied with chapter 303 for that vehicle, and the limited driving privilege must state such restriction. When operating such vehicle under such restriction the person shall carry proof that the owner has complied with chapter 303 for that vehicle.

(4) No limited driving privilege shall be issued to any person otherwise eligible under the provisions of paragraph (a) of subdivision (6) of this subsection on a license revocation resulting from a conviction under subdivision (9) of subsection 1 of section 302.302, or a license denial under paragraph (a) or (b) of subdivision (8) of this subsection, until the applicant has filed proof with the department of revenue that any motor vehicle operated by the person is equipped with a functioning, certified ignition interlock device as a required condition of limited driving privilege.

(5) The court order or the director's grant of the limited or restricted driving privilege shall indicate the termination date of the privilege, which shall be not later than the end of the period of suspension or revocation. A copy of any court order shall be sent by the clerk of the court to the director, and a copy shall be given to the driver which shall be carried by the driver whenever such driver operates a motor vehicle. The director of revenue upon granting a limited driving privilege shall give a copy of the limited driving privilege to the applicant. The applicant shall carry a copy of the limited driving privilege while operating a motor vehicle. A conviction which results in the assessment of points pursuant to section 302.302, other than a violation of a municipal stop sign ordinance where no accident is involved, against a driver who is operating a vehicle pursuant to a limited driving privilege terminates the privilege, as of the date the points are assessed to the person's driving record. If the date of arrest is prior to the issuance of the limited driving privilege, the privilege shall not be terminated. Failure of the driver to maintain proof of financial responsibility, as required by chapter 303, or to maintain proof of installation of a functioning, certified ignition interlock device, as applicable, shall terminate the privilege. The director shall notify by ordinary mail the driver whose privilege is so terminated.

(6) Except as provided in subdivision (8) of this subsection, no person is eligible to receive a limited driving privilege who at the time of application for a limited driving privilege has previously been granted such a privilege within the immediately preceding five years, or whose license has been suspended or revoked for the following reasons:

(a) A conviction of violating the provisions of section 577.010 or 577.012, or any similar provision of any federal or state law, or a municipal or county law where the judge in such case was an attorney and the defendant was represented by or waived the right to an attorney in writing, until the person has completed the first thirty days of a suspension or revocation imposed pursuant to this chapter;

(b) A conviction of any felony in the commission of which a motor vehicle was used;

(c) Ineligibility for a license because of the provisions of subdivision (1), (2), (4), (5), (6), (7), (8), (9), (10) or (11) of section 302.060;

(d) Because of operating a motor vehicle under the influence of narcotic drugs, a controlled substance as defined in chapter 195, or having left the scene of an accident as provided in section 577.060;

(e) Due to a revocation for the first time for failure to submit to a chemical test pursuant to section 577.041 or due to a refusal to submit to a chemical test in any other state, if such person has not completed the first ninety days of such revocation;

(f) Violation more than once of the provisions of section 577.041 or a similar implied consent law of any other state; or

(g) Due to a suspension pursuant to subsection 2 of section 302.525 and who has not completed the first thirty days of such suspension, provided the person is not otherwise ineligible for a limited driving privilege; or due to a revocation pursuant to subsection 2 of section 302.525 if such person has not completed such revocation.

(7) No person who possesses a commercial driver's license shall receive a limited driving privilege issued for the purpose of operating a commercial motor vehicle if

such person's driving privilege is suspended, revoked, cancelled, denied, or disqualified. Nothing in this section shall prohibit the issuance of a limited driving privilege for the purpose of operating a noncommercial motor vehicle provided that pursuant to the provisions of this section, the applicant is not otherwise ineligible for a limited driving privilege.

(8) (a) Provided that pursuant to the provisions of this section, the applicant is not otherwise ineligible for a limited driving privilege, a circuit court or the director may, in the manner prescribed in this subsection, allow a person who has had such person's license to operate a motor vehicle revoked where that person cannot obtain a new license for a period of ten years, as prescribed in subdivision (9) of subsection 1 of section 302.060, to apply for a limited driving privilege pursuant to this subsection if such person has served at least three years of such disqualification or revocation. Such person shall present evidence satisfactory to the court or the director that such person has not been convicted of any offense related to alcohol, controlled substances or drugs during the preceding three years and that the person's habits and conduct show that the person no longer poses a threat to the public safety of this state. The court or the director shall review the results of a criminal history check prior to granting any limited privilege under this subdivision. If the court or the director finds that the petitioner has been convicted, pled guilty to, or been found guilty of, or has a pending charge for any offense related to alcohol, controlled substances, or drugs, or has any other alcohol-related enforcement contact as defined in section 302.525 during the preceding three years, the court or the director shall not grant a limited driving privilege to the applicant.

(b) Provided that pursuant to the provisions of this section, the applicant is not otherwise ineligible for a limited driving privilege or convicted of involuntary manslaughter while operating a motor vehicle in an intoxicated condition, a circuit court or the director may, in the manner prescribed in this subsection, allow a person who has had such person's license to operate a motor vehicle revoked where that person cannot obtain a new license for a period of five years because of two convictions of driving while intoxicated, as prescribed in subdivision (10) of subsection 1 of section 302.060, to apply for a limited driving privilege pursuant to this subsection if such person has served at least two years of such disqualification or revocation. Such person shall present evidence satisfactory to the court or the director that such person has not been convicted of any offense related to alcohol, controlled substances or drugs during the preceding two years and that the person's habits and conduct show that the person no longer poses a threat to the public safety of this state. The court or the director shall review the results of a criminal history check prior to granting any limited privilege under this subdivision. If the court or director finds that the petitioner has been convicted, pled guilty to, or been found guilty of, or has a pending charge for any offense related to alcohol, controlled substances, or drugs, or has any other alcohol-related enforcement contact as defined in section 302.525 during the preceding two years, the court or the director shall not grant a limited driving privilege to the applicant. Any person who is denied a license permanently in this state because of an alcohol-related conviction subsequent to a restoration of such person's driving privileges pursuant to subdivision (9) of section 302.060 shall not be eligible for limited driving privilege pursuant to the provisions of this subdivision.

(9) A DWI docket or court established under section 478.007 may grant a limited driving privilege to a participant in or graduate of the program who would otherwise be ineligible for such privilege under another provision of law. The DWI docket or court shall not grant a limited driving privilege to a participant during his or her initial forty-five days of participation.

4. Any person who has received notice of denial of a request of limited driving privilege by the director of revenue may make a request for a review of the director's determination in the circuit court of the county in which the person resides or the county in which is located the person's principal place of business or employment within thirty days of the date of mailing of the notice of denial. Such review shall be based upon the records of the department of revenue and other competent evidence and shall be limited to a review of whether the applicant was statutorily entitled to the limited driving privilege.

5. Any person who petitions a court or makes application with the director for a limited driving privilege pursuant to paragraph (a) or (b) of subdivision (8) of subsection 3 of this section shall make application with the Missouri state highway patrol as provided in section 43.540 and shall submit two sets of fingerprints collected pursuant to standards as determined by the highway patrol. One set of fingerprints shall be used by the highway patrol to search the criminal history repository and the second set shall be forwarded to the Federal Bureau of Investigation for searching the federal criminal history files. At the time of application, the applicant shall supply to the highway patrol the court name and case number for the court where he or she has filed his or her petition for limited driving privileges. The applicant shall pay the fee for the state criminal history record information pursuant to section 43.530 and pay the appropriate fee determined by the Federal Bureau of Investigation for the federal criminal history record. The Missouri highway patrol, upon receipt of the results of the criminal history check, shall forward the results to the circuit court designated by the applicant and to the department. Notwithstanding the provisions of section 610.120, all records related to any criminal history check shall be accessible and available to the director and the court.

6. The director of revenue shall promulgate rules and regulations necessary to carry out the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2001, shall be invalid and void.**]**

RETURN OF LICENSE, WHEN — LIMITED DRIVING PRIVILEGE, WHEN GRANTED, APPLICATION, WHEN DENIED — JUDICIAL REVIEW OF DENIAL BY DIRECTOR OF REVENUE — RULEMAKING. — 1. Whenever any license is suspended pursuant to sections 302.302 to 302.309, the director of revenue shall return the license to the operator immediately upon the termination of the period of suspension and upon compliance with the requirements of chapter 303.

2. Any operator whose license is revoked pursuant to these sections, upon the termination of the period of revocation, shall apply for a new license in the manner prescribed by law.

3. (1) All circuit courts, the director of revenue, or a commissioner operating under section 478.007 shall have jurisdiction to hear applications and make eligibility determinations granting limited driving privileges**, except as provided under subdivision (8) of this subsection**. Any application may be made in writing to the director of revenue and the person's reasons for requesting the limited driving privilege shall be made therein.

(2) When any court of record having jurisdiction or the director of revenue finds that an operator is required to operate a motor vehicle in connection with any of the following:

(a) A business, occupation, or employment;
(b) Seeking medical treatment for such operator;
(c) Attending school or other institution of higher education;
(d) Attending alcohol or drug treatment programs;
(e) Seeking the required services of a certified ignition interlock device provider; or
(f) Any other circumstance the court or director finds would create an undue hardship on the operator**[**;**]**,

the court or director may grant such limited driving privilege as the circumstances of the case justify if the court or director finds undue hardship would result to the individual, and while so operating a motor vehicle within the restrictions and limitations of the limited driving privilege the driver shall not be guilty of operating a motor vehicle without a valid license.

(3) An operator may make application to the proper court in the county in which such operator resides or in the county in which is located the operator's principal place of business or employment. Any application for a limited driving privilege made to a circuit court shall name the director as a party defendant and shall be served upon the director prior to the grant of any limited privilege, and shall be accompanied by a copy of the applicant's driving record as certified by the director. Any applicant for a limited driving privilege shall have on file with the department of revenue proof of financial responsibility as required by chapter 303. Any application by a person who transports persons or property as classified in section 302.015 may be accompanied by proof of financial responsibility as required by chapter 303, but if proof of financial responsibility does not accompany the application, or if the applicant does not have on file with the department of revenue proof of financial responsibility, the court or the director has discretion to grant the limited driving privilege to the person solely for the purpose of operating a vehicle whose owner has complied with chapter 303 for that vehicle, and the limited driving privilege must state such restriction. When operating such vehicle under such restriction the person shall carry proof that the owner has complied with chapter 303 for that vehicle.

(4) No limited driving privilege shall be issued to any person otherwise eligible under the provisions of paragraph (a) of subdivision (6) of this subsection on a license revocation resulting from a conviction under subdivision (9) of subsection 1 of section 302.302, or a license denial under paragraph (a) or (b) of subdivision (8) of this subsection, or a license revocation under paragraph (h) of subdivision (6) of this subsection, until the applicant has filed proof with the department of revenue that any motor vehicle operated by the person is equipped with a functioning, certified ignition interlock device as a required condition of limited driving privilege. The ignition interlock device required for obtaining a limited driving privilege under paragraph (a) or (b) of subdivision (8) of this subsection shall have photo identification technology and global positioning system features.

(5) The court order or the director's grant of the limited or restricted driving privilege shall indicate the termination date of the privilege, which shall be not later than the end of the period of suspension or revocation. The court order or the director's grant of the limited or restricted driving privilege shall also indicate whether a functioning, certified ignition interlock device is required as a condition of operating a motor vehicle with the limited driving privilege. A copy of any court order shall be sent by the clerk of the court to the director, and a copy shall be given to the driver which shall be carried by the driver whenever such driver operates a motor vehicle. The director of revenue upon granting a limited driving privilege shall give a copy of the limited driving privilege to the applicant. The applicant shall carry a copy of the limited driving privilege while operating a motor vehicle. A conviction which results in the assessment of points pursuant to section 302.302, other than a violation of a municipal stop sign ordinance where no accident is involved, against a driver who is operating a vehicle pursuant to a limited driving privilege terminates the privilege, as of the date the points are assessed to the person's driving record. If the date of arrest is prior to the issuance of the limited driving privilege, the privilege shall not be terminated. Failure of the driver to maintain proof of financial responsibility, as required by chapter 303, or to maintain proof of installation of a functioning, certified ignition

interlock device, as applicable, shall terminate the privilege. The director shall notify by ordinary mail the driver whose privilege is so terminated.

(6) Except as provided in subdivision (8) of this subsection, no person is eligible to receive a limited driving privilege **[**who**]** **whose license** at the time of application **[**for a limited driving privilege has previously been granted such a privilege within the immediately preceding five years, or whose license**]** has been suspended or revoked for the following reasons:

(9) A DWI docket or court established under section 478.007 may grant a limited driving privilege to a participant in or graduate of the program who would otherwise be ineligible for such privilege under another provision of law. The DWI docket or court shall not grant a limited driving privilege to a participant during his or her initial forty-five days of participation.

4. Any person who has received notice of denial of a request of limited driving privilege by the director of revenue may make a request for a review of the director's determination in the circuit court of the county in which the person resides or the county in which is located the person's principal place of business or employment within thirty days of the date of mailing of the notice of denial. Such review shall be based upon the records of the department of revenue and other competent evidence and shall be limited to a review of whether the applicant was statutorily entitled to the limited driving privilege.

5. The director of revenue shall promulgate rules and regulations necessary to carry out the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2001, shall be invalid and void.

302.341. MOVING TRAFFIC VIOLATION, FAILURE TO PREPAY FINE OR APPEAR IN COURT, LICENSE SUSPENDED, PROCEDURE — EXCESSIVE REVENUE FROM FINES TO BE DISTRIBUTED TO SCHOOLS — DEFINITION, STATE HIGHWAYS. — 1. If a Missouri resident charged with a moving traffic violation of this state or any county or municipality of this state fails to dispose of the charges of which the resident is accused through authorized prepayment of fine and court costs and fails to appear on the return date or at any subsequent date to which the case has been continued, or without good cause fails to pay any fine or court costs assessed against the resident for any such violation within the period of time specified or in such installments as approved by the court or as otherwise provided by law, any court having jurisdiction over the charges shall within ten days of the failure to comply inform the defendant by ordinary mail at the last address shown on the court records that the court will order the director of revenue to suspend the defendant's driving privileges if the charges are not disposed of and fully paid within thirty days from the date of mailing. Thereafter, if the defendant fails to timely act to dispose of the charges

and fully pay any applicable fines and court costs, the court shall notify the director of revenue of such failure and of the pending charges against the defendant. Upon receipt of this notification, the director shall suspend the license of the driver, effective immediately, and provide notice of the suspension to the driver at the last address for the driver shown on the records of the department of revenue. Such suspension shall remain in effect until the court with the subject pending charge requests setting aside the noncompliance suspension pending final disposition, or satisfactory evidence of disposition of pending charges and payment of fine and court costs, if applicable, is furnished to the director by the individual. **[**Upon proof of disposition of charges and payment of fine and court costs, if applicable, and payment of the reinstatement fee as set forth in section 302.304, the director shall return the license and remove the suspension from the individual's driving record if the individual was not operating a commercial motor vehicle or a commercial driver's license holder at the time of the offense.**]** The filing of financial responsibility with the bureau of safety responsibility, department of revenue, shall not be required as a condition of reinstatement of a driver's license suspended solely under the provisions of this section.

2. If any city, town or village receives more than thirty-five percent of its annual general operating revenue from fines and court costs for traffic violations occurring on state highways, all revenues from such violations in excess of thirty-five percent of the annual general operating revenue of the city, town or village shall be sent to the director of the department of revenue and shall be distributed annually to the schools of the county in the same manner that proceeds of all penalties, forfeitures and fines collected for any breach of the penal laws of the state are distributed. For the purpose of this section the words "state highways" shall mean any state or federal highway, including any such highway continuing through the boundaries of a city, town or village with a designated street name other than the state highway number. The director of the department of revenue shall set forth by rule a procedure whereby excess revenues as set forth above shall be sent to the department of revenue. If any city, town, or village disputes a determination that it has received excess revenues required to be sent to the department of revenue, such city, town, or village may submit to an annual audit by the state auditor under the authority of article IV, section 13 of the Missouri Constitution. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. The license suspension or revocation shall become effective fifteen days after the subject person has received the notice of suspension or revocation as provided in section 302.520, or is deemed to have received the notice of suspension or revocation by mail as provided in section 302.515. If a request for a hearing is received by or postmarked to the department within that fifteen-day period, the effective date of the suspension or revocation shall be stayed until a final order is issued following the hearing; provided, that any delay in the hearing which is caused or requested by the subject person or counsel representing that person without good cause shown shall not result in a stay of the suspension or revocation during the period of delay.

2. The period of license suspension or revocation under this section shall be as follows:

(1) If the person's driving record shows no prior alcohol-related enforcement contacts during the immediately preceding five years, the period of suspension shall be thirty days after

the effective date of suspension, followed by a sixty-day period of restricted driving privilege as defined in section 302.010 and issued by the director of revenue. The restricted driving privilege shall not be issued until he or she has filed proof of financial responsibility with the department of revenue, in accordance with chapter 303, and is otherwise eligible. The restricted driving privilege shall indicate whether a functioning, certified ignition interlock device is required as a condition of operating a motor vehicle. A copy of the restricted driving privilege shall be given to the person and such person shall carry a copy of the restricted driving privilege while operating a motor vehicle. In no case shall restricted driving privileges be issued pursuant to this section or section 302.535 until the person has completed the first thirty days of a suspension under this section. If a person otherwise subject to the provisions of this subdivision files proof of installation with the department of revenue that any vehicle **[**operated**]** **that he or she operates** is equipped with a functioning, certified ignition interlock device, **[**then the**]** **there shall be no** period of suspension **[**shall be fifteen days, followed by a seventy-five**]**. **However, in lieu of a suspension the person shall instead complete a ninety-day** period of restricted driving privilege. Upon completion of such **[**seventy-five day**]** **ninety-day** period of restricted driving privilege, **[**upon**]** compliance with other requirements of law, and **[**upon**]** filing of proof of financial responsibility with the department of revenue, in accordance with chapter 303, the license and driving privilege shall be reinstated. However, if the monthly monitoring reports during such **[**seventy-five day**]** **ninety-day** period indicate that the ignition interlock device has registered a **confirmed** blood alcohol concentration level above the alcohol setpoint established by the department of transportation or such reports indicate that the ignition interlock device has been tampered with or circumvented, then the license and driving privilege of such person shall not be reinstated until the person completes an additional **[**seventy-five day**]** **thirty-day** period of restricted driving privilege **[**without any such violations**]**. If the person fails to maintain such proof of the device with the director of revenue as required, the restricted driving privilege shall be terminated;

(2) The period of revocation shall be one year if the person's driving record shows one or more prior alcohol-related enforcement contacts during the immediately preceding five years;

(3) In no case shall restricted driving privileges be issued under this section to any person whose driving record shows one or more prior alcohol-related enforcement contacts until the person has completed the first thirty days of a suspension under this section and has filed proof with the department of revenue that any motor vehicle operated by the person is equipped with a functioning, certified ignition interlock device as a required condition of the restricted driving privilege. If the person fails to maintain such proof the restricted driving privilege shall be terminated.

3. For purposes of this section, "alcohol-related enforcement contacts" shall include any suspension or revocation under sections 302.500 to 302.540, any suspension or revocation entered in this or any other state for a refusal to submit to chemical testing under an implied consent law, and any conviction in this or any other state for a violation which involves driving while intoxicated, driving while under the influence of drugs or alcohol, or driving a vehicle while having an unlawful alcohol concentration.

4. 5. Any person who has had a license to operate a motor vehicle revoked under this section or suspended under this section with one or more prior alcohol-related enforcement contacts showing on their driver record shall be required to file proof with the director of revenue that any

motor vehicle operated by that person is equipped with a functioning, certified ignition interlock device as a required condition of reinstatement. The ignition interlock device shall further be required to be maintained on all motor vehicles operated by the person for a period of not less than six months immediately following the date of reinstatement. If the monthly monitoring reports show that the ignition interlock device has registered any confirmed blood alcohol concentration readings above the alcohol setpoint established by the department of transportation or that the person has tampered with or circumvented the ignition interlock device, then the period for which the person must maintain the ignition interlock device following the date of reinstatement shall be extended for an additional six months. 4. Where a license is suspended or revoked under this section and the person is also convicted on charges arising out of the same occurrence for a violation of section 577.010 or 577.012 or for a violation of any county or municipal ordinance prohibiting driving while intoxicated or alcohol-related traffic offense, both the suspension or revocation under this section and any other suspension or revocation arising from such convictions shall be imposed, but the period of suspension or revocation under sections 302.500 to 302.540 shall be credited against any other suspension or revocation arising from such convictions, and the total period of suspension or revocation shall not exceed the longer of the two suspension or revocation periods.

5. Any person who has had a license to operate a motor vehicle revoked under this section or suspended under this section with one or more prior alcohol-related enforcement contacts showing on their driver record shall be required to file proof with the director of revenue that any motor vehicle operated by that person is equipped with a functioning, certified ignition interlock device as a required condition of reinstatement. The judges of the supreme court may appoint a committee consisting of at least seven associate circuit judges, who shall meet en banc and establish and maintain a schedule of fines to be paid for violations of sections 210.104, 577.070, and 577.073, and chapters 252, 301, 302, 304, 306, 307 and 390, with such fines increasing in proportion to the severity of the violation. The associate circuit judges of each county may meet en banc and adopt the schedule of fines and participation in the centralized bureau pursuant to this section. Notice of such adoption and participation shall be given in the manner provided by supreme court rule. Upon order of the supreme court, the associate circuit judges of each county may meet en banc and establish and maintain a schedule of fines to be paid for violations of municipal ordinances for cities, towns and villages electing to have violations of its municipal ordinances heard by associate circuit judges, pursuant to section 479.040; and for traffic court divisions established pursuant to section 479.500. The schedule of fines adopted for violations of municipal ordinances may be modified from time to time as the associate circuit judges of each county en banc deem advisable. No fine established pursuant to this subsection may exceed the maximum amount specified by statute or ordinance for such violation.

2. In no event shall any schedule of fines adopted pursuant to this section include offenses involving the following:

(1) Any violation resulting in personal injury or property damage to another person;

(2) Operating a motor vehicle while intoxicated or under the influence of intoxicants or drugs;

(3) Operating a vehicle with a counterfeited, altered, suspended or revoked license;

(4) Fleeing or attempting to elude an officer.

3. There shall be a centralized bureau to be established by supreme court rule in order to accept pleas of not guilty or guilty and payments of fines and court costs for violations of the laws and ordinances described in subsection 1 of this section, made pursuant to a schedule of fines established pursuant to this section. The centralized bureau shall collect, with any plea of guilty and payment of a fine, all court costs which would have been collected by the court of the jurisdiction from which the violation originated.

4. If a person elects not to contest the alleged violation, the person shall send payment in the amount of the fine and any court costs established for the violation to the centralized bureau. Such payment shall be payable to the central violations bureau, shall be made by mail or in any other manner established by the centralized bureau, and shall constitute a plea of guilty, waiver of trial and a conviction for purposes of section 302.302, and for purposes of imposing any collateral consequence of a criminal conviction provided by law. By paying the fine and costs, the person also consents to attendance **either online or in person** at any driver-improvement program or motorcycle-rider training course ordered by the court and consents to verification of such attendance as directed by the bureau. Notwithstanding any provision of law to the contrary, the prosecutor shall not be required to sign any information, ticket or indictment if disposition is made pursuant to this subsection. In the event that any payment is made pursuant to this section by credit card or similar method, the centralized bureau may charge an additional fee in order to reflect any transaction cost, surcharge or fee imposed on the recipient of the credit card payment by the credit card company.

5. If a person elects to plead not guilty, such person shall send the plea of not guilty to the centralized bureau. The bureau shall send such plea and request for trial to the prosecutor having original jurisdiction over the offense. Any trial shall be conducted at the location designated by the court. The clerk of the court in which the case is to be heard shall notify in writing such person of the date certain for the disposition of such charges. The prosecutor shall not be required to sign any information, ticket or indictment until the commencement of any proceeding by the prosecutor with respect to the notice of violation.

(1) The fine and court costs established pursuant to this section for the violation or information regarding how the person may obtain the amount of the fine and court costs for the violation;

(2) That the person must respond to the notice of violation by paying the prescribed fine and court costs, or pleading not guilty and appearing at trial, and that other legal penalties prescribed by law may attach for failure to appear and dispose of the violation. The supreme court may modify the suggested forms for uniform complaint and summons for use in courts adopting the procedures provided by this section, in order to accommodate such required written notifications.

7. Any moneys received in payment of fines and court costs pursuant to this section shall not be considered to be state funds, but shall be held in trust by the centralized bureau for benefit of those persons or entities entitled to receive such funds pursuant to this subsection. All amounts paid to the centralized bureau shall be maintained by the centralized bureau, invested in the manner required of the state treasurer for state funds by sections 30.240, 30.250, 30.260 and 30.270, and disbursed as provided by the constitution and laws of this state. Any interest earned on such fund shall be payable to the director of the department of revenue for deposit into

a revolving fund to be established pursuant to this subsection. The state treasurer shall be the custodian of the revolving fund, and shall make disbursements, as allowed by lawful appropriations, only to the judicial branch of state government for goods and services related to the administration of the judicial system.

8. Any person who receives a notice of violation subject to this section who fails to dispose of such violation as provided by this section shall be guilty of failure to appear provided by section 544.665; and may be subject to suspension of driving privileges in the manner provided by section 302.341. The centralized bureau shall notify the appropriate prosecutor of any person who fails to either pay the prescribed fine and court costs, or plead not guilty and request a trial within the time allotted by this section, for purposes of application of section 544.665. The centralized bureau shall also notify the department of revenue of any failure to appear subject to section 302.341, and the department shall thereupon suspend the license of the driver in the manner provided by section 302.341, as if notified by the court.

9. In addition to the remedies provided by subsection 8 of this section, the centralized bureau and the courts may use the remedies provided by sections 488.010 to 488.020 for the collection of court costs payable to courts, in order to collect fines and court costs for violations subject to this section.

577.041. REFUSAL TO SUBMIT TO CHEMICAL TEST — NOTICE, REPORT OF PEACE OFFICER, CONTENTS — REVOCATION OF LICENSE, HEARING — EVIDENCE, ADMISSIBILITY — REINSTATEMENT OF LICENSES — SUBSTANCE ABUSE TRAFFIC OFFENDER PROGRAM — ASSIGNMENT RECOMMENDATIONS, JUDICIAL REVIEW — FEES. — 1. If a person under arrest, or who has been stopped pursuant to subdivision (2) or (3) of subsection 1 of section 577.020, refuses upon the request of the officer to submit to any test allowed pursuant to section 577.020, then evidence of the refusal shall be admissible in a proceeding pursuant to section 565.024, 565.060, or 565.082, or section 577.010 or 577.012. The request of the officer shall include the reasons of the officer for requesting the person to submit to a test and also shall inform the person that evidence of refusal to take the test may be used against such person and that the person's license shall be immediately revoked upon refusal to take the test. If a person when requested to submit to any test allowed pursuant to section 577.020 requests to speak to an attorney, the person shall be granted twenty minutes in which to attempt to contact an attorney. If upon the completion of the twenty-minute period the person continues to refuse to submit to any test, it shall be deemed a refusal. In this event, the officer shall, on behalf of the director of revenue, serve the notice of license revocation personally upon the person and shall take possession of any license to operate a motor vehicle issued by this state which is held by that person. The officer shall issue a temporary permit, on behalf of the director of revenue, which is valid for fifteen days and shall also give the person a notice of such person's right to file a petition for review to contest the license revocation.

2. The officer shall make a certified report under penalties of perjury for making a false statement to a public official. The report shall be forwarded to the director of revenue and shall include the following:

(1) That the officer has:

(a) Reasonable grounds to believe that the arrested person was driving a motor vehicle while in an intoxicated or drugged condition; or

(b) Reasonable grounds to believe that the person stopped, being under the age of twenty-one years, was driving a motor vehicle with a blood alcohol content of two-hundredths of one percent or more by weight; or

(c) Reasonable grounds to believe that the person stopped, being under the age of twenty-one years, was committing a violation of the traffic laws of the state, or political subdivision of the state, and such officer has reasonable grounds to believe, after making such stop, that the person had a blood alcohol content of two-hundredths of one percent or greater;

(2) That the person refused to submit to a chemical test;

(3) Whether the officer secured the license to operate a motor vehicle of the person;

(4) Whether the officer issued a fifteen-day temporary permit;

(5) Copies of the notice of revocation, the fifteen-day temporary permit and the notice of the right to file a petition for review, which notices and permit may be combined in one document; and

(6) Any license to operate a motor vehicle which the officer has taken into possession.

3. Upon receipt of the officer's report, the director shall revoke the license of the person refusing to take the test for a period of one year; or if the person is a nonresident, such person's operating permit or privilege shall be revoked for one year; or if the person is a resident without a license or permit to operate a motor vehicle in this state, an order shall be issued denying the person the issuance of a license or permit for a period of one year.

4. If a person's license has been revoked because of the person's refusal to submit to a chemical test, such person may petition for a hearing before a circuit division or associate division of the court in the county in which the arrest or stop occurred. The person may request such court to issue an order staying the revocation until such time as the petition for review can be heard. If the court, in its discretion, grants such stay, it shall enter the order upon a form prescribed by the director of revenue and shall send a copy of such order to the director. Such order shall serve as proof of the privilege to operate a motor vehicle in this state and the director shall maintain possession of the person's license to operate a motor vehicle until termination of any revocation pursuant to this section. Upon the person's request the clerk of the court shall notify the prosecuting attorney of the county and the prosecutor shall appear at the hearing on behalf of the director of revenue. At the hearing the court shall determine only:

(1) Whether or not the person was arrested or stopped;

(2) Whether or not the officer had:

(a) Reasonable grounds to believe that the person was driving a motor vehicle while in an intoxicated or drugged condition; or

(b) Reasonable grounds to believe that the person stopped, being under the age of twenty-one years, was driving a motor vehicle with a blood alcohol content of two-hundredths of one percent or more by weight; or

(c) Reasonable grounds to believe that the person stopped, being under the age of twenty-one years, was committing a violation of the traffic laws of the state, or political subdivision of the state, and such officer had reasonable grounds to believe, after making such stop, that the person had a blood alcohol content of two-hundredths of one percent or greater; and

(3) Whether or not the person refused to submit to the test.

5. If the court determines any issue not to be in the affirmative, the court shall order the director to reinstate the license or permit to drive.

6. Requests for review as provided in this section shall go to the head of the docket of the court wherein filed.

7. No person who has had a license to operate a motor vehicle suspended or revoked pursuant to the provisions of this section shall have that license reinstated until such person has participated in and successfully completed a substance abuse traffic offender program defined in section 577.001, or a program determined to be comparable by the department of mental health or the court. Assignment recommendations, based upon the needs assessment as described in subdivision **[**(23)**]** **(24)** of section 302.010, shall be delivered in writing to the person with written notice that the person is entitled to have such assignment recommendations reviewed by the court if the person objects to the recommendations. The person may file a motion in the associate division of the circuit court of the county in which such assignment was given, on a printed form provided by the state courts administrator, to have the court hear and determine such motion pursuant to the provisions of chapter 517. The motion shall name the person or entity making the needs assessment as the respondent and a copy of the motion shall be served upon the respondent in any manner allowed by law. Upon hearing the motion, the court may modify or waive any assignment recommendation that the court determines to be

unwarranted based upon a review of the needs assessment, the person's driving record, the circumstances surrounding the offense, and the likelihood of the person committing a like offense in the future, except that the court may modify but may not waive the assignment to an education or rehabilitation program of a person determined to be a prior or persistent offender as defined in section 577.023, or of a person determined to have operated a motor vehicle with fifteen-hundredths of one percent or more by weight in such person's blood. Compliance with the court determination of the motion shall satisfy the provisions of this section for the purpose of reinstating such person's license to operate a motor vehicle. The respondent's personal appearance at any hearing conducted pursuant to this subsection shall not be necessary unless directed by the court.

8. The fees for the substance abuse traffic offender program, or a portion thereof to be determined by the division of alcohol and drug abuse of the department of mental health, shall be paid by the person enrolled in the program. Any person who is enrolled in the program shall pay, in addition to any fee charged for the program, a supplemental fee to be determined by the department of mental health for the purposes of funding the substance abuse traffic offender program defined in section 302.010 and section 577.001. The administrator of the program shall remit to the division of alcohol and drug abuse of the department of mental health on or before the fifteenth day of each month the supplemental fee for all persons enrolled in the program, less two percent for administrative costs. Interest shall be charged on any unpaid balance of the supplemental fees due the division of alcohol and drug abuse pursuant to this section and shall accrue at a rate not to exceed the annual rates established pursuant to the provisions of section 32.065, plus three percentage points. The supplemental fees and any interest received by the department of mental health pursuant to this section shall be deposited in the mental health earnings fund which is created in section 630.053.

9. Any administrator who fails to remit to the division of alcohol and drug abuse of the department of mental health the supplemental fees and interest for all persons enrolled in the program pursuant to this section shall be subject to a penalty equal to the amount of interest accrued on the supplemental fees due the division pursuant to this section. If the supplemental fees, interest, and penalties are not remitted to the division of alcohol and drug abuse of the department of mental health within six months of the due date, the attorney general of the state of Missouri shall initiate appropriate action of the collection of said fees and interest accrued. The court shall assess attorney fees and court costs against any delinquent program.

10. Any person who has had a license to operate a motor vehicle revoked [more than once for violation of the provisions of this section] **under this section and who has a prior alcohol-related enforcement contact, as defined in section 302.525,** shall be required to file proof with the director of revenue that any motor vehicle operated by the person is equipped with a functioning, certified ignition interlock device as a required condition of license reinstatement. Such ignition interlock device shall further be required to be maintained on all motor vehicles operated by the person for a period of not less than six months immediately following the date of reinstatement. **If the monthly monitoring reports show that the ignition interlock device has registered any confirmed blood alcohol concentration readings above the alcohol setpoint established by the department of transportation or that the person has tampered with or circumvented the ignition interlock device, then the period for which the person must maintain the ignition interlock device following the date of reinstatement shall be extended for an additional six months.** If the person fails to maintain such proof with the director as required by this section, the license shall be rerevoked and the person shall be guilty of a class A misdemeanor.

11. EXPLANATION — Matter enclosed in bold-faced brackets [thus] in this bill is not enacted and is intended to be omitted in the law.

Modifies provisions related to juvenile offenders who have been certified as adults and found guilty in a court of general jurisdiction

AN ACT to repeal sections 211.071 and 211.073, RSMo, and to enact in lieu thereof three new sections relating to juvenile criminal offenders.

SECTION
A. Enacting clause.
211.069. Citation of law.
211.071. Certification of juvenile for trial as adult — procedure — mandatory hearing, certain offenses — misrepresentation of age, effect.
211.073. Transfer to court of general jurisdiction, dual jurisdiction of both criminal and juvenile codes — suspended execution of adult sentence, revocation of juvenile disposition — petition for transfer of custody, hearing — offender age seventeen, hearing — offender age twenty-one, hearing — credit for time served.

Be it enacted by the General Assembly of the State of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Sections 211.071 and 211.073, RSMo, are repealed and three new sections enacted in lieu thereof, to be known as sections 211.069, 211.071, and 211.073, to read as follows:

211.069. CITATION OF LAW. — Sections 211.071 and 211.073 shall be known and may be cited as "Jonathan's Law".

211.071. CERTIFICATION OF JUVENILE FOR TRIAL AS ADULT — PROCEDURE — MANDATORY HEARING, CERTAIN OFFENSES — MISREPRESENTATION OF AGE, EFFECT. — 1. If a petition alleges that a child between the ages of twelve and seventeen has committed an offense which would be considered a felony if committed by an adult, the court may, upon its own motion or upon motion by the juvenile officer, the child or the child's custodian, order a hearing and may, in its discretion, dismiss the petition and such child may be transferred to the court of general jurisdiction and prosecuted under the general law; except that if a petition alleges that any child has committed an offense which would be considered first degree murder under section 565.020, second degree murder under section 565.021, first degree assault under section 565.050, forcible rape under section 566.030, forcible sodomy under section 566.060, first degree robbery under section 569.020, or distribution of drugs under section 195.211, or has committed two or more prior unrelated offenses which would be felonies if committed by an adult, the court shall order a hearing, and may in its discretion, dismiss the petition and transfer the child to a court of general jurisdiction for prosecution under the general law.

2. Upon apprehension and arrest, jurisdiction over the criminal offense allegedly committed by any person between seventeen and twenty-one years of age over whom the juvenile court has retained continuing jurisdiction shall automatically terminate and that offense shall be dealt with in the court of general jurisdiction as provided in section 211.041.

3. Knowing and willful age misrepresentation by a juvenile subject shall not affect any action or proceeding which occurs based upon the misrepresentation. Any evidence obtained during the period of time in which a child misrepresents his or her age may be used against the child and will be subject only to rules of evidence applicable in adult proceedings.

4. Written notification of a transfer hearing shall be given to the juvenile and his or her custodian in the same manner as provided in sections 211.101 and 211.111. Notice of the hearing may be waived by the custodian. Notice shall contain a statement that the purpose of the hearing is to determine whether the child is a proper subject to be dealt with under the provisions of this chapter, and that if the court finds that the child is not a proper subject to be dealt with under the provisions of this chapter, the petition will be dismissed to allow for prosecution of the child under the general law.

5. The juvenile officer may consult with the office of prosecuting attorney concerning any offense for which the child could be certified as an adult under this section. The prosecuting or circuit attorney shall have access to police reports, reports of the juvenile or deputy juvenile officer, statements of witnesses and all other records or reports relating to the offense alleged to have been committed by the child. The prosecuting or circuit attorney shall have access to the disposition records of the child when the child has been adjudicated pursuant to subdivision (3) of subsection 1 of section 211.031. The prosecuting attorney shall not divulge any information regarding the child and the offense until the juvenile court at a judicial hearing has determined that the child is not a proper subject to be dealt with under the provisions of this chapter.

6. A written report shall be prepared in accordance with this chapter developing fully all available information relevant to the criteria which shall be considered by the court in determining whether the child is a proper subject to be dealt with under the provisions of this chapter and whether there are reasonable prospects of rehabilitation within the juvenile justice system. These criteria shall include but not be limited to:

(1) The seriousness of the offense alleged and whether the protection of the community requires transfer to the court of general jurisdiction;

(2) Whether the offense alleged involved viciousness, force and violence;

(3) Whether the offense alleged was against persons or property with greater weight being given to the offense against persons, especially if personal injury resulted;

(4) Whether the offense alleged is a part of a repetitive pattern of offenses which indicates that the child may be beyond rehabilitation under the juvenile code;

(5) The record and history of the child, including experience with the juvenile justice system, other courts, supervision, commitments to juvenile institutions and other placements;

(6) The sophistication and maturity of the child as determined by consideration of his home and environmental situation, emotional condition and pattern of living;

(7) The age of the child;

(8) The program and facilities available to the juvenile court in considering disposition;

(9) Whether or not the child can benefit from the treatment or rehabilitative programs available to the juvenile court; and

(10) Racial disparity in certification.

7. If the court dismisses the petition to permit the child to be prosecuted under the general law, the court shall enter a dismissal order containing:

(1) Findings showing that the court had jurisdiction of the cause and of the parties;

(2) Findings showing that the child was represented by counsel;

(3) Findings showing that the hearing was held in the presence of the child and his counsel; and

(4) Findings showing the reasons underlying the court's decision to transfer jurisdiction.

8. A copy of the petition and order of the dismissal shall be sent to the prosecuting attorney.

9. When a petition has been dismissed thereby permitting a child to be prosecuted under the general law **and the prosecution of the child results in a conviction**, the jurisdiction of the

juvenile court over that child is forever terminated, except as provided in subsection 10 of this section, for an act that would be a violation of a state law or municipal ordinance.

10. If a petition has been dismissed thereby permitting a child to be prosecuted under the general law and the child is found not guilty by a court of general jurisdiction, the juvenile court shall have jurisdiction over any later offense committed by that child which would be considered a misdemeanor or felony if committed by an adult, subject to the certification provisions of this section.

11. If the court does not dismiss the petition to permit the child to be prosecuted under the general law, it shall set a date for the hearing upon the petition as provided in section 211.171.

211.073. TRANSFER TO COURT OF GENERAL JURISDICTION, DUAL JURISDICTION OF BOTH CRIMINAL AND JUVENILE CODES — SUSPENDED EXECUTION OF ADULT SENTENCE, REVOCATION OF JUVENILE DISPOSITION — PETITION FOR TRANSFER OF CUSTODY, HEARING — OFFENDER AGE SEVENTEEN, HEARING — OFFENDER AGE TWENTY-ONE, HEARING — CREDIT FOR TIME SERVED. — 1. The court **[**may**]** **shall**, in a case when the offender is under seventeen years **and six months** of age and has been transferred to a court of general jurisdiction pursuant to section 211.071, and whose prosecution results in a conviction or a plea of guilty, **[**invoke**]** **consider** dual jurisdiction of both the criminal and juvenile codes, as set forth in this section. The court is authorized to impose a juvenile disposition under this chapter and simultaneously impose an adult criminal sentence, the execution of which shall be suspended pursuant to the provisions of this section. Successful completion of the juvenile disposition ordered shall be a condition of the suspended adult criminal sentence. The court may order an offender into the custody of the division of youth services pursuant to this section **[**if:

(1) A facility is designed and built by the division of youth services specifically for offenders sentenced pursuant to this section and if the division determines that there is space available, based on design capacity, in the facility; and

(2)**]:**

(1) Upon agreement of the division **of youth services; and**

(2) If the division of youth services determines that there is space available in a facility designed to serve offenders sentenced under this section.

If the division of youth services agrees to accept a youth and the court does not impose a juvenile disposition, the court shall make findings on the record as to why the division of youth services was not appropriate for the offender prior to imposing the adult criminal sentence.

2. If there is probable cause to believe that the offender has violated a condition of the suspended sentence or committed a new offense, the court shall conduct a hearing on the violation charged, unless the offender waives such hearing. If the violation is established and found the court may continue or revoke the juvenile disposition, impose the adult criminal sentence, or enter such other order as it may see fit.

3. When an offender has received a suspended sentence pursuant to this section and the division determines the child is beyond the scope of its treatment programs, the division of youth services may petition the court for a transfer of custody of the offender. The court shall hold a hearing and shall:

(1) Revoke the suspension and direct that the offender be taken into immediate custody of the department of corrections; or

(2) Direct that the offender be placed on probation.

4. When an offender who has received a suspended sentence reaches the age of seventeen, the court shall hold a hearing. The court shall:

(1) Revoke the suspension and direct that the offender be taken into immediate custody of the department of corrections;

(2) Direct that the offender be placed on probation; or

(3) Direct that the offender remain in the custody of the division of youth services if the division agrees to such placement.

5. The division of youth services shall petition the court for a hearing before it releases an offender who comes within subsection 1 of this section at any time before the offender reaches the age of twenty-one years. The court shall:

(1) Revoke the suspension and direct that the offender be taken into immediate custody of the department of corrections; or

(2) Direct that the offender be placed on probation.

6. If the suspension of the adult criminal sentence is revoked, all time served by the offender under the juvenile disposition shall be credited toward the adult criminal sentence imposed.

SECTION A. ENACTING CLAUSE. — Sections 71.012, 71.014, 71.015, and 71.285, RSMo, are repealed and five new sections enacted in lieu thereof, to be known as sections 71.012, 71.014, 71.015, 71.285, and 77.675, to read as follows:

71.012. ANNEXATION PROCEDURE, HEARING, EXCEPTIONS (PERRY COUNTY, RANDOLPH COUNTY) — CONTIGUOUS AND COMPACT DEFINED — COMMON INTEREST COMMUNITY, COOPERATIVE AND PLANNED COMMUNITY, DEFINED — OBJECTION, PROCEDURE. — 1. Notwithstanding the provisions of sections 71.015 and 71.860 to 71.920, the governing body of any city, town or village may annex unincorporated areas which are contiguous and compact to the existing corporate limits of the city, town or village pursuant to this section. The term "contiguous and compact" does not include a situation whereby the unincorporated area proposed to be annexed is contiguous to the annexing city, town or village only by a railroad line, trail, pipeline or other strip of real property less than one-quarter mile in width within the city, town or village so that the boundaries of the city, town or village after annexation would leave unincorporated areas between the annexed area and the prior boundaries of the city, town or village connected only by such railroad line, trail, pipeline or other such strip of real property. The term "contiguous and compact" does not prohibit voluntary annexations pursuant to this section merely because such voluntary annexation would create an island of unincorporated area within the city, town or village, so long as the owners of the unincorporated island were also given the opportunity to voluntarily annex into the city, town or village. Notwithstanding the provisions of this section, the governing body of any city, town or village in any county of the third classification which borders a county of the fourth classification, a county of the second classification and the Mississippi River may annex areas along a road or highway up to two miles from existing boundaries of the city, town or village or the governing body in any city, town or village in any county of the third classification without a township form of government with a population of at least twenty-four thousand inhabitants but not more than thirty thousand inhabitants and such county contains a state correctional center may voluntarily annex such correctional center pursuant to the provisions of this section if the correctional center is along a road or highway within two miles from the existing boundaries of the city, town or village.

2. (1) When a **[**verified**]** **notarized** petition, requesting annexation and signed by the owners of all fee interests of record in all tracts of real property located within the area proposed to be annexed, or a request for annexation signed under the authority of the governing body of any common interest community and approved by a majority vote of unit owners located within the area proposed to be annexed is presented to the governing body of the city, town or village, the governing body shall hold a public hearing concerning the matter not less than fourteen nor more than sixty days after the petition is received, and the hearing shall be held not less than seven days after notice of the hearing is published in a newspaper of general circulation qualified to publish legal matters and located within the boundary of the petitioned city, town or village. If no such newspaper exists within the boundary of such city, town or village, then the notice shall be published in the qualified newspaper nearest the petitioned city, town or village. For the purposes of this subdivision, the term "common-interest community" shall mean a condominium as said term is used in chapter 448, or a common-interest community, a cooperative, or a planned community.

(a) A "common-interest community" shall be defined as real property with respect to which a person, by virtue of such person's ownership of a unit, is obliged to pay for real property taxes, insurance premiums, maintenance or improvement of other real property described in a declaration. "Ownership of a unit" does not include a leasehold interest of less than twenty years in a unit, including renewal options;

(b) A "cooperative" shall be defined as a common-interest community in which the real property is owned by an association, each of whose members is entitled by virtue of such member's ownership interest in the association to exclusive possession of a unit;

(c) A "planned community" shall be defined as a common-interest community that is not a condominium or a cooperative. A condominium or cooperative may be part of a planned community.

(2) At the public hearing any interested person, corporation or political subdivision may present evidence regarding the proposed annexation.

If, after holding the hearing, the governing body of the city, town or village determines that the annexation is reasonable and necessary to the proper development of the city, town or village, and the city, town or village has the ability to furnish normal municipal services to the area to be annexed within a reasonable time, it may, subject to the provisions of subdivision (3) of this subsection, annex the territory by ordinance without further action.

(3) If a written objection to the proposed annexation is filed with the governing body of the city, town or village not later than fourteen days after the public hearing by at least five percent of the qualified voters of the city, town or village, or two qualified voters of the area sought to be annexed if the same contains two qualified voters, the provisions of sections 71.015 and 71.860 to 71.920, shall be followed.

3. If no objection is filed, the city, town or village shall extend its limits by ordinance to include such territory, specifying with accuracy the new boundary lines to which the city's, town's or village's limits are extended. Upon duly enacting such annexation ordinance, the city, town or village shall cause three certified copies of the same to be filed with the county assessor and the clerk of the county wherein the city, town or village is located, and one certified copy to be filed with the election authority, if different from the clerk of the county which has jurisdiction over the area being annexed, whereupon the annexation shall be complete and final and thereafter all courts of this state shall take judicial notice of the limits of that city, town or village as so extended.

4. That a petition requesting annexation is not or was not verified or notarized shall not affect the validity of an annexation heretofore or hereafter undertaken in accordance with this section.

5. Any action of any kind seeking to deannex from any city, town, or village any area annexed under this section, or seeking in any way to reverse, invalidate, set aside, or otherwise challenge such annexation or oust such city, town, or village from jurisdiction over such annexed area shall be brought within five years of the date of adoption of the annexation ordinance.

71.014. ANNEXATION BY CERTAIN CITIES UPON REQUEST OF ALL PROPERTY OWNERS IN AREA ANNEXED — DEANNEXATION, STATUTE OF LIMITATIONS. — 1. Notwithstanding the provisions of section 71.015, the governing body of any city, town, or village which is located within a county which borders a county of the first classification with a charter form of government with a population in excess of six hundred fifty thousand, proceeding as otherwise authorized by law or charter, may annex unincorporated areas which are contiguous and compact to the existing corporate limits upon **[**verified**]** **notarized** petition requesting such annexation signed by the owners of all fee interests of record in all tracts located within the area to be annexed. **That a petition requesting annexation is not or was not verified or notarized shall not affect the validity of an annexation heretofore or hereafter undertaken in accordance with this section.**

2. Any action of any kind seeking to deannex from any city, town, or village any area annexed under this section, or seeking in any way to reverse, invalidate, set aside, or otherwise challenge such annexation or oust such city, town, or village from jurisdiction over such annexed area shall be brought within five years of the date of adoption of the annexation ordinance.

71.015. OBJECTIONS TO ANNEXATION, SATISFACTION OF OBJECTIONS PRIOR TO ANNEXATION, PROCEDURE — CERTAIN CITIES, ELECTIONS FOR ANNEXATION, PROCEDURE — CAUSE OF ACTION FOR DEANNEXATION AUTHORIZED. — 1. Should any city, town, or village, not located in any county of the first classification which has adopted a constitutional charter for its own local government, seek to annex an area to which objection is made, the following shall be satisfied:

(1) Before the governing body of any city, town, or village has adopted a resolution to annex any unincorporated area of land, such city, town, or village shall first as a condition precedent determine that the land to be annexed is contiguous to the existing city, town, or village limits and that the length of the contiguous boundary common to the existing city, town, or village limit and the proposed area to be annexed is at least fifteen percent of the length of the perimeter of the area proposed for annexation.

(2) The governing body of any city, town, or village shall propose an ordinance setting forth the following:

(a) The area to be annexed and affirmatively stating that the boundaries comply with the condition precedent referred to in subdivision (1) above;

(b) That such annexation is reasonable and necessary to the proper development of the city, town, or village;

(c) That the city has developed a plan of intent to provide services to the area proposed for annexation;

(d) That a public hearing shall be held prior to the adoption of the ordinance;

(e) When the annexation is proposed to be effective, the effective date being up to thirty-six months from the date of any election held in conjunction thereto.

(3) The city, town, or village shall fix a date for a public hearing on the ordinance and make a good faith effort to notify all fee owners of record within the area proposed to be annexed by certified mail, not less than thirty nor more than sixty days before the hearing, and notify all residents of the area by publication of notice in a newspaper of general circulation qualified to publish legal matters in the county or counties where the proposed area is located, at least once a week for three consecutive weeks prior to the hearing, with at least one such notice being not more than twenty days and not less than ten days before the hearing.

(4) At the hearing referred to in subdivision (3), the city, town, or village shall present the plan of intent and evidence in support thereof to include:

(a) A list of major services presently provided by the city, town, or village including, but not limited to, police and fire protection, water and sewer systems, street maintenance, parks and recreation, **and** refuse collection**[**, etc.**]**;

(b) A proposed time schedule whereby the city, town, or village plans to provide such services to the residents of the proposed area to be annexed within three years from the date the annexation is to become effective;

(c) The level at which the city, town, or village assesses property and the rate at which it taxes that property;

(d) How the city, town, or village proposes to zone the area to be annexed;

(e) When the proposed annexation shall become effective.

(5) Following the hearing, and either before or after the election held in subdivision (6) of this subsection, should the governing body of the city, town, or village vote favorably by ordinance to annex the area, the governing body of the city, town or village shall file an action in the circuit court of the county in which such unincorporated area is situated, under the

provisions of chapter 527, praying for a declaratory judgment authorizing such annexation. The petition in such action shall state facts showing:

(a) The area to be annexed and its conformity with the condition precedent referred to in subdivision (1) of this subsection;

(b) That such annexation is reasonable and necessary to the proper development of the city, town, or village; and

(c) The ability of the city, town, or village to furnish normal municipal services of the city, town, or village to the unincorporated area within a reasonable time not to exceed three years after the annexation is to become effective. Such action shall be a class action against the inhabitants of such unincorporated area under the provisions of section 507.070.

(6) Except as provided in subsection 3 of this section, if the court authorizes the city, town, or village to make an annexation, the legislative body of such city, town, or village shall not have the power to extend the limits of the city, town, or village by such annexation until an election is held at which the proposition for annexation is approved by a majority of the total votes cast in the city, town, or village and by a separate majority of the total votes cast in the unincorporated territory sought to be annexed. However, should less than a majority of the total votes cast in the area proposed to be annexed vote in favor of the proposal, but at least a majority of the total votes cast in the city, town, or village vote in favor of the proposal, then the proposal shall again be voted upon in not more than one hundred twenty days by both the registered voters of the city, town, or village and the registered voters of the area proposed to be annexed. If at least two-thirds of the qualified electors voting thereon are in favor of the annexation, then the city, town, or village may proceed to annex the territory. If the proposal fails to receive the necessary majority, no part of the area sought to be annexed may be the subject of another proposal to annex for a period of two years from the date of the election, except that, during the two-year period, the owners of all fee interests of record in the area or any portion of the area may petition the city, town, or village for the annexation of the land owned by them pursuant to the procedures in section 71.012. The elections shall if authorized be held, except as herein otherwise provided, in accordance with the general state law governing special elections, and the entire cost of the election or elections shall be paid by the city, town, or village proposing to annex the territory.

(7) Failure to comply in providing services to the said area or to zone in compliance with the plan of intent within three years after the effective date of the annexation, unless compliance is made unreasonable by an act of God, shall give rise to a cause of action for deannexation which may be filed in the circuit court by any resident of the area who was residing in the area at the time the annexation became effective.

(8) No city, town, or village which has filed an action under this section as this section read prior to May 13, 1980, which action is part of an annexation proceeding pending on May 13, 1980, shall be required to comply with subdivision (5) of this subsection in regard to such annexation proceeding.

(9) If the area proposed for annexation includes a public road or highway but does not include all of the land adjoining such road or highway, then such fee owners of record, of the lands adjoining said highway shall be permitted to intervene in the declaratory judgment action described in subdivision (5) of this subsection.

2. Notwithstanding any provision of subsection 1 of this section, for any annexation by any city with a population of three hundred fifty thousand or more inhabitants which is located in more than one county that becomes effective after August 28, 1994, if such city has not provided water and sewer service to such annexed area within three years of the effective date of the annexation, a cause of action shall lie for deannexation, unless the failure to provide such water and sewer service to the annexed area is made unreasonable by an act of God. The cause of action for deannexation may be filed in the circuit court by any resident of the annexed area who is presently residing in the area at the time of the filing of the suit and was a resident of the annexed area at the time the annexation became effective. If the suit for deannexation is successful, the city shall be liable for all court costs and attorney fees.

3. Notwithstanding the provisions of subdivision (6) of subsection 1 of this section, all cities, towns, and villages located in any county of the first classification with a charter form of government with a population of two hundred thousand or more inhabitants which adjoins a county with a population of nine hundred thousand or more inhabitants shall comply with the provisions of this subsection. If the court authorizes any city, town, or village subject to this subsection to make an annexation, the legislative body of such city, town or village shall not have the power to extend the limits of such city, town, or village by such annexation until an election is held at which the proposition for annexation is approved by a majority of the total votes cast in such city, town, or village and by a separate majority of the total votes cast in the unincorporated territory sought to be annexed; except that:

(1) In the case of a proposed annexation in any area which is contiguous to the existing city, town or village and which is within an area designated as flood plain by the Federal Emergency Management Agency and which is inhabited by no more than thirty registered voters and for which a final declaratory judgment has been granted prior to January 1, 1993, approving such annexation and where notarized affidavits expressing approval of the proposed annexation are obtained from a majority of the registered voters residing in the area to be annexed, the area may be annexed by an ordinance duly enacted by the governing body and no elections shall be required; and

(2) In the case of a proposed annexation of unincorporated territory in which no qualified electors reside, if at least a majority of the qualified electors voting on the proposition are in favor of the annexation, the city, town or village may proceed to annex the territory and no subsequent election shall be required. If the proposal fails to receive the necessary separate majorities, no part of the area sought to be annexed may be the subject of any other proposal to annex for a period of two years from the date of such election, except that, during the two-year period, the owners of all fee interests of record in the area or any portion of the area may petition the city, town, or village for the annexation of the land owned by them pursuant to the procedures in section 71.012 **or 71.014**. The election shall, if authorized, be held, except as otherwise provided in this section, in accordance with the general state laws governing special elections, and the entire cost of the election or elections shall be paid by the city, town, or village proposing to annex the territory. Failure of the city, town or village to comply in providing services to the area or to zone in compliance with the plan of intent within three years after the effective date of the annexation, unless compliance is made unreasonable by an act of God, shall give rise to a cause of action for deannexation which may be filed in the circuit court **not later than four years after the effective date of the annexation** by any resident of the area who was residing in such area at the time the annexation became effective or by any nonresident owner of real property in such area. **Except for a cause of action for deannexation under this subdivision (2) of this subsection, any action of any kind seeking to deannex from any city, town, or village any area annexed under this section, or seeking in any way to reverse, invalidate, set aside, or otherwise challenge such annexation or oust such city, town, or village from jurisdiction over such annexed area shall be brought within five years of the date of the adoption of the annexation ordinance.**

Each special tax bill shall be issued by the city clerk and delivered to the collector on or before the first day of June of each year. Such tax bills if not paid when due shall bear interest at the rate of eight percent per annum. Notwithstanding the time limitations of this section, any city, town or village located in a county of the first classification may hold the hearing provided in this section four days after notice is sent or posted, and may order at the hearing that the weeds or trash shall be abated within five business days after the hearing and if such weeds or trash are not removed within five business days after the hearing, the order shall allow the city to immediately remove the weeds or trash pursuant to this section. Except for lands owned by a public utility, rights-of-way, and easements appurtenant or incidental to lands controlled by any railroad, the department of transportation, the department of natural resources or the department of conservation, the provisions of this subsection shall not apply to any city with a population of at least seventy thousand inhabitants which is located in a county of the first classification with a population of less than one hundred thousand inhabitants which adjoins a county with a population of less than one hundred thousand inhabitants that contains part of a city with a population of three hundred fifty thousand or more inhabitants, any city with a population of one hundred thousand or more inhabitants which is located within a county of the first classification that adjoins no other county of the first classification, or any city, town or village located within a county of the first classification with a charter form of government with a population of nine hundred thousand or more inhabitants, or any city with a population of three hundred fifty thousand or more inhabitants which is located in more than one county, or the City of St. Louis, where such city, town or village establishes its own procedures for abatement of weeds or trash, and such city may charge its costs of collecting the tax bill, including attorney fees, in the event a lawsuit is required to enforce a tax bill.

2. Except as provided in subsection 3 of this section, if weeds are allowed to grow, or if trash is allowed to accumulate, on the same property in violation of an ordinance more than once during the same growing season in the case of weeds, or more than once during a calendar year in the case of trash, in any city with a population of three hundred fifty thousand or more inhabitants which is located in more than one county, in the City of St. Louis, in any city, town or village located in a county of the first classification with a charter form of government with a population of nine hundred thousand or more inhabitants, in any fourth class city located in a county of the first classification with a charter form of government and a population of less than three hundred thousand, or in any home rule city with more than one hundred thirteen thousand two hundred but less than one hundred thirteen thousand three hundred inhabitants located in a county with a charter form of government and with more than six hundred thousand but less than seven hundred thousand inhabitants, the marshal or other designated city official may order that the weeds or trash be abated within five business days after notice is sent to or posted on the property. 3. If weeds are allowed to grow, or if trash is allowed to accumulate, on the same property in violation of an ordinance more than once during the same growing season in the case of weeds, or more than once during a calendar year in the case of trash, in any city with a population of three hundred fifty thousand or more inhabitants which is located in more than one county, in the City of St. Louis, in any city, town or village located in a county of the first

375.772. ASSOCIATION, CREATED — DEFINITIONS. — 1. There is created a nonprofit unincorporated legal entity to be known as the "Missouri Property and Casualty Insurance Guaranty Association", hereinafter referred to as "association". All member insurers shall be and remain members of the association as a condition of their authority to transact insurance in this state. The association shall perform its functions under a plan of operation and through a board of directors established by section 375.776.

2. As used in sections 375.771 to 375.779, the following terms mean:

(1) "Account", any one of the four accounts established by section 375.773;

(2) "Affiliate", a person who directly or indirectly through one or more intermediaries controls, is controlled by, or is under common control with another person;

(4) "Association", the Missouri property and casualty insurance guaranty association;

(5) "Claimant", any insured making a first-party claim or any person instituting a liability claim, provided that no person who is an affiliate of the insolvent insurer may be a claimant;

(6) "Control", the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract other than a commercial contract for goods or nonmanagement services, or otherwise, unless the power is the result of an official position with the corporate office held by the person. Control shall be presumed to exist if any person, directly or indirectly, owns, controls, holds the power to vote, or holds proxies representing ten percent or more of the voting securities of any other person. Such presumption may be rebutted by a showing that control does not exist in fact;

(7) "Covered claim", an unpaid claim including those for unearned premiums, presented by a claimant within the time specified in accordance with subsection 1 and subdivision (2) of subsection 2 of section 375.775, and is for a loss arising out of and is within the coverage of an

(a) The policy is issued by a member insurer and such member insurer becomes an insolvent insurer after August 28, 2004; and

(b) The claimant or insured is a resident of this state at the time of the insured event, or the claim is a first-party claim by an insured for damage to property and the property from which the claim arises is permanently located in this state or in the case of an unearned premium, the policyholder is a resident of this state at the time the policy is issued. The residency of the claimant, insured, or policyholder, other than an individual, is the state in which its principal place of business is located at the time of the insured event;

(c) "Covered claim" shall not include:

a. Any amount awarded as punitive or exemplary damages, or which is a fine or penalty;

b. Any amount sought as a return of premium under any retrospective rating plan; or

c. Any amount due any reinsurer, insurer, insurance pool, or underwriting association, health maintenance organization, hospital plan corporation, health services corporation, or self-insurer as subrogation recoveries, reinsurance recoveries, contribution, indemnity, or otherwise. To the extent of any amount due any reinsurer, insurer, insurance pool, or underwriting association, health maintenance organization, hospital plan corporation, health services corporation, or self-insurer as subrogation recoveries or otherwise there shall be no right of recovery by any person against a tort-feasor insured of an insolvent insurer, except that such limitation shall not apply with respect to those amounts that exceed the limits of the policy issued such tort-feasor by the insolvent insurer;

d. A claim by or against an insured of an insolvent insurer, if such insured has a net worth of more than twenty-five million dollars on the later of the end of the insured's most recent fiscal year or the December thirty-first of the year next preceding the date the insurer becomes an insolvent insurer; provided that an insured's net worth on such date shall be deemed to include the aggregate net worth of the insured and all of its affiliates as calculated on a consolidated basis;

e. Any first-party claim by an insured which is an affiliate of the insolvent insurer;

j. Any amount that constitutes a claim under a policy**, except in the case of a claim for benefits under workers' compensation coverage,** issued by an insolvent insurer with a deductible or self-insured retention of three hundred thousand dollars or more. However, such a claim shall be considered a covered claim, if, as of the deadline set forth for the filing of claims against the insolvent insurer or its liquidator, the insured is a debtor under 11 U.S.C. Section 701, et seq.;

k. Any amount to the extent that it is covered by any insurance that is available to the claimant or the insured, whether such other insurance is primary, pro rata, or excess. In all such instances, the association's obligations to the insured or claimant shall not be deemed to be other insurance;

(8) "Insolvent insurer", an insurer licensed to transact insurance in this state, either at the time the policy was issued or when the insured event occurred, and against whom a final order

of liquidation with a finding of insolvency has been entered by a court of competent jurisdiction in the insurer's state of domicile or of this state under the provisions of sections 375.950 to 375.990 or sections 375.1150 to 375.1246, and which such order of liquidation has not been stayed or been the subject of a writ of supersedeas or other comparable order;

Whether or not approved by the director of the department of insurance, financial institutions and professional registration for the placing of lines of insurance by producers so authorized under the provisions of chapter 384, an insurance company not licensed to do business in this state shall not be a member insurer. Missouri mutual and extended Missouri mutual insurance companies doing business under chapter 380 shall be considered member insurers for the purposes of sections 375.771 to 375.779, and a special account shall be established applicable only to such companies;

(11) "Net direct written premiums", direct gross premiums written in this state on insurance policies to which sections 375.771 to 375.779 apply, less return premiums thereon and dividends paid or credited to policyholders on such direct business. "Net direct written premiums" does not include premiums on contracts between insurers or reinsurers;

(12) "Net worth", the total assets of a person less the total liabilities against those assets. Where the person is one who prepares an annual report to shareholders such report for the fiscal year immediately preceding the date of insolvency of the insurance carrier shall be used to determine net worth. If the person is one who does not prepare such an annual report, but does prepare an annual financial report for management which reflects net worth, then such report for the fiscal year immediately preceding the date of insolvency of the insurance carrier shall be used to determine net worth;

(13) "Ocean marine insurance" includes marine insurance that insures against maritime perils or risks and other related perils or risks which are usually insured against by traditional marine insurance, such as hull and machinery, marine builders' risks, and marine protection and indemnity. Such perils and risks insured against include, without limitation, loss, damage, or expense or legal liability of the insured arising out of an incident related to ownership, operation, chartering, maintenance, use, repair, or construction of any vessel, craft, or instrumentality in use in ocean or inland waters for commercial purposes, including liability of the insured for personal injury, illness, or death for loss or damage to the property of the insured or another person;

375.775. ASSOCIATION, POWERS AND DUTIES. — 1. The association shall be obligated to the extent of the covered claims existing prior to the date of a final order of liquidation or a judicial determination by a court of competent jurisdiction in the insurer's domiciliary state that an insolvent insurer exists and arising within thirty days from the date or at the time of the first such order or determination, or before the policy expiration date if less than thirty days after such date, or before or at the time the insured replaces the policy or causes its cancellation, if he does so within thirty days of such date. Such obligation shall be satisfied by paying to the claimant an amount as follows:

(1) The full amount of a covered claim for benefits under workers' compensation insurance coverage;

(2) An amount not exceeding twenty-five thousand dollars per policy for a covered claim for the return of unearned premium;

(3) An amount not exceeding three hundred thousand dollars per claim for all other covered claims.

2. In no event shall the association be obligated to an insured or claimant in an amount in excess of the face amount or the limits of the policy from which a claim arises or be obligated for the payment of unearned premium in excess of the amount of twenty-five thousand dollars, or to an insured or claimant on any covered claim until it receives confirmation from the receiver or liquidator of an insolvent insurer that the claim is within the coverage of an applicable policy of the insolvent insurer, except that within the sole discretion of the association, if the association deems it has sufficient evidence from other sources, including any claim forms which may be propounded by the association, that the claim is within the coverage of an applicable policy of the insolvent insurer, it shall proceed to process the claim, pursuant to its statutory obligations, without such confirmation by the receiver or liquidator:

(1) All covered claims shall be filed with the association on the claim information form required by this subdivision no later than the final date first set by the court for the filing of claims against the liquidator or receiver of an insolvent insurer, except that if the time first set by the court for filing claims is one year or less from the date of insolvency, and an extension of the time to file claims is granted by the court, claims may be filed with the association no later than the new date set by the court or within one year of the date of insolvency, whichever first occurs. In no event shall the association be obligated on a claim filed after such date or on one not filed on the required form. A claim information form shall consist of a statement verified under oath by the claimant which includes all of the following:

(a) The particulars of the claim;

(b) A statement that the sum claimed is justly owing and that there is no setoff, counterclaim, or defense to said claim;

(c) The name and address of the claimant and the attorney who represents the claimant, if any; and

(d) If the claimant is an insured, that the insured's net worth did not exceed twenty-five million dollars on the date the insurer became an insolvent insurer. The association may require that a prescribed form be used and may require that other information and documents be included. A covered claim shall not include any claim not described in a timely filed claim information form even though the existence of the claim was not known to the claimant at the time a claim information form was filed;

(2) In the case of claims arising from a member insurer subject to a final order of liquidation issued on or after September 1, 2000, the provisions of subdivision (1) of subsection 2 of this section shall not apply and in lieu thereof, such claims shall be governed by this subdivision. All covered claims shall be filed with the association, liquidator or receiver. Notwithstanding any other provisions of sections 375.771 to 375.779, a covered claim shall not include a claim filed after the earlier of eighteen months after the date of the order of liquidation, or the final date set by the court for the filing of claims against the liquidator or receiver of an insolvent insurer. The association may require that other information and documents be included in confirming the existence of a covered claim or in determining eligibility of any claimant. Such information may include, but is not limited to:

(a) The particulars of the claim;

(b) A statement that the sum claimed is justly owing and that there is no setoff, counterclaim, or defense to said claim;

(c) The name and address of the claimant and the attorney who represents the claimant, if any; and

(d) A verification under oath of such requested information. In no event shall the association be obligated on a claim filed with the association, liquidator or receiver for protection afforded under the insured's policy for incurred but not reported losses. A covered claim shall not include any claim that is not filed prior to the final date for filing claims, even though the existence of the claims was not known to the claimant prior to such final date.

3. In the case of claims arising from bodily injury, sickness or disease, the amount of any such award shall not exceed the claimant's reasonable expenses incurred for necessary medical, surgical, X-ray, dental services and comparable services for individuals who, in the exercise of their constitutional rights, rely on spiritual means alone for healing in accordance with the tenets and practices of a recognized church or religious denomination by a duly accredited practitioner thereof, including prosthetic devices and necessary ambulance, hospital, professional nursing, and any amounts lost or to be lost by reason of claimant's inability to work and earn wages or salary or their equivalent, except that the association shall pay the full amount of any covered claim arising out of a workers' compensation policy. Such award may also include payments in fact made to others, not members of claimant's household, which were reasonably incurred to obtain from such other persons ordinary and necessary services for the production of income in lieu of those services the claimant would have performed for himself had he not been injured. Verdicts as respect only those civil actions as may be brought to recover damages as provided in this section shall specifically set out the sums applicable to each item in this section for which an award may be made.

4. In the case of claims arising from a member insurer subject to a final order of liquidation dated on or after August 31, 2004, the provisions of subsection 3 of this section shall not apply.

5. Notwithstanding any other provision of sections 375.771 to 375.779, except in the case of a claim for benefits under workers' compensation coverage, any obligation of the association to or on behalf of the insured and its affiliates on covered claims shall cease when ten million dollars has been paid in the aggregate by the association and any one or more associations similar to the association in any other state or states to or on behalf of such insured, its affiliates, and additional insureds on covered claims or allowed claims arising under the policy or policies of any one insolvent insurer.

6. If the association determines that there may be more than one claimant having a covered claim or allowed claim against the association, or any associations similar to the association in other states, under the policy or policies of any one solvent insurer, the association may establish a plan to allocate amounts payable by the association in such manner as the association in its discretion deems equitable.

7. The association shall be deemed the insurer only to the extent of its obligations on the covered claims and to such extent, subject to the limitations provided in sections 375.771 to 375.779, shall have all rights, duties, and obligations of the insolvent insurer as if the insurer had not become insolvent, including but not limited to the right to pursue and retain salvage and subrogation recoverable on paid covered claim obligations. The association shall not be deemed the insolvent insurer for any purpose relating to the issue of whether the association is amenable to the personal jurisdiction of the courts of any states. However, any obligation to defend an insured shall cease upon:

(1) The association's payment by settlement releasing the insured or on a judgment of an amount equal to the lesser of the association's covered claim obligation limit or the applicable policy limit; or

(2) The association's tender of such amount.

8. The association shall allocate claims paid and expenses incurred among the four accounts separately, and assess member insurers separately for each account amounts necessary to pay the obligations of the association under subsection 1 of this section to an insolvency, the expenses of handling covered claims subsequent to an insolvency, the cost of examinations under subdivision (3) of subsection 9 of this section, and other expenses authorized by sections 375.771

to 375.779. The assessments of each member insurer shall be in the proportion that the net direct written premiums of the member insurer for the preceding calendar year on the kinds of insurance in the account bears to the net direct written premiums of all member insurers for the preceding calendar year of the kinds of insurance in the account. Each member insurer's assessment may be rounded to the nearest ten dollars. Each member insurer shall be notified of the assessment not later than thirty days before it is due. No member insurer may be assessed in any year on any account an amount greater than **[**one**]** **two** percent of that member insurer's net direct written premiums for the preceding calendar year on the kinds of insurance in the account. If the maximum assessment, together with the other assets of the association in any account, does not provide in any one year in any account an amount sufficient to make all necessary payments from that account, the funds available shall be prorated and the unpaid portion shall be paid as soon thereafter as funds become available. The association may defer, in whole or in part, the assessment of any member insurer, if the assessment would cause the member insurer's financial statement to reflect amounts of capital or surplus less than the minimum amounts required for a certificate of authority by any jurisdiction in which the member insurer is authorized to transact insurance. Deferred assessments shall be paid when such payment will not reduce capital or surplus below required minimums. Such payments shall be refunded to those companies receiving larger assessments by virtue of such deferment, or, in the discretion of any such company, credited against future assessments. No dividends shall be paid stockholders or policyholders of a member insurer so long as all or part of any assessment against such insurer remains deferred. Each member insurer may set off against any assessment, authorized payments made on covered claims and expenses incurred in the payment of such claims by the member insurer if they are chargeable to the account for which the assessment is made. Assessments made under sections 375.771 to 375.779 and section 375.916 shall not be subject to subsection 1 of section 375.916;

9. The association shall:

(1) Handle claims through its employees or through one or more insurers or other persons designated as servicing facilities. Designation of a servicing facility is subject to the approval of the director, but such designation may be declined by a member insurer;

(2) Reimburse each servicing facility for obligations of the association paid by the facility and for actual expenses incurred by the facility while handling claims on behalf of the association and shall pay the other expenses of the association authorized by this section;

(3) Be subject to examination and regulation by the director. The board of directors shall submit, not later than March thirtieth of each year, a financial report for the preceding calendar year in a form approved by the director; and

(4) Proceed to investigate, settle, and determine covered claims.

10. The association may:

(1) Appear in, defend and appeal any action on a claim brought against the association;

(2) Employ or retain such persons as are necessary to handle claims and perform other duties of the association;

(3) Act as a servicing facility for other similar entities created by similar laws in this state or other states;

(4) Borrow funds necessary to effect the purposes of sections 375.771 to 375.779 in accord with the plan of operation;

(5) Sue or be sued. Such power to sue includes the power and right to intervene as a party before any court that has jurisdiction over an insolvent insurer as defined in section 375.772;

(6) Negotiate and become a party to such contracts as are necessary to carry out the purpose of sections 375.771 to 375.779;

(7) Perform such other acts as are necessary or proper to effectuate the purpose of sections 375.771 to 375.779;

(8) Refund to the member insurers in proportion to the contribution of each member insurer to that account that amount by which the assets of the account exceed the liabilities, if,

at the end of any calendar year, the board of directors finds that the assets of the association in any account exceed the liabilities of that account as estimated by the board of directors for the coming year; and

(9) Become a member of the National Conference on Insurance Guaranty Funds.

375.776. BOARD OF DIRECTORS, SELECTION, TERMS — POWERS AND DUTIES. — 1. The board of directors, subject to the supervision of the director, shall:

(1) Establish a plan of operation whereby the duties of the association under section 375.775 will be performed;

(2) Establish procedures for handling assets of the association;

(3) Establish regular places and times for meetings of the board of directors;

(4) Establish procedures for records to be kept of all financial transactions of the association, its agents, and the board of directors;

(5) Provide that any member insurer aggrieved by any final action or decision of the association may appeal to the director within thirty days after the action or decision;

(6) Establish the procedures whereby selections for the board of directors will be submitted to the director; and

(7) Have and exercise such additional powers necessary or proper for the execution of the powers and duties of the association.

2. The plan of operation may provide that any or all powers and duties of the association, except those under subsection 8 and subdivision (4) of subsection 10 of section 375.775, are delegated to a corporation, association, or organization which performs or will perform functions similar to those of this association, or its equivalent, in two or more states. Such a corporation, association or organization shall be reimbursed as a servicing facility would be reimbursed and shall be paid for its performance of any other functions of the association. A delegation under this section shall take effect only with the approval of both the board of directors and the director, and may be made only to a corporation, association, or organization which extends protection not substantially less favorable and effective than that provided by sections 375.771 to 375.779.

3. The board of directors of the association shall consist of **not less than** seven **nor more than nine** persons serving terms as established in the plan of operation. The members of the board shall be selected by member insurers subject to the approval of the director. Not less than four of the members shall represent domestic insurers. Vacancies on the board shall be filled for the remaining period of the term by **[**appointment**] a majority vote of the remaining board members subject to the approval** of the director. **[**If no members are selected within sixty days, the director shall appoint the initial members of the board of directors.**]**

4. Members of the board shall receive no remuneration.

5. To aid in the detection and prevention of insurer insolvencies:

(1) It shall be the duty of the board of directors, upon majority vote, to notify the director of any information indicating any member insurer may be insolvent or in a financial condition hazardous to the policyholders or the public;

(2) The board of directors may, upon majority vote, make reports and recommendations to the director upon any matter germane to the solvency, liquidation, rehabilitation or conservation of any member insurer. Such reports and recommendations shall not be considered public documents; and

(3) The board of directors shall, at the conclusion of any insurer insolvency in which the association was obligated to pay covered claims, prepare a report on the history and causes of such insolvency, based on the information available to the association, and submit such report to the director.

376.717. COVERAGES PROVIDED, PERSONS COVERED — COVERAGE NOT PROVIDED, WHEN — MAXIMUM BENEFITS ALLOWABLE. — 1. Sections 376.715 to 376.758 shall provide coverage for the policies and contracts specified in subsection 2 of this section:

(1) To persons who, regardless of where they reside, except for nonresident certificate holders under group policies or contracts, are the beneficiaries, assignees or payees of the persons covered under subdivision (2) of this subsection; and

(2) To persons who are owners of or certificate holders under such policies or contracts, other than structured settlement annuities, who:

(a) Are residents of this state; or

(b) Are not residents, but only under all of the following conditions:

a. The insurers which issued such policies or contracts are domiciled in this state;

b. The persons are not eligible for coverage by an association in any other state due to the fact that the insurer was not licensed in such state at the time specified in such state's guaranty association law; and

c. The states in which the persons reside have associations similar to the association created by sections 376.715 to 376.758;

(3) For structured settlement annuities specified in subsection 2 of this section, subdivisions (1) and (2) of subsection 1 of this section shall not apply, and sections 376.715 to 376.758 shall, except as provided in subdivisions (4) and (5) of this subsection, provide coverage to a person who is a payee under a structured settlement annuity, or beneficiary of a payee if the payee is deceased, if the payee:

(a) Is a resident, regardless of where the contract owner resides; or

(b) Is not a resident, but only under both of the following conditions:

a. (i) The contract owner of the structured settlement annuity is a resident; or

(ii) The contract owner of the structure settlement annuity is not a resident, but:

i. The insurer that issued the structured settlement annuity is domiciled in this state; and

ii. The state in which the contract owner resides has an association similar to the association created under sections 376.715 to 376.758; and

b. Neither the payee or beneficiary nor the contract owner is eligible for coverage by the association of the state in which the payee or contract owner resides;

(4) Sections 376.715 to 376.758 shall not provide to a person who is a payee or beneficiary of a contract owner resident of this state, if the payee or beneficiary is afforded any coverage by such an association of another state;

(5) Sections 376.715 to 376.758 are intended to provide coverage to a person who is a resident of this state and, in special circumstances, to a nonresident. In order to avoid duplicate coverage, if a person who would otherwise receive coverage under sections 376.715 to 376.758 is provided coverage under the laws of any other state, the person shall not be provided coverage under sections 376.715 to 376.758. In determining the application of the provisions of this subdivision in situations where a person could be covered by such an association of more than one state, whether as an owner, payee, beneficiary, or assignee, sections 376.715 to 376.758 shall be construed in conjunction with the other state's laws to result in coverage by only one association.

2. Sections 376.715 to 376.758 shall provide coverage to the persons specified in subsection 1 of this section for direct, nongroup life, health, annuity policies or contracts, and supplemental contracts to any such policies or contracts, and for certificates under direct group policies and contracts, except as limited by the provisions of sections 376.715 to 376.758. Annuity contracts and certificates under group annuity contracts include allocated funding agreements, structured settlement annuities, and any immediate or deferred annuity contracts.

3. Sections 376.715 to 376.758 shall not provide coverage for:

(1) Any portion of a policy or contract not guaranteed by the insurer, or under which the risk is borne by the policy or contract holder;

(2) Any policy or contract of reinsurance, unless assumption certificates have been issued;

(3) Any portion of a policy or contract to the extent that the rate of interest on which it is based, or the interest rate, crediting rate, or similar factor determined by use of an index or other

external reference stated in the policy or contract employed in calculating returns or changes in value:

(a) Averaged over the period of four years prior to the date on which the association becomes obligated with respect to such policy or contract, exceeds the rate of interest determined by subtracting three percentage points from Moody's Corporate Bond Yield Average averaged for that same four-year period or for such lesser period if the policy or contract was issued less than four years before the association became obligated; and

(b) On and after the date on which the association becomes obligated with respect to such policy or contract exceeds the rate of interest determined by subtracting three percentage points from Moody's Corporate Bond Yield Average as most recently available;

(4) Any portion of a policy or contract issued to a plan or program of an employer, association or other person to provide life, health, or annuity benefits to its employees or members to the extent that such plan or program is self-funded or uninsured, including but not limited to benefits payable by an employer, association or other person under:

(a) A multiple employer welfare arrangement as defined in 29 U.S.C. Section 1144, as amended;

(b) A minimum premium group insurance plan;

(c) A stop-loss group insurance plan; or

(d) An administrative services only contract;

(5) Any portion of a policy or contract to the extent that it provides dividends or experience rating credits, voting rights, or provides that any fees or allowances be paid to any person, including the policy or contract holder, in connection with the service to or administration of such policy or contract;

(6) Any policy or contract issued in this state by a member insurer at a time when it was not licensed or did not have a certificate of authority to issue such policy or contract in this state;

(7) A portion of a policy or contract to the extent that the assessments required by section 376.735 with respect to the policy or contract are preempted by federal or state law;

(8) An obligation that does not arise under the express written terms of the policy or contract issued by the insurer to the contract owner or policy owner, including without limitation:

(a) Claims based on marketing materials;

(b) Claims based on side letters, riders, or other documents that were issued by the insurer without meeting applicable policy form filing or approval requirements;

(c) Misrepresentations of or regarding policy benefits;

(d) Extra-contractual claims;

(e) A claim for penalties or consequential or incidental damages;

(9) A contractual agreement that establishes the member insurer's obligations to provide a book value accounting guaranty for defined contribution benefit plan participants by reference to a portfolio of assets that is owned by the benefit plan or its trustee, which in each case is not an affiliate of the member insurer;

(10) An unallocated annuity contract;

(11) A portion of a policy or contract to the extent it provides for interest or other changes in value to be determined by the use of an index or other external reference stated in the policy or contract, but which have not been credited to the policy or contract, or as to which the policy or contract owner's rights are subject to forfeiture, as of the date the member insurer becomes an impaired or insolvent insurer under sections 376.715 to 376.758, whichever is earlier. If a policy's or contract's interest or changes in value are credited less frequently than annually, for purposes of determining the value that have been credited and are not subject to forfeiture under this subdivision, the interest or change in value determined by using the procedures defined in the policy or contract will be credited as if the contractual date of crediting interest or changing values was the date of impairment or insolvency, whichever is earlier, and will not be subject to forfeiture;

(12) A policy or contract providing any hospital, medical, prescription drug or other health care benefit under Part C or Part D of Subchapter XVIII, Chapter 7 of Title 42 of the United States Code, Medicare **[**Part**]** **Parts** C & D, or any regulations issued thereunder.

4. The benefits for which the association may become liable**, with regard to a member insurer that was first placed under an order of rehabilitation or under an order of liquidation if no order of rehabilitation was entered prior to August 28, 2013,** shall in no event exceed the lesser of:

(1) The contractual obligations for which the insurer is liable or would have been liable if it were not an impaired or insolvent insurer; or

(2) With respect to any one life, regardless of the number of policies or contracts:

(a) Three hundred thousand dollars in life insurance death benefits, but not more than one hundred thousand dollars in net cash surrender and net cash withdrawal values for life insurance;

(b) One hundred thousand dollars in health insurance benefits, including any net cash surrender and net cash withdrawal values;

(c) One hundred thousand dollars in the present value of annuity benefits, including net cash surrender and net cash withdrawal values. Provided, however, that in no event shall the association be liable to expend more than three hundred thousand dollars in the aggregate with respect to any one life under paragraphs (a), (b), and (c) of this subdivision.

5. **Except as otherwise provided in subdivision (2) of this subsection, the benefits for which the association may become liable with regard to a member insurer that was first placed under an order of rehabilitation or under an order of liquidation if no order of rehabilitation was entered on or after August 28, 2013, shall in no event exceed the lesser of:**

(1) The contractual obligations for which the insurer is liable or would have been liable if it were not an impaired or insolvent insurer; or

(2) (a) With respect to any one life, regardless of the number of policies or contracts:

a. Three hundred thousand dollars in life insurance death benefits, but not more than one hundred thousand dollars in net cash surrender and net cash withdrawal values for life insurance;

b. In health insurance benefits:

(i) One hundred thousand dollars of coverages other than disability insurance or basic hospital, medical, and surgical insurance or major medical insurance, or long-term care insurance, including any net cash surrender and net cash withdrawal values;

(ii) Three hundred thousand dollars for disability insurance and three hundred thousand dollars for long-term care insurance;

(iii) Five hundred thousand dollars for basic hospital, medical, and surgical insurance or major medical insurance;

c. Two hundred fifty thousand dollars in the present value of annuity benefits, including net cash surrender and net cash withdrawal values; or

(b) With respect to each payee of a structured settlement annuity, or beneficiary or beneficiaries of the payee if deceased, two hundred fifty thousand dollars in present value annuity benefits, in the aggregate, including net cash surrender and net cash withdrawal values, if any;

(c) Except that, in no event shall the association be obligated to cover more than:

a. An aggregate of three hundred thousand dollars in benefits with respect to any one life under paragraphs (a) and (b) of this subdivision, except with respect to benefits for basic hospital, medical, and surgical insurance and major medical insurance under item (iii) of subparagraph b. of paragraph (a) of this subdivision, in which case the aggregate liability of the association shall not exceed five hundred thousand dollars with respect to any one individual; or

b. With respect to one owner of multiple nongroup policies of life insurance, whether the policy owner is an individual, firm, corporation, or other person, and whether the person insured are officers, managers, employees, or other persons, more than five million dollars in benefits, regardless of the number of policies and contracts held by the owner.

6. The limitations set forth in **[**subsection 4**]** **subsections 4 and 5** of this section are limitations on the benefits for which the association is obligated before taking into account either its subrogation and assignment rights or the extent to which such benefits could be provided out of the assets of the impaired or insolvent insurer attributable to covered policies. The costs of the association's obligations under sections 376.715 to 376.758 may be met by the use of assets attributable to covered policies or reimbursed to the association under its subrogation and assignment rights.

EXPLANATION — Matter enclosed in bold-faced brackets [thus] in this bill is not enacted and is intended to be omitted in the law.

Modifies provision relating to administrative child support orders

AN ACT to repeal section 454.475, RSMo, and to enact in lieu thereof one new section relating to administrative child support decisions.

SECTION
A. Enacting clause.
454.475. Administrative hearing, procedure, effect on orders of social services — support, how determined — failure of parent to appear, result — judicial review — errors and vacation of orders.

Be it enacted by the General Assembly of the State of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Section 454.475, RSMo, is repealed and one new section enacted in lieu thereof, to be known as section 454.475, to read as follows:

454.475. ADMINISTRATIVE HEARING, PROCEDURE, EFFECT ON ORDERS OF SOCIAL SERVICES — SUPPORT, HOW DETERMINED — FAILURE OF PARENT TO APPEAR, RESULT — JUDICIAL REVIEW — ERRORS AND VACATION OF ORDERS. — 1. Hearings provided for in this section shall be conducted pursuant to chapter 536 by administrative hearing officers designated by the Missouri department of social services. The hearing officer shall provide the parents, the person having custody of the child, or other appropriate agencies or their attorneys with notice of any proceeding in which support obligations may be established or modified. The department shall not be stayed from enforcing and collecting upon the administrative order during the hearing process and during any appeal to the courts of this state, unless specifically enjoined by court order.

2. If no factual issue has been raised by the application for hearing, or the issues raised have been previously litigated or do not constitute a defense to the action, the director may enter an order without an evidentiary hearing, which order shall be a final decision entitled to judicial review as provided in sections 536.100 to 536.140.

3. After full and fair hearing, the hearing officer shall make specific findings regarding the liability and responsibility, if any, of the alleged responsible parent for the support of the dependent child, and for repayment of accrued state debt or arrearages, and the costs of

collection, and shall enter an order consistent therewith. In making the determination of the amount the parent shall contribute toward the future support of a dependent child, the hearing officer shall consider the factors set forth in section 452.340.

4. If the person who requests the hearing fails to appear at the time and place set for the hearing, upon a showing of proper notice to that **[**parent**]** **person**, the hearing officer shall enter findings and order in accordance with the provisions of the notice **[**and finding of support responsibility**]** **or motion** unless the hearing officer determines that no good cause therefor exists.

5. In contested cases, the findings and order of the hearing officer shall be the decision of the director. Any parent or person having custody of the child adversely affected by such decision may obtain judicial review pursuant to sections 536.100 to 536.140 by filing a petition for review in the circuit court of proper venue within thirty days of mailing of the decision. Copies of the decision or order of the hearing officer shall be mailed to any parent, person having custody of the child and the division within fourteen days of issuance.

6. If a hearing has been requested, and upon request of a parent, a person having custody of the child, the division or a IV-D agency, the director shall enter a temporary order requiring the provision of child support pending the final decision or order pursuant to this section if there is clear and convincing evidence establishing a presumption of paternity pursuant to section 210.822. In determining the amount of child support, the director shall consider the factors set forth in section 452.340. The temporary order, effective upon filing pursuant to section 454.490, is not subject to a hearing pursuant to this section. The temporary order may be stayed by a court of competent jurisdiction only after a hearing and a finding by the court that the order fails to comply with rule 88.01.

7. (1) Any administrative decision or order issued under this section containing clerical mistakes arising from oversight or omission, except proposed administrative modifications of judicial orders, may be corrected by an agency administrative hearing officer at any time upon their own initiative or written motion filed by the division or any party to the action provided the written motion is mailed to all parties. Any objection or response to the written motion shall be made in writing and filed with the hearing officer within fifteen days from the mailing date of the motion. Proposed administrative modifications of judicial orders may be corrected by an agency administrative hearing officer prior to the filing of the proposed administrative modification of a judicial order with the court that entered the underlying judicial order as required in section 454.496, or upon express order of the court that entered the underlying judicial order. No correction shall be made during the court's review of the administrative decision, order, or proposed order as authorized under sections 536.100 to 536.140, except in response to an express order from the reviewing court.

(2) Any administrative decision or order or proposed administrative modification of judicial order issued under this section containing errors arising from mistake, surprise, fraud, misrepresentation, excusable neglect or inadvertence, may be corrected prior to being filed with the court by an agency administrative hearing officer upon their own initiative or by written motion filed by the division or any party to the action provided the written motion is mailed to all parties and filed within sixty days of the administrative decision, order, or proposed decision and order. Any objection or response to the written motion shall be made in writing and filed with the hearing officer within fifteen days from the mailing date of the motion. No decision, order, or proposed administrative modification of judicial order may be corrected after ninety days from the mailing of the administrative decision, order, or proposed order or during the court's review of the administrative decision, order, or proposed order as authorized under sections 536.100 to 536.140, except in response to an express order from the reviewing court.

(3) Any administrative decision or order or proposed administrative modification of judicial order, issued under this section may be vacated by an agency administrative hearing officer upon their own initiative or by written motion filed by the division or any

party to the action provided the written motion is mailed to all parties, if the administrative hearing officer determines that the decision or order was issued without subject matter jurisdiction, without personal jurisdiction, or without affording the parties due process. Any objection or response to the written motion shall be made in writing and filed with the hearing officer within fifteen days from the mailing date of the motion. A proposed administrative modification of a judicial order may only be vacated prior to being filed with the court. No decision, order, or proposed administrative modification of a judicial order may be vacated during the court's review of the administrative decision, order, or proposed order as authorized under sections 536.100 to 536.140, except in response to an express order from the reviewing court.

50.535. COUNTY SHERIFF'S REVOLVING FUND ESTABLISHED — FEES DEPOSITED INTO, USE OF MONEYS — NO PRIOR APPROVAL FOR EXPENDITURES REQUIRED — AUTHORIZED PAYMENT OF CERTAIN EXPENSES. — 1. Notwithstanding the provisions of sections 50.525 to

50.745, the fee collected pursuant to subsections [10 and 11] **11 and 12** of section 571.101 shall be deposited by the county treasurer into a separate interest-bearing fund to be known as the "County Sheriff's Revolving Fund" to be expended at the direction of the county or city sheriff or his or her designee as provided in this section.

2. No prior approval of the expenditures from this fund shall be required by the governing body of the county or city not within a county, nor shall any prior audit or encumbrance of the fund be required before any expenditure is made by the sheriff from this fund. This fund shall only be used by law enforcement agencies for the purchase of equipment, to provide training, and to make necessary expenditures to process applications for concealed carry [endorsements] **permits** or renewals, including but not limited to the purchase of equipment, information and data exchange, training, fingerprinting and background checks, employment of additional personnel, and any expenditure necessitated by an action under section 571.114 or 571.117. This fund may be audited by the state auditor's office or the appropriate auditing agency.

3. Notwithstanding any provision of this section to the contrary, the sheriff of every county, regardless of classification, is authorized to pay, from the sheriff's revolving fund, all reasonable and necessary costs and expenses for activities or services occasioned by compliance with sections 571.101 to 571.121. Such was the intent of the general assembly in original enactment of this section and sections 571.101 to 571.121, and it is made express by this section in light of the decision in Brooks v. State of Missouri, (Mo. Sup. Ct. February 26, 2004). The application and renewal fees to be charged pursuant to section 571.101 shall be based on the sheriff's good faith estimate, made during regular budgeting cycles, of the actual costs and expenses to be incurred by reason of compliance with sections 571.101 to 571.121. If the maximum fee permitted by section 571.101 is inadequate to cover the actual reasonable and necessary expenses in a given year, and there are not sufficient accumulated unexpended funds in the revolving fund, a sheriff may present specific and verified evidence of the unreimbursed expenses to the office of administration, which upon certification by the attorney general shall reimburse such sheriff for those expenses from an appropriation made for that purpose.

4. If pursuant to subsection [12] **13** of section 571.101, the sheriff of a county of the first classification designates one or more chiefs of police of any town, city, or municipality within such county to accept and process applications for [certificates of qualification to obtain a concealed carry endorsement] **concealed carry permits**, then that sheriff shall reimburse such chiefs of police, out of the moneys deposited into this fund, for any reasonable expenses related to accepting and processing such applications.

6. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2003, shall be invalid and void.

[6.**]** **7.** Any county law enforcement entity or established task force with a memorandum of understanding and protocol may apply for grants from the MoSMART fund on an application to be developed by the department of public safety with the approval of MoSMART. All applications shall be evaluated by MoSMART and approved or denied based upon the level of funding designated for methamphetamine enforcement before 1997 and upon current need and circumstances. No applicant shall receive a MoSMART grant in excess of one hundred thousand dollars per year. The department of public safety shall monitor all MoSMART grants.

[7.**]** **8.** MoSMART's anti-methamphetamine funding priorities are as follows:

(1) Sheriffs who are participating in coordinated multijurisdictional task forces and have their task forces apply for funding;

(2) Sheriffs whose county has been designated HIDTA counties, yet have received no HIDTA or narcotics assistance program funding; and

(3) Sheriffs without HIDTA designations or task forces, whose application justifies the need for MoSMART funds to eliminate methamphetamine labs.

[8.**]** **9.** MoSMART shall administer the deputy sheriff salary supplementation fund as provided under section 57.278.

10. Beginning August 28, 2013, the department of revenue shall begin transferring any records related to the issuance of a concealed carry permit to MoSMART for dissemination to the sheriff of the county or city not within a county in which the applicant or permit holder resides.

[571.102. CONTINGENT EFFECTIVE DATE. — The repeal and reenactment of sections 302.181 and 571.101 shall become effective on the date the director of the department of revenue begins to issue nondriver licenses with conceal carry endorsements that expire three years from the dates the certificates of qualification were issued, or on January 1, 2013, whichever occurs first. If the director of revenue begins issuing nondriver licenses with conceal carry endorsements that expire three years from the dates the certificates of qualification were issued under the authority granted under sections 302.181 and 571.101 prior to January 1, 2013, the director of the department of revenue shall notify the revisor of statutes of such fact.**]**

SECTION B. EMERGENCY CLAUSE. — Because immediate action is necessary to permit the MoSMART board to have proper funding necessary to implement the provisions of this act, the repeal and reenactment of section 650.350 of section A of this act is deemed necessary for the immediate preservation of the public health, welfare, peace, and safety, and is hereby declared to be an emergency act within the meaning of the constitution, and the repeal and reenactment of section 650.350 of section A of this act shall be in full force and effect upon its passage and approval.

No action shall be taken by the board in addition to a penalty of twenty-five dollars imposed by this section against any such licensee whose license has not expired for a period of more than two months, and who has had no action in the preceding five years taken against them by the board, and who has met all other licensure requirements by June thirtieth of the year of renewal; provided, however, that nothing in this section shall prevent the board from taking any other disciplinary action against a licensee if there shall exist a cause for discipline pursuant to section 344.050. The ordinance or order shall reflect the effective date thereof.

2. Any local sales tax so adopted shall become effective on the first day of the second calendar quarter after the director of revenue receives notice of adoption of the local sales tax, except as provided in subsection 18 of this section**, and shall be imposed on all transactions on which the Missouri state sales tax is imposed**.

3. Every retailer within the jurisdiction of one or more taxing entities which has imposed one or more local sales taxes under the local sales tax law shall add all taxes so imposed along with the tax imposed by the sales tax law of the state of Missouri to the sale price and, when added, the combined tax shall constitute a part of the price, and shall be a debt of the purchaser to the retailer until paid, and shall be recoverable at law in the same manner as the purchase price. The ballot question presented to the local voters shall contain substantially the following language:

Shall the ..... (local jurisdiction's name) discontinue applying and collecting the local sales tax on the titling of motor vehicles, trailers, boats, and outboard motors that were purchased from a source other than a licensed Missouri dealer? Approval of this measure will result in a reduction of local revenue to provide for vital services for ..... (local jurisdiction's name) and it will place Missouri dealers of motor vehicles, outboard motors, boats, and trailers at a competitive disadvantage to non-Missouri dealers of motor vehicles, outboard motors, boats, and trailers.

[ ] YES [ ] NO

If you are in favor of the question, place an "X" in the box opposite "YES". If you are opposed to the question, place an "X" in the box opposite "NO".

If a majority of the votes cast by the registered voters voting thereon are in favor of the proposal to repeal application of the local sales tax to such titling, then the local sales tax shall no longer be applied to the titling of motor vehicles, trailers, boats, and outboard motors purchased from a source other than a licensed Missouri dealer. If a majority of the votes cast by the registered voters voting thereon are opposed to the proposal to repeal application of the local sales tax to such titling, such application shall remain in effect.

(5) In addition to the requirement that the ballot question set forth in subdivision (2) of this subsection be placed before the voters on or after the general election in November 2014, and on or before the general election in November 2016, whenever the governing body of any local taxing jurisdiction imposing a local sales tax on the sale of motor vehicles, trailers, boats, and outboard motors receives a petition, signed by fifteen percent of the registered voters of such jurisdiction voting in the last gubernatorial election, calling for a proposal to be placed on the ballot at any election to repeal application of the local sales tax to the titling of motor vehicles, trailers, boats, and outboard motors purchased from a source other than a licensed Missouri dealer, the governing body shall submit to the voters of such jurisdiction a proposal to repeal application of the local sales tax to such titling. If a majority of the votes cast by the registered voters voting thereon are in favor of the proposal to repeal application of the local sales tax to such titling, then the local sales tax shall no longer be applied to the titling of motor vehicles, trailers, boats, and outboard
